alternative expected results?

1. Smokers in gen
2.

Is there a proposed time table max — min?

2 – 2½ year nonsense idea! 4 – 6 year

Goldsmith – interested + interested in doing one thing right.

Zahn – interest – but can things really be pinpointed

Isardner – Ashton – prob weak sister

animal work? we; nicotine.

Hetko – if it is to be done – should be under CTR –

ditto Judge + Goldsmith

Animal work – alcohol? – yes Mrs Lavin

– Nicotine? or smoking –

Feeder money - Core grant - success
Should not second guess SAB -
Will undercut - prestige -
of SAB.

Intelligence - Scientific
Special Projects
