Meeting of Committee of Counsel at CTR on Carbon Monoxide Dec 10, 1973.

Attendance:

TI Kennedy, Klofut, + Erlenghaus.
HS+S Hardy, Stenn, Hall
B+W Le Baum Dupont, Pepples.
L+M Greer.
PM Arendsfeldt + Holtzman.
CB Lamb.
RJR Roemer
LL Stevens.
ABI Nitsho.

Carbon Monoxide:

FTC - Grant to FTC for 1 time test in 6 mos but probably a year. NCI Grant ① Outside expert, ② paper-white ③ hearing Questions - methodology with regard to testing. We have a better procedure. It will be hard to undo a methodology

Holtzman - no generally accepted procedure for testing. Don't parallel

LG2000562

these techniques. What will delay them longer and get them on the right track. Just get them to do it right. No public hearings should be held. Scientific Directors assume there will be hearings.

Shinn - Position paper. Carbon monoxide - how much does CO tie up in red blood that won't carry oxygen. Hicky paper - can it be meaningly measured. Carbon Monoxide in mainstream ~~stre~~ smoke. Dr. Avrato - vs. Dr. Airano
Pontiac Case - decision due on Dec 19, 1975

Consider side stream smoke + carbon monoxide.

Ask Dr. Avrato due paper after the first of the year. Develop data. No lethal level of CM. Take literature in low carbon Monoxide field.

LG2000563

Don't educate FTC.

The prime problem - 35 parts per million.
We got peak of CO. State Bd of Health
8 or 9.

We need a white paper.
1972 paper at congressional hearings should
be up dated.

Mention of Stanford V. Machine.
* Avrato work to go thru Central Files.
+ not CTR, No objection.

Stanford Project - Dan Wood.
Portable Measuring Machine - CM +
particulate matter. Test protocol
$54,000. over 6 mos. PM + RTR have
tested machine. CO, N, particulate
matter, temperature + humidity. a
better mousetrap or machine
