Subject: Thank You For Your Visit

Phil

I wanted to thank you for your visit to Compaq and all the effort you have put in for QuickTime 3 0 I understand the path Compaq has taken and I know that it was not the idea direction you had hoped for from the Consumer Division Keep in mind Compaq is a big place and their still is Commercial Desktop and Portables with discussions going on.

I hope that we can stay in touch and I would like to visit your facilities the next time I am in the Bay Area I think Apple has a lot to offer and I have been evangelizing QuickTime 3 0 and QuickTime 3.0 Pro as an excellent alternative to DirectShow for DVD title development. The folks in Redmond beat me up for it but also quietly tell me they are impressed

You have a great product Phil and I am sure we can find a home for it. Stay in touch and hope to see you in the future .

Thanks,

David H. Obelcz
