Committee of Counsel Meeting Oct 4, 1973
at 8:45 AM.

Gene Jackson Dr. – Genetic Study. – Roemer
Gene Jackson Dr. Geneticist Henry Ford Hospital in Detroit – proposal $200,000.00 a year over 3 yr period. Huber checked it out at Harvard & didn't think much of it. It was turned down. Jackson then wrote to Marvin about a project of less scope. Roemer believes there is some merit – Genetic study. Huber didn't think much of his work as an investigator. So few engage in cigarette smoking & health. Financial & scientific issues. He wants a less ambitious project. Huber & Summers will look into it again.

UCLA – Report by Shinn.
The U.C.L.A project. Also visit with Cline & visit the scientist. Good team. A crack research group. Some company may be interested. Just 40 years old. 35% only is involved in smoking & health. We countered with 25%. Govt is providing a vacuum. He would make a great witness. says Shinn. Curriculum Vitae on Cline – Worked with Dr. Wintrauk at Utah. On editorial board of a number of medical journals. Also Dr. Morton in surgical Oncology

surgeon interested in the research aspects of cancer (Host defense, early detection, immunology + therapy - purpose to eliminate cancer.). Total budget $2.6 million over 5 years. Bryant says set up one trip - set date for enough in advance. Chief Executive, Dan C. + research director. If not done soon he will look elsewhere for the money. Say within 60 to 90 days. B+W will require reduction of CTR. Lorrilard feels the same on money. Proposal of Cline should be put to CTR.

Spanish Language on Warning Notice.

Several versions submitted. We are making a minor accomodation to FTC. Hatched of FTC wants to drop a bomb. Rosner has fiddled.

International Matter

Horaces to points + the status quo stands. Procedure - in addition to the status quo. We are here because of the Russian visit. Ruppert Rothman in a competitive position. Consider competitive nature. No restrictions on health abroad. Phone procedure. We want to see request from abroad + then
