<sup>1</sup> In addition to the U.S. standards for grades of cotton, there are U.S. standards for length of staple of cotton and U.S. standards for fiber fineness and maturity of cotton (micronaire readings).

<sup>2</sup> Quality index designations. Actual grades (quality and quantity indexes) are expressed numerically.

<sup>3</sup> In addition to U.S. standards for grades of linters, there are U.S. standards for staple of linters.
