New York - C.T.R.
Dec. 11, 1975

1. Harvard Site Visit — March 4th —

2. Advisory group getting projects on the "non-smoker" came up with what is considered an urgent proj. to measure CO + nicotine + particulate in air.
- Legal problem — Council to take over —
- Stanford Res Inst to develop machine to take sample
* Draft of proposal. —
Don Hall — portable-type machine — to take very accurate measurements of CO, Nic, TPM, temp + humidity —
$54,000 for development of the "machine"
6 months including test protocol.

Hinds + First method?

Pontiac Case — final argument 15 Dec, decision 19th Dec
New Orleans Case - Class action — Astrodome —
(has just been filed) —

3. Handling of expenses — special acct "4" —
Investigatory phase of Res Lais. Com work
— "out-of-pocket" —

LIG- 65124

LG 2023835

4. "Response Analysis" — some suggestions & objections have been submitted by one company's Market Res. Gr. "Roper Poll" — only directed to tobacco —

This study is aimed at determining the magnitude of "other" everyday annoyances and their significance vs annoyances of tobacco smoke.

Moved & passed that the Response Analysis project be pursued — and modified to everyone's satisfaction — revised thru Act Spec. "4" is from central file & administered by Jacob.

Physiological approach? — later; — "physio-social" Dr. Domingo Aviado papers. "Arano"

5. Behavioral research seminar (Dr. Gardener) —
Dr. Bob Hockett —

40 projects by CTR which have some bearing on the subject
12 " still active —

differences between smokers & non-smokers.
mainly social — anxious ones were smokers

— Colorado - Swedish study —

LIG- 65125

LG 2023836

Ad Comm.

Goldsmith - We should look at the mental health aspect, not only the pharmacological aspect.
Consider ~~the~~ overall "benefits" aspect.
No one in the industry has approached the Nat. Inst. of Mental Health to discuss the situation —
— Should be developing an ~~of~~ aggressive approach instead of a defensive attitude

Dr. Gardner to make firm recommendations in March —

Barbara Brown "New Mind - New Body" (new Book)

Kleoppfer - TI will provide input to the commercial press Newsletter —

Document of the total Industry's research effort - - a brochure? — an exposition as to how an industry is responding -

Next meeting - PM Mar 25th. - in Washington.
La Fonte - Plaza

Liaison Committee

July 28, 1976

1. a. FTC + CO measurements —

Ref. letter inviting industry people to visit FTC lab. to "look at" their CO set-up. & methodology.

Industry should follow the same procedure as was followed in the development of the methodology for T+N.

Must be decided by Committee of Council.

b. AHH (Australia) → [illegible] — press release — 1 to 1 hgr method to det'n cancer?

/ per Dr. Gardner — some good work —

/ Lymphocytes — (throw-away tissues from Humans)

/ AHH complex of enzymes. —

/ cyt. smoke promotes AHH activity —

No need for action now.

c. Martell & Radford (tobacco radioactivity)

d. Cancer of the Pancreas — Incidence is increasing — Should we do anything? — Dr. Gardner will review situation and advise the committee.

LG 2023838

Environmental tobacco smoke project - Stanford Research:

a. — portable instrumentation to detect CO, Nic, temp, humidity, particulate matter.
Field testing to begin in 1 month.
~~[illegible]~~ 'Haribe' is the name of the instrument
27" long, 5" wide, 6" high —
eliminates effect of contaminants such as
CO_2, H_2O, etc.

b. "Response analysis" project — questionaire has been prepared & will be submitted to the Committee.

c. Determination whether there is a tobacco smoke allergy. Dr. Salvagio — funded in late May 1976

3. Behavioral Research —
Dr. Hockett's report —
Dr. Gardner —
design for a planning committee
Conference — working type — all grantees should be participants.
bug metabolism
nicotine effects
inhibitors & competitors of nic. effects.

LG 2023839

anything which produces acid urine increases desire for nicotine. (NH4Cl + Ascorbic Acid).

Late 1977 .. early 1978 — schedule conference.

per CFH — Could be bad from standpoint of the pending FTC subpoena

4. Harvard Project — all companies affirmative — except for N.I.H. "core" money — $500M —

P. Lorillard wants the NIH proposal to be made.

Amer Tob doesn't.

Long discussion —

We should emphasize that the NIH funding will not, in any way, interfere with our project, and let the renewal and extension contract so state.

We are to receive a copy of Huber's proposal to NIH for review

5. —

6.

7. Bill Kloepfer's recommendation —

Exchange info with others whenever anyone attends scientific (Medical, etc) meetings

Advise Kloepfer, Zahn + El Jacobs whenever someone is going to attend such meetings

Motion — that Klopper, Zahn + El Jacob receive reports of attendees to Medical and/or scientific meetings — should also advise these people of intent to attend.

8. Dr. Shingleton's proposal (Duke Univ.) —
(anatomy)

9. Next Meeting
