Preface to the 15th Edition - Revised

Introduction to the Harmonized Tariff Schedule

The Harmonized Tariff Schedule of the United States, Annotated for Statistical Reporting Purposes (2003) ("HTS"), is published by the U. S. International Trade Commission pursuant to section 1207 of the Omnibus Trade and Competitiveness Act of 1988 (Public Law 100-418; 19 U.S.C. 3007).[1] The publication contains the legal text of the Harmonized Tariff Schedule, as amended and modified, together with statistical annotations established pursuant to section 484(f) of the Tariff Act of 1930, as amended (19 U.S.C. 1484(f)). Legal instruments and administrative actions affecting the 2003 edition of the HTS are set forth below in the section entitled "Changes in the Current Edition." Information about statistical annotations is in the final section of the preface.

The legal text of the HTS includes all provisions enacted by Congress or proclaimed by the President. These legal provisions are the General Rules of Interpretation (GRIs); Additional U.S. Rules of Interpretation; General Notes; Chapters 1 through 99 (organized into Sections I through XXII), Section and Chapter notes, headings and subheadings through the 8-digit level (with their numbers, article descriptions, tariff rates and special tariff programs); Chemical Appendix; Pharmaceutical Appendix; and Intermediate Chemicals for Dyes Appendix. The classification of goods and interpretation of the HTS are the responsibility of the U.S. Customs Service.

The GRIs, 4- and 6-digit nomenclature categories, and associated notes (not including Additional U.S. Notes) in Chapters 1 through 97 reflect the international nomenclature structure of the Harmonized Commodity Description and Coding System, pursuant to a convention administered by the World Customs Organization (WCO). Pursuant to this convention, which became effective for the United States as of January 1, 1989, the international nomenclature-–and thus the provisions reflected in the HTS--is modified when the WCO makes changes in the text or in the classification of goods at the 4- or 6-digit level. The international nomenclature categories may be subdivided at the 8-digit U.S. rate line level to provide particular rates of duty or to make classification distinctions of U.S. interest. All rates of duty in the HTS are established by U.S. legal action. Pursuant to the 1988 trade act, changes in the international nomenclature structure are periodically reflected in the HTS by proclamation, the most recent of which became effective on January 10, 2002 (Pres. Proc. 7515 of Dec. 18, 2001), following a USITC investigation under section 1205 of that act. For information on all investigations under section 1205, consult the USITC publications list, available at the web site (www.usitc.gov).

---

[1] Section 1207(a) of the Act provides that "[t]he Commission shall compile and publish, at appropriate intervals, and keep up to date the Harmonized Tariff Schedule and related information in the form of printed copy....". Section 1207(b) of the Act provides that the published copy of the HTS "shall contain--(1) the then current Harmonized Tariff Schedule; (2) statistical annotations and related statistical information formulated under section 484(f) of the Tariff Act of 1930 (19 U.S.C. 1484(f)); and (3) such other matters as the Commission considers to be necessary or appropriate to carry out the purposes enumerated in the Preamble to the Harmonized System convention." Parties attempting to classify goods or to ascertain rates of duty should be careful to consult the HTS, rather than the on-line trade dataweb or interactive tariff database presented at the USITC's Internet site. The latter do not contain legal rules, notes or complete product descriptions, and it may be difficult to determine if provisions of chapter 98 or 99 apply to particular shipments.

The HTS also contains nonlegal statistical elements–namely, the annotations, notes, suffixes, units of quantity and other matters formulated under section 484(f) of the Tariff Act of 1930. Last, such elements as the Table of Contents, footnotes, Schedule C, Schedule D, alphabetical index, and Change Record are inserted for ease of reference only. The presence or absence of a footnote and the language contained in footnotes have no affect on the legal text or its interpretation, and users are encouraged to consult the Preface, the Change Record and Chapters 98 and 99 to locate any provisions that may apply to specific goods. Procedures for requesting changes in statistical provisions of the HTS are set forth below.

Electronic Revisions to the Printed HTS

The on-line electronic revisions to the printed HTS and supplements are posted to the Commission's Internet site www.usitc.gov periodically as legal or statistical actions are made effective, along with links to published documents that may make changes after the last posted revision. The entire schedule is posted for each revision, even if no changes were made in some chapters. The Change Record for such a revision should be read in conjunction with the Preface's list of legal or statistical bases for the changes in the revision. While each Change Record in a printed annual edition or supplement contains all changes since the last printed document, the Change Record for each revision relates only to that revision. Printed editions of the HTS since its enactment have included the following publications: first (1989)-–annual publication, 4 supplements; second (1990)–-annual, 2 supps.; third (1991)--annual, 1 supp.; fourth (1992)–-annual, 1 supp.; fifth (1993)-–annual, 1 supp.; sixth (1994)-–annual, 2 supps.; seventh (1995)-–annual, 1 supp.; eighth (1996)–-annual, 1 supp.; ninth (1997)–-annual, 1 supp.; tenth (1998)-–annual, 1 supp.; eleventh (1999)–-annual, 1 supp.; twelfth (2000)–-annual, 1 one supp.; thirteenth (2001)–-annual, 1 one supp.; and fourteenth (2002)–-annual only (no supp.).

Changes in the Current Revised Edition

The principal changes in this revision of the 2003 basic edition reflect the following instruments and actions:

(1). Presidential Proclamation 7637 of January 10, 2003, To Modify Duty-Free Treatment Under the Generalized Systems of Preferences, effective January 29, 2003.

(2). Presidential Proclamation 7641 of January 17, 2003, To Modify Rules of Origin Under the North American Free Trade Agreement, effective January 1, 2003.

(3). Office of the United States Trade Representative Notice of December 31, 2002; Technical Corrections to the Harmonized Tariff Schedule of the United States, effective January 1, 1995.

Statistical Reporting Under the HTS[2]

[2]Sec. 484(f) reads as follows:
"(f) Statistical Enumeration.--The Secretary of the Treasury, the Secretary of Commerce, and the United States International Trade Commission are authorized and directed to establish from time to time for statistical purposes an enumeration of articles in such detail as in their judgment may be necessary, comprehending all merchandise imported into the United States and exported from the United States, and shall seek, in conjunction with statistical programs for domestic production and programs

The statistical annotations contained in the HTS prescribe the statistical information to be supplied on customs entry and withdrawal forms or electronic filings with respect to articles imported into the customs territory of the United States. Thus, this publication is designed to enable importers, customs brokers, Customs officers and other interested persons to determine both (1) the classification of and rates of duty applicable to imported articles, and (2) the requirements for reporting statistical data with respect to such imports. In addition, except as specified in the Notice to Exporters, this publication may also be used in place of the reporting codes of Schedule B for reporting exports on the Shipper's Export Declaration or under the program for electronic reporting of exports. The regulations and procedures of the U.S. Customs Service and the Bureau of Census should also be consulted to ensure correct reporting and compliance with all requirements of those agencies.

Requests from interested parties or their representatives for changes in any of the requirements for statistical reporting must be directed to the Committee for Statistical Annotation of Tariff Schedules. Such requests should be submitted no later than April 1 for changes to be effective July 1, and no later than August 1 for changes to be effective January 1. Parties should specify whether the proposed change relates only to exports for purposes of Schedule B. These requests should be submitted to:

The Chairman
Committee for Statistical Annotation of Tariff Schedules
United States International Trade Commission
500 E Street, SW.
Suite 404
Washington, D.C. 20436

Such requests should indicate precisely the nature of each desired change, the proposed language sought to be inserted or precise language to be modified or deleted (including units of quantity to be affected), and detailed reasons in support of the requests. Confidential business information should not be submitted to the Committee. For requests relating to the HTS, the requestor should provide the names of importers and foreign manufacturers (when known) and indicate the countries from which the commodities are being imported. In general, a statistical category under which 3 or fewer importers or exporters would likely report shipments will not be approved in the form requested, in order to avoid the disclosure of confidential business information.

Questions regarding the drafting or treatment of such requests should be addressed to the Committee, either by mail to the Chairman or by phone to (202) 205-2592. Private sector requests for the creation, modification or deletion of statistical categories can be submitted by mail or can be filed electronically using EDIS (the Electronic Document Inspection System), as explained at the USITC Internet site. Requests from filers outside the U.S. Government will be available for inspection on the USITC Internet site. Comments on such requests should be filed by mail to the Chairman not later than 2 weeks after the pertinent Committee deadline (not later than April 15 or August 15). Copies of documents submitted to the Committee and of the Committee's minutes are available from the Office of the Secretary, USITC, and should be requested under the terms and procedures of the Freedom of Information Act.

for achieving international harmonization of trade statistics, to establish the comparability thereof with such enumeration of articles. All import entries and export declarations shall include or have attached thereto an accurate statement specifying, in terms of such detailed enumeration, the kinds and quantities of all merchandise imported and exported and the value of the total quantity of each kind of article."

GENERAL RULES OF INTERPRETATION

Classification of goods in the tariff schedule shall be governed by the following principles:

1. The table of contents, alphabetical index, and titles of sections, chapters and sub-chapters are provided for ease of reference only; for legal purposes, classification shall be determined according to the terms of the headings and any relative section or chapter notes and, provided such headings or notes do not otherwise require, according to the following provisions:

2. (a) Any reference in a heading to an article shall be taken to include a reference to that article incomplete or unfinished, provided that, as entered, the incomplete or unfinished article has the essential character of the complete or finished article. It shall also include a reference to that article complete or finished (or falling to be classified as complete or finished by virtue of this rule), entered unassembled or disassembled.

   (b) Any reference in a heading to a material or substance shall be taken to include a reference to mixtures or combinations of that material or substance with other materials or substances. Any reference to goods of a given material or substance shall be taken to include a reference to goods consisting wholly or partly of such material or substance. The classification of goods consisting of more than one material or substance shall be according to the principles of rule 3.

3. When, by application of rule 2(b) or for any other reason, goods are, *prima facie*, classifiable under two or more headings, classification shall be effected as follows:

   (a) The heading which provides the most specific description shall be preferred to headings providing a more general description. However, when two or more headings each refer to part only of the materials or substances contained in mixed or composite goods or to part only of the items in a set put up for retail sale, those headings are to be regarded as equally specific in relation to those goods, even if one of them gives a more complete or precise description of the goods.

   (b) Mixtures, composite goods consisting of different materials or made up of different components, and goods put up in sets for retail sale, which cannot be classified by reference to 3(a), shall be classified as if they consisted of the material or component which gives them their essential character, insofar as this criterion is applicable.

   (c) When goods cannot be classified by reference to 3(a) or 3(b), they shall be classified under the heading which occurs last in numerical order among those which equally merit consideration.

4. Goods which cannot be classified in accordance with the above rules shall be classified under the heading appropriate to the goods to which they are most akin.

5. In addition to the foregoing provisions, the following rules shall apply in respect of the goods referred to therein:

   (a) Camera cases, musical instrument cases, gun cases, drawing instrument cases, necklace cases and similar containers, specially shaped or fitted to contain a specific article or set of articles, suitable for long-term use and entered with the articles for which they are intended, shall be classified with such articles when of a kind normally sold therewith. This rule does not, however, apply to containers which give the whole its essential character;

   (b) Subject to the provisions of rule 5(a) above, packing materials and packing containers entered with the goods therein shall be classified with the goods if they are of a kind normally used for packing such goods. However, this provision is not binding when such packing materials or packing containers are clearly suitable for repetitive use.

6. For legal purposes, the classification of goods in the subheadings of a heading shall be determined according to the terms of those subheadings and any related subheading notes and, *mutatis mutandis*, to the above rules, on the understanding that only subheadings at the same level are comparable. For the purposes of this rule, the relative section, chapter and subchapter notes also apply, unless the context otherwise requires.

Add.U.S.Rs.Int.

ADDITIONAL U.S. RULES OF INTERPRETATION

1. In the absence of special language or context which otherwise requires--

   (a) a tariff classification controlled by use (other than actual use) is to be determined in accordance with the use in the United States at, or immediately prior to, the date of importation, of goods of that class or kind to which the imported goods belong, and the controlling use is the principal use;

   (b) a tariff classification controlled by the actual use to which the imported goods are put in the United States is satisfied only if such use is intended at the time of importation, the goods are so used and proof thereof is furnished within 3 years after the date the goods are entered;

   (c) a provision for parts of an article covers products solely or principally used as a part of such articles but a provision for "parts" or "parts and accessories" shall not prevail over a specific provision for such part or accessory; and

   (d) the principles of section XI regarding mixtures of two or more textile materials shall apply to the classification of goods in any provision in which a textile material is named.

GENERAL NOTES

1. Tariff Treatment of Imported Goods and of Vessel Equipments, Parts and Repairs. All goods provided for in this schedule and imported into the customs territory of the United States from outside thereof, and all vessel equipments, parts, materials and repairs covered by the provisions of subchapter XVIII to chapter 98 of this schedule, are subject to duty or exempt therefrom as prescribed in general notes 3 through 18, inclusive.

2. Customs Territory of the United States. The term "customs territory of the United States", as used in the tariff schedule, includes only the States, the District of Columbia and Puerto Rico.

3. Rates of Duty. The rates of duty in the "Rates of Duty" columns designated 1 ("General" and "Special") and 2 of the tariff schedule apply to goods imported into the customs territory of the United States as hereinafter provided in this note:

   (a) Rate of Duty Column 1.

      (i) Except as provided in subparagraph (iv) of this paragraph, the rates of duty in column 1 are rates which are applicable to all products other than those of countries enumerated in paragraph (b) of this note. Column 1 is divided into two subcolumns, "General" and "Special", which are applicable as provided below.

      (ii) The "General" subcolumn sets forth the general or normal trade relations (NTR) rates which are applicable to products of those countries described in subparagraph (i) above which are not entitled to special tariff treatment as set forth below.

      (iii) The "Special" subcolumn reflects rates of duty under one or more special tariff treatment programs described in paragraph (c) of this note and identified in parentheses immediately following the duty rate specified in such subcolumn. These rates apply to those products which are properly classified under a provision for which a special rate is indicated and for which all of the legal requirements for eligibility for such program or programs have been met. Where a product is eligible for special treatment under more than one program, the lowest rate of duty provided for any applicable program shall be imposed. Where no special rate of duty is provided for a provision, or where the country from which a product otherwise eligible for special treatment was imported is not designated as a beneficiary country under a program appearing with the appropriate provision, the rates of duty in the "General" subcolumn of column 1 shall apply.

      (iv) Products of Insular Possessions.

         (A) Except as provided in additional U.S. note 5 of chapter 91 and except as provided in additional U.S. note 2 of chapter 96, and except as provided in section 423 of the Tax Reform Act of 1986, and additional U.S. note 3(e) of chapter 71, goods imported from insular possessions of the United States which are outside the customs territory of the United States are subject to the rates of duty set forth in column 1 of the tariff schedule, except that all such goods the growth or product of any such possession, or manufactured or produced in any such possession from materials the growth, product or manufacture of any such possession or of the customs territory of the United States, or of both, which do not contain foreign materials to the value of more than 70 percent of their total value (or more than 50 percent of their total value with respect to goods described in section 213(b) of the Caribbean Basin Economic Recovery Act), coming to the customs territory of the United States directly from any such possession, and all goods previously imported into the customs territory of the United States with payment of all applicable duties and taxes imposed upon or by reason of importation which were shipped from the United States, without remission, refund or drawback of such duties or taxes, directly to the possession from which they are being returned by direct shipment, are exempt from duty.

         (B) In determining whether goods produced or manufactured in any such insular possession contain foreign materials to the value of more than 70 percent, no material shall be considered foreign which either--

            (1) at the time such goods are entered, or

            (2) at the time such material is imported into the insular possession,

            may be imported into the customs territory from a foreign country, and entered free of duty; except that no goods containing material to which (2) of this subparagraph applies shall be exempt from duty under subparagraph (A) unless adequate documentation is supplied to show that the material has been incorporated into such goods during the 18-month period after the date on which such material is imported into the insular possession.

         (C) Subject to the limitations imposed under sections 503(a)(2), 503(a)(3) and 503(c) of the Trade Act of 1974, goods designated as eligible under section 503 of such Act which are imported from an insular possession of the United States shall receive duty treatment no less favorable than the treatment afforded such goods imported from a beneficiary developing country under title V of such Act.

GN 3(a)(iv)(D)--3(a)(v)(C)

(D) Subject to the provisions in section 213 of the Caribbean Basin Economic Recovery Act, goods which are imported from insular possessions of the United States shall receive duty treatment no less favorable than the treatment afforded such goods when they are imported from a beneficiary country under such Act.

(E) Subject to the provisions in section 204 of the Andean Trade Preference Act, goods which are imported from insular possessions of the United States shall receive duty treatment no less favorable than the treatment afforded such goods when they are imported from a beneficiary country under such Act.

(F) No quantity of an agricultural product that is subject to a tariff-rate quota that exceeds the in-quota quantity shall be eligible for duty-free treatment under this paragraph.

(v) Products of the West Bank, the Gaza Strip or a qualifying industrial zone.

(A) Subject to the provisions of this paragraph, articles which are imported directly from the West Bank, the Gaza Strip, a qualifying industrial zone as defined in subdivision (G) of this subparagraph or Israel and are--

(1) wholly the growth, product or manufacture of the West Bank, the Gaza Strip or a qualifying industrial zone; or

(2) new or different articles of commerce that have been grown, produced or manufactured in the West Bank, the Gaza Strip or a qualifying industrial zone, and the sum of--

(I) the cost or value of the materials produced in the West Bank, the Gaza Strip, a qualifying industrial zone or Israel, plus

(II) the direct costs of processing operations (not including simple combining or packaging operations, and not including mere dilution with water or with another substance that does not materially alter the characteristics of such articles) performed in the West Bank, the Gaza Strip, a qualifying industrial zone or Israel,

is not less than 35 percent of the appraised value of such articles;

shall be eligible for duty-free entry into the customs territory of the United States. For purposes of subdivision (A)(2), materials which are used in the production of articles in the West Bank, the Gaza Strip or a qualifying industrial zone, and which are the product of the United States, may be counted in an amount up to 15 percent of the appraised value of such articles.

(B) Articles are "imported directly" for the purposes of this paragraph if--

(1) they are shipped directly from the West Bank, the Gaza Strip, a qualifying industrial zone or Israel into the United States without passing through the territory of any intermediate country; or

(2) they are shipped through the territory of an intermediate country, and the articles in the shipment do not enter into the commerce of any intermediate country and the invoices, bills of lading and other shipping documents specify the United States as the final destination; or

5. Automotive Products and Motor Vehicles Eligible for Special Tariff Treatment. Articles entered under the Automotive Products Trade Act are subject to the following provisions:

(a) Motor vehicles and original motor-vehicle equipment which are Canadian articles and which fall in provisions for which the rate of duty "Free (B)" appears in the "Special" subcolumn may be entered free of duty. As used in this note--

(i) The term "Canadian article" means an article which originates in Canada, as defined in general note 12.

(ii) The term "original motor-vehicle equipment", as used with reference to a Canadian article (as defined above), means such a Canadian article which has been obtained from a supplier in Canada under or pursuant to a written order, contract or letter of intent of a bona fide motor vehicle manufacturer in the United States, and which is a fabricated component originating in Canada, as defined in general note 12, and intended for use as original equipment in the manufacture in the United States of a motor vehicle, but the term does not include trailers or articles to be used in their manufacture.

(iii) The term "motor vehicle", as used in this note, means a motor vehicle of a kind described in headings 8702, 8703 and 8704 of chapter 87 (excluding an electric trolley bus and a three-wheeled vehicle) or an automobile truck tractor principally designed for the transport of persons or goods.

(iv) The term "bona fide motor-vehicle manufacturer" means a person who, upon application to the Secretary of Commerce, is determined by the Secretary to have produced no fewer than 15 complete motor vehicles in the United States during the previous 12 months, and to have installed capacity in the United States to produce 10 or more complete motor vehicles per 40-hour week. The Secretary of Commerce shall maintain, and publish from time to time in the *Federal Register*, a list of the names and addresses of bona fide motor-vehicle manufacturers.

(b) If any Canadian article accorded the status of original motor-vehicle equipment is not so used in the manufacture in the United States of motor vehicles, such Canadian article or its value (to be recovered from the importer or other person who diverted the article from its intended use as original motor-vehicle equipment) shall be subject to forfeiture, unless at the time of the diversion of the Canadian article the United States Customs Service is notified in writing, and, pursuant to arrangements made with the Service--

(i) the Canadian article is, under customs supervision, destroyed or exported, or

(ii) duty is paid to the United States Government in an amount equal to the duty which would have been payable at the time of entry if the Canadian article had not been entered as original motor-vehicle equipment.

6. Articles Eligible for Duty-Free Treatment Pursuant to the Agreement on Trade in Civil Aircraft.

(a) Whenever a product is entered under a provision for which the rate of duty "Free (C)" appears in the "Special" subcolumn and a claim for such rate of duty is made, the importer--

(i) shall maintain such supporting documentation as the Secretary of the Treasury may require; and

(ii) shall be deemed to certify that the imported article is a civil aircraft, or has been imported for use in a civil aircraft and will be so used.

The importer may amend the entry or file a written statement to claim a free rate of duty under this note at any time before the liquidation of the entry becomes final, except that, notwithstanding section 505(c) of the Tariff Act of 1930 (19 U.S.C. 1505(c)), any refund resulting from any such claim shall be without interest.

(b) (i) For purposes of the tariff schedule, the term "civil aircraft" means any aircraft, aircraft engine, or ground flight simulator (including parts, components, and subassemblies thereof)--

(A) that is used as original or replacement equipment in the design, development, testing, evaluation, manufacture, repair, maintenance, rebuilding, modification, or conversion of aircraft; and

(B) (1) that is manufactured or operated pursuant to a certificate issued by the Administrator of the Federal Aviation Administration (hereafter referred to as the "FAA") under section 44704 of title 49, United States Code, or pursuant to the approval of the airworthiness authority in the country of exportation, if such approval is recognized by the FAA as an acceptable substitute for such an FAA certificate;

(2) for which an application for such certificate has been submitted to, and accepted by, the Administrator of the FAA by an existing type and production certificate holder pursuant to section 44702 of title 49, United States Code, and regulations promulgated thereunder; or

(3) for which an application for such approval or certificate will be submitted in the future by an existing type and production certificate holder, pending the completion of design or other technical requirements stipulated by the Administrator of the FAA.

(ii) The term "civil aircraft" does not include any aircraft, aircraft engine, or ground flight simulator (or parts, components, and subassemblies thereof) purchased for use by the Department of Defense or the United States Coast Guard, unless such aircraft, aircraft engine, or ground flight simulator (or parts, components, and subassemblies thereof) satisfies the requirements of subdivisions (i)(A) and (i)(B)(1) or (2).

(iii) Subdivision (i)(B)(3) shall apply only to such quantities of the parts, components, and subassemblies as are required to meet the design and technical requirements stipulated by the Administrator. The Commissioner of Customs may require the importer to estimate the quantities of parts, components, and subassemblies covered for purposes of such subdivision.

7. Products of Countries Designated as Beneficiary Countries for Purposes of the Caribbean Basin Economic Recovery Act (CBERA).

(a) The following countries and territories or successor political entities are designated beneficiary countries for the purposes of the CBERA, pursuant to section 212 of that Act (19 U.S.C. 2702):

Antigua and Barbuda	Grenada	Nicaragua
Aruba	Guatemala	Panama
Bahamas	Guyana	St. Kitts and Nevis
Barbados	Haiti	Saint Lucia
Belize	Honduras	Saint Vincent and the Grenadines
Costa Rica	Jamaica	Trinidad and Tobago
Dominica	Montserrat	Virgin Islands, British
Dominican Republic	Netherlands Antilles	
El Salvador		

(b) (i) Unless otherwise excluded from eligibility by the provisions of subdivisions (d) or (e) of this note, any article which is the growth, product, or manufacture of a beneficiary country shall be eligible for duty-free treatment if that article is provided for in a subheading for which a rate of duty of "Free" appears in the "Special" subcolumn followed by the symbol "E" or "E*" in parentheses, and if--

(A) that article is imported directly from a beneficiary country into the customs territory of the United States; and

(B) the sum of (I) the cost or value of the materials produced in a beneficiary country or two or more beneficiary countries, plus (II) the direct costs of processing operations performed in a beneficiary country or countries is not less than 35 per centum of the appraised value of such article at the time it is entered. For purposes of determining the percentage referred to in (II) above, the term "beneficiary country" includes the Commonwealth of Puerto Rico and the United States Virgin Islands. If the cost or value of materials produced in the customs territory of the United States (other than the Commonwealth of Puerto Rico) is included with respect to an article to which this note applies, an amount not to exceed 15 per centum of the appraised value of the article at the time it is entered that is attributed to such United States cost or value may be applied toward determining the percentage referred to in (II) above.

(ii) Pursuant to subsection 213(a)(2) of the CBERA, the Secretary of the Treasury shall prescribe such regulation as may be necessary to carry out this note including, but not limited to, regulations providing that, in order to be eligible for duty-free treatment under CBERA, an article must be wholly the growth, product, or manufacture of a beneficiary country, or must be a new or different article of commerce which has been grown, produced, or manufactured in the beneficiary country, and must be stated as such in a declaration by the appropriate party; but no article or material of a beneficiary country shall be eligible for such treatment by virtue of having merely undergone--

(A) simple combining or packaging operations, or

(B) mere dilution with water or mere dilution with another substance that does not materially alter the characteristics of the article.

(iii) As used in subdivision (b) of this note, the phrase "direct costs of processing operations" includes, but is not limited to--

(A) all actual labor costs involved in the growth, production, manufacture, or assembly of the specific merchandise, including fringe benefits, on-the-job training and the cost of engineering, supervisory, quality control, and similar personnel; and

GN 7(b)(iii)(B)--7(d)(i)

(B) dies, molds, tooling, and depreciation on machinery and equipment which are allocable to the specific merchandise.

Such phrase does not include costs which are not directly attributable to the merchandise concerned or are not costs of manufacturing the product, such as (I) profit, and (II) general expenses of doing business which are either not allocable to the specific merchandise or are not related to the growth, production, manufacture, or assembly of the merchandise, such as administrative salaries, casualty and liability insurance, advertising, and salesmen's salaries, commissions or expenses.

(iv) Notwithstanding section 311 of the Tariff Act of 1930 (19 U.S.C. 1311), the products of a beneficiary country which are imported directly from such country into Puerto Rico may be entered under bond for processing or manufacturing in Puerto Rico. No duty shall be imposed on the withdrawal from warehouse of the product of such processing or manufacturing if, at the time of such withdrawal, such product meets the requirements of subdivision (b)(i)(B) above.

(v) Pursuant to subsection 213(a)(5) of the CBERA, duty-free treatment shall be provided under the CBERA to an article (other than an article enumerated in subsection 213(b) of the CBERA) which is the growth, product, or manufacture of Puerto Rico if--

(A) the article is imported directly from the beneficiary country into the customs territory of the United States,

(B) the article was by any means advanced in value or improved in condition in a beneficiary country, and

(C) any materials are added to the article in a beneficiary country, such materials are a product of a beneficiary country or the United States.

(c) Articles provided for in a provision for which a rate of duty of "Free" appears in the "Special" subcolumn followed by the symbols "E" or "E*" in parentheses are eligible articles for purposes of the CBERA pursuant to section 213 of that Act. The symbol "E" indicates that all articles provided for in the designated provision are eligible for preferential treatment except those described in subdivision (e). The symbol "E*" indicates that some articles provided for in the designated provision are not eligible for preferential treatment, as further described in subdivision (d) of this note. Whenever an eligible article is imported into the customs territory of the United States in accordance with the provisions of subdivision (b) of this note from a country or territory listed in subdivision (a) of this note, it shall be eligible for duty-free treatment as set forth in the "Special" subcolumn, unless excluded from such treatment by subdivisions (d) or (e) of this note. Whenever a rate of duty other than "Free" appears in the special subcolumn followed by the symbol "E" in parentheses, articles imported into the customs territory of the United States in accordance with the provisions of subdivision (b) of this note from a country or territory listed in subdivision (a) of this note shall be eligible for such rate in lieu of the rate of duty set forth in the "General" subcolumn.

(d) Articles provided for in a provision for which a rate of duty of "Free" appears in the "Special" subcolumn followed by the symbol "E*" in parentheses shall be eligible for the duty-free treatment provided for in this note, except--

(i) articles of beef or veal, however provided for in chapter 2 or chapter 16 and heading 2301, and sugars, sirups and molasses, provided for in heading 1701 and subheadings 1702.90.20 and 2106.90.44, if a product of the following countries, pursuant to section 213(c) of the CBERA:

Antigua and Barbuda
Montserrat
Netherlands Antilles
Saint Lucia
Saint Vincent and the Grenadines

(ii) sugars, sirups and molasses, provided for in heading 1701 and subheadings 1702.90.20 and 2106.90.44, to the extent that importation and duty-free treatment of such articles are limited by additional U.S. note 4 of chapter 17, pursuant to section 213(d) of the CBERA; or

(iii) except as provided in subdivision (f) of this note, textile and apparel articles--

(A) of cotton, wool or fine animal hair, man-made fibers, or blends thereof in which those fibers, in the aggregate, exceed in weight each other single component fiber thereof; or

(B) in which either the cotton content or the man-made fiber content equals or exceeds 50 percent by weight of all component fibers thereof; or

(C) in which the wool or fine animal hair content exceeds 17 percent by weight of all component fibers thereof; or

(D) containing blends of cotton, wool or fine animal hair, or man-made fibers, which fibers, in the aggregate, amount to 50 percent or more by weight of all component fibers thereof;

provided, that beneficiary country exports of handloom fabrics of the cottage industry, or handmade cottage industry products made of such handloom fabrics, or traditional folklore handicraft textile products, if such products are properly certified under an arrangement established between the United States and such beneficiary country, are eligible for the duty-free treatment provided for in this note.

(e) The duty-free treatment provided under the CBERA shall not apply to watches and watch parts (including cases, bracelets and straps), of whatever type including, but not limited to, mechanical, quartz digital or quartz analog, if such watches or watch parts contain any material which is the product of any country with respect to which column 2 rates of duty apply.

(f) Handbags, luggage, flat goods, work gloves, and leather wearing apparel, the product of any beneficiary country, and not designated on August 5, 1983, as eligible articles for purposes of the GSP, are dutiable at the rates set forth in the "Special" subcolumn of column 1 followed by the symbol "E" in parentheses.

(g) The duty-free treatment provided under the CBERA shall not apply to any agricultural product of chapters 2 through 52, inclusive, that is subject to a tariff-rate quota, if entered in a quantity in excess of the in-quota quantity for such product.

8. United States-Israel Free Trade Area Implementation Act of 1985.

(a) The products of Israel described in Annex 1 of the Agreement on the Establishment of a Free Trade Area between the Government of the United States of America and the Government of Israel, entered into on April 22, 1985, are subject to duty as provided herein. Products of Israel, as defined in subdivision (b) of this note, imported into the customs territory of the United States and entered under a provision for which a rate of duty appears in the "Special" subcolumn followed by the symbol "IL" in parentheses are eligible for the tariff treatment set forth in the "Special" subcolumn, in accordance with section 4(a) of the United States-Israel Free Trade Area Implementation Act of 1985 (99 Stat. 82).

(b) For purposes of this note, goods imported into the customs territory of the United States are eligible for treatment as "products of Israel" only if--

(i) each article is the growth, product or manufacture of Israel or is a new or different article of commerce that has been grown, produced or manufactured in Israel;

(ii) each article is imported directly from Israel (or directly from the West Bank, the Gaza Strip or a qualifying industrial zone as defined in general note 3(a)(v)(G) to the tariff schedule) into the customs territory of the United States; and

(iii) the sum of--

(A) the cost or value of the materials produced in Israel, and including the cost or value of materials produced in the West Bank, the Gaza Strip or a qualifying industrial zone pursuant to general note 3(a)(v) to the tariff schedule, plus

(B) the direct costs of processing operations performed in Israel, and including the direct costs of processing operations performed in the West Bank, the Gaza Strip or a qualifying industrial zone pursuant to general note 3(a)(v) to the tariff schedule, is not less than 35 percent of the appraised value of each article at the time it is entered.

If the cost or value of materials produced in the customs territory of the United States is included with respect to an article to which this note applies, an amount not to exceed 15 percent of the appraised value of the article at the time it is entered that is attributable to such United States cost or value may be applied toward determining the percentage referred to in subdivision (b)(iii) of this note.

(c) No goods may be considered to meet the requirements of subdivision (b)(i) of this note by virtue of having merely undergone--

(i) simple combining or packaging operations; or

(ii) mere dilution with water or mere dilution with another substance that does not materially alter the characteristics of the goods.

(d) As used in this note, the phrase "direct costs of processing operations" includes, but is not limited to--

(i) all actual labor costs involved in the growth, production, manufacture or assembly of the specific merchandise, including fringe benefits, on-the-job training and the cost of engineering, supervisory, quality control and similar personnel; and

(ii) dies, molds, tooling and depreciation on machinery and equipment which are allocable to the specific merchandise.

Such phrase does not include costs which are not directly attributable to the merchandise concerned, or are not costs of manufacturing the product, such as (A) profit, and (B) general expenses of doing business which are either not allocable to the specific merchandise or are not related to the growth, production, manufacture or assembly of the merchandise, such as administrative salaries, casualty and liability insurance, advertising and salesmen's salaries, commissions or expenses.

(e) The Secretary of the Treasury, after consultation with the United States Trade Representative, shall prescribe such regulations as may be necessary to carry out this note.

9. United States-Canada Free-Trade Agreement. (Suspended; see general note 12.)

10. Products of the Freely Associated States.

(a) Pursuant to sections 101 and 401 of the Compact of Free Association Act of 1985 (99 Stat. 1773 and 1838), the following countries shall be eligible for treatment as freely associated states:

Marshall Islands
Micronesia, Federated States of
Republic of Palau

(b) Except as provided in subdivisions (d) and (e) of this note, any article the growth, product or manufacture of a freely associated state shall enter the customs territory of the United States free of duty if--

(i) such article is imported directly from the freely associated state, and

(ii) the sum of (A) the cost or value of the materials produced in the freely associated state, plus (B) the direct costs of processing operations performed in the freely associated state is not less than 35 percent of the appraised value of such article at the time of its entry into the customs territory of the United States.

If the cost or value of materials produced in the customs territory of the United States is included with respect to an article the product of a freely associated state and not described in subdivision (d) of this note, an amount not to exceed 15 percent of the appraised value of such article at the time it is entered that is attributed to such United States cost or value may be applied toward determining the percentage referred to in subdivision (b)(ii)(B) of this note.

(c) Tunas and skipjack, prepared or preserved, not in oil, in airtight containers weighing with their contents not over 7 kilograms each, in an aggregate quantity entered in any calendar year from the freely associated states not to exceed 10 percent of United States consumption of canned tuna during the immediately preceding calendar year, as reported by the National Marine Fisheries Service, may enter the customs territory free of duty; such imports shall be counted against, but not be limited by, the aggregate quantity of tuna, if any, that is dutiable under subheading 1604.14.20 for that calendar year.

(d) The duty-free treatment provided under subdivision (b) of this note shall not apply to--

(i) tunas and skipjack, prepared or preserved, not in oil, in airtight containers weighing with their contents not over 7 kilograms each, in excess of the quantity afforded duty-free entry under subdivision (c) of this note;

(ii) textile and apparel articles which are subject to textile agreements;

(iii) footwear, handbags, luggage, flat goods, work gloves and leather wearing apparel, the foregoing which were not eligible articles for purposes of the Generalized System of Preferences on April 1, 1984;

(v) buttons of subheading 9606.21.40 or 9606.29.20; and

(vi) any agricultural product of chapters 2 through 52, inclusive, that is subject to a tariff-rate quota, if entered in a quantity in excess of the in-quota quantity for such product.

GN 10(e)--10(g)

(e) (i) Whenever a freely associated state--

(A) has exported (directly or indirectly) to the United States during a calendar year a quantity of such article having an appraised value in excess of an amount which bears the same ratio to $25,000,000 as the gross national product of the United States for the preceding calendar year (as determined by the Department of Commerce) bears to the gross national product of the United States for calendar year 1974 (as determined for purposes of sections 503(c)(2)(A)(i)(I) and 503(c)(2)(A)(ii) of the Trade Act of 1974 (19 U.S.C. 2463(c)(2)(A)(i)(I) and 2463(c)(2)(A)(ii)); or

(B) has exported (either directly or indirectly) to the United States during a calendar year a quantity of such article equal to or exceeding 50 percent of the appraised value of the total imports of such article into the United States during that calendar year;

then on or after July 1 of the next calendar year the duty-free treatment provided under subdivision (b) of this note shall not apply to such article imported from such freely associated state.

(ii) Whenever during a subsequent calendar year imports of such article from such freely associated state no longer exceed the limits specified in this subdivision, then on and after July 1 of the next calendar year such article imported from such freely associated state shall again enter the customs territory of the United States free of duty under subdivision (b) of this note.

(f) The provisions of subdivision (e) of this note shall not apply with respect to an article--

(i) imported from a freely associated state, and

(ii) not excluded from duty-free treatment under subdivision (d) of this note,

if such freely associated state has entered a quantity of such article during the preceding calendar year with an aggregate value that does not exceed the limitation on de minimis waivers applicable under section 503(c)(2)(F) of the Trade Act of 1974 (19 U.S.C. 2463(c)(2)(F)) to such preceding calendar year.

(g) Any article the growth, product or manufacture of a freely associated state and excluded from duty-free treatment pursuant to subdivisions (d) or (e) of this note shall be dutiable at the rate provided in the general subcolumn of rate of duty column 1 for the appropriate heading or subheading.

11. Products of Countries Designated as Beneficiary Countries for Purposes of the Andean Trade Preference Act (ATPA).

(a) The following countries or successor political entities are designated beneficiary countries for purposes of the ATPA, pursuant to section 203 of the Act (19 U.S.C. 3202):

Bolivia	Ecuador
Colombia	Peru

(b) (i) Unless otherwise excluded from eligibility by the provisions of subdivisions (d) or (e) of this note, any article which is the growth, product, or manufacture of a beneficiary country shall be eligible for duty-free treatment if that article is provided for in a provision for which a rate of duty of "Free" appears in the "Special" subcolumn followed by the symbol "J" or "J*" in parentheses, and if--

(A) that article is imported directly from a beneficiary country into the customs territory of the United States; and

(B) the sum of (1) the cost or value of the materials produced in a beneficiary country or two or more beneficiary countries under the ATPA or the CBERA, plus (2) the direct costs of processing operations performed in a beneficiary country or countries (under the ATPA or the CBERA) is not less than 35 percent of the appraised value of such article at the time it is entered. For purposes of determining the percentage referred to in subdivision (B)(2) above, the term "beneficiary country" includes the Commonwealth of Puerto Rico and the United States Virgin Islands. If the cost or value of materials produced in the customs territory of the United States (other than the Commonwealth of Puerto Rico) is included with respect to an article to which this note applies, an amount not to exceed 15 percent of the appraised value of the article at the time it is entered that is attributed to such United States cost or value may be applied toward determining the percentage referred to in subdivision (B)(2).

(ii) Pursuant to subsection 204(a)(2) of the ATPA, the Secretary of the Treasury shall prescribe such regulations as may be necessary to carry out this note including, but not limited to, regulations providing that, in order to be eligible for duty-free treatment under the ATPA, an article must be wholly the growth, product, or manufacture of a beneficiary country, or must be a new and different article of commerce which has been grown, produced, or manufactured in the beneficiary country; but no article or material of a beneficiary country shall be eligible for such treatment by virtue of having merely undergone--

(A) simple combining or packaging operations, or

(B) mere dilution with water or mere dilution with another substance that does not materially alter the characteristics of the article.

(iii) As used in subdivision (b) of this note, the phrase "direct costs of processing operations" includes, but is not limited to--

(A) all actual labor costs involved in the growth, production, manufacture, or assembly of the specific merchandise, including fringe benefits, on-the-job training and the cost of engineering, supervisory, quality control, and similar personnel; and

(B) dies, molds, tooling, and depreciation on machinery and equipment which are allocable to the specific merchandise.

Such phrase does not include costs which are not directly attributable to the merchandise concerned or are not costs of manufacturing the product, such as (1) profit, and (2) general expenses of doing business which are either not allocable to the specific merchandise or are not related to the growth, production, manufacture, or assembly of the merchandise, such as administrative salaries, casualty and liability insurance, advertising, interest, and salesmen's salaries, commissions or expenses.

GN 11(c)--11(e)

(c) Articles provided for in a provision for which a rate of duty of "Free" appears in the "Special" subcolumn followed by the symbol "J" or "J*" in parentheses are eligible articles for purposes of the ATPA pursuant to section 204 of that Act. Whenever an eligible article is imported into the customs territory of the United States in accordance with the provisions of subdivision (b) of this note from a country listed in subdivision (a) of this note, it shall be eligible for duty-free treatment set forth in the "Special" subcolumn, unless excluded from such treatment by subdivision (d) of this note. Whenever a rate of duty other than "Free" appears in the "Special" subcolumn followed by the symbol "J" in parentheses, articles imported into the customs territory of the United States in accordance with the provisions of subdivision (b) of this note from a country listed in subdivision (a) of this note shall be eligible for such rate in lieu of the rates of duty set forth in the "General" subcolumn.

(d) Articles provided for in a provision for which a rate of duty of "Free" appears in the "Special" subcolumn followed by the symbol "J*" in parentheses shall be eligible for the duty-free treatment provided for in this note, except--

(i) textile and apparel articles which were not eligible articles for purposes of this note on January 1, 1994;

provided that, in the case of goods described in subdivisions (ii), (iv), (v) and (vi), the President may proclaim duty-free treatment for any article that is the growth, product or manufacture of a country both listed in subdivision (a) of this note and enumerated below, where such article is imported directly into the customs territory of the United States from a designated Andean Trade Promotion and Drug Eradication Act (ATPDEA) beneficiary country that satisfies the customs requirements of the ATPDEA and is enumerated below, if the President determines that such article is not import-sensitive in the context of imports from a country or countries enumerated below:

Bolivia Colombia Ecuador Peru

Such goods shall be designated in the “Special” subcolumn following the rate of duty of “Free” by the symbol “J+” in parentheses. Goods described in subdivisions (i), (iii), (vii), (viii) and (ix) of this note and the product of a country enumerated herein shall not be eligible for such duty-free treatment under the terms of this note.

12. North American Free Trade Agreement.

(a) Goods originating in the territory of a party to the North American Free Trade Agreement (NAFTA) are subject to duty as provided herein. For the purposes of this note--

(i) Goods that originate in the territory of a NAFTA party under the terms of subdivision (b) of this note and that qualify to be marked as goods of Canada under the terms of the marking rules set forth in regulations issued by the Secretary of the Treasury (without regard to whether the goods are marked), when such goods are imported into the customs territory of the United States and are entered under a subheading for which a rate of duty appears in the "Special" subcolumn followed by the symbol "CA" in parentheses, are eligible for such duty rate, in accordance with section 201 of the North American Free Trade Agreement Implementation Act.

(ii) Goods that originate in the territory of a NAFTA party under the terms of subdivision (b) of this note and that qualify to be marked as goods of Mexico under the terms of the marking rules set forth in regulations issued by the Secretary of the Treasury (whether or not the goods are marked), when such goods are imported into the customs territory of the United States and are entered under a subheading for which a rate of duty appears in the "Special" subcolumn followed by the symbol "MX" in parentheses, are eligible for such duty rate, in accordance with section 201 of the North American Free Trade Agreement Implementation Act.

(b) For the purposes of this note, goods imported into the customs territory of the United States are eligible for the tariff treatment and quantitative limitations set forth in the tariff schedule as "goods originating in the territory of a NAFTA party" only if--

(i) they are goods wholly obtained or produced entirely in the territory of Canada, Mexico and/or the United States; or

(ii) they have been transformed in the territory of Canada, Mexico and/or the United States so that--

(A) except as provided in subdivision (f) of this note, each of the non-originating materials used in the production of such goods undergoes a change in tariff classification described in subdivisions (r), (s) and (t) of this note or the rules set forth therein, or

(B) the goods otherwise satisfy the applicable requirements of subdivisions (r), (s) and (t) where no change in tariff classification is required, and the goods satisfy all other requirements of this note; or

(iii) they are goods produced entirely in the territory of Canada, Mexico and/or the United States exclusively from originating materials; or

(iv) they are produced entirely in the territory of Canada, Mexico and/or the United States but one or more of the non-originating materials falling under provisions for "parts" and used in the production of such goods does not undergo a change in tariff classification because--

(A) the goods were imported into the territory of Canada, Mexico and/or the United States in unassembled or disassembled form but were classified as assembled goods pursuant to general rule of interpretation 2(a), or

(B) the tariff headings for such goods provide for and specifically describe both the goods themselves and their parts and is not further divided into subheadings, or the subheadings for such goods provide for and specifically describe both the goods themselves and their parts,

provided that such goods do not fall under chapters 61 through 63, inclusive, of the tariff schedule, and provided further that the regional value content of such goods, determined in accordance with subdivision (c) of this note, is not less than 60 percent where the transaction value method is used, or is not less than 50 percent where the net cost method is used, and such goods satisfy all other applicable provisions of this note. For purposes of this note, the term "material" means a good that is used in the production of another good, and includes a part or an ingredient.

GN 12(c)--12(c)(iv)(D)

(c) Regional value content. Except as provided in subdivision (c)(iv) of this note, the regional value content of a good shall be calculated, at the choice of the exporter or producer of such good, on the basis of either the transaction value method set out in subdivision (c)(i) or the net cost method set out in subdivision (c)(ii).

(i) Transaction value method. The regional value content of a good may be calculated on the basis of the following transaction value method:

$$RVC = \frac{TV - VNM}{TV} \times 100$$

where RVC is the regional value content, expressed as a percentage; TV is the transaction value of the good adjusted to a F.O.B. basis; and VNM is the value of non-originating materials used by the producer in the production of the good.

(ii) Net cost method. The regional value content of a good may be calculated on the basis of the following net cost method:

$$RVC = \frac{NC - VNM}{NC} \times 100$$

where RVC is the regional value content, expressed as a percentage; NC is the net cost of the good; and VNM is the value of non-originating materials used by the producer in the production of the good.

(iii) Except as provided in subdivisions (d)(i) and (d)(ii)(A)(2) of this note, the value of non-originating materials used by the producer in the production of a good shall not, for purposes of calculating the regional value content of the good under subdivision (c)(i) or (c)(ii) of this note, include the value of non-originating materials used to produce originating materials that are subsequently used in the production of such good.

(iv) The regional value content of a good shall be calculated solely on the basis of the net cost method set out in subdivision (c)(ii) of this note where--

(A) there is no transaction value for the good;

(B) the transaction value of the good is unacceptable under section 402(b) of the Tariff Act of 1930, as amended (19 U.S.C. 1401a(b));

(C) the good is sold by the producer to a related person and the volume, by units of quantity, of sales of identical or similar goods to related persons (as defined in article 415 of the NAFTA) during the six-month period immediately preceding the month in which the good is sold exceeds 85 percent of the producer's total sales of such goods during that period;

(D) the good is--

(1) a motor vehicle provided for in headings 8701 or 8702, subheadings 8703.21 through 8703.90, inclusive, or headings 8704, 8705 or 8706;

(2) identified in annex 403.1 or 403.2 to the NAFTA and is for use in a motor vehicle provided for in headings 8701 or 8702, subheadings 8703.21 through 8703.90, inclusive, or headings 8704, 8705 or 8706;

(3) provided for in subheadings 6401.10 through 6406.10, inclusive; or

(4) provided for in subheading 8469.11;

(E) the exporter or producer chooses to accumulate the regional value content of the good in accordance with subdivision (e) of this note; or

(F) the good is designated as an intermediate material under subdivision (c)(viii) of this note and is subject to a regional value-content requirement.

(v) If the regional value content of a good is calculated on the basis of the transaction value method set out in subdivision (c)(i) of this note and a NAFTA party subsequently notifies the exporter or producer, during the course of a verification of the origin of the good, that the transaction value of the good, or the value of any material used in the production of the good, is required to be adjusted or is unacceptable under section 402 of the Tariff Act of 1930, as amended (19 U.S.C. 1401a), the exporter or producer may then also calculate the regional value content of the good on the basis of the net cost method set out in subdivision (c)(ii) of this note.

(vi) For purposes of calculating the net cost of a good under subdivision (c)(ii) of this note, the producer of the good may--

(A) calculate the total cost incurred with respect to all goods produced by that producer; subtract any sales promotion, marketing and after-sales service costs, royalties, shipping and packing costs and non-allowable interest costs that are included in the total cost of all such goods; and then reasonably allocate the resulting net cost of those goods to the good;

(B) calculate the total cost incurred with respect to all goods produced by that producer; reasonably allocate the total cost to the good; and then subtract any sales promotion, marketing and after-sales service costs, royalties, shipping and packing costs and non-allowable interest costs that are included in the portion of the total cost allocated to the good; or

(C) reasonably allocate each cost that forms part of the total cost incurred with respect to the good so that the aggregate of these costs does not include any sales promotion, marketing and after-sales service costs, royalties, shipping and packing costs and non-allowable interest costs;

provided that the allocation of all such costs is consistent with the provisions regarding the reasonable allocation of costs set out in regulations issued by the Secretary of the Treasury. The term "total cost" means all product costs, period costs and other costs incurred in the territory of Canada, Mexico and/or the United States.

(vii) Except as provided in subdivision (c)(ix) of this note, the value of a material used in the production of a good shall--

(A) be the transaction value of the material determined in accordance with section 402(b) of the Tariff Act of 1930, as amended; or

(B) in the event that there is no transaction value or the transaction value of the material is unacceptable under section 402(b) of the Tariff Act of 1930, as amended, be determined in accordance with subsections (c) through (h), inclusive, of such section; and

(C) where not included under subdivision (A) or (B), include--

(1) freight, insurance, packing and all other costs incurred in transporting the material to the location of the producer;

(2) duties, taxes and customs brokerage fees on the material that were paid in the territory of Canada, Mexico, and/or the United States; and

(3) the cost of waste and spoilage resulting from the use of the material in the production of the good, less the value of renewable scrap or by-product.

(viii) Except for goods described in subdivision (d)(i) of this note, the producer of a good may, for purposes of calculating the regional value content of the good, designate any self-produced material (other than a component, or material thereof, identified in Annex 403.2 to the NAFTA) used in the production of the good as an intermediate material; provided that if the intermediate material is subject to a regional value-content requirement, no other self-produced material that is subject to a regional value-content requirement and is used in the production of that intermediate material may be designated by the producer as an intermediate material.

(ix) The value of an intermediate material shall be--

(A) the total cost incurred with respect to all goods produced by the producer of the good that can be reasonably allocated to that intermediate material; or

(B) the aggregate of each cost that is part of the total cost incurred with respect to that intermediate material that can be reasonably allocated to that intermediate material.

(x) The value of an indirect material shall be based on the Generally Accepted Accounting Principles applicable in the territory of Canada, Mexico, and/or the United States in which the good is produced.

(xi) For purposes of this note, the term "reasonably allocate" means to apportion in a manner appropriate to the circumstances.

(d) Automotive Goods.

(i) For purposes of calculating the regional value content under the net cost method set out in subdivision (c)(ii) of this note for--

(A) a good that is a motor vehicle provided for in tariff items 8702.10.60 or 8702.90.60, or subheadings 8703.21 through 8703.90, inclusive, 8704.21 or 8704.31; or

(B) a good provided for in the tariff items listed in Annex 403.1 where the good is subject to a regional value-content requirement and is for use as original equipment in the production of a good provided for in tariff items 8702.10.60 or 8702.90.60, or subheadings 8703.21 through 8703.90, inclusive, 8704.21 or 8704.31,

the value of non-originating materials used by the producer in the production of the good shall be the sum of the values of non-originating materials, determined in accordance with subdivision (c)(vii) of this note at the time the non-originating materials are received by the first person in the territory of Canada, Mexico or the United States who takes title to them; that are imported from the outside the territories of Canada, Mexico and the United States under the tariff items listed in Annex 403.1 to the NAFTA and that are used in the production of the good or that are used in the production of any material used in the production of the good.

(ii) For purposes of calculating the regional value content under the net cost method for a good that is a motor vehicle provided for in heading 8701, tariff items 8702.10.30 or 8702.90.30, subheadings 8704.10, 8704.22, 8704.23, 8704.32 or 8704.90, or headings 8705 or 8706, or for a component identified in Annex 403.2 to the NAFTA for use as original equipment in the production of the motor vehicle, the value of non-originating materials used by the producer in the production of the good shall be the sum of--

(A) for each material used by the producer listed in Annex 403.2 to the NAFTA, whether or not produced by the producer, at the choice of the producer and determined in accordance with subdivision (c) of this note, either--

(1) the value of such material that is non-originating, or

(2) the value of non-originating materials used in the production of such material; and

(B) the value of any other non-originating material used by the producer that is not listed in Annex 403.2 to the NAFTA, determined in accordance with subdivision (c) of this note.

(iii) For purposes of calculating the regional value content of a motor vehicle identified in subdivision (d)(i) or (ii) of this note, or for any or all goods provided for in a tariff item listed in Annex 403.1 to the NAFTA, or a component or material identified in Annex 403.2 to the NAFTA, the producer may average its calculation over its fiscal year in accordance with section 202(c)(3) and (4) of the North American Free Trade Agreement Implementation Act of 1993.

(iv) Notwithstanding subdivisions (r), (s) and (t) of this note, and except as provided in subdivision (d)(v) of this note, the regional value-content requirement shall be--

(A) for a producer's fiscal year beginning on the day closest to January 1, 1998 and thereafter, 56 percent under the net cost method, and for a producer's fiscal year beginning on the day closest to January 1, 2002 and thereafter, 62.5 percent under the net cost method, for--

(1) a good that is a motor vehicle provided for in tariff items 8702.10.60 or 8702.90.60; subheadings 8703.21 through 8703.90, inclusive; or subheadings 8704.21 or 8704.31, and

(2) a good provided for in headings 8407 or 8408 or subheading 8708.40, that is for use in a motor vehicle identified in subdivision (d)(iv)(A)(1); and

(B) for a producer's fiscal year beginning on the day closest to January 1, 1998 and thereafter, 55 percent under the net cost method, and for a producer's fiscal year beginning on the day closest to January 1, 2002 and thereafter, 60 percent under the net cost method, for--

(1) a good that is a motor vehicle provided for in heading 8701, tariff items 8702.10.30 or 8702.90.30, subheadings 8704.10, 8704.22, 8704.23, 8704.32 or 8704.90, or headings 8705 or 8706;

(2) a good provided for in headings 8407 or 8408 or subheading 8708.40 that is for use in a motor vehicle identified in subdivision (d)(iv)(B)(1); and

(3) except for a good identified in subdivision (d)(iv)(A)(2) or provided for in subheadings 8482.10 through 8482.80, inclusive, 8483.20 or 8483.30, a good identified in Annex 403.1 to the NAFTA that is subject to a regional value-content requirement and that is for use in a motor vehicle identified in subdivision (d)(iv)(A)(1) or (d)(iv)(B)(1).

(v) The regional value-content requirement for a motor vehicle identified in subdivision (d)(i) or (ii) shall be--

(A) 50 percent for five years after the date on which the first motor vehicle prototype is produced in a plant by a motor vehicle assembler, if--

(1) it is a motor vehicle of a class, or marque, or, except for a motor vehicle identified in subdivision (d)(ii), size category and underbody, not previously produced by the motor vehicle assembler in the territory of Canada, Mexico and/or the United States;

GN 12(e)--12(f)(iii)(B)

(e) Accumulation.

(i) For purposes of determining whether a good is an originating good, the production of the good in the territory of Canada, Mexico and/or the United States by one or more producers shall, at the choice of the exporter or producer of the good for which preferential tariff treatment is claimed, be considered to have been performed in the territory of a NAFTA party by that exporter or producer, provided that--

(A) all non-originating materials used in the production of the good undergo an applicable tariff classification set out in subdivision (t) of this note,

(B) the good satisfies any applicable regional value-content requirement, entirely in the territory of one or more of the NAFTA parties; and

(C) the good satisfies all other applicable requirements of this note.

(ii) For purposes of subdivision (c)(viii) of this note, the production of a producer that chooses to accumulate its production with that of other producers under subdivision (e)(i) shall be considered to be the production of a single producer.

(f) De minimis.

(i) Except as provided in subdivisions (f)(iii) through (vi), inclusive, a good shall be considered to be an originating good if the value of all non-originating materials used in the production of the good that do not undergo an applicable change in tariff classification set out in subdivision (t) of this note is not more than 7 percent of the transaction value of the good, adjusted to a F.O.B. basis, or, if the transaction value is unacceptable under section 402(b) of the Tariff Act of 1930, as amended, the value of all such non-originating materials is not more than 7 percent of the total cost of the good, provided that--

(A) if the good is subject to a regional value-content requirement, the value of such non-originating materials shall be taken into account in calculating the regional value content of the good; and

(B) the good satisfies all other applicable requirements of this note.

(ii) A good that is otherwise subject to a regional value-content requirement shall not be required to satisfy such requirement if the value of all non-originating materials used in the production of the good is not more than 7 percent of the transaction value of the good, adjusted to a F.O.B. basis, or, if the transaction value of the good is unacceptable under section 402(b) of the Tariff Act of 1930, the value of all non-originating materials is not more than 7 percent of the total cost of the good, provided that the good satisfies all other applicable requirements of this note.

(iii) Subdivision (f)(i) of this note does not apply to--

(A) a non-originating material provided for in chapter 4 of this schedule or in tariff items 1901.90.32, 1901.90.33, 1901.90.34, 1901.90.36, 1901.90.38, 1901.90.42 or 1901.90.43 that is used in the production of a good provided for in chapter 4;

(F) a non-originating material provided for in heading 1701 that is used in the production of a good provided for in headings 1701 through 1703, inclusive;

(G) a non-originating material provided for in chapter 17 or heading 1805 of this schedule that is used in the production of a good provided for in subheading 1806.10;

(H) a non-originating material provided for in headings 2203 through 2208, inclusive, that is used in the production of a good provided for in headings 2207 or 2208;

(I) a non-originating material used in the production of a good provided for in tariff item 7321.11.30, subheadings 8415.10, 8415.81 through 8415.83, inclusive, 8418.10 through 8418.21, inclusive, 8418.29 through 8418.40, inclusive, 8421.12, 8422.11, 8450.11 through 8450.20, inclusive, 8451.21 through 8451.29, inclusive, or tariff items 8479.89.55 or 8516.60.40; and

(J) a printed circuit assembly that is a non-originating material used in the production of a good where the applicable change in tariff classification for the good, provided for in subdivisions (r), (s) and (t) of this note, places restrictions on the use of such non-originating material.

(iv) Subdivision (f)(i) of this note does not apply to a non-originating single juice ingredient provided for in heading 2009 that is used in the production of a good provided for in subheading 2009.90 or tariff items 2106.90.54 or 2202.90.37.

(v) Subdivision (f)(i) of this note does not apply to a non-originating material used in the production of a good provided for in chapters 1 through 27, inclusive, of this schedule unless the non-originating material is provided for in a different subheading than the good for which origin is being determined under this note.

(vi) A good provided for in chapters 50 through 63, inclusive, of this schedule that does not originate because certain fibers or yarns used in the production of the component of the good that determines the tariff classification of the good do not undergo an applicable change in tariff classification, provided for in subdivisions (r), (s) and (t) of this note, shall nonetheless be considered to originate if the total weight of all such fibers or yarns in that component is not more than 7 percent of the total weight of that component.

(g) Fungible goods and materials. For purposes of determining whether a good is an originating good--

(i) where originating and non-originating fungible materials are used in the production of a good, the determination of whether the materials are originating need not be made through the identification of any specific fungible material, but may be determined on the basis of any of the inventory management methods set out in regulations promulgated by the Secretary of the Treasury; and

(ii) where originating and non-originating fungible goods are commingled and exported in the same form, the determination may be made on the basis of any of the inventory management methods set out in regulations promulgated by the Secretary of the Treasury.

The term "fungible" means that the particular materials or goods are interchangeable for commercial purposes and have essentially identical properties.

GN 12(h)--12(m)

(h) Accessories, spare parts and tools. Accessories, spare parts or tools delivered with the good that form part of the good's standard accessories, spare parts or tools, shall be considered as originating if the good originates and shall be disregarded in determining whether all the non-originating materials used in the production of the good undergo the applicable change in tariff classification set out in subdivision (t) of this note, provided that--

(i) the accessories, spare parts or tools are not invoiced separately from the good;

(ii) the quantities and value of the accessories, spare parts or tools are customary for the good; and

(iii) if the good is subject to a regional value-content requirement, the value of the accessories, spare parts or tools shall be taken into account as originating or non-originating materials, as the case may be, in calculating the regional value content of the good.

(i) Indirect materials. An indirect material shall be considered to be an originating material without regard to where it is produced. The term "indirect material" means a good used in the production, testing or inspection of a good but not physically incorporated into the good, or a good used in the maintenance of buildings or the operation of equipment associated with the production of a good, including the following: fuel and energy; tools, dies and molds; spare parts and materials used in the maintenance of equipment and buildings; lubricants, greases, compounding materials and other materials used in production or used to operate other equipment and buildings; gloves, glasses, footwear, clothing, safety equipment and supplies; equipment, devices and supplies used for testing or inspecting the goods; catalysts and solvents; and any other goods that are not incorporated into the good but whose use in the production of the good can reasonably be demonstrated to be a part of that production.

(j) Packaging materials and containers for retail sale. Packaging materials and containers in which a good is packaged for retail sale shall, if classified with the good, be disregarded in determining whether all the non-originating materials used in the production of the good undergo the applicable change in tariff classification set out in subdivision (t) of this note, and, if the good is subject to a regional value-content requirement, the value of such packaging materials and containers shall be taken into account as originating or non-originating materials, as the case may be, in calculating the regional value content of the good.

(k) Packing materials and containers for shipment. Packing materials and containers in which the good is packed for shipment shall be disregarded in determining whether--

(i) the non-originating materials used in the production of the good undergo an applicable change in tariff classification set out in subdivision (t) of this note; and

(ii) the good satisfies a regional value-content requirement.

(l) Transshipment. A good shall not be considered to be an originating good by reason of having undergone production that satisfies the requirements of this note if, subsequent to that production, the good undergoes further production or any other operation outside the territories of the NAFTA parties, other than unloading, reloading or any other operation necessary to preserve it in good condition or to transport the good to the territory of Canada, Mexico and/or the United States.

(m) Non-qualifying operations. A good shall not be considered to be an originating good merely by reason of--

(i) mere dilution with water or another substance that does not materially alter the characteristics of the good; or

(ii) any production or pricing practice with respect to which it may be demonstrated, on the basis of a preponderance of evidence, that the object was to circumvent this note.

(n) As used in subdivision (b)(i) of this note, the phrase "goods wholly obtained or produced entirely in the territory of Canada, Mexico and/or the United States" means--

(i) mineral goods extracted in the territory of one or more of the NAFTA parties;

(vii) goods taken by a NAFTA party or a person of a NAFTA party from the seabed or beneath the seabed outside territorial waters, provided that a NAFTA party has rights to exploit such seabed;

(viii) goods taken from outer space, provided such goods are obtained by a NAFTA party or a person of a NAFTA party and not processed outside the NAFTA parties;

(ix) waste and scrap derived from--

(A) production in the territory of one or more of the NAFTA parties, or

(B) used goods collected in the territory of one or more of the NAFTA parties, provided such goods are fit only for the recovery of raw materials; and

(x) goods produced in the territory of one or more of the NAFTA parties exclusively from goods referred to in subdivisions (n)(i) through (ix), inclusive, or from their derivatives, at any stage of production.

(o) As used in this note, the term "non-originating good" or "non-originating material" means a good or material that does not qualify as originating under this note.

(p) As used in this note, the term "producer" means a person who grows, mines, harvests, fishes, traps, hunts, manufactures, processes or assembles a good; and the term "production" means growing, mining, harvesting, fishing, trapping, hunting, manufacturing, processing or assembling a good.

(q) For purposes of this note, the term "territory" means--

(i) with respect to Canada, the territory to which its customs laws apply, including any areas beyond the territorial seas of Canada within which, in accordance with international law and its domestic law, Canada may exercise rights with respect to the seabed and subsoil and their natural resources;

(E) the waters of the territorial seas, in accordance with international law, and its interior maritime waters,

(F) the space located above the national territory, in accordance with international law, and

(G) any areas beyond the territorial seas of Mexico within which, in accordance with international law, including the United Nations Convention on the Law of the Sea, and its domestic law, Mexico may exercise rights with respect to the seabed and subsoil and their natural resources; and

(iii) with respect to the United States,

(A) the customs territory of the United States, as set forth in general note 2 to this schedule,

(B) the foreign trade zones located in the United States and Puerto Rico, and

(C) any areas beyond the territorial seas of the United States within which, in accordance with international law and its domestic law, the United States may exercise rights with respect to the seabed and subsoil and their natural resources.

(r) Interpretation of Rules of Origin. For purposes of interpreting the rules of origin set out in subdivisions (r), (s) and (t) of this note:

(i) the specific rule, or specific set of rules, that applies to a particular heading, subheading or tariff item is set out immediately adjacent to the heading, subheading or tariff item;

(ii) a rule applicable to a tariff item shall take precedence over a rule applicable to the heading or subheading which is parent to that tariff item;

(iii) a requirement of a change in tariff classification applies only to non-originating materials;

(iv) a reference to weight in the rules for goods of chapters 1 through 24, inclusive, of the tariff schedule means dry weight unless otherwise specified in the tariff schedule;

(v) subdivision (f) (de minimis) does not apply to:

(A) certain non-originating materials used in the production of goods provided for in the following provisions of the tariff schedule, inclusive: chapter 4; headings 1501 through 1508, 1512, 1514, 1515, or 1701 through 1703; subheading 1806.10; tariff items 1901.10.05, 1901.10.15, 1901.10.30, 1901.10.35, 1901.10.40, 1901.10.45, 1901.20.05, 1901.20.15, 1901.20.20, 1901.20.25, 1901.20.30, 1901.20.35, 1901.20.40, 1901.90.32, 1901.90.33, 1901.90.34, 1901.90.36, 1901.90.38, 1901.90.42 or 1901.90.43; subheadings 2009.11 through 2009.30 or 2009.90; heading 2105; tariff items 2101.11.21, 2106.90.01, 2106.90.02, 2106.90.03, 2106.90.06, 2106.90.09, 2106.90.22, 2106.90.24, 2106.90.26, 2106.90.28, 2106.90.48, 2106.90.52, 2106.90.54, 2106.90.62, 2106.90.64, 2106.90.66, 2106.90.68, 2106.90.72, 2106.90.74, 2106.90.76, 2106.90.78, 2106.90.80, 2106.90.82, 2202.90.10, 2202.90.22, 2202.90.24, 2202.90.28, 2202.90.30, 2202.90.35, 2202.90.36 or 2202.90.37; headings 2207 through 2208; tariff items 2309.90.22, 2309.90.24, 2309.90.28 or 7321.11.30; subheadings 8415.10, 8415.81 through 8415.83, 8418.10 through 8418.21, 8418.29 through 8418.40, 8421.12, 8422.11, 8450.11 through 8450.20, or 8451.21 through 8451.29; or tariff items 8479.89.55 or 8516.60.40;

(B) a printed circuit assembly that is a non-originating material used in the production of a good where the applicable change in tariff classification for the good places restrictions on the use of such non-originating material, and

(C) a non-originating material used in the production of a good provided for in chapters 1 through 27, inclusive, unless the non-originating material is provided for in a different subheading than the good for which origin is being determined;

(ix) for purposes of determining the origin of goods for use in a motor vehicle of chapter 87, the provisions of subdivision (d) of this note may apply.

(s) Exceptions to Change in Tariff Classification Rules.

(i) Agricultural and horticultural goods grown in the territory of a NAFTA party shall be treated as originating in the territory of that party even if grown from seed, bulbs, rootstock, cuttings, slips or other live parts of plants imported from a non-party to the NAFTA, except that goods which are exported from the territory of Mexico and are provided for in--

(A) heading 1202, if the goods were not harvested in the territory of Mexico,

Chapter 27.

Chapter rule, applicable only to goods of Canada under the terms of this note that are entered, or withdrawn from warehouse for consumption, on or after January 1, 2003: For the purposes of heading 2710, the following processes confer origin:

(a) Atmospheric distillation–a separation process in which petroleum oils are converted, in a distillation tower, into fractions according to boiling point and the vapor then condensed into different liquefied fractions. Liquefied petroleum gas, naphtha, gasoline, kerosene, diesel/heating oil, light gas oils and lubricating oil are produced from petroleum distillation;

(b) Vacuum distillation–distillation at a pressure below atmospheric but not so low that it would be classed as molecular distillation. Vacuum distillation is useful for distilling high-boiling and heat-sensitive materials such as heavy distillates in petroleum oils to produce light to heavy vacuum gas oils and residuum. In some refineries gas oils may be further processed into lubricating oils;

(c) Catalytic hydroprocessing–the cracking and/or treating of petroleum oils with hydrogen at high temperature and under pressure, in the presence of special catalysts. Catalytic hydroprocessing includes hydrocracking and hydrotreating;

(d) Reforming (catalytic reforming)–the rearrangement of molecules in a naphtha boiling range material to form higher octane aromatics (i.e., improved antiknock quality at the expense of gasoline yield). A main product is catalytic reformate, a blend component for gasoline. Hydrogen is another by-product;

(e) Alkylation–a process whereby a high-octane blending component for gasolines is derived from catalytic combination of an isoparaffin and an olefin;

(f) Cracking–a refining process involving decomposition and molecular recombination of organic compounds, especially hydrocarbons obtained by means of heat, to form molecules suitable for motor fuels, monomers, petrochemicals, etc.:

(i) Thermal cracking–exposes the distillate to temperatures of approximately 540° C to 650° C for varying periods of time. Process produces modest yields of gasoline and higher yields of residual products for fuel oil blending;

(ii) Catalytic cracking–hydrocarbon vapors are passed at approximately 400° C over a metallic catalyst (e.g., silica-alumina or platinum); the complex recombinations (alkylation, polymerization, isomerization, etc.) occur within seconds to yield high-octane gasoline. Process yields less residual oils and light gases than thermal cracking;

(g) Coking–a thermal cracking process for the conversion of heavy low-grade products, such as reduced crude, straight run pitch, cracked tars and shale oil, into solid coke (carbon) and lower boiling hydrocarbon products which are suitable as feed for other refinery units for conversion into lighter products; or

(h) Isomerization–the refinery process of converting petroleum compounds into their isomers.

(b) Articles provided for in a provision for which a rate of duty appears in the "Special" subcolumn followed by the symbol "D" in chapters 1 through 97 of the tariff schedule are those designated by the President to be eligible articles pursuant to section 111(a) of the AGOA and section 506A of the Trade Act of 1974 ("the 1974 Act"). Whenever an eligible article which is a good of a designated beneficiary sub-Saharan African country enumerated in subdivision (a) of this note is imported directly into the customs territory of the United States, such article shall be entitled to receive the duty-free treatment provided for herein, without regard to the limitations on preferential treatment of eligible articles in section 503(c)(2)(A) of the 1974 Act, provided that such good--

(i) is the growth, product or manufacture of a designated beneficiary sub-Saharan African country enumerated in subdivision (a) of this note, and

(ii) the sum of--

(A) the cost or value of the materials produced in one or more designated beneficiary sub-Saharan African countries, plus

(B) the direct costs of processing operations performed in the designated beneficiary sub-Saharan African country or any two or more designated beneficiary sub-Saharan African countries that are members of the same association of countries which is treated as one country under section 507(a)2 of the 1974 Act,

is not less than 35 per centum of the appraised value of such article at the time it is entered. If the cost or value of the materials produced in the customs territory of the United States is included with respect to an eligible article, an amount not to exceed 15 per centum of the appraised value of such article at the time it is entered that is attributed to such United States cost or value may be applied toward determining the percentage referred to in clause (ii)(B) above. No article or material of a designated beneficiary sub-Saharan African country enumerated in subdivision (a) of this note and receiving the tariff treatment specified in this note shall be eligible for such duty-free treatment by virtue of having merely undergone simple combining or packing operations, or mere dilution with water or mere dilution with another substance that does not materially alter the characteristics of the article.

(c) The duty-free treatment provided for in this note shall be effective with respect to eligible articles entered, or withdrawn from warehouse for consumption, as of the date proclaimed by the President and shall continue in effect through the close of September 30, 2008.

17. Products of Countries Designated as Beneficiary Countries under the United States-Caribbean Basin Trade Partnership Act of 2000.

(a) The Caribbean Basin countries that will be enumerated in this note in a Federal Register notice by the United States Trade Representative, having previously been designated by the President pursuant to section 211 of the United States-Caribbean Basin Trade Partnership Act (CBTPA), shall be treated as beneficiary countries for purposes of this note on and after the effective date announced in such notice. The following countries have been determined by the USTR to have satisfied the customs requirements of the CBTPA and, therefore, to be afforded the tariff treatment provided for in this note:

Barbados, Belize, Costa Rica, Dominican Republic, El Salvador, Guatemala, Guyana, Haiti, Honduras, Jamaica, Nicaragua, Panama, Saint Lucia, Trinidad and Tobago.

(b) Articles provided for in a provision for which a rate of duty appears in the “Special” subcolumn followed by the symbol “R” in chapters 1 through 97 of the tariff schedule are those designated by the President to be eligible articles for purposes of the CBTPA pursuant to section 211 of that Act. Whenever an eligible article which is a good of one or more designated beneficiary CBTPA countries enumerated in subdivision (a) of this note is imported directly into the customs territory of the United States, such article shall be entitled to receive the duty-free or reduced duty treatment provided for herein, provided that such good--

(i) was wholly obtained or produced entirely in the territory of one or more designated beneficiary countries enumerated in subdivision (a) of this note, or

(ii) would be an originating good for purposes of general note 12 to the tariff schedule, if such good were imported thereunder.

No article or material of a designated beneficiary country enumerated in subdivision (a) of this note and receiving the tariff treatment specified in this note shall be eligible for such duty-free treatment by virtue of having merely undergone simple combining or packing operations, or mere dilution with water or mere dilution with another substance that does not materially alter the characteristics of the article.

(c) Whenever a rate of duty other than “Free” appears in the “Special” rates of duty subcolumn for any heading or subheading followed by the symbol “E” or “E*” and a lower rate of duty appears in such subcolumn followed by the symbol “R”, an eligible article under the terms of this note entered under such provision from a designated beneficiary CBTPA country enumerated in subdivision (a) of this note shall receive such lower rate of duty.

(d) The tariff treatment provided for in this note shall be effective with respect to eligible articles from a designated CBTPA country enumerated in subdivision (a) of this note that are entered, or withdrawn from warehouse for consumption, on or the date announced in one or more Federal Register notices issued by the United States Trade Representative as the date on which each CBTPA beneficiary country qualifies for the tariff treatment provided in this note, and shall remain in effect through the earlier of--

(i) the close of September 30, 2008; or

(ii) the date on which the Free Trade Area of the Americas or another free trade agreement that makes substantial progress in achieving the negotiating objectives set forth in section 108(b)(5) of Public Law 103-182 (19 U.S.C. 3317(b)(5)) enters into force with respect to the United States and the CBTPA beneficiary country.

18. United States-Jordan Free Trade Area Implementation Act.

(a) The products of Jordan described in Annex 2.1 of the Agreement between the United States of America and the Hashemite Kingdom of Jordan on the Establishment of a Free Trade Area, entered into on October 24, 2000, are subject to duty as provided herein. Products of Jordan, as defined in subdivisions (b) through (d) of this note, that are imported into the customs territory of the United States and entered under a provision for which a rate of duty appears in the "Special" subcolumn followed by the symbol "JO" in parentheses are eligible for the tariff treatment set forth in the "Special" subcolumn, in accordance with sections 101 and 102 of the United States-Jordan Free Trade Area Implementation Act (Public Law 107-43, 115 Stat. 243).

(b) For purposes of this note, subject to the provisions of subdivisions (d) and (e), goods imported into the customs territory of the United States are eligible for treatment as "products of Jordan" only if–

(i) such goods are imported directly from Jordan into the customs territory of the United States, and

(ii) they are–

(A) wholly the growth, product or manufacture of Jordan, or

(B) new or different articles of commerce that have been grown, produced or manufactured in Jordan and meet the requirements of subdivision (c) of this note.

(c) (i) For purposes of subdivision (b)(ii)(A) of this note, except as otherwise provided in subdivision (d) for textile and apparel articles, the expression "wholly the growth, product or manufacture of Jordan" refers both to--

(A) an article which has been entirely grown, produced or manufactured in Jordan, and

(B) all materials incorporated in an article which have been entirely grown, produced or manufactured in Jordan,

but does not include articles or materials imported into Jordan from another country, whether or not such articles or materials were substantially transformed into new or different articles of commerce after their importation into Jordan.

(ii) For purposes of subdivision (b)(ii)(B), goods are eligible for the tariff treatment provided in this note if the sum of–

(A) the cost or value of the materials produced in Jordan, plus

(B) the direct costs of processing operations performed in Jordan,

is not less than 35 percent of the appraised value of such article at the time it is entered. If the cost or value of materials produced in the customs territory of the United States is included with respect to an article to which this subdivision applies, an amount not to exceed 15 percent of the appraised value of the article at the time it is entered that is attributable to such United States cost or value may be applied toward determining the percentage referred to in this subdivision.

(iii) No article may be considered to meet the requirements of this note by virtue of having merely undergone–

(A) simple combining or packaging operations, or

(B) mere dilution with water or mere dilution with another substance that does not materially alter the characteristics of the article.

(iv) For purposes of subdivision (ii)(A), the term "cost or value of materials" includes–

(A) the manufacturer's actual cost for the materials,

(B) when not included in the manufacturer's actual cost for the materials, the freight, insurance, packing and all other costs incurred in transporting the materials to the manufacturer's plant,

(C) the actual cost of waste or spoilage (material list), less the value of recoverable scrap, and

(D) taxes and/or duties imposed on the materials by a party to the Agreement, provided they are not remitted upon exportation.

When a material is provided to the manufacturer without charge, or at less than fair market value, its cost or value shall be determined by computing the sum of (I) all expenses incurred in the growth, production or manufacturer of the material, including general expenses; (II) an amount for profit; and (III) freight, insurance, packing, and all other costs incurred in transporting the material to the manufacturer's plant. If the pertinent information is not available, the appraising officer may ascertain or estimate the value thereof using all reasonable ways and means at his disposal.

(v) For purposes of subdivision (ii)(B), the term "direct costs of processing operations" performed in Jordan means those costs either directly incurred in, or which can be reasonably allocated to, the growth, production, manufacture or assembly of the goods entered under the terms of subdivision (a) of this note. That term includes, but is not limited to, the following, to the extent that they are includible in the appraised value of goods imported into the customs territory of the United States–

(A) all actual labor costs involved in the growth, production, manufacture or assembly of the specific merchandise, including fringe benefits, on-the-job training and the cost of engineering, supervisory, quality control and similar personnel, and

(B) dies, molds, tooling and depreciation on machinery and equipment which are allocable to the specific merchandise,

(C) research, development, design, engineering and blueprint costs insofar as they are allocable to the specific article, and

(D) costs of inspecting and testing the specific article;

but that term does not include costs which are not directly attributable to the merchandise concerned, or are not costs of manufacturing the product, such as (I) profit, and (II) general expenses of doing business which are either not allocable to the specific merchandise or are not related to the growth, production, manufacture or assembly of the merchandise, such as administrative salaries, casualty and liability insurance, advertising and salesmen's salaries, commissions or expenses.

(vi) For purposes of subdivision (b)(i) of this note, except for goods covered by the provisions of subdivision (d) of this note, the term "imported directly" means–

(A) direct shipment from Jordan to the United States without passing through the territory of any intermediate country, or

(B) if shipment is through the territory of an intermediate country, the articles in the shipment do not enter into the commerce of any intermediate country and the invoices, bills of lading and other shipping documents show the United States as the final destination, or

(C) if shipment is through an intermediate country and the invoices and other documents do not show the United States as the final destination, then the articles in the shipment are imported directly only if they–

(1) remain under the control of the customs authority in an intermediate country,

(2) do not enter into the commerce of an intermediate country except for the purpose of a sale other than at retail, provided that the articles are imported as a result of the original commercial transaction between the importer and the producer or the producer's sales agent, and

(3) have not been subjected to operations other than loading and unloading, and other activities necessary to preserve the article in good condition.

(d) Textile and apparel articles.

(i) For purposes of this note, a textile or apparel article imported directly from Jordan into the customs territory of the United States shall be eligible for the tariff treatment provided in subdivision (a) of this note only if–

(A) the article is wholly obtained or produced in Jordan;

(B) the article is a yarn, thread, twine, cordage, rope, cable or braiding, and–

(1) the constituent staple fibers are spun in Jordan, or

(2) the continuous filament is extruded in Jordan;

(C) the article is a fabric, including a fabric classified in chapter 59 of the tariff schedule, and the constituent fibers, filaments or yarns are woven, knitted, needled, tufted, felted, entangled or transformed by any other fabric-making process in Jordan; or

(D) the article is any other textile or apparel article that is wholly assembled in Jordan from its component pieces.

Such textile and apparel articles not wholly obtained or produced in Jordan must comply with the requirements of this subdivision and of subdivision (c)(ii) of this note.

(ii) For purposes of subdivision (d)(i)(A) of this note, an article is "wholly obtained or produced in Jordan" if it is wholly the growth, product or manufacture of Jordan.

(Iii) Notwithstanding the provisions of subdivision (d)(i)(D) and except as provided in subdivisions (d)(5) and (d)(6) of this note, subdivision (d)(i)(A), (d)(i)(B) or (d)(i)(C), as appropriate, shall determine whether a good that is classified in one of the following headings or subheadings of the tariff schedule shall be considered to meet the requirements of subdivision (b) of this note: 5609, 5807, 5811, 6209.20.50 (the requirement of this subdivision applies only to babies' diapers of this provision), 6213, 6214, 6301, 6302, 6304, 6305, 6306, 6307.10, 6307.90, 6308 and 9404.90.

(iv) Notwithstanding the provisions of subdivision (d)(i)(D) and except as provided in subdivisions (d)(v) and (d)(vi) of this note, a textile or apparel article which is knit-to-shape in Jordan shall be considered to meet the requirements of subdivision (b) of this note.

(v) Notwithstanding the provisions of subdivision (d)(i)(D) of this note, a good classified in subheading 6117.10, heading 6213 or 6214 or subheadings 6302.22, 6302.29, 6302.52, 6302.53, 6302.59, 6302.92, 6302.93, 6302.99, 6303.92, 6303.99, 6304.19, 6304.93, 6304.99, 9404.90.85 or 9494.90.95 of the tariff schedule, except for a good classified in any such provision as of cotton or of wool or consisting of fiber blends containing 16 percent or more by weight of cotton, shall be considered to meet the requirements of subdivision (b) of this note if the fabric in the good is both dyed and printed in Jordan, and such dyeing and printing is accompanied by two or more of the following finishing operations: bleaching, shrinking, fulling, napping, decating, permanent stiffening, weighting, permanent embossing or moireing.

(vi) Notwithstanding the provisions of subdivision (d)(i)(C) of this note, a fabric classified in the tariff schedule as of silk, cotton, man-made fiber, or vegetable fiber shall be considered to meet the requirements of subdivision (b) of this note if the fabric is both dyed and printed in Jordan, and such dyeing and printing is accompanied by two or more of the following finishing operations: bleaching, shrinking, fulling, napping, decating, permanent stiffening, weighting, permanent embossing or moireing.

(vii) If the origin of a textile or apparel article cannot be determined under subdivision (d)(i) or (d)(iii) through (d)(vi), inclusive, of this note, then that article shall be considered to meet the requirements of subdivision (b) of this note if–

(A) the most important assembly or manufacturing process occurs in Jordan, or

(B) if the applicability of subdivision (b) of this note cannot be determined under subdivision (d)(vii)(A) of this note, the last important assembly or manufacturing occurs in Jordan.

(e) Exclusion. A good shall not be considered to meet the requirements of subdivision (b) of this note if the good–

(i) is imported into Jordan, and, at the time of importation, would be classified in heading 0805 of the tariff schedule, and

(ii) is processed in Jordan into a good classified in subheadings 2009.11 through 2009.39, inclusive, of the tariff schedule.

(f) Certification and records. Whenever an importer enters an article as eligible for the preferential treatment provided under this note–

(i) the importer shall be deemed to certify that such article qualifies for the preferential treatment provided under this note;

(Ii) the importer shall be prepared to submit to the customs officer concerned, upon request, a declaration setting forth all pertinent information concerning the production or manufacture of the article, and the information on such declaration should contain at least the following pertinent details:

(B) a description of the operations performed in the production of the article in Jordan and identification ofthe direct costs of processing operations;

(C) a description of any materials used in the production of the article which are wholly the growth, product or manufacture of Jordan or of the United States, and a statement as to the cost or value of such materials;

(D) a description of the operations performed on, and a statement as to the origin and cost or value of, any foreign materials used in the article which are claimed to have been sufficiently processed in Jordan so as to be materials produced in Jordan; and

(E) a description of the origin and cost or value of any foreign materials used in the article which have not been substantially transformed in Jordan.

This declaration shall be prepared, signed and submitted upon request by the U.S. customs officer concerned. A declaration should only be requested when the Customs Service has reason to question the accuracy of the certification that, by operation of subdivision (f)(i) of this note, is deemed to have occurred, or when the Customs Service procedures for assessing the risk of improper or incorrect entry of an article indicate that verification of an entry is appropriate, or when a random verification is conducted. The information necessary for the preparation of the declaration shall be retained in the files of the importer for a period of five years.

(g) The Secretary of the Treasury, after consultation with the United States Trade Representative, shall prescribe such regulations as may be necessary to carry out this note.

19. Exemptions. For the purposes of general note 1--

(b) telecommunications transmissions,

(c) records, diagrams and other data with regard to any business, engineering or exploration operation whether on paper, cards, photographs, blueprints, tapes or other media,

(d) articles returned from space within the purview of section 484a of the Tariff Act of 1930,

(e) articles exported from the United States which are returned within 45 days after such exportation from the United States as undeliverable and which have not left the custody of the carrier or foreign customs service, and

(f) any aircraft part or equipment that was removed from a United States-registered aircraft while being used abroad in international traffic because of accident, breakdown, or emergency, that was returned to the United States within 45 days after removal, and that did not leave the custody of the carrier or foreign customs service while abroad,

are not goods subject to the provisions of the tariff schedule. No exportation referred to in subdivision (e) may be treated as satisfying any requirement for exportation in order to receive a benefit from, or meet an obligation to, the United States as a result of such exportation.

GN 20

20. Commingling of Goods.

(a) Whenever goods subject to different rates of duty are so packed together or mingled that the quantity or value of each class of goods cannot be readily ascertained by customs officers (without physical segregation of the shipment or the contents of any entire package thereof), by one or more of the following means:

(i) sampling,

(ii) verification of packing lists or other documents filed at the time of entry, or

(iii) evidence showing performance of commercial settlement tests generally accepted in the trade and filed in such time and manner as may be prescribed by regulations of the Secretary of the Treasury,

the commingled goods shall be subject to the highest rate of duty applicable to any part thereof unless the consignee or his agent segregates the goods pursuant to subparagraph (b) hereof.

(b) Every segregation of goods made pursuant to this note shall be accomplished by the consignee or his agent at the risk and expense of the consignee within 30 days (unless the Secretary authorizes in writing a longer time) after the date of personal delivery or mailing, by such employee as the Secretary of the Treasury shall designate, of written notice to the consignee that the goods are commingled and that the quantity or value of each class of goods cannot be readily ascertained by customs officers. Every such segregation shall be accomplished under customs supervision, and the compensation and expenses of the supervising customs officers shall be reimbursed to the Government by the consignee under such regulations as the Secretary of the Treasury may prescribe.

(c) The foregoing provisions of this note do not apply with respect to any part of a shipment if the consignee or his agent furnishes, in such time and manner as may be prescribed by regulations of the Secretary of the Treasury, satisfactory proof--

(i) that such part (A) is commercially negligible, (B) is not capable of segregation without excessive cost and (C) will not be segregated prior to its use in a manufacturing process or otherwise, and

(ii) that the commingling was not intended to avoid the payment of lawful duties.

Any goods with respect to which such proof is furnished shall be considered for all customs purposes as a part of the goods, subject to the next lower rate of duty, with which they are commingled.

(d) The foregoing provisions of this note do not apply with respect to any shipment if the consignee or his agent shall furnish, in such time and manner as may be prescribed by regulations of the Secretary of the Treasury, satisfactory proof--

(i) that the value of the commingled goods is less than the aggregate value would be if the shipment were segregated;

(ii) that the shipment is not capable of segregation without excessive cost and will not be segregated prior to its use in a manufacturing process or otherwise; and

(iii) that the commingling was not intended to avoid the payment of lawful duties.

Any goods with respect to which such proof is furnished shall be considered for all customs purposes to be dutiable at the rate applicable to the material present in greater quantity than any other material.

(e) The provisions of this note shall apply only in cases where the tariff schedule does not expressly provide a particular tariff treatment for commingled goods.

22. Definitions. For the purposes of the tariff schedule, unless the context otherwise requires--

(a) the term "entered" means entered, or withdrawn from warehouse for consumption, in the customs territory of the United States;

(b) the term "entered for consumption" does not include withdrawals from warehouse for consumption;

(c) the term "withdrawn from warehouse for consumption" means withdrawn from warehouse for consumption and does not include goods entered for consumption;

(d) the term "rate of duty" includes a free rate of duty;

(e) the terms "wholly of", "in part of", and "containing", when used between the description of an article and a material (e.g., "woven fabrics, wholly of cotton"), have the following meanings:

(i) "wholly of" means that the goods are, except for negligible or insignificant quantities of some other material or materials, composed completely of the named material;

(ii) "in part of" or "containing" mean that the goods contain a significant quantity of the named material.

With regard to the application of the quantitative concepts specified above, it is intended that the *de minimis* rule apply.

(f) the term "headings" refers to the article descriptions and tariff provisions appearing in the schedule at the first hierarchical level; the term "subheading" refers to any article description or tariff provision indented thereunder; a reference to "headings" encompasses subheadings indented thereunder.

23. Issuance of Rules and Regulations. The Secretary of the Treasury is hereby authorized to issue rules and regulations governing the admission of articles under the provisions of the tariff schedule. The allowance of an importer's claim for classification, under any of the provisions of the tariff schedule which provides for total or partial relief from duty or other import restrictions on the basis of facts which are not determinable from an examination of the article itself in its condition as imported, is dependent upon his complying with any rules or regulations which may be issued pursuant to this note.

24. Methods of Ascertainment. The Secretary of the Treasury is authorized to prescribe methods of analyzing, testing, sampling, weighing, gauging, measuring or other methods of ascertainment whenever he finds that such methods are necessary to determine the physical, chemical or other properties or characteristics of articles for purposes of any law administered by the Customs Service.

GENERAL STATISTICAL NOTES

1. Statistical Requirements for Imported Goods.

(a) Persons making customs entry or withdrawal of goods imported into the customs territory of the United States shall complete the entry summary or withdrawal forms, as provided herein and in regulations issued pursuant to law, to provide for statistical purposes information as follows:

(i) the number of the Customs district and of the port where the goods are being entered for consumption or warehouse, as shown in Statistical Annex A of the tariff schedule;

(ii) the name of the vessel or the name of the airline, or in the case of shipment by other than vessel or air, the means of transportation by which the goods first arrived in the United States;

(iii) the foreign port of lading;

(iv) the U.S. port of unlading for vessel and air shipments;

(v) the date of importation;

(vi) the country of origin of the goods expressed in terms of the designation therefor in Statistical Annex B of the tariff schedule;

(vii) the country of exportation expressed in terms of the designation therefor in Statistical Annex B of the tariff schedule;

(viii) the date of exportation;

(ix) a description of the goods in sufficient detail to permit the classification thereof under the proper statistical reporting number in the tariff schedule;

(x) the statistical reporting number under which the goods are classifiable, including the appropriate symbol placed as a prefix to the statistical reporting number when claiming special tariff treatment as provided for in general note 3(c)(i) (asterisks, however, are not to be reported with or in place of the symbol prefix, e.g. for the Generalized System of Preferences only the "A" and not the asterisk shall be reported);

(xi) gross weight in kilograms for the goods covered by each reporting number for all modes of transportation;

(xii) the net quantity in the units specified herein for the classification involved and with the units noted;

(xiii) the U.S. dollar value in accordance with the definition of section 402 of the Tariff Act of 1930, as amended, for all merchandise including that free of duty or dutiable at specific rates;

(xiv) the aggregate cost (not including U.S. import duty, if any), in U.S. dollars, of freight, insurance and all other charges, costs and expenses (each of which charges, costs and expenses shall be separately itemized on or attached to the related invoice) incurred (except as provided below) in bringing the merchandise from alongside the carrier at the port of exportation in the country of exportation and placing it alongside the carrier at the first U.S. port of entry. In the case of overland shipments originating in Canada or Mexico, such costs shall include freight, insurance, and all other charges, costs and expenses incurred in brining the merchandise from the point of origin (where the merchandise begins its journey to the United States) in Canada or Mexico to the first U.S. port of entry; and

(xv) such other information with respect to the imported goods as is provided for elsewhere in the tariff schedule.

(b) For the purpose of paragraph (a), the following provisions shall govern:

(i) the country of exportation shall be the country of origin except when the merchandise while located in a third country is the subject of a new purchase in which event the third country shall be regarded and reported as the country of exportation, and the date of exportation from the third country shall be regarded and reported as the date of exportation; and

GSN 1(b)(ii)--GSN 3(c)

(ii) if for the purposes of subparagraph (xiv) of subdivision (a) actual amounts cannot be provided, the person making the entry or withdrawal shall provide reasonable estimates of such information. The use of an estimate for statistical purposes does not relieve the person making the entry or withdrawal from obtaining the necessary information for similar future transactions. For Customs purposes, estimates shall not be used in declaring the value of merchandise in accordance with section 402 of the Tariff Act of 1930, as amended by the Trade Agreements Act of 1979. Therefore, when the price of goods includes freight, insurance and other charges (e.g., the terms of sale are CIF), estimates of those charges reported pursuant to this note may not be deducted from the price to arrive at the value declared to the Customs Service. However, when the actual charges are known, they must be excluded to arrive at the declared value.

2. Statistical Annotations.

(a) The statistical annotations to the Harmonized Tariff Schedule of the United States consist of--

(i) the 2-digit statistical suffixes and any article descriptions applicable thereto,

(ii) the indicated units of quantity, and

(iii) the statistical notes and annexes.

(b) The legal text of the Harmonized Tariff Schedule of the Unites States consists of the remaining text as more specifically identified in the general rules of interpretation.

3. Statistical Reporting Number.

(a) Except as provided in paragraph (b) of this note, and in the absence of specific instructions to the contrary elsewhere, the statistical reporting number for an article consists of the 10-digit number formed by combining the 8-digit subheading number with the appropriate 2-digit statistical suffix. Thus, the statistical reporting number for live monkeys dutiable under subheading 0106.00.50 is "0106.00.5010".

(b) Whenever in the tariff schedule an article is classifiable under a provision which derives its rate of duty from a different provision, the statistical reporting number is, in the absence of specific instructions to the contrary elsewhere, the 10-digit number for the basic provision followed by the 10-digit subheading number of the provision from which the rate is derived. Thus, the statistical reporting number for certain mountings for optical telescopes is "9005.90.8000-9005.80.4040". If multiple statistical reporting numbers are shown for the subheading from which the duty rate is derived and the shipment contains articles covered by more than one statistical reporting number from the subheading, then report the last applicable statistical reporting number only.

(c) Whenever an article is eligible for reduced Merchandise Processing Fee (MPF), and a claim therefor is made under one of the following programs, the statistical reporting number is, in absence of specific instructions to the contrary elsewhere, the 10-digit number prefixed by the appropriate symbol indicated below:

Automotive Products Trade Act	B#
Agreement on Trade in Civil Aircraft	C#
North American Free Trade Agreement:	
Goods of Canada or of Mexico, under the terms of general note 12, included in the pharmaceutical appendix	K#
Goods of Canada or of Mexico, under the terms of general note 12, included in the intermediate chemicals for dyes appendix	L#
Other goods of Canada, under the terms of general note 12	CA
Other goods of Mexico, under the terms of general note 12	MX

(d) Whenever a claim is made for special tariff treatment under one of the following programs, the statistical reporting number is, in absence of specific instructions to the contrary elsewhere, the 10-digit number prefixed by the appropriate symbol indicated below:

Products of West Bank and Gaza Strip	N
Products of Puerto Rico (advanced in value or improved in condition in a CBERA beneficiary country (see 19 U.S.C. 2703(a)(5))	W
Products of Insular Possessions	Y
Articles from the Freely Associated States	Z

(e) Whenever in the tariff schedule goods are classified as a set in accordance with General Rules of Interpretation 3(b) or 3(c), the set is to be identified by placing the prefix "X" in front of the statistical reporting numbers applicable to the set.

4. Abbreviations.

(a) An "X" appearing in the column for units of quantity means that no quantity (other than gross weight) is to be reported.

(b) Whenever two separate units of quantity are shown for the same article, the value of the article is to be reported with the first unit of quantity shown, unless there is a "v" following the second unit of quantity in which case the value of the article is to be reported with that unit of quantity.

(c) The following symbols and abbreviations are used with the meanings respectively indicated below:

5. Reporting of exports.

Except as noted below, the statistical reporting numbers for articles classified in chapters 1 through 97 of this schedule may be used in place of comparable Schedule B numbers on the Shipper's Export Declaration. Statistical reporting numbers for articles covered by chapters 98 and 99 of this schedule may only be used on import entries. Schedule B numbers may not be reported on import entries in place of HTS numbers. Statistical reporting numbers used on the Shipper's Export Declaration should not include any symbols in the form of prefixes used to denote special tariff treatment.

Additional U.S. Notes

1. For the purposes of this chapter--

   (a) The term "processed" covers meats which have been ground or comminuted, diced or cut into sizes for stew meat or similar uses, rolled and skewered, or specially processed into fancy cuts, special shapes, or otherwise made ready for particular uses by the retail consumer.

2. In assessing the duty on meats, no allowance shall be made for normal components thereof such as bones, fat, and hide or skin. The dutiable weight of meats in airtight containers subject to specific rates includes the entire contents of the containers.

   (a) The term "butter" means natural butter, whey butter or recombined butter (fresh, salted or rancid, including canned butter) derived exclusively from milk, with a milkfat content of 80 percent or more but not more than 95 percent by weight, a maximum milk solids-not-fat content of 2 percent by weight and a maximum water content of 16 percent by weight. Butter does not contain added emulsifiers, but may contain sodium chloride, food colors, neutralizing salts and cultures of harmless lactic-acid-producing bacteria.

   (b) The expression "dairy spreads" means a spreadable emulsion of the water-in-oil type, containing milkfat as the only fat in the product, with a milkfat content of 39 percent or more but less than 80 percent by weight.

3. Products obtained by the concentration of whey and with the addition of milk or milkfat are to be classified as cheese in heading 0406 provided that they have the three following characteristics:

   (a) A milkfat content, by weight of the dry matter, of 5 percent or more;

   (b) A dry matter content, by weight, of at least 70 percent but not exceeding 85 percent; and

   (c) They are molded or capable of being molded.

4. This chapter does not cover:

   (b) Albumins (including concentrates of two or more whey proteins, containing by weight more than 80 percent whey proteins, calculated on the dry matter) (heading 3502) or globulins (heading 3504).

Subheading Note

1. For the purposes of subheading 0404.10, the expression "modified whey" means products consisting of whey constituents, i.e., whey from which all or part of the lactose, proteins or minerals have been removed, whey to which natural whey constituents have been added, and products obtained by mixing natural whey constituents.

2. For the purposes of subheading 0405.10 the term "butter" does not include dehydrated butter or ghee (subheading 0405.90).

CHAPTER 5

PRODUCTS OF ANIMAL ORIGIN, NOT ELSEWHERE SPECIFIED OR INCLUDED

Notes:

1. This chapter does not cover:

   (a) Edible products (other than guts, bladders and stomachs of animals, whole and pieces thereof, and animal blood, liquid or dried);

   (b) Hides or skins (including furskins) other than goods of heading 0505 and parings and similar waste of raw hides or skins of heading 0511 (chapter 41 or 43);

   (c) Animal textile materials, other than horsehair and horsehair waste (section XI); or

   (d) Prepared knots or tufts for broom or brush making (heading 9603).

2. For the purposes of heading 0501, the sorting of hair by length (provided the root ends and tip ends, respectively, are not arranged together) shall be deemed not to constitute working.

3. Throughout the tariff schedule, elephant, hippopotamus, walrus, narwhal and wild boar tusks, rhinoceros horns and the teeth of all animals are regarded as "ivory."

4. Throughout the tariff schedule, the expression "horsehair" means hair of the manes or tails of equine or bovine animals.

Additional U.S. Note

1. (a) Except as provided in paragraphs (b) and (c) of this note, the importation of the feathers or skin of any bird is hereby prohibited. Such prohibition shall apply to the feathers or skin of any bird:

   (i) Whether raw or processed;

   (ii) Whether the whole plumage or skin or any part of either;

   (iii) Whether or not attached to a whole bird or any part thereof; and

   (iv) Whether or not forming part of another article.

   (b) Paragraph (a) shall not apply:

   (i) In respect of any of the following birds (other than any such bird which, whether or not raised in captivity, is a wild bird): chickens (including hens and roosters), turkeys, guineas, geese, ducks, pigeons, ostriches, rheas, English ring-necked pheasants and pea fowl;

   (ii) To any importation for scientific or educational purposes;

   (Iii) To the importation of fully manufactured artificial flies used for fishing;

   (Iv) To the importation of birds which are classifiable under subheading 9804.00.55; and

   (v) To the importation of live birds.

   (c) Notwithstanding paragraph (a), there may be entered in each calendar year the following quotas of skins bearing feathers:

   (i) For use in the manufacture of artificial flies used for fishing; (A) not more than 5,000 skins of grey jungle fowl (Gallus sonneratii), and (B) not more than 1,000 skins of mandarin duck (Dendronessa galericulata); and

   (ii) For use in the manufacture of artificial flies used for fishing, or for millinery purposes, not more than 45,000 skins, in the aggregate, of the following species of pheasant: Lady Amherst pheasant (Chrysolophus amerstiae), golden pheasant (Chrysolophus pictus), silver pheasant (Lophura nycthemera), Reeves pheasant (Syrmaticus reevesii), blue-eared pheasant (Crossoptilon auritum) and brown-eared pheasant (Crossoptilon mantchuricum).1/

   For the purposes of these quotas, any part of a skin which has been severed shall be considered to be a whole skin.

1/ Brown-eared pheasant added to the List of Endangered Foreign Fish and Wildlife, Appendix A of 50 CFR 17, Nov. 24, 1970, effective date Dec. 2, 1970 (35 F.R. 18319, 18321).

(d) No article specified in paragraph (c) shall be entered except under a permit issued by the Secretary of the Interior. The Secretary of the Interior shall prescribe such regulations as may be necessary to carry out the purposes and provisions of paragraph (c) (including regulations providing for equitable allocation among qualified applicants of the import quotas established by such provisions). Whenever the Secretary of the Interior finds that the wild supply of any species mentioned in paragraph (c) is threatened with serious reduction or with extinction, he shall prescribe regulations which provide (to such extent and for such period as he deems necessary to meet such threat):

(i) In the case of grey jungle fowl or mandarin duck, for the reduction of the applicable import quota; or

(ii) In the case of any species of pheasant, for the reduction of the import quota established for pheasants, for the establishment of a subquota for such species of pheasant, or for the elimination of such species from the import quota for pheasant, or any combination thereof.

The authority granted to the Secretary of the Interior by the preceding sentence to reduce any import quota shall include authority to eliminate such quota.

(e) Any article of a kind the importation of which is prohibited or subjected to a quota by paragraphs (a), (b) and (c) above, and which is in the United States shall be presumed for the purposes of seizure and forfeiture to have been imported in violation of law and shall be seized and forfeited under the customs laws unless such presumption is satisfactorily rebutted; except that such presumption shall not apply to articles in actual use for personal adornment or for scientific or educational purposes. Any article so forfeited may (in the discretion of the Secretary of the Treasury and under such regulations as he may prescribe) (1) be placed with any agency of the Federal Government or of any State government, or any society or museum for exhibition or scientific or educational purposes, or (2) be destroyed.

(f) Nothing in this note shall be construed to repeal the provision of the act of March 4, 1913, chapter 145 (37 Stat. 847), or the act of July 3, 1918 (40 Stat. 755), or any other law of the United States, now of force, intended for the protection or preservation of birds within the United States. If on investigation by the district director of Customs before seizure, or before trial for forfeiture, or if at such trial if such seizure has been made, it shall be made to appear to the district director of Customs, or to the prosecuting officer of the Government, as the case may be, that no illegal importation of such feathers has been made, but that the possession, acquisition or purchase of such feathers is or has been made in violation of the provisions of the act of March 4, 1913, chapter 145 (37 Stat. 847), or the act of July 3, 1918 (40 Stat. 755), or any other law of the United States, now of force, intended for the protection or preservation of birds within the United States, it shall be the duty of the district director of Customs, or such prosecuting officer, as the case may be, to report the facts to the proper officials of the United States, or State or Territory charged with the duty of enforcing such laws.

CHAPTER 11

PRODUCTS OF THE MILLING INDUSTRY; MALT; STARCHES; INULIN; WHEAT GLUTEN

Notes

1. This chapter does not cover:

   (a) Roasted malt put up as coffee substitutes (heading 0901 or 2101);

   (b) Prepared flours, groats, meals or starches of heading 1901;

   (c) Corn flakes or other products of heading 1904;

   (d) Vegetables, prepared or preserved, of heading 2001, 2004 or 2005;

   (e) Pharmaceutical products (chapter 30); or

   (f) Starches having the character of perfumery, cosmetic or toilet preparations (chapter 33).

2. (A) Products from the milling of the cereals listed in the table below fall within this chapter if they have, by weight on the dry product:

   (a) A starch content (determined by the modified Ewers polarimetric method) exceeding that indicated in column (2); and

   (b) An ash content (after deduction of any added minerals) not exceeding that indicated in column (3).

   Otherwise, they fall in heading 2302. However, germ of cereals, whole, rolled, flaked or ground is always classified in heading 1104.

   (B) Products falling within this chapter under the above provisions shall be classified in heading 1101 or 1102 if the percentage passing through a woven metal wire cloth sieve with the aperture indicated in column (4) or (5) is not less, by weight, than that shown against the cereal concerned.

   Otherwise, they fall in heading 1103 or 1104.

Cereal	Starch content (microns)	Ash content (microns)	Rate of passage through a sieve with an aperture of--	
			315 micrometers	500 micrometers
(1)	(2)	(3)	(4)	(5)
	Percent	Percent	Percent	Percent
Wheat and rye	45	2.5	80	-

3. For the purposes of heading 1103 the terms "groats" and "meal" mean products obtained by the fragmentation of cereal grains, of which --

   (a) In the case of corn (maize) products, at least 95 percent by weight passes through a woven metal wire cloth sieve with an aperture of 2 mm;

   (b) In the case of other cereal products, at least 95 percent by weight passes through a woven metal wirecloth sieve with an aperture of 1.25 mm.

SECTION IV

PREPARED FOODSTUFFS; BEVERAGES, SPIRITS AND VINEGAR; TOBACCO AND MANUFACTURED TOBACCO SUBSTITUTES

Note

1. In this section the term "pellets" means products which have been agglomerated either directly by compression or by the addition of a binder in a proportion not exceeding 3 percent by weight.

Additional U.S. Notes

1. In this section the term "canned" means preserved in airtight containers by heat processing to destroy or inactivate micro-organisms and enzymes that otherwise could cause spoilage.

2. For the purposes of this section, unless the context otherwise requires--

   (a) the term "percent by dry weight" means the sugar content as a percentage of the total solids in the product;

   (b) the term "capable of being further processed or mixed with similar or other ingredients" means that the imported product is in such condition or container as to be subject to any additional preparation, treatment or manufacture or to be blended or combined with any additional ingredient, including water or any other liquid, other than processing or mixing with other ingredients performed by the ultimate consumer prior to consumption of the product;

   (c) the term "prepared for marketing to the ultimate consumer in the identical form and package in which imported" means that the product is imported in packaging of such sizes and labeling as to be readily identifiable as being intended for retail sale to the ultimate consumer without any alteration in the form of the product or its packaging; and

   (d) the term "ultimate consumer" does not include institutions such as hospitals, prisons and military establishments or food service establishments such as restaurants, hotels, bars or bakeries.

CHAPTER 16

PREPARATIONS OF MEAT, OF FISH OR OF CRUSTACEANS, MOLLUSCS OR OTHER AQUATIC INVERTEBRATES

Notes:

1. This chapter does not cover meat, meat offal, fish, crustaceans, molluscs or other aquatic invertebrates, prepared or preserved by the processes specified in chapter 2 or 3 or heading 0504.

2. Food preparations fall in this chapter provided that they contain more than 20 percent by weight of sausage, meat, meat offal, blood, fish or crustaceans, molluscs or other aquatic invertebrates, or any combination thereof. In cases where the preparation contains two or more of the products mentioned above, it is classified in the heading of chapter 16 corresponding to the component or components which predominate by weight. These provisions do not apply to the stuffed products of heading 1902 or to the preparations of heading 2103 or 2104.

Subheading Notes

1. For the purposes of subheading 1602.10, the expression "homogenized preparations" means preparations of meat, meat offal or blood, finely homogenized, put up for retail sale as infant food or for dietetic purposes, in containers of a net weight content not exceeding 250 g. For the application of this definition no account is to be taken of small quantities of any ingredients which may have been added to the preparation for seasoning, preservation or other purposes. These preparations may contain a small quantity of visible pieces of meat or meat offal. This subheading takes precedence over all other subheadings of heading 1602.

2. The fish and crustaceans specified in the subheadings of heading 1604 or 1605 under their common names only, are of the same species as those mentioned in chapter 3 under the same name.

Additional U.S. Notes:

1. For the purposes of this chapter, the term "in oil" means packed in oil or fat, or in added oil or fat and other substances, whether such oil or fat was introduced at the time of packing or prior thereto.

2. In assessing the duty on meats, no allowance shall be made for normal components thereof such as bones, fat, and hide or skin. The dutiable weight of meats in airtight containers subject to specific rates includes the entire contents of the containers.

3. For purposes of subheadings 1604.14.22 and 1604.14.30, tunas and skipjack from the freely associated states may be entered free of duty under the appropriate subheading in an aggregate quantity provided by, and under the terms set forth in, general note 10(c) to the tariff schedule. Goods from the freely associated states entered, or withdrawn from warehouse for consumption, in excess of such specified aggregate quantity shall be dutied under the appropriate subheading at the rate set forth in the "General" subcolumn of column 1.

Statistical Note

1. Imports of shrimp or products of shrimp are subject to the provisions of section 609 of Public Law 101-162 of November 21, 1989 (16 U.S.C. 1537 note).

CHAPTER 17

SUGARS AND SUGAR CONFECTIONERY

Note

1. This chapter does not cover:

   (a) Sugar confectionery containing cocoa (heading 1806);

   (b) Chemically pure sugars (other than sucrose, lactose, maltose, glucose and fructose) or other products of heading 2940; or

   (c) Medicaments or other products of chapter 30.

Subheading Note

1. For the purposes of subheadings 1701.11 and 1701.12, "raw sugar" means sugar whose content of sucrose by weight, in the dry state, corresponds to a polarimeter reading of less than 99.5 degrees.

Additional U.S. Notes

1. The term "degree" as used in the "Rates of Duty" columns of this chapter means sugar degree as determined by a polarimetric test.

2. For the purposes of this schedule, the term "articles containing over 65 percent by dry weight of sugar described in additional U.S. note 2 to chapter 17" means articles containing over 65 percent by dry weight of sugars derived from sugar cane or sugar beets, whether or not mixed with other ingredients, capable of being further processed or mixed with similar or other ingredients, and not prepared for marketing to the ultimate consumer in the identical form and package in which imported.

3. For the purposes of this schedule, the term "articles containing over 10 percent by dry weight of sugar described in additional U.S. note 3 to chapter 17" means articles containing over 10 percent by dry weight of sugars derived from sugar cane or sugar beets, whether or not mixed with other ingredients, except (a) articles not principally of crystalline structure or not in dry amorphous form, the foregoing that are prepared for marketing to the ultimate consumer in the identical form and package in which imported; (b) blended syrups containing sugars derived from sugar cane or sugar beets, capable of being further processed or mixed with similar or other ingredients, and not prepared for marketing to the ultimate consumer in the identical form and package in which imported; (c) articles containing over 65 percent by dry weight of sugars derived from sugar cane or sugar beets, whether or not mixed with other ingredients, capable of being further processed or mixed with similar or other ingredients, and not prepared for marketing to the ultimate consumer in the identical form and package in which imported; or (d) cake decorations and similar products to be used in the same condition as imported without any further processing other than the direct application to individual pastries or confections, finely ground or masticated coconut meat or juice thereof mixed with those sugars, and sauces and preparations therefor.

4. For the purposes of this schedule, the term "blended syrups described in additional U.S. note 4 to chapter 17" means blended syrups containing sugars derived from sugar cane or sugar beets, capable of being further processed or mixed with similar or other ingredients, and not prepared for marketing to the ultimate consumer in the identical form and package in which imported.

5. (a) (i) The aggregate quantity of raw cane sugar entered, or withdrawn from warehouse for consumption, under subheading 1701.11.10, during any fiscal year, shall not exceed in the aggregate an amount (expressed in terms of raw value), not less than 1,117,195 metric tons, as shall be established by the Secretary of Agriculture (hereinafter referred to as "the Secretary"), and the aggregate quantity of sugars, syrups and molasses entered, or withdrawn from warehouse for consumption, under subheadings 1701.12.10, 1701.91.10, 1701.99.10, 1702.90.10 and 2106.90.44, during any fiscal year, shall not exceed in the aggregate an amount (expressed in terms of raw value), not less than 22,000 metric tons, as shall be established by the Secretary. With either the aggregate quantity for raw cane sugar or the aggregate quantity for sugars, syrups and molasses other than raw cane sugar, the Secretary may reserve a quota quantity for the importation of specialty sugars as defined by the United States Trade Representative.

(ii) Whenever the Secretary believes that domestic supplies of sugars may be inadequate to meet domestic demand at reasonable prices, the Secretary may modify any quantitative limitations which have previously been established under this note but may not reduce the total amounts below the amounts provided for in subdivision (i) hereof.

(iii) The Secretary shall inform the Secretary of the Treasury of any determination made under this note. Notice of such determinations shall be published in the Federal Register.

(iv) Sugar entering the United States during a quota period established under this note may be charged to the previous or subsequent quota period with the written approval of the Secretary.

(b) (i) The quota amounts established under subdivision (a) may be allocated among supplying countries and areas by the United States Trade Representative.

(ii) The United States Trade Representative, after consultation with the Secretaries of State and Agriculture, may modify, suspend (for all or part of the quota amount), or reinstate the allocations provided for in this subdivision (including the addition or deletion of any country or area) if he finds that such action is appropriate to carry out the rights or obligations of the United States under any international agreement to which the United States is a party or is appropriate to promote the economic interests of the United States.

(iii) The United States Trade Representative shall inform the Secretary of the Treasury of any such action and shall publish notice thereof in the Federal Register. Such action shall not become effective until the day following the date of publication of such notice in the Federal Register or such later date as may be specified by the United States Trade Representative.

(iv) The United States Trade Representative may promulgate regulations appropriate to provide for the allocations authorized pursuant to this note. Such regulations may, among other things, provide for the issuance of certificates of eligibility to accompany any sugars, syrups or molasses (including any specialty sugars) imported from any country or area for which an allocation has been provided and for such minimum quota amounts as may be appropriate to provide reasonable access to the U.S. market for articles the product of those countries or areas having small allocations.

(c) For purposes of this note, the term raw value means the equivalent of such articles in terms of ordinary commercial raw sugar testing 96 degrees by the polariscope as determined in accordance with regulations or instructions issued by the Secretary of the Treasury. Such regulations or instructions may, among other things, provide: (i) for the entry of such articles pending a final determination of polarity; and (ii) that positive or negative adjustments for differences in preliminary and final raw values be made in the same or succeeding quota periods. The principal grades and types of sugar shall be translated into terms of raw value in the following manner--

(A) For articles described in subheadings 1701.11.05, 1701.11.10, 1701.11.20, 1701.11.50, 1701.12.05, 1701.12.10, 1701.12.50, 1701.91.05, 1701.91.10, 1701.91.30, 1701.99.05, 1701.99.10, 1701.99.50, 2106.90.42, 2106.90.44 and 2106.90.46 by multiplying the number of kilograms thereof by the greater of 0.93, or 1.07 less 0.0175 for each degree of polarization under 100 degrees (and fractions of a degree in proportion).

(B) For articles described in subheadings 1702.90.05, 1702.90.10 and 1702.90.20, by multiplying the number of kilograms of the total sugars thereof (the sum of the sucrose and reducing or invert sugars) by 1.07.

(C) The Secretary of the Treasury shall establish methods for translating sugar into terms of raw value for any special grade or type of sugar, syrup, or molasses for which he/she determines that the raw value cannot be measured adequately under the above provisions.

6. Raw cane sugar classifiable in subheading 1701.11.20 shall be entered only to be used for the production (other than by distillation) of polyhydric alcohols, except polyhydric alcohols for use as a substitute for sugar in human food consumption, or to be refined and reexported in refined form or in sugar-containing products, or to be substituted for domestically produced raw cane sugar that has been or will be exported. The Secretary of Agriculture may issue licenses for such entries and may promulgate such regulations (including any terms, conditions, certifications, bonds, civil penalties, or other limitations) as are appropriate to ensure that sugar entered under subheading 1701.11.20 is used only for such purposes.

7. The aggregate quantity of articles containing over 65 percent by dry weight of sugars described in additional U.S. note 2 to chapter 17, entered under subheadings 1701.91.44, 1702.90.64, 1704.90.64, 1806.10.24, 1806.10.45, 1806.20.71, 1806.90.45, 1901.20.20, 1901.20.55, 1901.90.52, 2101.12.44, 2101.20.44, 2106.90.74 and 2106.90.92 during the 12-month period from October 1 in any year to the following September 30, inclusive, shall be none and no such articles shall be classifiable therein.

8. The aggregate quantity of articles containing over 10 percent by dry weight of sugars described in additional U.S. note 3 to chapter 17, entered under subheadings 1701.91.54, 1704.90.74, 1806.20.75, 1806.20.95, 1806.90.55, 1901.90.56, 2101.12.54, 2101.20.54, 2106.90.78 and 2106.90.95 during the 12-month period from October 1 in any year to the following September 30, inclusive, shall not exceed 64,709 metric tons (articles the product of Mexico shall not be permitted or included under this quantitative limitation and no such articles shall be classifiable therein).

9. The aggregate quantity of blended syrups described in additional U.S. note 4 to chapter 17, the foregoing goods entered under subheadings 1702.20.24, 1702.30.24, 1702.40.24, 1702.60.24, 1702.90.54, 1806.20.91, 1806.90.35, 2101.12.34, 2101.20.34, 2106.90.68 and 2106.90.89 during the 12-month period from October 1 in any year to the following September 30, inclusive, shall be none and no such articles shall be classifiable therein.

10. Heading 1703 does not include products derived from sugar cane or sugar beet and containing soluble non-sugar solids (excluding any foreign substance that may have been added or developed in the product) equal to 6 percent or less by weight of the total soluble solids.

11. For the purposes of subheading 1704.90.25, "cough drops" must contain a minimum of 5 mg per dose of menthol, of eucalyptol, or of a combination of menthol and eucalyptol.

Additional U.S. Notes

1. For the purposes of heading 2009:

   (a) The term "liter" in the "Rates of Duty" column of the provisions applicable to fruit juices means liter of natural unconcentrated fruit juice or liter of reconstituted fruit juice;

   (b) The term "reconstituted fruit juice" means the product which can be obtained by mixing the imported concentrate with water in such proportion that the product will have a Brix value equal to that found by the Secretary of the Treasury from time to time to be the average Brix value of like natural unconcentrated juice in the trade and commerce of the United States; and

   (c) The term "Brix value" means the refractometric sucrose value of the juice, adjusted to compensate for the effect of any added sweetening materials, and thereafter corrected for acid.

2. In determining the number of liters of reconstituted fruit juice which can be obtained from a concentrate, the degree of concentration shall be calculated on a volume basis to the nearest 0.5 degree, as determined by the ratio of the Brix value of the imported concentrated juice to that of the reconstituted juice, corrected for differences of specific gravity of the juices. Any juice having a degree of concentration of less than 1.5 (as determined before correction to the nearest 0.5 degree) shall be regarded as a natural unconcentrated juice.

3. In determining the degree of concentration of mixed fruit juices, the mixture shall be considered as being wholly of the component juice having the lowest Brix value.

4. The aggregate quantity of olives entered under subheadings 0711.20.18 and 2005.70.06 in any calendar year shall not exceed 4,400 metric tons.

5. The aggregate quantity of peanut butter and paste entered under subheading 2008.11.05 in any calendar year shall not exceed the quantities specified in this note (articles the product of Mexico shall not be permitted or included under the aforementioned quantitative limitation and no such articles shall be classifiable therein).

Canada	14,500
Argentina	3,650
Countries or territories identified in additional U.S. note 6 to this chapter combined (aggregate)	1,600
Other countries or areas	250

Imports of peanut butter and paste under this note are subject to regulations as may be issued by the United States Trade Representative or other designated agency.

For the purposes of heading 2104, the expression "homogenized composite food preparations" means preparations consisting of a finely homogenized mixture of two or more basic ingredients such as meat, fish, vegetables or fruit, put up for retail sale as infant food or for dietetic purposes, in containers of a net weight content not exceeding 250 g. For the application of this definition, no account is to be taken of small quantities of any ingredients which may be added to the mixture for seasoning, preservation or other purposes. Such preparations may contain a small quantity of visible pieces of ingredients.

Additional U.S. Notes

1. Subheadings 2106.90.48, 2106.90.52 and 2106.90.54 cover vitamin or mineral fortified fruit or vegetable juices that are imported only in concentrated form. Such juices imported in non-concentrated form are classifiable in subheadings 2202.90.30, 2202.90.35, 2202.90.36 or 2202.90.37, as appropriate.

2. For the purposes of subheadings 2106.90.48, 2106.90.52 and 2106.90.54:

   (a) The term "liter" in the "Rates of Duty" column of the provisions applicable to fruit juices means liter of reconstituted fruit juice;

   (b) The term "reconstituted fruit juice" means the product which can be obtained by mixing the imported concentrate with water in such proportion that the product will have a Brix value equal to that found by the Secretary of the Treasury from time to time to be the average Brix value of like natural unconcentrated juice in the trade and commerce of the United States; and

   (c) The term "Brix value" means the refractometric sucrose value of the juice, adjusted to compensate for the effect of any added sweetening materials, and thereafter corrected for acid.

   (d) In determining the number of liters of reconstituted fruit juice which can be obtained from a concentrate, the degree of concentration shall be calculated on a volume basis to the nearest 0.5 degree, as determined by the ratio of the Brix value of the imported concentrated juice to that of the reconstituted juice, corrected for differences of specific gravity of the juices. Any juice having a degree of concentration of less than 1.5 (as determined before correction to the nearest 0.5 degree) shall be regarded as a natural unconcentrated juice; and

   (e) In determining the degree of concentration of mixed fruit juices, the mixture shall be considered as being wholly of the component juice having the lowest Brix value.

3. For the purposes of this chapter, the term "mixed condiments and mixed seasonings described in additional U.S. note 3 to this chapter" means articles containing over 10 percent by dry weight of sugars derived from sugar cane or sugar beets, whether or not mixed with other ingredients, except (a) articles not principally of crystalline structure or not in dry amorphous form that are prepared for marketing to the ultimate consumer in the identical form and package in which imported; or (b) cake decorations and similar products to be used in the same condition as imported without any further processing other than the direct application to individual pastries or confections, finely ground or masticated coconut meat or juice thereof mixed with those sugars, and sauces and preparations therefor.

4. The aggregate quantity of mixed condiments and mixed seasonings described in additional U.S. note 3 to this chapter and entered under subheading 2103.90.74 during the 12-month period from October 1 in any year to the following September 30, inclusive, shall not exceed 689 metric tons (articles the product of Mexico shall not be permitted or included in the aforementioned quantitative limitation and no such articles shall be classifiable therein).

5. The aggregate quantity of ice cream entered under subheading 2105.00.10 in any calendar year shall not exceed 5,667,846 liters (articles the product of Mexico shall not be permitted or included in the aforementioned quantitative limitation and no such articles shall be classifiable therein).

   Of the quantitative limitations provided for in this note, the countries listed below shall have access to not less than the quantities specified below:

CHAPTER 22

BEVERAGES, SPIRITS AND VINEGAR

Notes

1. This chapter does not cover:

   (a) Products of this chapter (other than those of heading 2209) prepared for culinary purposes and thereby rendered unsuitable for consumption as beverages (generally heading 2103)

   (b) Sea water (heading 2501);

   (c) Distilled or conductivity water or water of similar purity (heading 2851);

   (d) Acetic acid of a concentration exceeding 10 percent by weight of acetic acid (heading 2915);

   (e) Medicaments of heading 3003 or 3004; or

   (f) Perfumery or toilet preparations (chapter 33).

2. For the purposes of this chapter and of chapters 20 and 2l, the "alcoholic strength by volume" shall be determined at a temperature of 20°C.

3. For the purposes of heading 2202 the term "nonalcoholic beverages" means beverages of an alcoholic strength by volume not exceeding 0.5 percent vol. Alcoholic beverages are classified in headings 2203 to 2206 or heading 2208 as appropriate.

Subheading Note

1. For the purposes of subheading 2204.10 the expression "sparkling wine" means wine which, when kept at a temperature of 20°C in closed containers, has an excess pressure of not less than 3 bars.

Additional U.S. Notes

1. The duties prescribed on products covered by this chapter are in addition to the internal-revenue taxes imposed under existing law or any subsequent act. The duties imposed on products covered by this chapter which are subject also to internal-revenue taxes are imposed only on the quantities subject to such taxes; except that, in the case of distilled spirits transferred to the bonded premises of a distilled spirits plant under the provisions of section 5232 of the Internal Revenue Code of 1954, the duties are imposed on the quantity withdrawn from customs custody.

2. Subheadings 2202.90.30, 2202.90.35, 2202.90.36 and 2202.90.37 cover vitamin or mineral fortified fruit or vegetable juices that are imported only in non-concentrated form. Such juices imported in concentrated form are classifiable in subheadings 2106.90.48, 2106.90.52 or 2106.90.54, as appropriate.

3. Dutiable quantities of alcoholic juices (including grape must) classified in heading 2204, 2206 or 2208 shall be calculated in accordance with additional U.S. notes 1, 2 and 3 in chapter 20.

4. The term "effervescent wine" means wine other than sparkling wine which contains in excess of 0.392 grams of carbon dioxide per 100 milliliters of wine.

5. Where in heading 2204, 2206, 2207 or 2208, the rates shown in the rates of duty columns are in terms of a proof liter, proof liter shall mean a liter of liquid at 15.56°C (60°F) which contains 50 percent (100 proof) by volume of ethyl alcohol having a specific gravity of 0.7939 at 15.56°C (60°F) referred to water at 15.56°C (60°F) as unity or the alcoholic equivalent thereof.

6. Where in heading 2204, 2206, 2207 or 2208, the rates of duty are assessed on a proof liter basis, the rates shown indicate the amount of duty which shall be collected on each liter of an imported product at 100 proof. The amount of duty which shall be collected for each liter of a product which is imported at more than or less than 100 proof shall bear the same ratio to the applicable rate of duty as the proof of the imported product bears to 100 proof.

7. The standard for determining the proof of brandy and other spirits or liquors of any kind when imported is the same as that which is defined in the laws relating to internal revenue. The Secretary of the Treasury, at his discretion, may authorize the ascertainment of the proof of wines, cordials or other liquors and fruit juices by distillation or otherwise, when it is impracticable to ascertain such proof by the means prescribed by existing law or regulations.

8. Provisions for the free entry of certain samples of alcoholic beverages are covered by subheading 9811.00.20 of chapter 98.

9. For the purposes of heading 2209, the standard proof of vinegar is 4 percent by weight of acetic acid.

CHAPTER 24

TOBACCO AND MANUFACTURED TOBACCO SUBSTITUTES

Note

1. This chapter does not cover medicinal cigarettes (chapter 30).

Additional U.S. Notes

1. The term "wrapper tobacco", as used in this chapter, means that quality of leaf tobacco which has the requisite color, texture and burn, and is of sufficient size for cigar wrappers, and the term "filler tobacco" means all other leaf tobacco.

2. The percentage of wrapper tobacco in a bale, box, package or other shipping unit is the ratio of the number of leaves of wrapper tobacco in such unit to the total number of leaves therein. In determining such percentage for classification purposes, the district director of customs shall examine at least 10 hands, and shall count the leaves in at least 2 hands, from each shipping unit designated for examination.

3. The dutiable weight of cigars and cigarettes includes the weight of all materials which are integral parts thereof.

4. Certain samples of tobacco products provided for in this chapter are entitled to duty-free treatment (chapter 98).

5. (a) The aggregate quantity of tobacco entered, or withdrawn from warehouse, for consumption under subheadings 2401.10.63, 2401.20.33, 2401.20.85, 2401.30.33, 2401.30.35, 2401.30.37, 2403.10.60, 2403.91.45 and 2403.99.60 during the period from September 13 in any year to the following September 12, inclusive, shall not exceed the quantities specified below.

	Quantity (metric tons)
Argentina	10,750
Brazil	80,200
Chile	2,750
European Community (aggregate of Austria, Belgium, Denmark, Finland, France, the Federal Republic of Germany, Greece, Ireland, Italy, Luxembourg, the Netherlands, Portugal, Spain, Sweden, and the United Kingdom)	10,000
Guatemala	10,000
Malawi	12,000
Philippines	3,000
Thailand	7,000
Zimbabwe	12,000
Other countries or areas	3,000

(b) The subheadings enumerated in subdivision (a) of this note shall not include--

(i) products of Canada, Israel or Mexico, or

(ii) any quantities of tobacco for which duty treatment is claimed under any provision of chapter 98 of this schedule,

and no such articles shall be classifiable in such subheadings.

(c) The quantitative limitations under this note are subject to regulations as may be issued by the United States Trade Representative or its designated agency.

(d) Notwithstanding any other provision of this note, imports of tobacco, other than the product of Canada, Israel or Mexico, shall be eligible for the rates of duty provided in, and shall be classified in, the subheadings specified in paragraph (a) of this note, provided that the articles were (1) exported from the country of origin prior to September 13, 1995, and (2) imported directly from the country of origin into the customs territory of the United States, accompanied by such documentation as may be determined necessary by the Secretary of Treasury. For the purposes of this paragraph, entries of tobacco withdrawn from warehouse for consumption or entries of tobacco from foreign-trade zones shall not be determined to be imported directly from the country of origin into the customs territory of the United States.

(e) For purposes of this chapter, imported tobaccos that are used to prepare cigarette tobaccos for marketing to the ultimate consumer to make hand-rolled cigarettes, are considered to be tobacco to be used in products other than cigarettes.

6. For the purposes of this chapter, the term "prepared for marketing to the ultimate consumer in the identical form and package in which imported" means that the product is imported in packaging of such sizes and labeling as to be readily identifiable as being intended for retail sale to the ultimate consumer without any alteration in the form of the product or its packaging.

SECTION V
MINERAL PRODUCTS

CHAPTER 25

SALT; SULFUR; EARTHS AND STONE;
PLASTERING MATERIALS, LIME AND CEMENT

Notes

1. Except where their context or note 4 to this chapter otherwise requires, the headings of this chapter cover only products which are in the crude state or which have been washed (even with chemical substances eliminating the impurities without changing the structure of the product), crushed, ground, powdered, levigated, sifted, screened, concentrated by flotation, magnetic separation or other mechanical or physical processes (except crystallization), but not products which have been roasted, calcined, obtained by mixing or subjected to processing beyond that mentioned in each heading.

   The products of this chapter may contain an added antidusting agent, provided that such addition does not render the product particularly suitable for a specific use rather than for general use.

2. This chapter does not cover:

   (a) Sublimed sulfur, precipitated sulfur or colloidal sulfur (heading 2802);

   (b) Earth colors containing 70 percent or more by weight of combined iron evaluated as Fe_2O_3 (heading 282l);

   (c) Medicaments or other products of chapter 30;

   (d) Perfumery, cosmetic or toilet preparations (chapter 33);

   (e) Setts, curbstones or flagstones (heading 6801); mosaic cubes and the like (heading 6802); roofing, facing or damp course slates (heading 6803);

   (f) Precious or semiprecious stones (heading 7102 or 7103);

   (g) Cultured crystals (other than optical elements) weighing not less than 2.5 g each, of sodium chloride or of magnesium oxide, of heading 3824; optical elements of sodium chloride or of magnesium oxide (heading 9001);

   (h) Billiard chalks (heading 9504); or

   (ij) Writing or drawing chalks or tailors' chalks (heading 9609).

3. Any products classifiable in heading 2517 and any other heading of the chapter are to be classified in heading 2517.

4. Heading 2530 applies, inter alia, to: vermiculite, perlite and chlorites, unexpanded; earth colors, whether or not calcined or mixed together; natural micaceous iron oxides; meerschaum (whether or not in polished pieces); amber; agglomerated meerschaum and agglomerated amber, in plates, rods, sticks or similar forms, not worked after molding; jet; strontianite (whether or not calcined), other than strontium oxide; broken pieces of pottery, brick or concrete.

Statistical Note

1. For the purposes of heading 2525:

   (a) The term "split block mica" means mica, not exceeding 0.508 mm in thickness, that has been split and selected within a tolerance of 0.203 mm, but which has not been cut or stamped to dimensions, shape or form;

   (b) The term "mica splittings" means mica laminae in book-form or book-pack, or in loose pack, suitable for use in the manufacture of agglomerated (built-up) mica included in heading 6815.

CHAPTER 26

ORES, SLAG AND ASH

Notes

1. This chapter does not cover:

   (a) Slag or similar industrial waste prepared as macadam (heading 2517);

   (b) Natural magnesium carbonate (magnesite), whether or not calcined (heading 2519);

   (c) Sludges from the storage tanks of petroleum oils, consisting mainly of such oils (heading 2710);

   (d) Basic slag of chapter 31;

   (e) Slag wool, rock wool or similar mineral wools (heading 6806);

   (f) Waste or scrap of precious metal or of metal clad with precious metal; other waste or scrap containing precious metal or precious metal compounds, of a kind used principally for the recovery of precious metal (heading 7112); or

   (g) Copper, nickel or cobalt mattes produced by any process of smelting (section XV).

2. For the purposes of headings 2601 to 2617, the term "ores" means minerals of mineralogical species actually used in the metallurgical industry for the extraction of mercury, of the metals of heading 2844 or of the metals of section XIV or XV, even if they are intended for nonmetallurgical purposes. Headings 2601 to 2617 do not, however, include minerals which have been submitted to processes not normal to the metallurgical industry.

3. Heading 2620 applies only to:

   - Ash and residues of a kind used in industry either for the extraction of metals or as a basis for the manufacture of chemical compounds of metals, excluding ash and residues from the incineration of municipal waste (heading 2621); and

   - Ash and residues containing arsenic, whether or not containing metals, of a kind used either for the extraction of arsenic or metals or for the manufacture of their chemical compounds.

Subheading Notes

1. For the purposes of subheading 2620.21.00, “leaded gasoline sludges and leaded anti-knock compound sludges” means sludges obtained from storage tanks of leaded gasoline and leaded anti-knock compounds (for example, tetraethyl lead), and consisting essentially of lead, lead compounds and iron oxide.

2. Ash and residues containing arsenic, mercury, thallium or their mixtures, of a kind used for the extraction of arsenic or those metals or for the manufacture of their chemical compounds, are to be classified in subheading 2620.60.

Additional U.S. Notes

1. The specific rates of duty imposed under the headings of this chapter on the metal content of ores and other materials shall apply to the assay quantity of metal contained therein, whether recovered as metals, as alloys or as chemical compounds or used directly in the manufacture of articles, except that with respect to ores or other materials provided for in this chapter which are subject to duty at specific rates on their copper, lead or zinc content, an absolute deduction for losses of 18 kg per dry metric ton from the respective quantities of each of such metal contents shall be allowed.

2. When the classification of imported materials under any provision of this chapter is dependent on the percentage of metal content, such percentage shall be the ratio of the total quantity of the respective metal content to the total quantity of imported material when computed on a dry-weight basis; i.e., free of all uncombined moisture.

Statistical Note

1. The quantity of metal content to be reported shall be the assay quantity without deductions.

2. For the purposes of subheading 2601.11.0060, the term "coarse" refers to iron ores with a majority of individual particles having a diameter exceeding 4.75 mm.

CHAPTER 27

MINERAL FUELS, MINERAL OILS AND PRODUCTS OF THEIR DISTILLATION; BITUMINOUS SUBSTANCES; MINERAL WAXES

Notes

1. This chapter does not cover:

   (a) Separate chemically defined organic compounds, other than pure methane and propane which are to be classified in heading 2711;

   (b) Medicaments of heading 3003 or 3004; or

   (c) Mixed unsaturated hydrocarbons of heading 3301, 3302 or 3805.

2. References in heading 2710 to "petroleum oils and oils obtained from bituminous minerals" include not only petroleum oils and oils obtained from bituminous minerals, but also similar oils, as well as those consisting mainly of mixed unsaturated hydrocarbons, obtained by any process, provided that the weight of the nonaromatic constituents exceeds that of the aromatic constituents.

   However, the references do not include liquid synthetic polyolefins of which less than 60 percent by volume distills at 300°C, after conversion to 1,013 millibars when a reduced-pressure distillation method is used (chapter 39).

3. For the purposes of heading 2710, “waste oils” means waste containing mainly petroleum oils and oils obtained from bituminous minerals (as described in note 2 to this chapter), whether or not mixed with water. These include:

   (a) Such oils no longer fit for use as primary products (for example, used lubricating oils, used hydraulic oils and used transformer oils);

   (b) Sludge oils from the storage tanks of petroleum oils, mainly containing such oils and a high concentration of additives (for example, chemicals) used in the manufacture of the primary products; and

   (c) Such oils in the form of emulsions in water or mixtures with water, sach as those resulting from oil spills, storage tank washings, or from the use of cutting oils for machining operations.

Subheading Notes

1. For the purposes of subheading 2701.11, "anthracite" means coal having a volatile matter limit (on a dry, mineral-matter-free basis) not exceeding 14 percent.

2. For the purposes of subheading 2701.12, "bituminous coal" means coal having a volatile matter limit (on a dry, mineral-matter-free basis) exceeding 14 percent and a calorific value limit (on a moist, mineral-matter-free basis) equal to or greater than 5,833 kcal/kg.

3. For the purposes of subheadings 2707.10, 2707.20, 2707.30, 2707.40 and 2707.60, the terms "benzene," "toluene," "xylenes," "naphthalene" and "phenols" apply to products which contain more than 50 percent by weight of benzene, toluene, xylenes, naphthalene or phenols, respectively.

4. For the purposes of subheading 2710.11, “light oils and preparations” are those of which 90 percent or more by volume (including losses) distill at 210°C (ASTM D 86 method).

Additional U.S. Notes

1. (a) Crude petroleum oils, crude oils obtained from bituminous minerals and reconstituted crude petroleum shall, if products of Canada, be admitted free of duty and any entry therefor shall be liquidated or reliquidated accordingly if, on or before the 180th day after the date of entry, documentation is filed with the customs officer concerned establishing that, pursuant to a commercial exchange agreement between the United States and Canadian refiners which has been approved by the Secretary of Energy--

   (i) An import license for the products covered by such entry has been issued by the Secretary; and

   (ii) An equivalent amount of domestic or duty-paid foreign crude petroleum oils, crude oils obtained from bituminous minerals or reconstituted crude petroleum have, pursuant to such commercial exchange agreement and to an export license issued by the Secretary of Commerce, been exported from the United States to Canada and have not previously been used to effect the duty-free entry of like Canadian products under this U.S. note.

   (b) The Secretary of the Treasury, after consulting with the Secretary of Commerce and the Secretary of Energy, shall issue such rules or regulations as may be necessary governing the admission of Canadian products pursuant to the provisions of this U.S. note.

2. For the purposes of heading 2710, "petroleum oils" includes only products having:

   (a) A Congealing Point (ASTM D 938) of less than 30°C; or

   (b) If the Congealing Point is not less than 30°C:

      (i) A density at 70°C of less than 0.942 and a Worked Cone Penetration (ASTM D 217) or a Cone Penetration (ASTM D 937) at 25°C of not less than 350; or

      (ii) If the density at 70°C is not less than 0.942 having a Needle Penetration (ASTM D 5) at 25°C of not less than 400.

3. For the purposes of subheading 2710.11.15, "motor fuel" is any product derived primarily from petroleum, shale or natural gas, whether or not containing additives, which is principally used as a fuel in internal-combustion or other engines.

4. For the purposes of subheadings 2710.11.18 and 2710.19.22, "motor fuel blending stock" means any product (except naphthas of subheading 2710.11.25) derived primarily from petroleum, shale oil or natural gas, whether or not containing additives, to be used for direct blending in the manufacture of motor fuel.

5. In determining the relative weights of components of the mixtures provided for in subheadings 2710.11.45 and 2710.19.45, naphtha and other petroleum derivatives which may be present in such mixtures as solvents shall be disregarded.

6. For the purposes of heading 2716:

   (a) The term "electrical energy" does not include electrical energy transmitted as a medium of communication; and

   (b) Electrical energy shall not be subject to the entry requirements for imported merchandise set forth in section 484 of the Tariff Act of 1930, as amended, (19 U.S.C. 1484), but shall be entered on a periodic basis in accordance with regulations to be prescribed by the Secretary of the Treasury.

7. For the purposes of this chapter, the term barrel (bbl) means a barrel of 158.98 liters measured at 15.6°C.

8. Subheading 2712.10.00 does not include petroleum jelly, suitable for use for the care of the skin, put up in packings of a kind sold at retail for such use (subheading 3304.99.10).

Statistical Note

1. For the purposes of statistical reporting number 2711.11.0000, the volume of liquid natural gas shall be reported on a gaseous equivalent volume basis.

SECTION VI

PRODUCTS OF THE CHEMICAL OR ALLIED INDUSTRIES

Notes

1. (a) Goods (other than radioactive ores) answering to a description in heading 2844 or 2845 are to be classified in those headings and in no other heading of the tariff schedule.

   (b) Subject to paragraph (a) above, goods answering to a description in heading 2843 or 2846 are to be classified in those headings and in no other heading of this section.

2. Subject to note 1 above, goods classifiable in heading 3004, 3005, 3006, 3212, 3303, 3304, 3305, 3306, 3307, 3506, 3707 or 3808 by reason of being put up in measured doses or for retail sale are to be classified in those headings and in no other heading of the tariff schedule.

3. Goods put up in sets consisting of two or more separate constituents, some or all of which fall in this section and are intended to be mixed together to obtain a product of section VI or VII, are to be classified in the heading appropriate to that product, provided that the constituents are:

   (a) Having regard to the manner in which they are put up, clearly identifiable as being intended to be used together without first being repacked;

   (b) Entered together; and

   (c) Identifiable, whether by their nature or by the relative proportions in which they are present, as being complementary one to another.

Additional U.S. Notes

1. In determining the amount of duty applicable to a solution of a single compound in water subject to duty in this section at a specific rate, an allowance in weight or volume, as the case may be, shall be made for the water in excess of any water of crystallization which may be present in the undissolved compound.

2. For the purposes of the tariff schedule:

   (a) The term "aromatic" as applied to any chemical compound refers to such compound containing one or more fused or unfused benzene rings;

   (b) The term "modified aromatic" describes a molecular structure having at least one six-membered heterocyclic ring which contains at least four carbon atoms and having an arrangement of molecular bonds as in the benzene ring or in the quinone ring, but does not include any such molecular structure in which one or more pyrimidine rings are the only modified aromatic rings present;

   (c) For the purposes of headings 2902, 2907 and 3817, the term "alkyl" describes any saturated acyclic hydrocarbon group having six or more carbon atoms or, subject to note 1 to chapter 29, any mixtures of such groups averaging six or more carbon atoms.

3. The term "products described in additional U.S. note 3 to section VI" refers to any product not listed in the Chemical Appendix to the Tariff Schedule and--

   (a) For which the importer furnishes the Chemical Abstracts Service (C.A.S.) registry number and certifies that such registry number is not listed in the Chemical Appendix to the Tariff Schedule; or

   (b) Which the importer certifies not to have a C.A.S. registry number and not to be listed in the Chemical Appendix to the Tariff Schedule, either under the name used to make Customs entry or under any other name by which it may be known.

CHAPTER 28

INORGANIC CHEMICALS; ORGANIC OR INORGANIC COMPOUNDS OF PRECIOUS METALS, OF RARE-EARTH METALS, OF RADIOACTIVE ELEMENTS OR OF ISOTOPES

Notes

1. Except where the context otherwise requires, the headings of this chapter apply only to:

   (a) Separate chemical elements and separate chemically defined compounds, whether or not containing impurities;

   (b) The products mentioned in (a) above dissolved in water;

   (c) The products mentioned in (a) above dissolved in other solvents provided that the solution constitutes a normal and necessary method of putting up these products adopted solely for reasons of safety or for transport and that the solvent does not render the product particularly suitable for specific use rather than for general use;

   (d) The products mentioned in (a), (b) or (c) above with an added stabilizer (including an anticaking agent) necessary for their preservation or transport;

   (e) The products mentioned in (a), (b), (c) or (d) above with an added antidusting agent or a coloring substance added to facilitate their identification or for safety reasons, provided that the additions do not render the product particularly suitable for specific use rather than for general use.

2. In addition to dithionites and sulfoxylates, stabilized with organic substances (heading 2831), carbonates and peroxocarbonates of inorganic bases (heading 2836), cyanides, cyanide oxides and complex cyanides of inorganic bases (heading 2837), fulminates, cyanates and thiocyanates, of inorganic bases (heading 2838), organic products included in headings 2843 to 2846, and carbides (heading 2849), only the following compounds of carbon are to be classified in this chapter:

   (a) Oxides of carbon, hydrogen cyanide and fulminic, isocyanic, thiocyanic and other simple or complex cyanogen acids (heading 2811);

   (b) Halide oxides of carbon (heading 2812);

   (c) Carbon disulfide (heading 2813);

   (d) Thiocarbonates, selenocarbonates, tellurocarbonates, selenocyanates, tellurocyanates, tetrathiocyanatodiamminochromates (reineckates) and other complex cyanates, of inorganic bases (heading 2842);

3. Subject to the provisions of note 1 to section VI, this chapter does not cover:

   (a) Sodium chloride or magnesium oxide, whether or not pure, or other products of section V;

   (b) Organo-inorganic compounds other than those mentioned in note 2 above;

   (c) Products mentioned in note 2, 3, 4 or 5 to chapter 31;

   (d) Inorganic products of a kind used as luminophores, of heading 3206; glass frit and other glass in the form of powder, granules or flakes, of heading 3207;

   (e) Artificial graphite (heading 3801); products put up as charges for fire-extinguishers or put up in fire-extinguishing grenades, of heading 3813; ink removers put up in packings for retail sale, of heading 3824; cultured crystals (other than optical elements) weighing not less than 2.5 g each, of the halides of the alkali or alkaline-earth metals, of heading 3824;

   (f) Precious or semiprecious stones (natural, synthetic or reconstructed) or dust or powder of such stones (headings 7102 to 7105), or precious metals or precious metal alloys of chapter 71;

   (g) The metals, whether or not pure, metal alloys or cermets, including sintered metal carbides (metal carbides sintered with a metal), of section XV; or

   (h) Optical elements, for example, of the halides of the alkali or alkaline-earth metals (heading 9001).

4. Chemically defined complex acids consisting of a nonmetal acid of subchapter II and a metal acid of subchapter IV are to be classified in heading 2811.

5. Headings 2826 to 2842 apply only to metal or ammonium salts or peroxysalts.

   Except where the context otherwise requires, double or complex salts are to be classified in heading 2842.

6. Heading 2844 applies only to:

   (a) Technetium (atomic No. 43), promethium (atomic No. 61), polonium (atomic No. 84) and all elements with an atomic number greater than 84;

   (b) Natural or artificial radioactive isotopes (including those of the precious metals or of the base metals of sections XIV and XV), whether or not mixed together;

   (c) Compounds, inorganic or organic, of these elements or isotopes, whether or not chemically defined, whether or not mixed together;

   (d) Alloys, dispersions (including cermets), ceramic products and mixtures containing these elements or isotopes or inorganic or organic compounds thereof and having a specific radioactivity exceeding 74 becquerels per gram (0.002 microcurie per gram);

   (e) Spent (irradiated) fuel elements (cartridges) of nuclear reactors;

   (f) Radioactive residues whether or not usable.

   The term "isotopes", for the purposes of this note and of the wording of headings 2844 and 2845, refers to:

   (i) Individual nuclides, excluding, however, those existing in nature in the monoiosotopic state;

   (ii) Mixtures of isotopes of one and the same element, enriched in one or several of the said isotopes, that is, elements of which the natural isotopic composition has been artificially modified.

7. Heading 2848 includes copper phosphide (phosphor copper) containing more than 15 percent by weight of phosphorus.

8. Chemical elements (for example, silicon and selenium) doped for use in electronics are to be classified in this chapter, provided that they are in forms unworked as drawn, or in the form of cylinders or rods. When cut in the form of discs, wafers or similar forms, they fall in heading 3818.

Statistical Note

1. For the purposes of heading 2804, the term "m^3" (cubic meter) means a standard cubic meter measured at 21°C at 760 mm (1013 millibars) pressure.

CHAPTER 29

ORGANIC CHEMICALS

Notes

1. Except where the context otherwise requires, the headings of this chapter apply only to:

   (a) Separate chemically defined organic compounds, whether or not containing impurities;

   (b) Mixtures of two or more isomers of the same organic compound (whether or not containing impurities), except mixtures of acyclic hydrocarbon isomers (other than stereoisomers), whether or not saturated (chapter 27);

   (c) The products of headings 2936 to 2939 or the sugar ethers, sugar acetals and sugar esters, and their salts, of heading 2940, or the products of heading 2941, whether or not chemically defined;

   (d) Products mentioned in (a), (b) or (c) above dissolved in water;

   (e) Products mentioned in (a), (b) or (c) above dissolved in other solvents provided that the solution constitutes a normal and necessary method of putting up these products adopted solely for reasons of safety or for transport and that the solvent does not render the product particularly suitable for specific use rather than for general use;

   (f) The products mentioned in (a), (b), (c), (d) or (e) above with an added stabilizer (including an anticaking agent) necessary for their preservation or transport;

   (g) The products mentioned in (a), (b), (c), (d), (e) or (f) above with an added antidusting agent or a coloring or odoriferous substance added to facilitate their identification or for safety reasons, provided that the additions do not render the product particularly suitable for specific use rather than for general use;

   (h) The following products, diluted to standard strengths, for the production of azo dyes: diazonium salts, couplers used for these salts and diazotizable amines and their salts.

2. This chapter does not cover:

   (a) Goods of heading 1504 or crude glycerol of heading 1520;

   (b) Ethyl alcohol (heading 2207 or 2208);

   (c) Methane or propane (heading 2711);

   (d) The compounds of carbon mentioned in note 2 to chapter 28;

   (e) Urea (heading 3102 or 3105);

   (f) Coloring matter of vegetable or animal origin (heading 3203), synthetic organic coloring matter, synthetic organic products of a kind used as fluorescent brightening agents or as luminophores (heading 3204) and dyes or other coloring matter put up in forms or packings for retail sale (heading 3212);

   (g) Enzymes (heading 3507);

   (h) Metaldehyde, hexamethylenetetramine or similar substances put up in forms (for example, tablets, sticks or similar forms) for use as fuels, or liquid or liquefied-gas fuels in containers of a kind used for filling or refilling cigarette or similar lighters, and of a capacity not exceeding 300 cm^3 (heading 3606);

   (ij) Products put up as charges for fire extinguishers or put up in fire-extinguishing grenades, of heading 3813; ink removers put up in packings for retail sale, of heading 3824; or

   (k) Optical elements, for example, of ethylenediamine tartrate (heading 9001).

3. Goods which could be included in two or more of the headings of this chapter are to be classified in that one of those headings which occurs last in numerical order.

4. In headings 2904 to 2906, 2908 to 2911 and 2913 to 2920, any reference to halogenated, sulfonated, nitrated or nitrosated derivatives includes a reference to compound derivatives, such as sulfohalogenated, nitrohalogenated, nitrosulfonated or nitrosulfohalogenated derivatives.

   Nitro or nitroso groups are not to be taken as "nitrogen-functions" for the purposes of heading 2929.

   For the purposes of headings 2911, 2912, 2914, 2918 and 2922, "oxygen-function" is to be restricted to the functions (the characteristic organic oxygen-containing groups) referred to in headings 2905 to 2920.

5. (a) The esters of acid-function organic compounds of subchapters I to VII with organic compounds of these subchapters are to be classified with that compound which is classified in the heading placed last in numerical order in these subchapters.

   (b) Esters of ethyl alcohol with acid-function organic compounds of subchapters I to VII are to be classified in the same heading as the corresponding acid-function compounds.

   (c) Subject to note l to section VI and note 2 to chapter 28:

      (1) Inorganic salts of organic compounds such as acid-, phenol- or enol-function compounds or organic bases, of subchapters I to X or heading 2942, are to be classified in the heading appropriate to the organic compound; and

      (2) Salts formed between organic compounds of subchapters I to X or heading 2942 are to be classified in the heading appropriate to the base or to the acid (including phenol- or enol-function compounds) from which they are formed, whichever occurs last in numerical order in the chapter.

   (d) Metal alcoholates are to be classified in the same heading as the corresponding alcohols except in the case of ethanol (heading 2905).

   (e) Halides of carboxylic acids are to be classified in the same heading as the corresponding acids.

6. The compounds of headings 2930 and 2931 are organic compounds the molecules of which contain, in addition to atoms of hydrogen, oxygen or nitrogen, atoms of other nonmetals or of metals (such as sulfur, arsenic, mercury or lead) directly linked to carbon atoms.

   Heading 2930 (organo-sulfur compounds) and heading 2931 (other organo-inorganic compounds) do not include sulfonated or halogenated derivatives (including compound derivatives) which, apart from hydrogen, oxygen and nitrogen, only have directly linked to carbon the atoms of sulfur or of a halogen which give them their nature of sulfonated or halogenated derivatives (or compound derivatives).

7. Headings 2932, 2933 and 2934 do not include epoxides with a three-membered ring, ketone peroxides, cyclic polymers of aldehydes or of thioaldehydes, anhydrides of polybasic carboxylic acids, cyclic esters of polyhydric alcohols or phenols with polybasic acids, or imides of polybasic acids.

   These provisions apply only when the ring-position hetero-atoms are those resulting solely from the cyclizing function or functions here listed.

8. For the purposes of heading 2937:

   (a) the term “hormones” includes hormone-releasing or hormone-stimulating factors, hormone inhibitors and hormone antagonists (antihormones);

   (b) the expression “used primarily as hormones” applies not only to hormone derivatives and structural analogues used primarily for their hormonal effect, but also to those derivatives and structural analogues used primarily as intermediates in the synthesis of products of this heading.

Subheading Note

1. Within any one heading of this chapter, derivatives of a chemical compound (or group of chemical compounds) are to be classified in the same subheading as that compound (or group of compounds) provided that they are not more specifically covered by any other subheading and that there is no residual subheading named "Other" in the series of subheadings concerned.

Statistical Note

1. For the purposes of statistical reporting numbers 2903.43.0000, 2903.44.0020 and 2903.46.0000, the ozone depletion equivalent (ode) of a chemical is defined as its ozone depletion potential, expressed in terms of the depletion potential of trichlorofluoromethane (CFC-11). The ozone depletion equivalent of each chemical is calculated by multiplying its net weight, in kilograms, by the appropriate ozone depletion factor listed below:

Chemical name	Ozone depletion factor
Trichlorotrifluoroethane (CFC-113)	0.8
Monochloropentafluoroethane (CFC-115)	0.6
Bromochlorodifluoroethane (Halon 1211)	3.0
Bromotrifluoromethane (Halon 1301)	10.0
Dibromotetrafluoroethane (Halon 2402)	6.0

Notes

1. This chapter does not cover:

   (a) Separate chemically defined elements or compounds (except those of heading 3203 or 3204, inorganic products of a kind used as luminophores (heading 3206), glass obtained from fused quartz or other fused silica in the forms provided for in heading 3207, and also dyes and other coloring matter put up in forms or packings for retail sale, of heading 3212);

   (b) Tannates or other tannin derivatives of products of headings 2936 to 2939, 2941 or 3501 to 3504; or

   (c) Mastics of asphalt or other bituminous mastics (heading 2715).

2. Heading 3204 includes mixtures of stabilized diazonium salts and couplers for the production of azo dyes.

3. Headings 3203, 3204, 3205 and 3206 apply also to preparations based on coloring matter (including, in the case of heading 3206, coloring pigments of heading 2530 or chapter 28, metal flakes and metal powders), of a kind used for coloring any material or used as ingredients in the manufacture of coloring preparations. The headings do not apply, however, to pigments dispersed in nonaqueous media, in liquid or paste form, of a kind used in the manufacture of paints, including enamels (heading 3212), or to other preparations of heading 3207, 3208, 3209, 3210, 3212, 3213 or 3215.

4. Heading 3208 includes solutions (other than collodions) consisting of any of the products specified in headings 3901 to 3913 in volatile organic solvents when the weight of the solvent exceeds 50 percent of the weight of the solution.

5. The expression "coloring matter" in this chapter does not include products of a kind used as extenders in oil paints, whether or not they are also suitable for coloring distempers.

6. The expression "stamping foils" in heading 3212 applies only to thin sheets of a kind used for printing, for example, book covers or hat bands, and consisting of--

   (a) Metallic powder (including powder of precious metal) or pigment, agglomerated with glue, gelatin or other binder; or

   (b) Metal (including precious metal) or pigment, deposited on a supporting sheet of any material.

Additional U.S. Note

1. For the purposes of subheadings 3204.11.10, 3204.12.20 and 3204.16.20, the term "dyes containing, by weight" means those products which contain as the only dye components, the specified components listed therewith, each of which must be present in the product. A tolerance of plus or minus two percentage points from the named percentages is allowable.

CHAPTER 38

MISCELLANEOUS CHEMICAL PRODUCTS

Notes

1. This chapter does not cover:

   (a) Separate chemically defined elements or compounds with the exception of the following:

      (1) Artificial graphite (heading 3801);

      (2) Insecticides, rodenticides, fungicides, herbicides, antisprouting products and plant-growth regulators, disinfectants and similar products put up as described in heading 3808;

      (3) Products put up as charges for fire-extinguishers or put up in fire-extinguishing grenades (heading 3813);

      (4) Certified reference materials specified in note 2 below;

      (5) Products specified in note 3(a) or 3(c) below.

   (b) Mixtures of chemicals with foodstuffs or other substances with nutritive value, of a kind used in the preparation of human foodstuffs (generally, heading 2106);

   (c) Ash and residues (including sludges, other than sewage sludge), containing metals, arsenic or their mixtures and meeting the requirements of note 3(a) or 3(b) to chapter 26 (heading 2620);

   (d) Medicaments (heading 3003 or 3004); or

   (e) Spent catalysts of a kind used for the extraction of base metals or for the manufacture of chemical compounds of base metals (heading 2620), spent catalysts of a kind used principally for the recovery of precious metal (heading 7112) or catalysts consisting of metals or metal alloys in the form of, for example, finely divided powder or woven gauze (section XIV or XV).

2. (a) For the purposes of heading 3822, the expression "certified reference materials" means reference materials which are accompanied by a certificate which indicates the values of the certified properties, the methods used to determine these values and the degree of certainty associated with each value and which are suitable for analytical, calibrating or referencing purposes.

   (b) With the exception of the products of chapter 28 or 29, for the classification of certified reference materials, heading 3822 shall take precedence over any other heading in the tariff schedule.

3. Heading 3824 includes the following goods which are not to be classified in any other heading of the tariff schedule:

   (a) Cultured crystals (other than optical elements) weighing not less than 2.5 g each, of magnesium oxide or of the halides of the alkali or alkaline-earth metals;

   (b) Fusel oil; Dippel's oil;

   (c) Ink removers put up in packings for retail sale;

   (d) Stencil correctors and other correcting fluids put up in packings for retail sale; and

   (e) Ceramic firing testers, fusible (for example, Seger cones).

4. Throughout the tariff schedule, "municipal waste" means waste of a kind collected from households, hotels, restaurants, hospitals, shops, offices, etc., road and pavement sweepings, as well as construction and demolition waste. Municipal waste generally contains a large variety of materials such as plastics, rubber, wood, paper, textiles, glass, metals, food materials, broken furniture ad other damaged or discarded articles. The term "municipal waste," does not cover:

   (a) Individual materials or articles segregated from the waste, such as wastes of plastics, rubber, wood, paper, textiles, glass or metals and spent batteries, which fall in their appropriate headings of the tariff schedule;

   (b) Industrial waste:

   (c) Waste pharmaceuticals, as defined in note 4(k) to chapter 30; or

   (d) Clinical waste, as defined in note 6(a), below.

5. For the purposes of heading 3825, "sewage sludge" means sludge arising from urban effluent treatment plants and includes pre-treatment waste, scourings and unstabilized sludge. Stabilized sludge, when suitable for use as fertilizer, is excluded (chapter 31).

6. For the purposes of heading 3825, the expression "other wastes" applies to:

   (a) Clinical waste, that is, contaminated waste arising from medical research, diagnosis, treatment or other medical, surgical, dental or veterinary procedures, which often contain pathogens and pharmaceutical substances and require special disposal procedures (for example, soiled dressings, used gloves and used syringes);

   (b) Waste organic solvents;

   (c) Wastes of metal pickling liquors, hydraulic fluids, brake fluids and anti-freezing fluids; and

   (d) Other wastes from chemical or allied industries.

   The expression "other wastes" does not, however, cover wastes which contain mainly petroleum oils or oils obtained from bituminous materials (heading 2710).

Subheading Note

1. For the purposes of subheadings 3825.41 and 3825.49, "waste organic solvents" are wastes containing mainly organic solvents, not fit for further use as presented as primary products, whether or not intended for recovery of the solvents.

SECTION VII

PLASTICS AND ARTICLES THEREOF;
RUBBER AND ARTICLES THEREOF

Notes

1. Goods put up in sets consisting of two or more separate constituents, some or all of which fall in this section and are intended to be mixed together to obtain a product of section VI or VII, are to be classified in the heading appropriate to that product, provided that the constituents are:

   (a) Having regard to the manner in which they are put up, clearly identifiable as being intended to be used together without first being repacked;

   (b) Entered together; and

   (c) Identifiable, whether by their nature or by the relative proportions in which they are present, as being complementary one to another.

2. Except for the goods of heading 3918 or 3919, plastics, rubber and articles thereof, printed with motifs, characters or pictorial representations, which are not merely incidental to the primary use of the goods, fall in chapter 49.

CHAPTER 39

PLASTICS AND ARTICLES THEREOF

Notes

1. Throughout the tariff schedule the expression "plastics" means those materials of headings 3901 to 3914 which are or have been capable, either at the moment of polymerization or at some subsequent stage, of being formed under external influence (usually heat and pressure, if necessary with a solvent or plasticizer) by molding, casting, extruding, rolling or other process into shapes which are retained on the removal of the external influence.

   Throughout the tariff schedule, any reference to "plastics" also includes vulcanized fiber. The expression, however, does not apply to materials regarded as textile materials of section XI.

2. This chapter does not cover:

   (a) Waxes of heading 2712 or 3404;

   (b) Separate chemically defined organic compounds (chapter 29);

   (c) Heparin or its salts (heading 3001);

   (d) Solutions (other than collodions) consisting of any of the products specified in headings 3901 to 3913 in volatile organic solvents when the weight of the solvent exceeds 50 percent of the weight of the solution (heading 3208); stamping foils of heading 3212;

   (e) Organic surface-active agents or preparations of heading 3402;

   (f) Run gums or ester gums (heading 3806);

   (g) Diagnostic or laboratory reagents on a backing of plastics (heading 3822);

   (h) Synthetic rubber, as defined for the purposes of chapter 40, or articles thereof;

   (ij) Saddlery or harness (heading 4201) or trunks, suitcases, handbags or other containers of heading 4202;

   (k) Plaits, wickerwork or other articles of chapter 46;

   (l) Wall coverings of heading 4814;

   (m) Goods of section XI (textiles and textile articles);

   (n) Articles of section XII (for example, footwear, headgear, umbrellas, sun umbrellas, walking-sticks, whips, riding-crops or parts thereof);

   (o) Imitation jewelry of heading 7117;

   (p) Articles of section XVI (machines and mechanical or electrical appliances);

   (q) Parts of aircraft or vehicles of section XVII;

   (r) Articles of chapter 90 (for example, optical elements, spectacle frames, drawing instruments);

   (s) Articles of chapter 91 (for example, clock or watch cases);

   (t) Articles of chapter 92 (for example, musical instruments or parts thereof);

   (u) Articles of chapter 94 (for example, furniture, lamps and lighting fittings, illuminated signs, prefabricated buildings);

   (v) Articles of chapter 95 (for example, toys, games, sports equipment); or

   (w) Articles of chapter 96 (for example, brushes, buttons, slide fasteners, combs, mouthpieces or stems for smoking pipes, cigarette holders or the like, parts of vacuum flasks or the like, pens, mechanical pencils).

3. Headings 3901 to 3911 apply only to goods of a kind produced by chemical synthesis, falling in the following categories:

   (a) Liquid synthetic polyolefins of which less than 60 percent by volume distills at 300°C, after conversion to 1,013 millibars when a reduced-pressure distillation method is used (headings 3901 and 3902);

   (b) Resins, not highly polymerized, of the coumarone-indene type (heading 3911);

   (c) Other synthetic polymers with an average of at least five monomer units;

   (d) Silicones (heading 3910);

   (e) Resols (heading 3909) and other prepolymers.

4. The expression "copolymers" covers all polymers in which no single monomer contributes 95 percent or more by weight to the total polymer content.

   For the purposes of this chapter, except where the context otherwise requires, copolymers (including co-polycondensates, co-polyaddition products, block copolymers and graft copolymers) and polymer blends are to be classified in the heading covering polymers of that comonomer unit which predominates by weight over every other single comonomer unit. For the purposes of this note, constituent comonomer units of polymers falling in the same heading shall be taken together.

   If no single comonomer predominates, copolymers or polymer blends, as the case may be, are to be classified in the heading which occurs last in numerical order among those which equally merit consideration.

5. Chemically modified polymers, that is, those in which only appendages to the main polymer chain have been changed by chemical reaction, are to be classified in the heading appropriate to the unmodified polymer. This provision does not apply to graft copolymers.

6. In headings 3901 to 3914, the expression "primary forms" applies only to the following forms:

   (a) Liquids and pastes, including dispersions (emulsions and suspensions) and solutions;

   (b) Blocks of irregular shape, lumps, powders (including molding powders), granules, flakes and similar bulk forms.

7. Heading 3915 does not apply to waste, parings and scrap of a single thermoplastic material, transformed into primary forms (headings 3901 to 3914).

8. For the purposes of heading 3917, the expression "tubes, pipes and hoses" means hollow products, whether semimanufactures or finished products, of a kind generally used for conveying, conducting or distributing gases or liquids (for example, ribbed garden hose, perforated tubes). This expression also includes sausage casings and other lay-flat tubing. However, except for the last mentioned, those having an internal cross section other than round, oval, rectangular (in which the length does not exceed 1.5 times the width) or in the shape of a regular polygon are not to be regarded as tubes, pipes and hoses, but as profile shapes.

9. For the purposes of heading 3918, the expression "wall or ceiling coverings of plastics" applies to products in rolls, of a width not less than 45 cm, suitable for wall or ceiling decoration, consisting of plastics fixed permanently on a backing of any material other than paper, the layer of plastics (on the face side) being grained, embossed, colored, design-printed or otherwise decorated.

10. In headings 3920 and 3921, the expression "plates, sheets, film, foil and strip" applies only to plates, sheets, film, foil and strip (other than those of chapter 54) and to blocks of regular geometric shape, whether or not printed or otherwise surface-worked, uncut or cut into rectangles (including squares) but not further worked (even if when so cut they become articles ready for use).

11. Heading 3925 applies only to the following articles, not being products covered by any of the earlier headings of sub-chapter II:

    (a) Reservoirs, tanks (including septic tanks), vats and similar containers, of a capacity exceeding 300 liters;

    (b) Structural elements used, for example, in floors, walls or partitions, ceilings or roofs;

    (c) Gutters and fittings therefor;

    (d) Doors, windows and their frames and thresholds for doors;

    (e) Balconies, balustrades, fencing, gates and similar barriers;

    (f) Shutters, blinds (including venetian blinds) and similar articles and parts and fittings thereof;

    (g) Large-scale shelving for assembly and permanent installation, for example, in shops, workshops, warehouses;

(h) Ornamental architectural features, for example, flutings, cupolas, dovecotes; and

(ij) Fittings and mountings intended for permanent installation in or on doors, windows, staircases, walls or other parts of buildings, for example, knobs, handles, hooks, brackets, towel rails, switch plates and other protective plates.

Subheading Notes

1. Within any one heading of this chapter, polymers (including copolymers) are to be classified according to the following provisions:

   (a) Where there is a subheading named "Other" in the same series:

      (1) The designation in a subheading of a polymer by the prefix "poly" (e.g., polyethylene and polyamide-6,6) means that the constituent monomer unit or monomer units of the named polymer taken together must contribute 95 percent or more by weight of the total polymer content.

      (2) The copolymers named in subheadings 3901.30, 3903.20, 3903.30 and 3904.30 are to be classified in those subheadings, provided that the comonomer units of the named copolymers contribute 95 percent or more by weight of the total polymer content.

      (3) Chemically modified polymers are to be classified in the subheading named "Other", provided that the chemically modified polymers are not more specifically covered by another subheading.

      (4) Polymers not meeting (1), (2), or (3), above, are to be classified in the subheading, among the remaining subheadings in the series, covering polymers of that monomer unit which predominates by weight over every other single comonomer unit. For this purpose, constituent monomer units of polymers falling in the same subheading shall be taken together. Only the constituent comonomer units of the polymers in the series of subheadings under consideration are to be compared.

   (b) Where there is no subheading named "Other" in the same series:

      (1) Polymers are to be classified in the subheading covering polymers of that monomer unit which predominates by weight over every other single comonomer unit. For this purpose, constituent monomer units of polymers falling in the same subheading shall be taken together. Only the constituent comonomer units of the polymers in the series under consideration are to be compared.

      (2) Chemically modified polymers are to be classified in the subheading appropriate to the unmodified polymer.

   Polymer blends are to be classified in the same subheading as polymers of the same monomer units in the same proportions.

2. For the purposes of subheading 3920.43, the term “plasticizers” includes secondary plasticizers.

Additional U.S. Notes

1. For the purposes of this chapter, the term "elastomeric" means a plastics material which after cross-linking can be stretched at 20°C to at least three times its original length and that, after having been stretched to twice its original length and the stress removed, returns within five minutes to less than 150 percent of its original length. Elastomeric plastics may also contain fillers, extenders, pigments or rubber-processing chemicals, whether or not such plastics material, after the addition of such fillers, extenders, pigments or chemicals, can meet the tests specified in the first part of this note.

2. For the purposes of heading 3916, the rate of duty "Free (B)" appearing in the "Special" subcolumn applies only to articles measuring not more than 38.1 cm in length.

3. For the purposes of heading 3917, with respect to tubes, pipes and hoses, the rate of duty "Free (C)" appearing in the "Special" subcolumn applies only to tubes, pipes and hoses having attached fittings.

4. For the purposes of heading 3921, the rate of duty "Free (B)" appearing in the "Special" subcolumn applies only to articles measuring not more than 38.1 cm in width and not more than 45.7 cm in length.

Statistical Note

1. For the purposes of statistical reporting number 3907.60.0010 the term "bottle-grade resins" refers to uncompounded resins having an intrinsic viscosity of at least 0.68 but not more than 0.86 deciliters per gram, as determined by ASTM D2857-70.

CHAPTER 40

RUBBER AND ARTICLES THEREOF

Notes

1. Except where the context otherwise requires, throughout the tariff schedule the expression "rubber" means the following products, whether or not vulcanized or hard: natural rubber, balata, gutta-percha, guayule, chicle and similar natural gums, synthetic rubber, factice derived from oils and such substances reclaimed.

2. This chapter does not cover:

   (a) Goods of section XI (textiles and textile articles);

   (b) Footwear or parts thereof of chapter 64;

   (c) Headgear or parts thereof (including bathing caps) of chapter 65;

   (d) Mechanical or electrical appliances or parts thereof of section XVI (including electrical goods of all kinds), of hard rubber;

   (e) Articles of chapter 90, 92, 94 or 96; or

   (f) Articles of chapter 95 (other than sports gloves, mittens and mitts and articles of headings 4011 to 4013).

3. In headings 4001 to 4003 and 4005, the expression "primary forms" applies only to the following forms :

   (a) Liquids and pastes (including latex, whether or not prevulcanized, and other dispersions and solutions);

   (b) Blocks of irregular shape, lumps, bales, powders, granules, crumbs and similar bulk forms.

4. In note 1 to this chapter and in heading 4002, the expression "synthetic rubber" applies to:

   (a) Unsaturated synthetic substances which can be irreversibly transformed by vulcanization with sulfur into non- thermoplastic substances which, at a temperature between 18°C and 29°C, will not break on being extended to three times their original length and will return, after being extended to twice their original length, within a period of 5 minutes, to a length not greater than 1-1/2 times their original length. For the purposes of this test, substances necessary for the cross-linking, such as vulcanizing activators or accelerators, may be added; the presence of substances as provided for by note 5(b)(ii) and (iii) is also permitted. However, the presence of any substances not necessary for the cross-linking, such as extenders, plasticizers and fillers, is not permitted;

   (b) Thioplasts (TM); and

   (c) Natural rubber modified by grafting or mixing with plastics, depolymerized natural rubber, mixtures of unsaturated synthetic substances with saturated synthetic high polymers provided that all the above-mentioned products comply with the requirements concerning vulcanization, elongation and recovery in (a) above.

5. (a) Headings 4001 and 4002 do not apply to any rubber or mixture of rubbers which has been compounded, before or after coagulation, with:

      (i) Vulcanizing agents, accelerators, retarders or activators (other than those added for the preparation of prevulcanized rubber latex);

      (ii) Pigments or other coloring matter other than those added solely for the purpose of identification;

      (iii) Pasticizers or extenders (except mineral oil in the case of oil-extended rubber), fillers, reinforcing agents, organic solvents or any other substances, except those permitted under (b);

   (b) The presence of the following substances in any rubber or mixture of rubbers shall not affect its classification in heading 4001 or 4002, as the case may be, provided that such rubber or mixture of rubbers retains its essential character as a raw material:

      (i) Emulsifiers or antitack agents;

      (ii) Small amounts of breakdown products of emulsifiers;

      (iii) Very small amounts of the following: heat-sensitive agents (generally for obtaining thermosensitive rubber latexes), cationic surface-active agents (generally for obtaining electro-positive rubber latexes), antioxidants, coagulants, crumbling agents, freeze-resisting agents, peptizers, preservatives, stabilizers, viscosity-control agents or similar special-purpose additives.

6. For the purposes of heading 4004 the expression "waste, parings and scrap" means rubber waste, parings and scrap from the manufacture or working of rubber and rubber goods definitely not usable as such because of cutting-up, wear or other reasons.

7. Thread wholly of vulcanized rubber, of which any cross-sectional dimension exceeds 5 mm, is to be classified as strip, rods or profile shapes, of heading 4008.

8. Heading 4010 includes conveyor or transmission belts or belting of textile fabric impregnated, coated, covered or laminated with rubber or made from textile yarn or cord impregnated, coated, covered or sheathed with rubber.

9. In headings 4001, 4002, 4003, 4005 and 4008, the expressions "plates", "sheets" and "strip" apply only to plates, sheets and strip, and to blocks of regular geometric shape, uncut or simply cut to rectangular (including square) shape, whether or not having the character of articles and whether or not printed or otherwise surface-worked, but not otherwise cut to shape or further worked.

   In heading 4008 the expressions "rods" and "profile shapes" apply only to such products, whether or not cut to length or surface-worked but not otherwise worked.

Additional U.S. notes

1. For the purposes of subheading 4008.21, the rate of duty "Free (B)" appearing in the "Special" subcolumn applies only to articles measuring not more than 38.1 cm in width and not more than 45.7 cm in length.

2. For the purposes of subheading 4008.29, the rate of duty "Free (C)" appearing in the "Special" subcolumn applies only to profile shapes that are cut to size.

3. For the purposes of heading 4017, the rate of duty "Free (C)" appearing in the "Special" subcolumn applies only to tubes and pipes having attached fittings.

CHAPTER 41

RAW HIDES AND SKINS (OTHER THAN FURSKINS) AND LEATHER

Notes

1. This chapter does not cover:

   (a) Parings or similar waste, of raw hides or skins (heading 0511);

   (b) Birdskins or parts of birdskins, with their feathers or down, of heading 0505 or 6701; or

   (c) Hides or skins, with the hair or wool on, raw, tanned or dressed (chapter 43); the following are, however, to be classified in chapter 41, namely, raw hides and skins with the hair or wool on, of bovine animals (including buffalo), of equine animals, of sheep or lambs (except Astrakhan, Broadtail, Caracul, Persian or similar lambs, Indian, Chinese, Mongolian or Tibetan lambs), of goats or kids (except Yemen, Mongolian or Tibetan goats and kids), of swine (including peccary), of chamois, of gazelle, of reindeer, of elk, of deer, of roebucks or of dogs.

2. (a) Headings 4104 to 4106 do not cover hides and skins which have undergone a tanning (including pre-tanning) process which is reversible (headings 4101 to 4103, as the case may be).

   (b) For the purposes of headings 4104 to 4106, the term “crust” includes hides and skins that have been retanned, colored or fat-liquored (stuffed) prior to drying.”

3. Throughout the tariff schedule the expression "composition leather" means only substances of the kind referred to in heading 4115.

Additional U.S. Note

1. The term "fancy" as applied to leather, means leather which has been embossed, printed or otherwise decorated in any manner or to any extent (including leather on which the original grain has been accentuated by any process, but excluding leather of subheading 4114.20).

Notes

1. Throughout the tariff schedule references to "furskins", other than to raw furskins of heading 4301, apply to hides or skins of all animals which have been tanned or dressed with the hair or wool on.

2. This chapter does not cover:

   (a) Birdskins or parts of birdskins, with their feathers or down (heading 0505 or 6701);

   (b) Raw hides or skins, with the hair or wool on, of chapter 41 (see note 1(c) to that chapter);

   (c) Gloves, mittens and mitts consisting of leather and furskin or of leather and artificial fur (heading 4203);

   (d) Articles of chapter 64;

   (e) Headgear or parts thereof of chapter 65; or

   (f) Articles of chapter 95 (for example, toys, games, sports equipment).

3. Heading 4303 includes furskins and parts thereof, assembled with the addition of other materials, and furskins and parts thereof, sewn together in the form of garments or parts or accessories of garments or in the form of other articles.

4. Articles of apparel and clothing accessories (except those excluded by note 2) lined with furskin or artificial fur or to which furskin or artificial fur is attached on the outside except as mere trimming are to be classified in heading 4303 or 4304 as the case may be.

5. Throughout the tariff schedule the expression "artificial fur" means any imitation of furskin consisting of wool, hair or other fibers gummed or sewn on to leather, woven fabric or other materials, but does not include imitation furskins obtained by weaving or knitting (generally, heading 5801 or 6001).

2. In this chapter, the expression "densified wood" means wood which has been subjected to chemical or physical treatment (being, in the case of layers bonded together, treatment in excess of that needed to insure a good bond), and which has thereby acquired increased density or hardness together with improved mechanical strength or resistance to chemical or electrical agencies.

3. Headings 4414 to 4421 apply to articles of the respective descriptions of particle board or similar board, fiberboard, laminated wood or densified wood as they apply to such articles of wood.

4. Products of heading 4410, 4411 or 4412 may be worked to form the shapes provided for in respect of the articles of heading 4409, curved, corrugated, perforated, cut or formed to shapes other than square or rectangular or submitted to any other operation provided it does not give them the character of articles of other headings.

5. Heading 4417 does not apply to tools in which the blade, working edge, working surface or other working part is formed by any of the materials specified in note 1 to chapter 82.

6. Subject to note 1 above and except where the context otherwise requires, any reference to "wood" in a heading of this chapter applies also to bamboo and other materials of a woody nature.

Subheading Note

1. For the purposes of subheadings 4403.41 to 4403.49, 4407.24 to 4407.29, 4408.31 to 4408.39 and 4412.13 to 4412.99, the expression “tropical wood” means one of the following types of wood :

Additional U.S. Notes

1. In this chapter:

   (a) The term "wood waste" means residual material other than firewood resulting from the processing of wood, including scraps, shavings, sawdust, veneer clippings, chipper rejects and similar small wood residues, as well as larger or coarser solid types of residual wood such as slabs, edgings, cull pieces and veneer log cores;

   (b) The term "standard wood moldings" means wood moldings worked to a pattern and having the same profile in cross section throughout their length; and

   (c) The term "surface covered," as applied to the articles of headings 4411 and 4412, means that one or more exterior surfaces of a product have been treated with creosote or other wood preservatives, or with fillers, sealers, waxes, oils, stains, varnishes, paints or enamels, or have been overlaid with paper, fabric, plastics, base metal, or other material.

2. The effectiveness of the proviso to section 304(a)(3)(J) of the Tariff Act of 1930 (19 U.S.C. 1304(a)(3)(J)), to the extent permitted by that section and as provided for in schedule XX to the General Agreement on Tariffs and Trade, is suspended, with the result that sawed lumber and sawed timbers however provided for, telephone, trolley, electric light and telegraph poles of wood and bundles of shingles, other than red cedar shingles, shall not be required to be marked to indicate the country of origin.

3. Heading 4409 includes articles having a repeating design worked along any edge or face.

Statistical Note

1. For the purposes of heading 4407, the term "rough" includes wood that has been edged, resawn, crosscut or trimmed to smaller sizes but it does not include wood that has been dressed or surfaced by planing on one or more edges or faces or has been edge-glued or end-glued.

   (e) Articles of chapter 94 (for example, furniture, lamps and lighting fittings).

3. For the purposes of heading 4601, the expression "plaiting materials, plaits and similar products of plaiting materials, bound together in parallel strands" means plaiting materials, plaits and similar products of plaiting materials, placed side by side and bound together, in the form of sheets, whether or not the binding materials are of spun textile materials.

U.S. Note

1. If any country, dependency, province or other subdivision of government shall forbid or restrict in any way the exportation of (whether by law, order, regulation, contractual relation or otherwise, directly or indirectly), or impose any export duty, export license fee or other export charge of any kind whatsoever (whether in the form of additional charge or license fee or otherwise) upon printing paper, or woodpulp or wood for use in the manufacture of woodpulp, the President may enter into negotiations with such country, dependency, province or other subdivision of government to secure the removal of such prohibition, restriction, export duty or other export charge, and if it is not removed he may, by proclamation, declare such failure of negotiations, setting forth the facts.

   Thereupon, and until such prohibition, restriction, export duty or other export charge is removed, there shall be imposed upon printing paper (other than cover paper, India paper and bible paper) provided for in subheadings 4802.51, 4802.52, 4802.53 and 4802.60, when imported either directly or indirectly from such country, dependency, province or other subdivision of government, an additional duty of 10 percent ad valorem and in addition thereto an amount equal to the highest export duty or other export charge imposed by such country, dependency, province or other subdivision of government, upon either an equal amount of printing paper or an amount of woodpulp or wood for use in the manufacture of woodpulp necessary to manufacture such printing paper.

CHAPTER 48

PAPER AND PAPERBOARD; ARTICLES OF PAPER PULP, OF PAPER OR OF PAPERBOARD

Notes

1. For the purposes of this chapter, except where the context otherwise requires, a reference to "paper" includes references to paperboard (irrespective of thickness or weight per m^2).

2. This chapter does not cover:

   (a) Articles of chapter 30;

   (b) Stamping foils of heading 3212;

   (c) Perfumed papers or papers impregnated or coated with cosmetics (chapter 33);

   (d) Paper or cellulose wadding impregnated, coated or covered with soap or detergent (heading 3401), or with polishes, creams or similar preparations (heading 3405);

   (e) Sensitized paper or paperboard of headings 3701 to 3704;

   (f) Paper impregnated with diagnostic or laboratory reagents (heading 3822);

   (g) Paper-reinforced stratified sheeting of plastics, or one layer of paper or paperboard coated or covered with a layer of plastics, the latter constituting more than half the total thickness, or articles of such materials, other than wallcoverings of heading 4814 (chapter 39);

   (h) Articles of heading 4202 (for example, travel goods);

   (ij) Articles of chapter 46 (manufactures of plaiting material);

   (k) Paper yarn or textile articles of paper yarn (section XI);

   (l) Articles of chapter 64 or chapter 65;

   (m) Abrasive paper or paperboard (heading 6805) or paper- or paperboard-backed mica (heading 6814) (paper and paperboard coated with mica powder are, however, to be classified in this chapter);

   (n) Metal foil backed with paper or paperboard (section XV);

   (o) Articles of heading 9209; or

   (p) Articles of chapter 95 (for example, toys, games, sports equipment) or chapter 96 (for example, buttons).

3. Subject to the provisions of note 7, headings 4801 to 4805 include paper and paperboard which have been subjected to calendering, super-calendering, glazing or similar finishing, false water-marking or surface sizing, and also paper, paperboard, cellulose wadding and webs of cellulose fibers, colored or marbled throughout the mass by any method. Except where heading 4803 otherwise requires, these headings do not apply to paper, paperboard, cellulose wadding or webs of cellulose fibers which have been otherwise processed.

4. In this chapter, the expression "newsprint" means uncoated paper of a kind used for the printing of newspapers, of which not less than 65 percent by weight of the total fiber content consists of wood fibers obtained by a mechanical or chemi-mechanical process, unsized or very lightly sized, having a surface roughness Parker Print Surf (1 MPa) on each side exceeding 2.5 micrometers (microns), weighing not less than 40 g/m^2 and not more than 65 g/m^2.

X
48-2

5. For the purposes of heading 4802, the expressions "paper and paperboard, of a kind used for writing, printing or other graphic purposes" and "nonperforated punch-cards and punch tape paper" mean paper and paperboard made mainly from bleached pulp or from pulp obtained by a mechanical or chemi-mechanical process and satisfying any of the following criteria:

   For paper or paperboard weighing not more than 150 g/m^2:

   (a) Containing 10 percent or more of fibers obtained by a mechanical or chemi-mechanical process, and

      1. weighing not more than 80 g/m^2, or

      2. colored throughout the mass; or

   (b) Containing more than 8 percent ash, and

      1. weighing not more than 80 g/m^2, or

      2. colored throughout the mass; or

   (c) Containing more than 3 percent ash and having a brightness of 60 percent or more; or

   (d) Containing more than 3 percent but not more than 8 percent ash, having a brightness less than 60 percent and a burst index equal to or less than 2.5 kPa•m^2/g; or

   (e) Containing 3 percent ash or less, having a brightness of 60 percent or more and a burst index equal to or less than 2.5 kPa•m^2/g.

   For paper or paperboard weighing more than 150 g/m^2:

   (a) Colored throughout the mass; or

   (b) Having a brightness of 60 percent or more, and

      1. a caliper of 225 micrometers (microns) or less, or

      2. a caliper of more than 225 micrometers but not more than 508 micrometers (microns) and an ash content of more than 3 percent; or

   (c) Having a brightness of less than 60 percent, a caliper of 254 micrometers (microns) or less and an ash content of more than 8 percent.

   Heading 4802 does not, however, cover filter paper or paperboard (including teabag paper) or felt paper or paperboard.

6. In this chapter "kraft paper and paperboard" means paper and paperboard of which not less than 80 percent by weight of the total fiber content consists of fibers obtained by the chemical sulfate or soda processes.

7. Except where the terms of the headings otherwise require, paper, paperboard, cellulose wadding and webs of cellulose fibers answering to a description in two or more of the headings 4801 to 4811 are to be classified under that one of such headings which occurs last in numerical order in the tariff schedule.

8. Headings 4801 and 4803 to 4809 apply only to paper, paperboard, cellulose wadding and webs of cellulose fibers:

   (a) In strips or rolls of a width exceeding 36 cm; or

   (b) In rectangular (including square) sheets with one side exceeding 36 cm and the other side exceeding 15 cm in the unfolded state.

9. For the purposes of heading 4814, the expression "wallpaper and similar wall coverings" applies only to:

   (a) Paper in rolls, of a width of not less than 45 cm and not more than 160 cm, suitable for wall or ceiling decoration:

      (i) Grained, embossed, surface-colored, design-printed or otherwise surface-decorated (e.g., with textile flock), whether or not coated or covered with transparent protective plastics;

      (ii) With an uneven surface resulting from the incorporation of particles of wood, straw, etc.;

      (iii) Coated or covered on the face side with plastics, the layer of plastics being grained, embossed, colored, design-printed or otherwise decorated; or

      (iv) Covered on the face side with plaiting material, whether or not bound together in parallel strands or woven;

   (b) Borders and friezes of paper, treated as above, whether or not in rolls, suitable for wall or ceiling decoration;

   (c) Wall coverings of paper made up of several panels, in rolls or sheets, printed so as to make up a scene, design or motif when applied to a wall.

   Products on a base of paper or paperboard, suitable for use both as floor coverings and as wall coverings are to be classified in heading 4815.

10. Heading 4820 does not cover loose sheets or cards, cut to size, whether or not printed, embossed or perforated.

11. Heading 4823 applies, inter alia, to perforated paper or paperboard cards for Jacquard or similar machines and paper lace.

12. Except for the articles of heading 4814 or 4821, paper, paperboard, cellulose wadding and articles thereof, printed with motifs, characters or pictorial representations, which are not merely incidental to the primary use of the goods, fall in chapter 49.

Subheading Notes

1. For the purposes of subheading 4804.11 and 4804.19, "kraftliner" means machine-finished or machine-glazed paper and paperboard, of which not less than 80 percent by weight of the total fiber content consists of wood fibers obtained by the chemical sulfate or soda processes, in rolls, weighing more than 115 g/m^2 and having a minimum Mullen bursting strength, as indicated in the following table, or the linearly interpolated or extrapolated equivalent for any other weight:

Weight (g/m^2)	Minimum Mullen bursting strength (kPa)
115	393
125	417
200	637
300	824
400	961

2. For the purposes of subheadings 4804.21 and 4804.29, "sack kraft paper" means machine-finished paper, of which not less than 80 percent by weight of the total fiber content consists of fibers obtained by the chemical sulfate or soda processes, in rolls, weighing not less than 60 g/m^2 but not more than 115 g/m^2 and meeting one of the following sets of specifications:

   (a) Having a Mullen burst index of not less than 3.7 kPa**!** m^2/g and a stretch factor of more than 4.5 percent in the cross direction and of more than 2 percent in the machine direction.

   (b) Having minima for tear and tensile as indicated in the following table, or the linearly interpolated equivalent for any other weight:

Weight	Minimum tear		Minimum tensile	
	Machine direction	Machine direction plus cross direction	Cross direction	Machine direction plus cross direction
(grams per square meter)	(millinewtons)		(kilonewtons per meter)	
60	700	1,510	1.9	6
70	830	1,790	2.3	7.2
80	965	2,070	2.8	8.3
100	1,230	2,635	3.7	10.6
115	1,425	3,060	4.4	12.3

3. For the purposes of subheading 4805.11, "semichemical fluting paper" means paper, in rolls, of which not less than 65 percent by weight of the total fiber content consists of unbleached hardwood fibers obtained by a semichemical pulping process, and having a CMT 30 (Corrugated Medium Test with 30 minutes of conditioning) crush resistance exceeding 1.8 newtons/g/m^2 at 50 percent relative humidity, at 23°C.

4. Subheading 4805.12 covers paper, in rolls, made mainly of straw pulp obtained by a semichemical pulping process, weighing 130 g/m^2 or more, and having a CMT 30 (Corrugated Medium Test with 30 minutes of conditioning) crush resistance exceeding 1.4 newtons/g/m^2 at 50 percent relative humidity, at 23°C.

5. Subheading 4805.24 and 4805.25 cover paper and paperboard made wholly or mainly of pulp recovered (waste and scrap) paper or paperboard. Testliner may also have a surface layer of dyed paper or of paper made of bleached or unbleached non-recovered pulp. These products have a Mullen burst index of not less than 2 kPa•m2/g.

6. For the purposes of subheading 4805.30, "sulfite wrapping paper" means machine-glazed paper, of which more than 40 percent by weight of the total fiber content consists of wood fibers obtained by the chemical sulfite process, having an ash content not exceeding 8 percent and having a Mullen burst index of not less than 1.47 kPa•m^2/g.

7. For the purposes of subheading 4810.22, "light-weight coated paper" means paper, coated on both sides, of a total weight not exceeding 72 g/m^2, with a coating weight not exceeding 15 g/m^2 per side, on a base of which not less than 50 percent by weight of the total fiber content consists of wood fibers obtained by a mechanical process.

Additional U.S. Notes

I. For the purposes of this chapter the provisions for cellulose wadding and webs of cellulose fibers cover only products obtained from the pulp of chapter 47.

2. Samples used in determining the weight of paper or paperboard classifiable in this chapter according to weight shall be conditioned in an atmosphere at 50 percent (± 2 percent) relative humidity and at a temperature of 23°C (± 2°C).

Notes

1. This chapter does not cover:

   (a) Photographic negatives or positives on transparent bases (chapter 37);

   (b) Maps, plans or globes, in relief, whether or not printed (heading 9023);

   (c) Playing cards or other goods of chapter 95; or

   (d) Original engravings, prints or lithographs (heading 9702), postage or revenue stamps, stamp-postmarks, first-day covers, postal stationery or the like of heading 9704, antiques of an age exceeding one hundred years or other articles of chapter 97.

2. For the purposes of chapter 49 the term "printed" also means reproduced by means of a duplicating machine, produced under the control of an automatic data processing machine, embossed, photographed, photocopied, thermocopied or typewritten.

3. Newspapers, journals and periodicals which are bound otherwise than in paper, and sets of newspapers, journals or periodicals comprising more than one issue under a single cover are to be classified in heading 4901, whether or not containing advertising material.

4. Heading 4901 also covers:

   (a) A collection of printed reproductions of, for example, works of art or drawings, with a relative text, put up with numbered pages in a form suitable for binding into one or more volumes;

   (b) A pictorial supplement accompanying and subsidiary to, a bound volume; and

   (c) Printed parts of books or booklets, in the form of assembled or separate sheets or signatures, constituting the whole or a part of a complete work and designed for binding.

   However, printed pictures or illustrations not bearing a text, whether in the form of signatures or separate sheets, fall in heading 4911.

5. Subject to note 3 of this chapter, heading 4901 does not cover publications which are essentially devoted to advertising (for example, brochures, pamphlets, leaflets, trade catalogs, yearbooks published by trade associations and tourist promotional literature). Such publications are to be classified in heading 4911.

6. For the purposes of heading 4903, the expression "children's picture books" means books for children in which the pictures form the principal interest and the text is subsidiary.

Additional U.S. Notes

1. For the purposes of determining the classification of printed matter produced in whole or in part by a lithographic process, the thickness of such printed matter is that of the thinnest paper contained therein, except that the thickness of a permanently mounted lithograph is the combined thickness of the lithograph and its mounting.

2. Currency in current circulation in any country imported for monetary purposes and securities and similar evidences of value provided for in heading 4907 shall be admitted without formal customs consumption entry or the payment of duty. This does not affect any requirement under other provisions of law to the effect that transfers of monetary instruments into or through the United States, in an amount exceeding $10,000 on any one occasion, shall be reported as prescribed therein.

Subheading Notes

1. In this section and, where applicable, throughout the tariff schedule, the following expressions have the meanings hereby assigned to them:

   (a) Elastomeric yarn

   Filament yarn, including monofilament, of synthetic textile material, other than textured yarn, which does not break on being extended to three times its original length and which returns, after being extended to twice its original length, within a period of five minutes, to a length not greater than one and a half times its original length.

   (b) Unbleached yarn

   Yarn which:

   (i) Has the natural color of its constituent fibers and has not been bleached, dyed (whether or not in the mass) or printed; or

   (ii) Is of indeterminate color ("grey yarn"), manufactured from garnetted stock.

   Such yarn may have been treated with a colorless dressing or fugitive dye (which disappears after simple washing with soap) and, in the case of man-made fibers, treated in the mass with delustering agents (for example, titanium dioxide).

   (c) Bleached yarn

   Yarn which:

   (i) Has undergone a bleaching process, is made of bleached fibers or, unless the context otherwise requires, has been dyed white (whether or not in the mass) or treated with a white dressing;

   (ii) Consists of a mixture of unbleached and bleached fibers; or

   (iii) Is multiple (folded) or cabled and consists of unbleached and bleached yarns.

Subheading Note 1 (con):

(d) Colored (dyed or printed) yarn

Yarn which:

(i) Is dyed (whether or not in the mass) other than white or in a fugitive color, or printed, or made from dyed or printed fibers;

(ii) Consists of a mixture of dyed fibers of different colors or of a mixture of unbleached or bleached fibers with colored fibers (marl or mixture yarns), or is printed in one or more colors at intervals to give the impression of dots;

(iii) Is obtained from slivers or rovings which have been printed; or

(iv) Is multiple (folded) or cabled and consists of unbleached or bleached yarn and colored yarn.

The above definitions also apply, mutatis mutandis, to monofilament and to strip or the like of chapter 54.

(e) Unbleached woven fabric

Woven fabric made from unbleached yarn and which has not been bleached, dyed or printed. Such fabric may have been treated with a colorless dressing or a fugitive dye.

(f) Bleached woven fabric

Woven fabric which:

(i) Has been bleached or, unless the context otherwise requires, dyed white or treated with a white dressing, in the piece;

(ii) Consists of bleached yarn; or

(iii) Consists of unbleached and bleached yarn.

(g) Dyed woven fabric

Woven fabric which:

(i) Is dyed a single uniform color other than white (unless the context otherwise requires) or has been treated with a colored finish other than white (unless the context otherwise requires), in the piece; or

(ii) Consists of colored yarn of a single uniform color.

(h) Woven fabric of yarns of different colors

Woven fabric (other than printed woven fabric) which:

(i) Consists of yarns of different colors or yarns of different shades of the same color (other than the natural color of the constituent fibers);

(ii) Consists of unbleached or bleached yarn and colored yarn; or

(iii) Consists of marl or mixture yarns.

(In all cases, the yarn used in selvages and piece ends is not taken into consideration.)

(ij) Printed woven fabric

Woven fabric which has been printed in the piece, whether or not made from yarns of different colors.

(The following are also regarded as printed woven fabrics: woven fabrics bearing designs made, for example, with a brush or spray gun, by means of transfer paper, by flocking or by the batik process.)

The process of mercerization does not affect the classification of yarns or fabrics within the above categories.
The definition at (e) to (ij) above apply, *mutatis mutandis*, to knitted or crocheted fabrics.

(k) Plain weave

A fabric construction in which each yarn of the weft passes alternately over and under successive yarns of the warp and each yarn of the warp passes alternately over and under successive yarns of the weft.

2. (A) Products of chapters 56 to 63 containing two or more textile materials are to be regarded as consisting wholly of that textile material which would be selected under note 2 to this section for the classification of a product of chapters 50 to 55 or of heading 5809 consisting of the same textile materials.

   (B) For the application of this rule:

      (a) Where appropriate, only the part which determines the classification under general interpretative rule 3 shall be taken into account;

      (b) In the case of textile products consisting of a ground fabric and a pile or looped surface no account shall be taken of the ground fabric;

      (c) In the case of embroidery of heading 5810 and goods thereof, only the ground fabric shall be taken into account. However, embroidery without visible ground, and goods thereof, shall be classified with reference to the embroidering threads alone.

If subsequently the Arrangement or a substitute arrangement, including unilateral import restrictions or bilateral agreements, determined by the President to be suitable, is in effect with respect to the United States, then the President shall proclaim the continuation of the reduction of such rate of duty pursuant to such trade agreement. For purposes of section 109(c)(2) of the Trade Act of 1974, any time when a rate of duty existing on January 1, 1975, is in effect under this note shall be time when part of such reduction is not in effect by reason of legislation of the United States or action thereunder.

   (c) The rate of duty in the "Special" subcolumn of rates of duty column 1 followed by the symbol "MX" in parentheses shall apply to imports from Mexico, up to the annual quantities specified in subdivision (g)(ii) of this note, of textile or apparel goods provided for in chapters 61, 62 and 63 that are sewn or otherwise assembled in the territory of Mexico, from fabric cut in the territory of the United States, such fabric having been knit or woven outside the territory of the United States or Mexico, which (i) were exported from the United States in condition ready for assembly without further fabrication, (ii) have not lost their physical identity in such articles by change in form, shape or otherwise, and (iii) have not been advanced in value or improved in condition in Mexico except by being assembled and except by operations incidental to the assembly process. This subdivision shall not apply after quantitative restrictions established pursuant to the Multifiber Arrangement or any successor agreement are terminated.

1. Restraints under the Arrangement regarding International Trade in Textiles may not apply to developing country exports of "hand-loomed and folklore products" which have been certified, in accordance with procedures established by the Committee for the Implementation of Textile Agreements pursuant to international understandings, by an official of a government agency of the country where the products were produced, to have been so made. The importer is required to identify such certified products on the entry summary or withdrawal forms by placing the symbol "F" as a prefix to the appropriate 10-digit statistical reporting number.

2. For the purposes of the Tariff Schedule:

   (a) The term "subject to cotton restraints" means articles in which:

      (i) The cotton component equals or exceeds 50 percent by weight of all the component fibers thereof; or

      (ii) The cotton and any wool, fine animal hair or man-made fibers in the aggregate equals or exceeds 50 percent by weight of all the component fibers thereof and the cotton component equals or exceeds the weight of each of the wool (including fine animal hair) and man-made fiber components.

   (b) The term "subject to wool restraints" means articles not provided for in (a) above and in which the wool (including fine animal hair) component exceeds 17 percent by weight of all the component fibers thereof.

   (c) The term "subject to man-made fiber restraints" means articles not provided for in (a) or (b) above and the man-made fiber component, or the man-made fibers and any cotton, wool or fine animal hair in the aggregate, equals or exceeds 50 percent by weight of all the component fibers thereof.

   For the application of this note, where appropriate, only the part of the product which determines the classification under general interpretive rule 3 shall be taken into account.

3. The unit of measure to be used by Customs field offices when reporting imports of textiles to Customs Headquarters Quota Section shall be the first unit of quantity unless the second unit of quantity (if there is one) is underlined, in which case the second unit of quantity shall be reported.

4. As a convenient cross-reference, each of the textile categories (or groupings) used by the United States in monitoring shipments of these products and to administer the United States textile trade agreements programs is listed in the schedule following the appropriate 10-digit description.

5. Entries of all textile and apparel products that are both (a) imported from Canada or from Mexico and (b) described in additional U.S. notes 3 (other than subdivision (c)), 4 and 5 to section XI must contain (i) the appropriate 10-digit statistical reporting number from and units of quantity specified in section XI for such goods, and (ii) the correct 8-digit special statistical reporting number applicable to such goods and the square meter equivalent of the goods being entered, determined in accordance with such additional U.S. notes. The special statistical reporting numbers are set forth at the end of chapter 99 of this schedule. For goods described in subdivision (c) of additional U.S. note 3, see heading 9802.00.80.

CHAPTER 51

WOOL, FINE OR COARSE ANIMAL HAIR; HORSEHAIR YARN AND WOVEN FABRIC

Note

1. Throughout the tariff schedule:

   (a) "Wool" means the natural fiber grown by sheep or lambs;

   (b) "Fine animal hair" means the hair of alpaca, llama, vicuna, camel, yak, Angora, Tibetan, Kashmir or similar goats (but not common goats), rabbit (including Angora rabbit), hare, beaver, nutria or muskrat; and

   (c) "Coarse animal hair" means the hair of animals not mentioned above, excluding brush-making hair and bristles (heading 0502) and horsehair (heading 0503).

Additional U.S. Notes

1. For the purposes of headings 5101, 5102, 5103 and 5104, regarding any package containing wool or fine animal hair subject to different rates of duty, notwithstanding the rates of duty shown, the column 1 rate of duty is the highest column 1 rate applicable to any part of the contents of the package comprising not less than 10 percent thereof by weight and the column 2 rate of duty is the highest column 2 rate applicable to any part of the contents of the package comprising not less than 10 percent thereof by weight.

2. For the purposes of this chapter:

   (a) The term "clean kg" in the rate columns means kilogram of clean yield;

   (b) The term "clean yield," except for purposes of carbonized fibers, means the absolute clean content (i.e., all that portion of the merchandise which consists exclusively of wool or hair free of all vegetable and other foreign material, containing by weight 12 percent of moisture and 1.5 percent of material removable from the wool or hair by extraction with alcohol, and having an ash content of not over 0.5 percent by weight), less an allowance, equal by weight to 0.5 percent of the absolute clean content plus 60 percent of the vegetable matter present, but not exceeding 15 percent by weight of the absolute clean content, for wool or hair that would ordinarily be lost during commercial cleaning operations;

   (c) For purposes of carbonized fibers, the term "clean yield" means in the condition as entered;

   (d) (i) The term "wool for special uses" means unimproved wool and other wool of whatever blood or origin not finer than 46s entered by a dealer, manufacturer or processor, and certified for use only in the manufacture of felt or knit boots, floor coverings, heavy fulled lumbermen's socks, press cloth, papermakers' felts or pressed felt for polishing plate and mirror glass;

   (ii) Wool for special uses shall not be released from customs custody unless the dealer, manufacturer or processor files a bond to insure that any wool entered as wool for special uses shall be used only (except as provided below) in the manufacture of the articles enumerated in subparagraph (i) above;

   (iii) A dealer, manufacturer or processor may be relieved of liability under his or her bond with respect to any wool entered as wool for special uses which is transferred in its imported or any other form to another dealer, manufacturer or processor who has filed a bond to insure that the merchandise so transferred shall be used only (except as provided below) in the manufacture of the articles enumerated in subparagraph (i) above;

   (iv) When wool entered as wool for special uses is used, or transferred for use, otherwise than in the manufacture of the articles enumerated in subparagraph (i) above:

   (A) the regular duties which would have been applicable to such wool in the condition as entered shall be paid by the dealer, manufacturer or processor whose bond is charged with the wool at the time of such use or transfer for such use, but such duties shall not be levied or collected on any waste or byproducts resulting from the usual course of manufacture of the articles enumerated in subparagraph (i) above or on any merchandise which is destroyed or exported;

   (B) if prior to such use or transfer for such use there shall have been combined or mixed with such wool any other merchandise, the whole of the combination or mixture shall be regarded as being composed of wool entered as wool for special uses, unless the dealer, manufacturer or processor liable for the payment of the duties shall establish the quantity of bonded wool in such combination or mixture;

Additional U.S. Note 2 (con.):

(C) every dealer, manufacturer or processor who has given a bond pursuant to the provisions for wool for special uses shall report any transfer or use of merchandise contrary to the terms of the bond, within 30 days after such transfer or use, to the district director of customs in whose district the bond is filed, and for failure to so report such dealer, manufacturer or processor shall be liable to a penalty (in addition to the duties provided for) equal to the value of the merchandise so transferred or used at the time and place of such transfer or use; and

(D) the clean yield of any wool shall be deemed to be 100 percent, unless the actual clean yield has been determined by suitable tests and such use or transfer for use occurs not later than 3 years after the date of entry of such wool;

(e) The term "unimproved wool" means Aleppo, Arabian, Bagdad, Black Spanish, Chinese, Cordova, Cyprus, Donskoi, East Indian, Ecuadorean, Egyptian, Georgian, Haslock, Iceland, Karakul, Kerry, Manchurian, Mongolian, Oporto, Persian, Pyrenean, Sardinian, Scotch Blackface, Sistan, Smyrna, Sudan, Syrian, Tibetan, Turkestan, Valparaiso or Welsh Mountain wool and similar wool not improved by the admixture of merino or English blood; and

(f) The standards for determining grades of wool shall be those which are established from time to time by the Secretary of Agriculture pursuant to law and which are in effect on the date of importation of the wool.

CHAPTER 52

COTTON 1/

Subheading Note

1. For the purposes of subheadings 5209.42 and 5211.42, the expression "denim" means fabrics of yarns of different colors, of 3-thread or 4-thread twill, including broken twill, warp faced, the warp yarns of which are of one and the same color and the weft yarns of which are unbleached, bleached, dyed grey or colored a lighter shade of the color of the warp yarns.

Additional U.S. Notes

1. Under regulations prescribed by the Secretary of the Treasury, the staple length of cotton shall be determined for all customs purposes by application of the Official Cotton Standards of the United States for length of staple, as established by the Secretary of Agriculture and in effect when the determination is to be made.

2. For the purposes of classifying yarns of headings 5205 and 5206 the term "nm," as applied in these headings, means the number of 1,000-meter lengths of yarn in one kilogram. To determine the nm measurement of any yarn, whether single, multiple (folded) or cabled, the actual meters per kilogram shall be divided by 1,000 and the quotient thereof multiplied by the number of single yarns therein, including the single yarns used in manufacturing multiple (folded) or cabled yarns.

3. For the purposes of the woven fabrics of chapter 52:

   (a) The term "number," as applied to woven fabrics of cotton, means the average yarn number of the yarns contained therein. In computing the average yarn number, the length of the yarn is considered to be equal to the distance covered by it in the fabric in the condition as imported, with all clipped yarn being measured as if continuous and with the count being taken of the total single yarns in the fabric including the single yarns in any multiple (folded) or cabled yarns. The weight shall be taken after any excessive sizing is removed by boiling or other suitable process. Any one of the following formulas can be used to determine the average yarn number for tariff purposes--

$$N = \frac{BYT}{1{,}000}, \quad \frac{100T}{Z'}, \quad \frac{BT}{Z} \quad \text{or} \quad \frac{ST}{10}$$

   when:

   N is the average yarn number,
   B is the breadth (width) of the fabric in centimeters,
   Y is the meters (linear) of the fabric per kilogram,
   T is the total single yarns per square centimeter,
   S is the square meters of fabric per kilogram,
   Z is the grams per linear meter of fabric, and
   Z' is the grams per square meter of fabric.

   Fractions in the resulting "number" shall be disregarded.

   (b) Unless the context otherwise requires, provisions relating to one or more weaves embrace only those fabrics which (excluding selvage) are wholly of the specified weave or weaves, including combinations exclusively thereof.

4. For the purposes of heading 5208 and 5209, the term "certified hand-loomed fabrics" means fabrics made on a hand loom (i.e., a nonpower-driven loom) by a cottage industry and which prior to exportation have been certified by an official of a government agency of the country where the fabrics were produced to have been so made.

(b) The term "poplin or broadcloth" means plain weave fabrics, not of square construction, whether or not napped, but does not include the following types:

(i) Fabrics weighing not more than 200 grams per square meter, containing 33 or less warp ends and filling picks per square centimeter; and

(ii) Fabrics weighing more than 200 grams per square meter, of average yarn number 26 or lower number.

(c) The term "sheeting" means plain weave fabrics, whether or not napped, of the following types:

(i) Fabrics weighing not more than 200 grams per square meter, of square construction, containing more than 33 warp ends and filling picks per square centimeter, of average yarn number 68 or lower number, but not including printcloth; and

(ii) Fabrics weighing more than 200 grams per square meter, but does not include:

(A) Fabrics of which the warp or filling consists of multiple (folded) or cabled yarns, of average yarn number 26 or lower number; and

(B) Fabrics of average yarn number 27 or higher number, not of square construction.

(d) The term "printcloth" means plain weave fabrics, weighing not more than 200 grams per square meter, of average yarn numbers 43-68, containing more than 33 singles yarns per square centimeter and not containing multiple (folded) or cabled yarns, of square construction, not combed, whether or not napped.

(e) The term "square construction" means fabrics of the following types:

(i) Containing less than 79 warp ends and filling picks per square centimeter, of which the difference between the total count of warp ends per centimeter and the total count of filling picks per centimeter is less than 11; or

(ii) Containing 79 or more warp ends and filling picks per square centimeter, of which the total count of warp ends per centimeter and the total count of filling picks per centimeter are each less than 57 percent of the total count per square centimeter of such warp ends and filling picks.

(f) The term "napped" means fabrics with a fuzzy, fibrous surface produced by scratching or pricking the surface so that some of the fibers are raised from the body of the yarn. Napped fabrics are not to be confused with pile fabrics. Outing and canton flannel, moleskin, etc., are typical fabrics with a nap.

(g) The term "not combed" means fabrics wholly or in part of uncombed cotton, other vegetable textile fibers or wool or fine animal hair.

(h) The term "combed" means fabrics containing cotton, other vegetable textile fibers or wool or fine animal hair, in which such fibers are combed, whether or not containing other fibers.

CHAPTER 54

MAN-MADE FILAMENTS 1/

Notes

1. Throughout the tariff schedule, the term "man-made fibers" means staple fibers and filaments of organic polymers produced by manufacturing processes, either:

   (a) By polymerization of organic monomers, such as polyamides, polyesters, polyurethanes or polyvinyl derivatives; or

   (b) By chemical transformation of natural organic polymers (for example, cellulose, casein, proteins or algae), such as viscose rayon, cellulose acetate, cupro or alginates.

   The terms "synthetic" and "artificial", used in relation to fibers, mean: synthetic: fibers as defined at (a); artificial: fibers as defined at (b).

   The terms "man-made", "synthetic" and "artificial" shall have the same meanings when used in relation to "textile materials".

2. Headings 5402 and 5403 do not apply to synthetic or artificial filament tow of chapter 55.

Statistical Note

1. For the purposes of the woven fabrics of chapter 54:

   (a) Unless the context otherwise requires, provisions relating to one or more weaves embrace only those fabrics which (excluding selvage) are wholly of the specified weave or weaves, including combinations exclusively thereof.

   (b) The term "flat fabrics" means fabrics not containing yarns twisted more than 472 turns per meter.

   (c) The term "poplin or broadcloth" means plain weave fabrics, not of square construction, whether or not napped, but does not include the following types:

      (i) Fabrics weighing not more than 170 grams per square meter, containing 33 or less warp ends and filling picks per square centimeter; and

      (ii) Fabrics weighing more than 170 grams per square meter, of average yarn number 26 or lower number.

   (d) The term "sheeting" means plain weave fabrics, whether or not napped, of the following types:

      (i) Fabrics weighing not more than 170 grams per square meter, of square construction, containing more than 33 warp ends and filling picks per square centimeter, of average yarn number 68 or lower number, but not including printcloth; and

      (ii) Fabrics weighing more than 170 grams per square meter, but does not include:

         (A) Fabrics of which the warp or filling consists of multiple (folded) or cabled yarns, of average yarn number 26 or lower number; and

         (B) Fabrics of average yarn number 27 or higher number, not of square construction.

   (e) The term "printcloth" means plain weave fabrics, weighing not more than 170 grams per square meter, of average yarn numbers 43-68, containing more than 33 singles yarns per square centimeter and not containing multiple (folded) or cabled yarns, of square construction, whether or not napped, of the following types:

      (i) Fabrics, not combed; and

      (ii) Other fabrics, measuring less than 168 cm in width.

   (f) The term "square construction" means fabrics of the following types:

      (i) Containing less than 79 warp ends and filling picks per square centimeter, of which the difference between the total count of warp ends per centimeter and the total count of filling picks per centimeter is less than 11; or

      (ii) Containing 79 or more warp ends and filling picks per square centimeter, of which the total count of warp ends per centimeter and the total count of filling picks per centimeter are each less than 57 percent of the total count per square centimeter of such warp ends and filling picks.

1/ See Section XI, Statistical Note 5.

Statistical Note 1 (con.)

(g) The term "napped" means fabrics with a fuzzy, fibrous surface produced by scratching or pricking the surface so that some of the fibers are raised from the body of the yarn. Napped fabrics are not to be confused with pile fabrics. Outing and canton flannel, moleskin, etc., are typical fabrics with a nap.

(h) The term "not combed" means fabrics in part of uncombed cotton, other vegetable textile fibers or wool or fine animal hair.

(ij) The term "combed" means fabrics containing cotton, other vegetable textile fibers or wool or fine animal hair, in which such fibers are combed.

(k) The term "number," as applied to woven fabrics of man-made fibers, means the average yarn number of the yarns contained therein. In computing the average yarn number, the length of the yarn is considered to be equal to the distance covered by it in the fabric in the condition as imported, with all clipped yarn being measured as if continuous and with the count being taken of the total single yarns in the fabric including the single yarns in any multiple (folded) or cabled yarns. The weight shall be taken after any excessive sizing is removed by boiling or other suitable process. Any one of the following formulas can be used to determine the average yarn number--

$$N = \frac{BYT}{1{,}000}, \quad \frac{100T}{Z'}, \quad \frac{BT}{Z} \quad \text{or} \quad \frac{ST}{10}$$

when:

N is the average yarn number,
B is the breadth (width) of the fabric in centimeters,
Y is the meters (linear) of the fabric per kilogram,
T is the total single yarns per square centimeter,
S is the square meters of fabric per kilogram,
Z is the grams per linear meter of fabric, and
Z' is the grams per square meter of fabric.

Fractions in the resulting "number" shall be disregarded.

2. The term "discharge printed" fabrics refers to fabrics which have been:

(a) Dyed, not tinted, a single uniform color other than white;

(b) Further processed using a method whereby chlorine or other color-destroying chemicals are applied to discrete portions of the dyed fabric to bleach out or discharge the dye and printed in those discrete portions thereby yielding a different colored pattern on the previously dyed ground; and

(c) Subjected to two or more of the following finishing operations: bleaching, shrinking, filling, napping, decating, permanent stiffening, weighting, permanent embossing or moireing.

CHAPTER 55

MAN-MADE STAPLE FIBERS 1/

Note

1. Headings 5501 and 5502 apply only to man-made filament tow, consisting of parallel filaments of a uniform length equal to the length of the tow, meeting the following specifications:

   (a) Length of tow exceeding 2 m;

   (b) Twist less than 5 turns per meter;

   (c) Measuring per filament less than 67 decitex;

   (d) Synthetic filament tow only: the tow must be drawn, that is to say, be incapable of being stretched by more than 100 percent of its length; and

   (e) Total measurement of tow more than 20,000 decitex.

   Tow of a length not exceeding 2 m is to be classified in heading 5503 or 5504.

Additional U.S. Note

1. For the purposes of the woven fabrics of chapter 55, unless the context otherwise requires, provisions relating to one or more weaves embrace only those fabrics which (excluding selvage) are wholly of the specified weave or weaves, including combinations exclusively thereof.

Statistical Note

1. For the purposes of the woven fabrics of chapter 55:

   (a) The term "poplin or broadcloth" means plain weave fabrics, not of square construction, whether or not napped, but does not include the following types:

      (i) Fabrics weighing not more than 170 grams per square meter, containing 33 or less warp ends and filling picks per square centimeter; and

      (ii) Fabrics weighing more than 170 grams per square meter, of average yarn number 26 or lower number.

   (b) The term "sheeting" means plain weave fabrics, whether or not napped, of the following types:

      (i) Fabrics weighing not more than 170 grams per square meter, of square construction, containing more than 33 warp ends and filling picks per square centimeter, of average yarn number 68 or lower number, but not including printcloth; and

      (ii) Fabrics weighing more than 170 grams per square meter, but does not include:

         (A) Fabrics of which the warp or filling consists of multiple (folded) or cabled yarns, of average yarn number 26 or lower number; and

         (B) Fabrics of average yarn number 27 or higher number, not of square construction.

   (c) The term "printcloth" means plain weave fabrics, weighing not more than 170 grams per square meter, of average yarn numbers 43-68, containing more than 33 singles yarns per square centimeter and not containing multiple (folded) or cabled yarns, of square construction, whether or not napped, of the following types:

      (i) Fabrics, not combed; and

      (ii) Other fabrics, measuring less than 168 cm in width.

   (d) The term "cheesecloth" means plain weave fabrics, weighing not more than 170 grams per square meter, containing not more than 33 warp ends and filling picks per square centimeter, whether or not napped.

1/ See Section XI, Statistical Note 5.

Statistical Note 1 (con.)

(e) The term "lawns, voiles or batistes" means plain weave fabrics, weighing not more than 170 grams per square meter, of average yarn number 69 or higher number, consisting of more than 33 warp ends and filling picks per square centimeter, of square construction, whether or not napped.

(f) The term "duck" means fabrics weighing more than 170 grams per square meter, of average yarn number 26 or lower number, whether or not napped, of the following types:

(i) Plain weave, of which the warp or filling consists of multiple (folded) or cabled yarns; or

(ii) Woven as plain weave except that two or more warp ends are woven as one (taped warp), whether or not containing multiple (folded) or cabled yarns; this latter type of duck is not to be classified as a plain weave fabric.

(g) The term "oxford cloth" means fabrics weighing not more than 170 grams per square meter, whether or not napped, woven as plain weave except that two or more warp ends are woven as one (taped warp). Oxford cloth is not to be classified as a plain weave fabric.

(h) The term "blue denim" means fabrics weighing more than 170 grams per square meter, of 3-thread or 4-thread twill, including broken twill, warp faced, the warp yarns of which are dyed blue and the weft yarns of which are unbleached, bleached, dyed grey or colored a lighter shade of blue than that of the warp yarns.

(ij) The term "square construction" means fabrics of the following types:

(i) Containing less than 79 warp ends and filling picks per square centimeter, of which the difference between the total count of warp ends per centimeter and the total count of filling picks per centimeter is less than 11; or

(ii) Containing 79 or more warp ends and filling picks per square centimeter, of which the total count of warp ends per centimeter and the total count of filling picks per centimeter are each less than 57 percent of the total count per square centimeter of such warp ends and filling picks.

(k) The term "napped" means fabrics with a fuzzy, fibrous surface produced by scratching or pricking the surface so that some of the fibers are raised from the body of the yarn. Napped fabrics are not to be confused with pile fabrics. Outing and canton flannel, moleskin, etc., are typical fabrics with a nap.

(l) The term "not combed" means fabrics in part of uncombed cotton, other vegetable textile fibers or wool or fine animal hair.

(m) The term "combed" means fabrics containing cotton, other vegetable textile fibers or wool or fine animal hair, in which such fibers are combed.

(n) The term "number," as applied to woven fabrics of man-made fibers, means the average yarn number of the yarns contained therein. In computing the average yarn number, the length of the yarn is considered to be equal to the distance covered by it in the fabric in the condition as imported, with all clipped yarn being measured as if continuous and with the count being taken of the total single yarns in the fabric including the single yarns in any multiple (folded) or cabled yarns. The weight shall be taken after any excessive sizing is removed by boiling or other suitable process. Any one of the following formulas can be used to determine the average yarn number--

$$N = \frac{BYT}{1{,}000}, \quad \frac{100T}{Z'}, \quad \frac{BT}{Z} \quad \text{or} \quad \frac{ST}{10}$$

when:

N is the average yarn number,
B is the breadth (width) of the fabric in centimeters,
Y is the meters (linear) of the fabric per kilogram,
T is the total single yarns per square centimeter,
S is the square meters of fabric per kilogram,
Z is the grams per linear meter of fabric, and
Z' is the grams per square meter of fabric.

Fractions in the resulting "number" shall be disregarded.

2. The term "discharge printed" fabrics refers to fabrics which have been:

   (a) Dyed, not tinted, a single uniform color other than white;

   (b) Further processed using a method whereby chlorine or other color-destroying chemicals are applied to discrete portions of the dyed fabric to bleach out or discharge the dye and printed in those discrete portions thereby yielding a different colored pattern on the previously dyed ground; and

   (c) Subjected to two or more of the following finishing operations: bleaching, shrinking, filling, napping, decating, permanent stiffening, weighting, permanent embossing or moireing.

CHAPTER 56

WADDING, FELT AND NONWOVENS; SPECIAL YARNS; TWINE, CORDAGE, ROPES AND CABLES AND ARTICLES THEREOF

Notes

1. This chapter does not cover:

   (a) Wadding, felt or nonwovens, impregnated, coated or covered with substances or preparations (for example, perfumes or cosmetics of chapter 33, soaps or detergents of heading 3401, polishes, creams or similar preparations of heading 3405, fabric softeners of heading 3809) where the textile material is present merely as a carrying medium;

   (b) Textile products of heading 5811;

   (c) Natural or artificial abrasive powder or grain, on a backing of felt or nonwovens (heading 6805);

   (d) Agglomerated or reconstituted mica, on a backing of felt or nonwovens (heading 6814); or

   (e) Metal foil on a backing of felt or nonwovens (section XV).

2. The term "felt" includes needleloom felt and fabrics consisting of a web of textile fibers the cohesion of which has been enhanced by a stitch-bonding process using fibers from the web itself.

3. Headings 5602 and 5603 cover respectively felt and nonwovens, impregnated, coated, covered or laminated with plastics or rubber whatever the nature of these materials (compact or cellular).

   Heading 5603 also includes nonwovens in which plastics or rubber forms the bonding substance.

   Headings 5602 and 5603 do not, however, cover:

   (a) Felt impregnated, coated, covered or laminated with plastics or rubber, containing 50 percent or less by weight of textile material or felt completely embedded in plastics or rubber (chapter 39 or 40);

   (b) Nonwovens, either completely embedded in plastics or rubber, or entirely coated or covered on both sides with such materials, provided that such coating or covering can be seen with the naked eye with no account being taken of any resulting change of color (chapter 39 or 40); or

   (c) Plates, sheets or strip of cellular plastics or cellular rubber combined with felt or nonwovens, where the textile material is present merely for reinforcing purposes (chapter 39 or 40).

4. Heading 5604 does not cover textile yarn, or strip or the like of heading 5404 or 5405, in which the impregnation, coating or covering cannot be seen with the naked eye (usually chapters 50 to 55); for the purpose of this provision, no account should be taken of any resulting change of color.

Additional U.S. Notes

1. The term "of wide nonfibrillated strip", as applied to twine, cordage, rope or cables of subheadings 5607.41.10 and 5607.49.10, embraces products which contain more than 65 percent by weight of nonfibrillated polyethylene or polypropylene strip (whether folded, twisted or crimped) measuring more than 25.4 mm in width in unfolded, untwisted and uncrimped condition.

2. Heading 5607 does not cover twine, cordage, rope or cables, of metal (section XV).

Statistical Note

1. The term "salmon gill netting, of nylon or other polyamides", as used in statistical reporting number 5608.19.1010, means fish netting, of nylon or other polyamide fibers, consisting of monofilament yarns measuring not more than 0.806 mm in maximum cross-sectional dimension or multifilament yarns measuring not more than 233 decitex, or a combination of the foregoing, of double- or triple-knot construction, colored, having a stretch mesh size of not less than 10.5 cm and not more than 21.6 cm.

CHAPTER 59

IMPREGNATED, COATED, COVERED OR LAMINATED TEXTILE FABRICS; TEXTILE ARTICLES OF A KIND SUITABLE FOR INDUSTRIAL USE

Notes

1. Except where the context otherwise requires, for the purposes of this chapter the expression "textile fabrics" applies only to the woven fabrics of chapters 50 to 55 and headings 5803 and 5806, the braids and ornamental trimmings in the piece of heading 5808 and the knitted or crocheted fabrics of headings 6002 to 6006.

2. Heading 5903 applies to:

   (a) Textile fabrics, impregnated, coated, covered or laminated with plastics, whatever the weight per square meter and whatever the nature of the plastic material (compact or cellular), other than:

      (1) Fabrics in which the impregnation, coating or covering cannot be seen with the naked eye (usually chapters 50 to 55, 58 or 60); for the purpose of this provision, no account should be taken of any resulting change of color;

      (2) Products which cannot, without fracturing, be bent manually around a cylinder of a diameter of 7 mm, at a temperature between 15°C and 30°C (usually chapter 39);

      (3) Products in which the textile fabric is either completely embedded in plastics or entirely coated or covered on both sides with such material, provided that such coating or covering can be seen with the naked eye with no account being taken of any resulting change of color (chapter 39);

      (4) Fabrics partially coated or partially covered with plastics and bearing designs resulting from these treatments (usually chapters 50 to 55, 58 or 60);

      (5) Plates, sheets or strip of cellular plastics, combined with textile fabric, where the textile fabric is present merely for reinforcing purposes (chapter 39); or

      (6) Textile products of heading 5811.

   (b) Fabrics made from yarn, strip or the like, impregnated, coated, covered or sheathed with plastics, of heading 5604.

3. For the purposes of heading 5905, the expression "textile wall coverings" applies to products in rolls, of a width of not less than 45 cm, suitable for wall or ceiling decoration, consisting of a textile surface which has been fixed on a backing or has been treated on the back (impregnated or coated to permit pasting).

   This heading does not, however, apply to wall coverings consisting of textile flock or dust fixed directly on a backing of paper (heading 4814) or on a textile backing (generally heading 5907).

4. For the purposes of heading 5906, the expression "rubberized textile fabrics" means:

   (a) Textile fabrics impregnated, coated, covered or laminated with rubber:

      (i) Weighing not more than 1,500 g/m^2; or

      (ii) Weighing more than 1,500 g/m^2 and containing more than 50 percent by weight of textile material;

   (b) Fabrics made from yarn, strip or the like, impregnated, coated, covered or sheathed with rubber, of heading 5604; and

   (c) Fabrics composed of parallel textile yarns agglomerated with rubber, irrespective of their weight per square meter.

   This heading does not, however, apply to plates, sheets or strip of cellular rubber, combined with textile fabric, where the textile fabric is present merely for reinforcing purposes (chapter 40), or textile products of heading 5811.

5. Heading 5907 does not apply to:

   (a) Fabrics in which the impregnation, coating or covering cannot be seen with the naked eye (usually chapters 50 to 55, 58 or 60); for the purpose of this provision, no account should be taken of any resulting change of color;

   (b) Fabrics painted with designs (other than painted canvas being theatrical scenery, studio back-cloths or the like);

   (c) Fabrics partially covered with flock, dust, powdered cork or the like and bearing designs resulting from these treatments; however, imitation pile fabrics remain classified in this heading;

   (d) Fabrics finished with normal dressings having a basis of amylaceous or similar substances;

   (e) Wood veneered on a backing of textile fabrics (heading 4408);

   (f) Natural or artificial abrasive powder or grain, on a backing of textile fabrics (heading 6805);

   (g) Agglomerated or reconstituted mica, on a backing of textile fabrics (heading 6814); or

   (h) Metal foil on a backing of textile fabrics (section XV).

6. Heading 5910 does not apply to:

   (a) Transmission or conveyor belting, of textile material, of a thickness of less than 3 mm; or

   (b) Transmission or conveyor belts or belting of textile fabric impregnated, coated, covered or laminated with rubber or made from textile yarn or cord impregnated, coated, covered or sheathed with rubber (heading 4010).

7. Heading 5911 applies to the following goods, which do not fall in any other heading of section XI:

   (a) Textile products in the piece, cut to length or simply cut to rectangular (including square) shape (other than those having the character of the products of headings 5908 to 5910), the following only:

      (i) Textile fabrics, felt and felt-lined woven fabrics, coated, covered or laminated with rubber, leather or other material, of a kind used for card clothing, and similar fabrics of a kind used for other technical purposes, including narrow fabrics made of velvet impregnated with rubber, for covering weaving spindles (weaving beams);

      (ii) Bolting cloth;

      (iii) Straining cloth of a kind used in oil presses or the like, of textile material or of human hair;

      (iv) Flat woven textile fabrics with multiple warp or weft, whether or not felted, impregnated or coated, of a kind used in machinery or for other technical purposes;

      (v) Textile fabric reinforced with metal, of a kind used for technical purposes;

      (vi) Cords, braids and the like, whether or not coated, impregnated or reinforced with metal, of a kind used in industry as packing or lubricating materials;

   (b) Textile articles (other than those of headings 5908 to 5910) of a kind used for technical purposes (for example, textile fabrics and felts, endless or fitted with linking devices, of a kind used in papermaking or similar machines (for example, for pulp or asbestos-cement), gaskets, washers, polishing discs and other machinery parts).

CHAPTER 60

KNITTED OR CROCHETED FABRICS 1/

Notes

1. This chapter does not cover:

   (a) Crochet lace of heading 5804;

   (b) Labels, badges or similar articles, knitted or crocheted, of heading 5807; or

   (c) Knitted or crocheted fabrics, impregnated, coated, covered or laminated, of chapter 59. However, knitted or crocheted pile fabrics, impregnated, coated, covered or laminated, remain classified in heading 6001.

2. This chapter also includes fabrics made of metal thread and of a kind used in apparel, as furnishing fabrics or for similar purposes.

3. Throughout the tariff schedule any reference to "knitted" goods includes a reference to stitch-bonded goods in which the chain stitches are formed of textile yarn.

Additional U.S. Note

1. For purposes of heading 6001, the term "long pile fabrics" refers to fabrics made by inserting fibers from card sliver into the loops of the ground fabric during knitting.

2. For purposes of this chapter, the term "open-work fabrics" means fabrics with stable open meshes, whether or not containing inwrought designs.

Statistical Note

1. For purposes of statistical reporting numbers 6001.92.0010 and 6001.92.0030, the term "velour" refers to fabrics containing 12 or more stitches per centimeter in the vertical direction.

1/ See Section XI, Statistical Note 5.

CHAPTER 61

ARTICLES OF APPAREL AND CLOTHING ACCESSORIES, KNITTED OR CROCHETED 1/

Notes

1. This chapter applies only to made up knitted or crocheted articles.

2. This chapter does not cover:

   (a) Goods of heading 6212;

   (b) Worn clothing or other worn articles of heading 6309;

   (c) Orthopedic appliances, surgical belts, trusses or the like (heading 9021).

3. For the purposes of headings 6103 and 6104:

   (a) The term "suit" means a set of garments composed of two or three pieces made up, in respect of their outer surface, in identical fabric and comprising:

   - one suit coat or jacket the outer shell of which, exclusive of sleeves, consists of four or more panels, designed to cover the upper part of the body, possibly with a tailored waistcoat in addition whose front is made from the same fabric as the outer surface of the other components of the set and whose back is made from the same fabric as the lining of the suit coat or jacket; and

   - one garment designed to cover the lower part of the body and consisting of trousers, breeches or shorts (other than swim-wear), a skirt or a divided skirt, having neither braces nor bibs.

   All of the components of a "suit" must be of the same fabric construction, color and composition; they must also be of the same style and of corresponding or compatible size. However, these components may have piping (a strip of fabric sewn into the seam) in a different fabric.

   If several separate components to cover the lower part of the body are presented together (for example, two pairs of trousers or trousers and shorts, or a skirt or divided skirt and trousers), the constituent lower part shall be one pair of trousers or, in the case of women's or girls' suits, the skirt or divided skirt, the other garments being considered separately.

   The term "suit" includes the following sets of garments whether or not they fulfill all the above conditions:

   - morning dress, comprising a plain jacket (cutaway) with rounded tails hanging well down at the back and striped trousers;

   - evening dress (tailcoat), generally made of black fabric, the jacket of which is relatively short at the front, does not close and has narrow skirts cut in at the hips and hanging down behind;

   - dinner jacket suits, in which the jacket is similar in style to an ordinary jacket (though perhaps revealing more of the shirt front), but has shiny silk or imitation silk lapels.

   (b) The term "ensemble" means a set of garments (other than suits and articles of heading 6107, 6108 or 6109), composed of several pieces made up in identical fabric, put up for retail sale, and comprising:

   - one garment designed to cover the upper part of the body, with the exception of pullovers which may form a second upper garment in the sole context of twin sets, and of waistcoats which may also form a second upper garment, and

   - one or two different garments, designed to cover the lower part of the body and consisting of trousers, bib and brace overalls, breeches, shorts (other than swimwear), a skirt or a divided skirt.

   All of the components of an ensemble must be of the same fabric construction, style, color and composition; they also must be of corresponding or compatible size. The term "ensemble" does not apply to track suits or ski-suits of heading 6112.

4. Headings 6105 and 6106 do not cover garments with pockets below the waist, with a ribbed waistband or other means of tightening at the bottom of the garment, or garments having an average of less than 10 stitches per linear centimeter in each direction counted on an area measuring at least 10 centimeters by 10 centimeters. Heading 6105 does not cover sleeveless garments.

1/ See Section XI, Statistical Note 5.

5. Heading 6109 does not cover garments with a drawstring, ribbed waistband or other means of tightening at the bottom of the garment.

6. For the purposes of heading 6111:

   (a) The expression "babies' garments and clothing accessories" means articles for young children of a body height not exceeding 86 centimeters; it also covers babies' diapers;

   (b) Articles which are, prima facie, classifiable both in heading 6111 and in other headings of this chapter are to be classified in heading 6111.

7. For the purposes of heading 6112, "ski-suits", means garments or sets of garments which, by their general appearance and texture, are identifiable as intended to be worn principally for skiing (cross-country or alpine). They consist either of:

   (a) A "ski overall," that is, a one-piece garment designed to cover the upper and the lower parts of the body; in addition to sleeves and a collar the ski overall may have pockets or footstraps; or

   (b) A "ski ensemble," that is, a set of garments composed of two or three pieces, put up for retail sale and comprising:

      - one garment such as an anorak, windbreaker or similar article, closed by a slide fastener (zipper), possibly with a waistcoat in addition, and

      - one pair of trousers whether or not extending above waist level, one pair of breeches or one bib and brace overall.

   The "ski ensemble" may also consist of an overall similar to the one mentioned in paragraph (a) above and a type of padded, sleeveless jacket worn over the overall.

   All the components of a "ski ensemble" must be made up in a fabric of the same texture, style and composition whether or not of the same color; they also must be of corresponding or compatible size.

8. Garments which are, prima facie, classifiable both in heading 6113 and in other headings of this chapter, excluding heading 6111, are to be classified in heading 6113.

9. Garments of this chapter designed for left over right closure at the front shall be regarded as men's or boys' garments, and those designed for right over left closure at the front as women's or girls' garments. These provisions do not apply where the cut of the garment clearly indicates that it is designed for one or other of the sexes.

   Garments which cannot be identified as either men's or boys' garments or as women's or girls' garments are to be classified in the headings covering women's or girls' garments.

10. Articles of this chapter may be made of metal thread.

Additional U.S. Note

1. For the purpose of heading 6111, the term "sets" means two or more different garments of headings 6111, 6209 or 6505 imported together, of corresponding sizes and intended to be worn together by the same person.

Statistical Notes

1. Merchandise entered together and classified for customs purposes as an ensemble, under subheadings 6103.21.00, 6103.22.00, 6103.23.00, 6103.29.10, 6104.2l.00, 6104.22.00, 6104.23.00 or 6104.29.10, or as a track suit under subheadings 6112.11.00, or 6112.12.00 shall be reported statistically as separate articles under the most appropriate 10-digit reporting number within the same 8-digit tariff subheading which provides for the ensemble or track suit, warm-up or jogging suit.

2. For purposes of headings 6103, 6104 and 6112, statistical provisions for shirts refer to garments provided for in headings 6105, 6106 and 6110, other than sweaters, pullovers, vests or cardigans referred to in statistical note 3 below.

3. For purposes of this chapter, statistical provisions for sweaters include garments, whether or not known as pullovers, vests or cardigans, the outer surfaces of which are constructed essentially with 9 or fewer stitches per 2 centimeters measured in the direction the stitches were formed, and garments, known as sweaters, where, due to their construction, the stitches on the outer surface cannot be counted in the direction the stitches were formed.

4. Imports of "made to measure" suits from Hong Kong, which do not accompany a returning traveler, are subject to a special agreement. Suits made to the specific measurements of a particular person require a "made to measure" export license from the government of Hong Kong. These "made to measure" suits of Hong Kong origin must be identified by the importer by the placing of the symbol "G" as a prefix to the appropriate tariff number.

5. Certain garments of chapter 61 assembled abroad from components formed and cut in the United States which, after assembly have been subject to bleaching, garment dyeing or perma-pressing abroad, may be eligible for entry under a Special Access Regime. Eligibility must be established under a bilateral agreement, and entry must be in compliance with procedures established by the Committee for the Implementation of Textile Agreements. The importer is required to identify such garments on the entry summary or withdrawal forms by placing the symbol "H" as a prefix to the appropriate 10-digit chapter 61 tariff number.

CHAPTER 62

ARTICLES OF APPAREL AND CLOTHING ACCESSORIES, NOT KNITTED OR CROCHETED 1/

Notes

1. This chapter applies only to made up articles of any textile fabric other than wadding, excluding knitted or crocheted articles (other than those of heading 6212).

2. This chapter does not cover:

   (a) Worn clothing or other worn articles of heading 6309;

   (b) Orthopedic appliances, surgical belts, trusses or the like (heading 9021).

3. For the purposes of headings 6203 and 6204:

   (a) The term "suit" means a set of garments composed of two or three pieces made up, in respect of their outer surface, in identical fabric and comprising:

   - one suit coat or jacket the outer shell of which, exclusive of sleeves, consists of four or more panels, designed to cover the upper part of the body, possibly with a tailored waistcoat in addition whose front is made from the same fabric as the outer surface of the other components of the set and whose back is made from the same fabric as the lining of the suit coat or jacket; and

   - one garment designed to cover the lower part of the body and consisting of trousers, breeches or shorts (other than swimwear), a skirt or a divided skirt, having neither braces nor bibs.

   All of the components of a "suit" must be of the same fabric construction, color and composition; they must also be of the same style and of corresponding or compatible size. However, these components may have piping (a strip of fabric sewn into the seam) in a different fabric.

   If several separate components to cover the lower part of the body area presented together (for example, two pairs of trousers or trousers and shorts, or a skirt or divided skirt and trousers), the constituent lower part shall be one pair of trousers, or, in the case of women's or girls' suits, the skirt or divided skirt, the other garments being considered separately.

   The term "suit" includes the following sets of garments whether or not they fulfill all the above conditions:

   - morning dress, comprising a plain jacket (cutaway) with rounded tails hanging well down at the back and striped trousers;

   - evening dress (tailcoat), generally made of black fabric, the jacket of which is relatively short at the front, does not close and has narrow skirts cut in at the hips and hanging down behind;

   - dinner jacket suits, in which the jacket is similar in style to an ordinary jacket (though perhaps revealing more of the shirt front), but has shiny silk or imitation silk lapels.

   (b) The term "ensemble" means a set of garments (other than suits and articles of heading 6207 or 6208) composed of several pieces made up in identical fabric, put up for retail sale, and comprising:

   - one garment designed to cover the upper part of the body, with the exception of waistcoats which may also form a second upper garment, and

   - one or two different garments, designed to cover the lower part of the body and consisting of trousers, bib and brace overalls, breeches, shorts (other than swimwear), a skirt or a divided skirt.

   All of the components of an ensemble must be of the same fabric construction, style, color and composition; they also must be of corresponding or compatible size. The term "ensemble" does not apply to track suits or ski-suits of heading 6211.

1/ See Section XI, Statistical Note 5.

4. For the purposes of heading 6209:

   (a) The expression "babies' garments and clothing accessories" means articles for young children of a body height not exceeding 86 centimeters; it also covers babies' diapers;

   (b) Articles which are, prima facie, classifiable both in heading 6209 and in other headings of this chapter are to be classified in heading 6209.

5. Garments which are, prima facie, classifiable both in heading 6210 and in other headings of this chapter, excluding heading 6209, are to be classified in heading 6210.

6. For the purposes of heading 6211,"ski-suits" means garments or sets of garments which, by their general appearance and texture, are identifiable as intended to be worn principally for skiing (cross-country or alpine). They consist either of:

   (a) A "ski overall," that is, a one-piece garment designed to cover the upper and the lower parts of the body; in addition to sleeves and a collar the ski overall may have pockets or footstraps; or

   (b) A "ski ensemble," that is, a set of garments composed of two or three pieces, put up for retail sale and comprising:

      - one garment such as an anorak, windbreaker or similar article, closed by a slide fastener (zipper), possibly with a waistcoat in addition, and

      - one pair of trousers whether or not extending above waist level, one pair of breeches or one bib and brace overall.

   The "ski ensemble" may also consist of an overall similar to the one mentioned in paragraph (a) above and a type of padded, sleeveless jacket worn over the overall.

   All the components of a "ski ensemble" must be made up in a fabric of the same texture, style and composition whether or not of the same color; they also must be of corresponding or compatible size.

7. Scarves and articles of the scarf type, square or approximately square, of which no side exceeds 60 centimeters, are to be classified as handkerchiefs (heading 6213). Handkerchiefs of which any side exceeds 60 centimeters are to be classified in heading 6214.

8. Garments of this chapter designed for left over right closure at the front shall be regarded as men's or boys' garments, and those designed for right over left closure at the front as women's or girls' garments. These provisions do not apply where the cut of the garment clearly indicates that it is designed for one or other of the sexes.

   Garments which cannot be identified as either men's or boys' garments or as women's or girls' garments are to be classified in the headings covering women's or girls' garments.

9. Articles of this chapter may be made of metal thread.

Additional U.S. Notes

1. For the purpose of heading 6209, the term "sets" means two or more different garments of headings 6111, 6209 or 6505 imported together, of corresponding sizes and intended to be worn together by the same person.

2. For the purposes of subheadings 6201.92.15, 6201.93.30, 6202.92.15, 6202.93.45, 6203.41.05, 6203.43.15, 6203.43.35, 6204.61.10, 6204.63.12, 6204.63.30 and 6211.20.15, the term "water resistant" means that garments classifiable in those subheadings must have a water resistance (see ASTM designations D 3600-81 and D 3781-79) such that, under a head pressure of 600 millimeters, not more than 1.0 gram of water penetrates after two minutes when tested in accordance with AATCC Test Method 35-1985. This water resistance must be the result of a rubber or plastics application to the outer shell, lining or inner lining.

Statistical Notes

1. For the purposes of subheadings 6203.21.00, 6203.22.30, 6203.23.00, 6203.29.20, 6204.21.00, 6204.22.30, 6204.23.00 and 6204.29.20, merchandise entered together and classified for customs purposes as an ensemble, shall be reported statistically as separate articles and reported under the most appropriate 10-digit reporting number within the same 8-digit tariff subheading which provides for the ensemble.

2. Imports of" made to measure" suits from Hong Kong, which do not accompany a returning traveler, are subject to a special agreement. Suits made to the specific measurements of a particular person require a "made to measure" export license from the government of Hong Kong. These "made to measure" suits of Hong Kong origin must be identified by the importer by the placing of the symbol "G" as a prefix to the appropriate tariff number.

3. Certain garments of chapter 62 assembled abroad from components formed and cut in the United States which, after assembly have been subject to bleaching, garment dyeing stone-washing, acid-washing or perma-pressing abroad, may be eligible for entry under a Special Access Program or Special Regime. Eligibility must be established under a bilateral agreement, and entry must be in compliance with procedures established by the Committee for the Implementation of Textile Agreements. The importer is required to identify such garments on the entry summary or withdrawal forms by placing the symbol "H" as a prefix to the appropriate 10-digit chapter 62 tariff number.

4. Certain garments of chapter 62, manufactured (cut and assembled) from fabric formed in the United States, may be eligible for entry under the Outward Processing Program for textiles and apparel. Eligibility must be in compliance with procedures established by the Committee for the Implementation of Textile Agreements (CITA). The importer is required to identify such garments on the entry summary or withdrawal forms by placing the symbol "S" as a prefix to the appropriate 10-digit chapter 62 tariff number.
