levels. ① Tar + N reduction is best for less hazardous cigarette - modification.
② Discourage on [illegible] [illegible] continued [illegible] of T+N & consistency - straggles 10 to 15% above the norm.
(Rhodes level at 21 milligrams) Pleasler backed Rhodes.
Lafietti - recommend surveyance committee to see if T+M reduction continues. Product improvements. Consideration of Watchdog Committee. Rhodes wanted American Cancer Society to be it.
③ TWC - multi disciplinary, T+N reduction

[illegible] & high risk - lung & heart.

TWG recommendation Ioris document. $3,000,000 mil to 600,000 for clinics - research director (or) concept be accepted. Saffiotti objected to all little NIH.

Rhodes - regardless of industry, economy, etc. ag smoking must be stopped.

Shubic position over Rhodes will prevail.

Need for additional research.
