Roe, Arthur, and John S. White, Jr. A Catalog of the Type Specimens in the Mineral Collection, National Museum of Natural History. *Smithsonian Contributions to the Earth Sciences*, number 18, 43 pages, 1976.—A complete list, arranged alphabetically by mineral name, of the type specimens in the mineral collection of the National Museum of Natural History. These are the actual specimens that were used in defining new mineral species. For each species the catalog number, locality, literature citation for the original description, source of specimens, and date of accession are given.

OFFICIAL PUBLICATION DATE is handstamped in a limited number of initial copies and is recorded in the Institution's annual report, *Smithsonian Year*. SERIES COVER DESIGN: Aerial view of Ulawun Volcano, New Britain.

A Catalog of the Type Specimens in the Mineral Collection, National Museum of Natural History

Arthur Roe and John S. White, Jr.

Introduction

The actual specimens used to define new mineral species are known as "types." In nearly every case, when the description of a new mineral species has been completed, there is some of the new mineral remaining. It is important that such types be deposited in major museums where actively curated mineral collections are housed. Such care is necessary because only by studying the type material is there a possibility that inadequacies or errors in the original description or subsequent work can be rectified. Only in working with the type material can invalid species be discredited or discredited species be revalidated.

A type specimen catalog has value in many ways. Describers of new species learn, through these catalogs, that other scientists are depositing their specimens in museums. In discovering that museums covet such specimens, they may be encouraged to offer their own material which otherwise may gather dust in a drawer and eventually be discarded. It is hoped that the practice of preserving type specimens will thus become more automatic than it has been. There are still describers of new species who do not recognize the importance of type specimens and who are unaware of their obligation to make their specimens available to other scientists through placing them in museums.

*Arthur Roe (Research Associate) and John S. White, Jr.,
Department of Mineral Sciences, National Museum of Natural
History, Smithsonian Institution, Washington, D.C. 20560.*

At least seven categories of types have been designated in mineralogy.* In this catalog we make no attempt to classify the types according to these designations, although many are clearly *holotype* (a single specimen selected by the author of a species as its type), some are *cotype* (specimens used to give additional information on the species) or *metatype* (specimens compared with the type by the author and determined to be co-specific with it), and others are types of even lower status. Most of the type specimens have been received over the years and incorporated into the collections without sufficient information to permit a secondary classification. The user and the curator, at the time when a new study is undertaken, will have to make the determination (if possible) of the class of type specimen being utilized. Ideally, a description of the type specimen and its pedigree would be included in any publication that results from each study. All records relating to the acquisition of each type specimen in this collection are retained with the original accession documents and are available for examination.

The collection of type specimens continues to grow as new species are constantly being added. For this reason, we plan to produce future editions of the catalog in order that the newer specimens can be incorporated.

Catalog

Achrematite (discredited, =mixture of wulfenite and mimetite) NMNH R6417 Guanacere, Chihuahua, Mexico

J. W. Mallet, 1875. On Achrematite, a New Molybdo-Arsenate of Lead, from Mexico. *Journal of the Chemical Society of London*, 28: 1141-1147.

(Roebling Collection, from J. W. Mallet, 1927)

Afwillite NMNH 95237 Dutoitspan Mine, Kimberley, South Africa

J. Parry and F. E. Wright, 1925. Afwillite, a New Hydrous Calcium Silicate from Dutoitspan Mine, Kimberley, South Africa. *Mineralogical Magazine*, 20:277-286.

(A. F. Williams, 1925)

Ajoite NMNH 113220 Ajo, Arizona

W. T. Schaller and A. C. Vlasisidis, 1958. Ajoite, a New Hydrous Aluminum Copper Silicate from Ajo, Arizona. *American Mineralogist*, 43: 1107-1111.

(U.S. Geological Survey, through T. Nolan, 1958)

Allargentum NMNH 135409 Cadesky Vein, Hi-Ho Mine, Cobalt, Ontario, Canada

W. Petruk, L. J. Cabri, D. C. Harris, J. M. Stewart and L. A. Clark, 1970. Allargentum Redefined. *Canadian Mineralogist*, 10:163-172. (L. J. Cabri, 1976)

Aluminocopiapite NMNH 93834 Island Mountain, Trinity County, California

L. G. Berry, 1947. Composition and Optics of Copiapite from Island Mountain, Trinity County, California. *Contributions to Mineralogy from the Department of Geological sciences, University of Toronto*, 3:21-34.

M. C. Bandy, 1938. (Original analysis) Mineralogy of Three Sulphate Deposits of Northern Chile. *American Mineralogist*, 23:669-760. (M. Vonsen, 1920)

Aluminocopiapite NMNH 103544 Temple Rock, Utah

See references above.

(W. F. Foshag, 1939)

Ambrosine (discredited, =Amber) NMNH 128739

Near Charleston, South Carolina

C. U. Shepard, 1870. On Ambrosine, A new Organic Mineral Substance. *Rural Carolinian*, 1:311.

(C. U. Shepard Collection, 1929)

Ammonioborite NMNH 94172 Larderello, Tuscany, Italy

W. T. Schaller, 1933. Ammonioborite, a New Mineral. *American Mineralogist*, 18:480-492. (A. Pelloux, 1921)

Ammonioborite NMNH R6167 Larderello, Tuscany, Italy

See reference above.

(W. A. Roebling Collection, 1927)

Ammonioborite NMNH 93756 Larderello, Tuscany, Italy

See reference above.

(H. S. Washington, 1919)

Ammoniojarosite NMNH 95654 Western slope of Kaibab fault, southern Utah

E. V. Shannon, 1927. Ammoniojarosite, a New Mineral of the Jarosite Group from Utah. *American Mineralogist*, 12:424-426.

(F. Haycock, 1927)

Andersonite NMNH 106112 to 106115 Hillside Mine, Yavapai County, Arizona

J. M. Axelrod, F. S. Grimaldi, C. Milton and K. J. Murata, 1951. The Uranium Minerals from the Hillside Mine, Yavapai County, Arizona. *American Mineralogist*, 36:1-22.

(U.S. Geological Survey, 1950)

Anemousite (discredited, =Labradorite) NMNH 93379 Monte Rosso, Linosa Island, Mediterranean

H. S. Washington and F. E. Wright, 1910. A Feldspar from Linosa and the Existence of Soda Anorthite (Carnegieite). *American Journal of Science*, (4)29:52-70.

(H. S. Washington, 1917)

Antigorite, chromian—see Chromian Antigorite

Antillite (discredited, =Serpentine?) NMNH 128740 Regula, near Havana, Cuba

C. U. Shepard, 1872. Antillite, *Catalog of the*

- Meteoric Collection of C. U. Shepard*, page 6.
(C. U. Shepard Collection, 1929)
- Antlerite** NMNH 47698 Antler Mine, near Yucca Station, A&P Railroad, Mohave County, Arizona
W. F. Hillebrand, 1889. Mineralogical Notes; 5: A Basic Copper Sulphate. *United States Geological Survey Bulletin*, 55:54.
(C. W. Cunningham, 1888)
- Aquacreptite (discredited, =Serpentine?)** NMNH 128741 Strodes Mill, near West Chester, Chester County, Pennsylvania
C. U. Shepard, 1868. On Aquacreptite, a New Mineral, and on Corundophilite of Chester. *American Journal of Science*, (2)46:256-257.
(C. U. Shepard Collection, 1929)
- Argentojarosite** NMNH 104272 to 104274 Tintic Standard Mine, Utah County, Utah
W. T. Schaller, 1923. Argentojarosite, a New Silver Mineral. (Preliminary Note.) *Journal of the Washington Academy of Sciences*, 13:233.
(U.S. Geological Survey, through W. T. Schaller, 1942)
- Argentojarosite** NMNH 94707 Tintic Standard Mine, Utah County, Utah
See reference above.
(U.S. Geological Survey, through W. T. Schaller, 1923)
- Argentojarosite** NMNH R6309 Tintic Standard Mine, Utah County, Utah
See reference above
(U.S. Geological Survey, W. T. Schaller, through the Roebling Collection, 1923)
- Arizonite (discredited =mixture of Hematite, Ilmenite, Anatase and Rutile; possibly weathered Ilmenite)** NMNH 86793 Near Hackberry, Arizona
C. Palmer, 1909. Arizonite, Ferric Metatitanate. *American Journal of Science*, (4)28:353-356.
(U.S. Geological Survey, 1910)
- Arkansite (discredited, =Brookite)** NMNH 128742 Magnet Cove, Arkansas
C. U. Shepard, 1846. On Three New Minerals from Arkansas, and the Discovery of Diamond in North Carolina. *American Journal of Science*, (2)2:249-254.
(C. U. Shepard Collection, 1929)
- Arrojadite** NMNH 105948, 105949 Nickel Plate Mine, Pennington County, South Dakota
D. Guimarães, 1925. Arrojadita, um Novo Min-
eral do Grupo da Wagnerita. *Publicação da Inspectoria de Obras Contra as Secas*, No. 58. Abst: *American Mineralogist*, 12:355, 1927. [Actual type from Serra Branca, Picuhy, Parahyba, Brazil, believed to be the same as dark green phosphate described by W. P. Headden from South Dakota.]
- W. P. Headden, 1891. A New Phosphate from the Black Hills of South Dakota. *American Journal of Science*, (3)41:415-417.
- M. L. Lindberg, 1950. Arrojadite, Hühnerkobelite, and Graftonite. *American Mineralogist*, 35:59-76.
(U. S. Geological Survey, 1949)
- Baddeckite (discredited, =mixture of Hematite and Clay)** NMNH 117226 Baddeck, Victoria County, Nova Scotia, Canada
G. C. Hoffman, 1898. Baddeckite, a New Variety of Muscovite. *American Journal of Science*, (4)6:274-275.
(U. S. Geological Survey, through W. T. Schaller, 1964)
- Bagotite (discredited, =Thomsonite)** NMNH 128738 Bagot, Ontario, Canada
Unpublished manuscript.
(C. U. Shepard Collection, 1929)
- Bakerite** NMNH 94820 Calico Hills, San Bernardino County, California
W. B. Giles, 1903. Bakerite (a New Borosilicate of Calcium) and Howlite from California. *Mineralogical Magazine*, 13:353-355.
(British Museum (Natural History), 1923)
- Bambollaite** NMNH 128391 Moctezuma Mine, Moctezuma, Sonora, Mexico
D. C. Harris and E. W. Nuffield, 1972. Bambollaite, a New Copper Telluro-Selenide. *Canadian Mineralogist*, 11:738-742.
(R. V. Gaines, 1974)
- Banalsite** NMNH 105854 Benallt Mine, near Rhinllyn, Caernarvonshire, Wales, England
W. C. Smith, F. A. Bannister and M. H. Hey, 1944. Banasite, a New Barium-Feldspar from Wales. *Mineralogical Magazine*, 27:33-45.
(British Museum (Natural History), 1949)
- Barbosalite (with type Tavorite)** NMNH 106842 Sapucaia Pegmatite, Minas Gerais, Brazil
M. L. Lindberg and W. T. Pecora, 1954. Tavorite and Barbosalite, Two New Phosphate

- Minerals from Minas Gerais, Brazil. *Science*, 119:739.
- (U.S. Geological Survey, through W. T. Pecora, 1954)
- Barrerite (Sodian Stellerite) NMNH 128521** Below S. Efisio Tower, near Capo Pula, Cagliari, Sardinia, Italy
- E. Passaglia and D. Pongiluppi, 1974. Sodian Stellerite from Capo Pula, Sardegna. *Lithos*, 7:69-73.
- (E. Passaglia, 1974)
- Bayleyite NMNH 106101 to 106104** Hillside Mine, Yavapai County, Arizona
- J. M. Axelrod, F. S. Grimaldi, C. Milton and K. J. Murata, 1951. The Uranium Minerals from the Hillside Mine, Yavapai County, Arizona. *American Mineralogist*, 36:1-22.

 (Smithsonian Institution, through Brian Mason, 1970)
- Buetschliite (with type Fairchildite) NMNH 105675 and 105676** Kaniksu National Forest, Coolin, Idaho
 C. Milton and J. Axelrod, 1947. Fused Wood-ash Stones: Fairchildite (n. sp.) $\text{K}_2\text{CO}_3\cdot\text{CaCO}_3$, Buetschliite (n. sp.) $3\text{K}_2\text{CO}_3\cdot2\text{CaCO}_3\cdot6\text{H}_2\text{O}$ and Calcite, CaCO_3 , their Essential Components. *American Mineralogist*, 32:607-624.
 (U.S. Geological Survey, 1948)
- Burbankite NMNH 106843** Bearpaw Mountains, Montana
 W. T. Pecora and J. H. Kerr, 1953. Burbankite and Calkinsite, Two New Carbonate Minerals

- from Montana. *American Mineralogist*, 38: 1169-1183.
- (U.S. Geological Survey, through W. T. Pecora, 1954)
- Burkeite NMNH 97277** Searles Lake, California
W. F. Foshag, 1935. Burkeite, a New Mineral Species from Searles Lake, California. *American Mineralogist*, 20:50-56.
(U.S. Geological Survey, from NMNH #90685, 1919)
- Burkeite NMNH 102866 to 102872** Searles Lake, California
See reference above.
(American Potash & Chemical Corp., California, 1936)
- Butlerite NMNH 95953** United Verde Mine, Jerome, Arizona
C. Lausen, 1928. Hydrous Sulphates Formed under Fumerolic Conditions at the United Verde Mine. *American Mineralogist*, 13:203-229.
(C. Lausen, 1929)
- Bystromite NMNH 106194** El Antimonio, Sonora, Mexico
B. Mason and C. J. Vitaliano, 1952. Bystromite, Magnesium Antimonate, a New mineral. *American Mineralogist*, 37:53-57.
(Brian Mason, 1951)
- Cahnite NMNH 95568** Franklin, New Jersey
C. Palache, 1921. Holdenite and Cahnite, Two New Minerals from Franklin Furnace, N.J. Paper presented by title at the First Annual Meeting of the Mineralogical Society of America, Chicago, December, 1920. Abst: *American Mineralogist*, 6:39.
- C. Palache and L. H. Bauer, 1927. Cahnite, a New Boro-arsenate of Calcium from Franklin, New Jersey. *American Mineralogist*, 12:149-153.
(R. B. Gage, through Roebling Collection, 1927)
- Calcimangite (discredited, =Calcite, Manganan)**
NMNH 128744 Sterling Hill, New Jersey
C. U. Shepard, 1865. Analysis of a Carbonate of Lime and Manganese (Spartaite of Breithaupt) from Sterling, Sussex County, New Jersey. *American Journal of Science*, (2)39:174-175.
(C. U. Shepard Collection, 1929)
- Calumetite NMNH 115870** Centennial No. 2 Mine, 4700 foot level, Calumet, Houghton County, Michigan
- S. A. Williams, 1963. Anthonyite and Calumetite, Two New Minerals from the Michigan Copper District. *American Mineralogist*, 48:614-619.
(S. Williams, 1963)
- Calkinsite (type totally destroyed in analysis) Bear-paw Mountains, Montana**
W. T. Pecora and J. H. Kerr, 1953. Burbankite and Calkinsite, Two New Carbonate Minerals from Montana. *American Mineralogist*, 38: 1169-1183.
(U.S. Geological Survey, through W. T. Pecora)
- Canbyite (discredited, =Hisingerite) NMNH 94715** Wilmington, Delaware
A. C. Hawkins and E. V. Shannon, 1924. Canbyite, a New Mineral. *American Mineralogist*, 9:1-5.
(Alfred C. Hawkins, 1923)
- Carlfriesite NMNH 128393** Mina Bambollita, Moctezuma, Sonora, Mexico
S. A. Williams and R. V. Gaines, 1975. Carlfriesite, $H_4Ca(TeO_3)_3$, a New Mineral from Moctezuma, Sonora, Mexico. *Mineralogical Magazine*, 40:127-130.
(R. V. Gaines, 1974)
- Carlfriesite NMNH 135058** Mina Bambollita, Moctezuma, Sonora, Mexico
See reference above.
(S. A. Williams, 1976)
- Carlinite NMNH 132497** Carlin Deposit, Northern Eureka County, Nevada
A. S. Radtke and F. W. Dickson, 1975. Carlinite, Tl_2S , a New Mineral from Nevada. *American Mineralogist*, 60:559-565.
(U.S. Geological Survey, through A. S. Radtke, 1975)
- Cassidyite (with type Reevesite) NMNH 119553 and 119554** Wolf Creek meteorite, Australia
J. S. White, Jr., E. P. Henderson and B. Mason, 1967. Secondary Minerals Produced by Weathering of the Wolf Creek Meteorite. *American Mineralogist*, 52:1190-1197.
(Smithsonian Institution, Division of Meteorites, 1966)
- Cavansite NMNH 120583** Goble, Oregon
L. W. Staples, H. T. Evans, Jr., and J. R. Lindsay, 1973. Cavansite and Pentagonite, New Dimorphous Calcium Vanadium Silicate Min-

- erals from Oregon. *American Mineralogist*, 58:405-411.
(L. W. Staples, 1967)
- Cavansite NMNH 120584** Owyhee Dam, Malheur County, Oregon
See above reference.
(F. S. Zimmerman, 1967)
- Cebollite NMNH 87530** Beaver Creek, near Powderhorn, Iron Hill area, Gunnison County, Colorado
E. S. Larsen and W. T. Schaller, 1914. Cebollite, a New Mineral. *Journal of the Washington Academy of Sciences*, 4:480-482.
(U.S. Geological Survey, 1915)
- Cebollite NMNH C3217** Beaver Creek, near Powderhorn, Iron Hill area, Gunnison County, Colorado
See above reference.
(Canfield Collection, 1929)
- Cebollite NMNH R6451** Beaver Creek, near Powderhorn, Iron Hill area, Gunnison County, Colorado
See above reference.
(Roebling Collection, 1927)
- Centralasite (discredited, =Gyrolite) NMNH R4043** King's County, Nova Scotia, Canada
H. How, 1859. Description and Analysis of Three New Minerals, Associates in the Trap of the Bay of Fundy. *The Edinburgh New Philosophical Journal*, (new series) 10:84-94.
(Roebling Collection, 1927)
- Chalcoalumite NMNH 95226** Bisbee, Arizona
E. S. Larsen and H. E. Vassar, 1925. Chalcoalumite, a New Mineral from Bisbee, Arizona. *American Mineralogist*, 10:79-83.
(Harvard University, 1925)
- Chalcoalumite NMNH R6326** Bisbee, Arizona
See above reference.
(Roebling Collection, 1927)
- Chalcodite (discredited, =Stilpnomelane) NMNH 128745** Antwerp, New York
C. U. Shepard, 1851. On Chalcodite, a New Mineral Species. *Proceedings of the American Association for the Advancement of Science*, 6: 232-233.
(C. U. Shepard Collection, 1929)
- Chalconatronite NMNH 112695** Alteration product from Egyptian bronzes
C. Frondel and R. J. Gettens, 1955. Chalconatronite, a New Mineral from Egypt. *Science*, 122:75-76.
(Freer Gallery of Art, Smithsonian Institution, through R. J. Gettens, 1956)
- Chambersite NMNH 115327** Northwest side of Barber's Hill Salt Dome, Mont Belvieu, Chambers County, Texas
R. M. Honea and F. R. Beck, 1962. Chambersite, a New Mineral. *American Mineralogist*, 47: 665-671.
(Frank R. Beck, 1962)
- Chlorophoenicite NMNH 94964** Franklin Furnace, New Jersey
W. F. Foshag and R. B. Gage, 1924. Chlorophoenicite, a New Mineral from Franklin Furnace, New Jersey (Preliminary Description). *Journal of the Washington Academy of Sciences*, 14:362-363.
(R. B. Gage, 1924)
- Chromian Antigorite NMNH 114107** Wood's Mine, Lancaster County, Pennsylvania
J. J. Glass, A. C. Vlisisidis, and N. C. Pearre, 1959. Chromian Antigorite from the Wood's Mine, Lancaster County, Pennsylvania. *American Mineralogist*, 44:651-656.
(U.S. Geological Survey, through Jewell J. Glass, 1960)
- Chromrutile (now Redledgeite) NMNH 95846** Red Ledge Mine, Washington District, Nevada County, California
S. G. Gordon and E. V. Shannon, 1927. Chromrutile, a New Mineral from California. Paper given at meeting of the Philadelphia Mineralogical Society. Abst: *American Mineralogist*, 13:69, 1928.
(Philadelphia Academy of Sciences, 1928)
- Clarkeite NMNH 96510** Spruce Pine, North Carolina
C. S. Ross, E. P. Henderson and E. Posnjak, 1931. Clarkeite, a New Uranium Mineral. *American Mineralogist*, 16:213-220.
(C. S. Ross, 1931)
- Clarkeite NMNH R6607** Deer Park Mine, Spruce Pine, North Carolina
See above reference.
(B. C. Burgess, 1930)
- Cliffordite NMNH 120246** San Miguel Mine, Moctezuma, Sonora, Mexico
R. V. Gaines, 1969. Cliffordite, a New Tellurite Mineral from Moctezuma, Sonora, Mexico. *American Mineralogist*, 54:697-701.

- (Richard V. Gaines, 1967)
- Clinobarrandite** (discredited, =Phosphosiderite, Aluminian) NMNH 94669 Manhattan, Nevada
- D. McConnell, 1940. Clinobarrandite and the Isodimorphous Series, Variscite-Metavariscite. *American Mineralogist*, 25:719-725.
- (H. G. Clinton, 1923)
- Clinofersilite** NMNH 102793 Obsidian Cliff, Yellowstone National Park, Wyoming
- N. L. Bowen, 1935. "Fersilite" as a Natural Mineral. *American Journal of Science*, (5)30: 481-494.
- (J. P. Iddings, 1936)
- Coalingite** NMNH 119335 Coalinga, California
- F. A. Mumpton, H. W. Jaffe and C. S. Thompson, 1965. Coalingite, a New Mineral from the New Idria Serpentinite, Fresno and San Benito Counties, California. *American Mineralogist*, 50:1893-1913.
- (Howard W. Jaffe, 1966)
- Cocinerite** (discredited, =mixture of Chalcocite, Silver, Copper and Cuprite) NMNH 95665 Cocinera Mine, Mexican Copper Company, Ramos, San Luis Potosi, Mexico
- G. J. Hough, 1919. Notes on an Unlisted Mineral. *American Journal of Science*, (4)48:206 (George J. Hough, 1927)
- Coconinoite** NMNH 119772 Sun Valley Mine, Coconino County, Arizona
- E. J. Young, A. D. Weeks and R. Meyrowitz, 1966. Coconinoite, A New Uranium Mineral from Utah and Arizona. *American Mineralogist*, 51:651-663.
- (U.S. Geological Survey, through E. J. Young, 1966)
- Columbiconite** (status undetermined) NMNH 128732 Portland, Connecticut
- A. H. Chester, 1896. Columbiconite. *A Dictionary of the Names of Minerals*, page 63. (C. U. Shepard Collection, 1929)
- Corderoite** NMNH 133354 McDermitt Mine (old Cordero Mine), Humboldt County, Nevada
- E. F. Foord, P. Berendzen and L. O. Storey, 1974. Corderoite, First Natural Occurrence of α -Hg₃S₂Cl₂ from the Cordero Mercury Deposit, Humboldt County, Nevada. *American Mineralogist*, 59:652-655.
- (E. F. Foord, 1974)
- Coronadite** NMNH 86040 Coronado Lode, 3 to 4 miles west J. Horse-Shoe Shaft, Clifton-Morenci District, Arizona
- W. Lindgren, 1904. Copper Deposits of the Clifton-Morenci District, Arizona. *United States Geological Survey Professional Paper*, 43:103-106.
- (U.S. Geological Survey, Lindgren Collection, 1906)
- Coronadite** NMNH R2012 Morenci, Arizona
- See above reference.
- (Roebling Collection, 1927)
- Corrensite** NMNH 107373 Three kilometers from Zaiserweiher, near Maulbron, Germany
- F. Lippmann, 1954. Über einen Keuperton von Zaisersweiher bei Maulbronn Heidelberg. *Beiträge zur Mineralogie und Petrologie*, 4:130-134. Abst.: *American Mineralogist*, 40:137-138. 1955.
- (University of Göttingen, 1955)
- Corvusite** NMNH 96806 and 96807 Ponto #3 Claim, north wall of Gypsum Valley, San Miguel County, Colorado
- E. P. Henderson and F. L. Hess, 1933. Corvusite and Rilandite, New Minerals from the Utah-Colorado Carnotite Region. *American Mineralogist*, 18:195-205.
- (U.S. Geological Survey, through F. L. Hess, 1932)
- Corvusite-like mineral** NMNH 121958 Monument No. 2 Mine, Apache County, Arizona
- M. Ross, 1959. Mineralogical Applications of Electron Diffraction, II: Studies of Vanadium Minerals of the Colorado Plateau. *American Mineralogist*, 44:322-341.
- (U.S. Geological Survey, 1969)
- Costibite** (with type Willyamite) NMNH R849
- A. B. H. Consols Mine, Broken Hill, New South Wales, Australia
- L. J. Cabri, D. C. Harris, J. M. Stewart, 1970. Costibite (CoSbS), a New Mineral from Broken Hill, N.S.W., Australia. *American Mineralogist*, 55:10-17.
- (Roebling Collection, 1927)
- Cowlesite** NMNH 135026 Goble, Columbia County Oregon
- W. S. Wise and R. W. Tschernich, 1975. Cowlesite, a New Ca-Zeolite. *American Mineralogist*, 60:951-956.
- (W. S. Wise, 1975)
- Crandallite** NMNH R5641 Dump of Brooklyn

- Mine, 1½ miles northwest of Silver City, Tin-tic District, Utah
 G. F. Loughlin and W. T. Schaller, 1917. Crandallite, a New Mineral. *American Journal of Science*, (4)43:69–74.
 (Roebling Collection, from W. T. Schaller, 1929)
- Creedite NMNH 93117** Wagon Wheel Gap, Creede Quadrangle, Colorado
 E. S. Larsen and R. C. Wells, 1916. Some Minerals from the Fluorite-Barite Vein near Wagon Wheel Gap, Colorado. *Proceedings of the National Academy of Science*, 2:360–365.
 (U.S. Geological Survey, 1916)
- Creedite NMNH C1034** Wagon Wheel Gap, Creede Quadrangle, Colorado
 See reference above.
 (Canfield Collection, 1927)
- Crestmoreite (discredited, =mixture of Tobermorite and Wilkeite) NMNH 95683** Crestmore, near Riverside, California
 A. S. Eakle, 1917. Minerals Associated with the Crystalline Limestone at Crestmore, Riverside County, California. *Bulletin of the Department of Geology, University of California*, 10(19):327–360. Abst: *American Mineralogist*, 3:19–20, 1918.
 (A. S. Eakle, 1927)
- Crossite NMNH 94366A** North of Berkeley, California
 C. Palache, 1894. On a Rock from the Vicinity of Berkeley, (Cal.) Containing a New Soda Amphibole. *Bulletin of the Department of Geology, University of California*, 1:181–192.
 (C. Palache and W. T. Schaller, 1922)
- Cuprobismutite (with type Berryite) NMNH 92902** Missouri Mine, Park County, Colorado
 W. F. Hillebrand, 1884. On an Interesting Variety of Löllingite and Other Minerals. *American Journal of Science*, (3)27:349–358.
 (U.S. Geological Survey, 1915)
- Cuprospinel NMNH 128673** Baie Verte, Newfoundland, Canada
 E. H. Nickel, 1973. The New Mineral Cuprospinel (CuFe_2O_4) and Other Spinelles from an Oxidized Ore Dump at Baie Verte, Newfoundland. *Canadian Mineralogist*, 11:1003–1007.
 (D. C. Harris, 1974)
- Custerite (discredited, =Cuspidine) NMNH 87445** 3½ miles southwest of Mackey, Custer County, Idaho
 J. B. Umpleby, W. T. Schaller and E. S. Larsen, 1913. Custerite, a New Contact Metamorphic Mineral. *American Journal of Science*, (4)36: 385–394.
 (U.S. Geological Survey, through J. B. Umpleby, 1914)
- Cymatolite (discredited, =mixture of Muscovite and Albite) NMNH 128734** Goshen, Massachusetts
 C. U. Shepard, 1867. Cymatolite. Private Publication, May 24, and Correspondence, December 24; reference in J. D. Dana, *System of Mineralogy*, 1877, 5th Edition, page 455.
 (C. U. Shepard Collection, 1929)
- Dachiaridite NMNH 123998** Elba, Italy
 G. D'achiardi, 1906. Zeolite del Filone della Speranza. *Societa Toscana di Scienze Naturali Pisa*, 22:150–165.
 (U.S. Geological Survey, through W. T. Schaller, 1972)
- Dadsonite NMNH 123240** Wolfsberg, Germany
 J. L. Jambor, 1969. Dadsonite (Minerals Q and QM), a New Lead Sulphantimonide. *Mineralogical Magazine*, 37:437–441.
 (W. W. Pinch, 1972)
- Dahllite (discredited, =Carbonate-apatite NMNH 93884)** Ödegården, Bamle, Norway
 W. C. Brögger and H. Bäckström, 1888. Über den Dahllite, ein Neues Mineral von Ödegården, Bamle, Norwegen. *Meddelanden Från Stockholms Högskola*, 77:3–6.
 (U.S. Geological Survey, through W. T. Schaller, who received it from H. Bäckström, 1920)
- Dalyite NMNH 113106** Green Mountain, Ascension Island
 R. Van Tassel and M. H. Hey, 1952. Dalyite, a New Potassium Zirconium Silicate, from Ascension Island, Atlantic. *Mineralogical Magazine*, 29:850–857.
 (S. O. Agrell, 1959)
- Danalite NMNH 124353** Rockport, Cape Ann, Massachusetts
 J. P. Cooke, Jr., 1866. On Danalite, a New Mineral Species from the Granite of Rockport, Massachusetts. *American Journal of Science*, (2)42:73–79.

- (U.S. Geological Survey, through W. T. Schaller,
from J. P. Cooke, Jr., 1972)
- Deeckéite (a pseudomorph of Melilite?) NMNH R4061** Kaiserstuhl, Baden, Germany
J. Soellner, 1913. Über Bergalith ein Neues Melilithreiches Ganggestein aus dem Kaiserstuhl. *Baden Geologische Landesanstalt*, 7:415–466. Abst: *Mineralogical Magazine*, 17:348, 1916. (Roebling Collection, 1927)
- Dehrnite NMNH R5590** Dehrn, Nassau, Germany
E. S. Larsen and E. V. Shannon, 1930. Two Phosphates from Dehrn, Dehrnite and Cran-dallite. *American Mineralogist*, 15:303–306. (Roebling Collection, 1927)
- Dellaite NMNH 119426** $\frac{3}{4}$ mile north of hotel, Kilchoan, Ardnamurchan, Scotland
S. O. Agrell, 1965. Polythermal Metamorphism of Limestones at Kilchoan, Ardnamurchan. *Mineralogical Magazine*, 34:1–15. (S. O. Agrell, 1966)
- Delrioite NMNH 128296** Jo Dandy Mine, Paradox Valley, Montrose County, Colorado
M. E. Thompson and A. M. Sherwood, 1959. Delrioite, a New Calcium Strontium Vanadate from Colorado. *American Mineralogist*, 44: 261–264. (U.S. Geological Survey, through M. Mrose, 1974)
- Diaboleite NMNH 94813** Higher Pitts Mine, Priddy, Mendip Hills, Somerset, England
L. J. Spencer and E. D. Mountain, 1923. New Lead-Copper Minerals from the Mendip Hills (Somerset). *Mineralogical Magazine*, 20:67–92. (British Museum (Natural History), 1923)
- Dickite NMNH 80561** American Bell, San Juan County, Colorado
C. S. Ross and P. F. Kerr, 1930. Dickite, a Kaolin Mineral, [Probably not really type, but cited in this article, locality given as National Belle Mine, Red Mountain.] *American Mineralogist*, 15:34–39. (U.S. Geological Survey, through Whitman Cross, 1892)
- Diderichite (discredited, =Rutherfordine) NMNH 115878** Katanga, Zaire
J. F. Vaes, 1947. Six Nouveaux Mineraux d'Urane Provenant de Shinkolobwe (Katanga). *Société Géologique de Belgique, Annales*, 70: B212–B223. Abst: *American Mineralogist*, 33: 385, 1948.
- (U.S. Geological Survey, 1963)
- Eakerite NMNH 120301 & 121143** Foote Mineral Company Spodumene Mine, Kings Mountain, Cleveland County, North Carolina.
P. B. Leavens, J. S. White, Jr., and M. H. Hey, 1970. Eakerite—a New Tin Silicate. *Mineralogical Record*, 1:92–96. (J. Eaker (120301), 1967; L. Shrum (121143), 1968)
- Eakleite (discredited, =Xonotlite) NMNH 93243** St. Inez, California
E. S. Larsen, 1917. Eakleite, a New Mineral from California. *American Journal of Science*, (4) 43:464–465. (U.S. Geological Survey, 1917)
- Eakleite (discredited, =Xonotlite) NMNH R4045** St. Inez, California
See reference above. (Roebling Collection, 1927)
- Eardleyite NMNH 114257** Southern Oquirrh Mountains, Utah
B. J. Anderson and J. A. Whelan, 1962. Nickel-bearing Minerals in the Southern Oquirrh Mountains, Utah. Abst: *Geological Society of America Special Paper*, 68:83. (University of Utah, through J. A. Whelan, 1960)
- Earlandite NMNH 105859** Weddell Sea, Antarctic
F. A. Bannister, 1936. Report on Some Crystalline Components of the Weddell Sea Deposits. *Discovery Reports*, 13:67–69. Abst: *American Mineralogist*, 22:71, 1937. (British Museum (Natural History), 1949)
- Edwardsite (discredited, =Monazite) NMNH 128736** Norwich, Connecticut
C. U. Shepard, 1837. Description of Edwardsite, a New Mineral. *American Journal of Science*, (1)32:162–166. (C. U. Shepard Collection, 1929)
- Eglestonite NMNH R1325** Terlingua, Texas
A. J. Moses, 1903. Eglestonite, Terlinguaite and Montroydite, New Mercury Minerals from Terlingua, Texas. *American Journal of Science*, (4)16:253–263. (L. Cahn, through the Roebling Collection, 1927)
- Ellestadite NMNH 103072** Crestmore, California
D. McConnell, 1937. The Substitution of SiO_4^{4-} and SO_4^{2-} Groups for PO_4^{3-} Groups in the

- Apatite Structure; Ellestadite, the End-member. *American Mineralogist*, 22:977-986.
(D. McConnell, 1937)
- Elpasolite NMNH 83302** Cincinnati Mine, St. Peter's Dome, Pikes Peak, Colorado
W. Cross and W. F. Hillebrand, 1885. II, Minerals from the Neighborhood of Pikes Peak: Elpasolite, a New Mineral. *United States Geological Survey Bulletin*, 20:57.
(U.S. Geological Survey, through W. Cross, 1894)
- Elroqueite (discredited, =mixture of Variscite and Quartz) NMNH 128747** Elroque Island, West Indies
C. U. Shepard, 1877. Elroqueite. *Contributions to Mineralogy*, pages 6-8.
(C. U. Shepard Collection, 1929)
- Epiphanite NMNH R4589** Tvärå, Wermland, Sweden
L. J. Iglesström, 1868. Bidrag till Kändedomen af Wermlands Mineralier och Bergarter. *Öfversigt af Svenska Vetenskapsakademien Förfäning, Stockholm*, 25:32.
(L. J. Iglesström, through the Roebling Collection, 1927)
- Ericssonite NMNH 120061** Långban, Sweden
P. B. Moore, 1971. Ericssonite and Orthoericssonite, Two New Members of the Lamprophyllite Group, from Långban, Sweden. *Lithos*, 4: 137-145. Abst: *Mineralogical Abstracts*, 22:71-3104, 1971.
(P. B. Moore, 1967)
- Erionite NMNH 133333** Durkee, Oregon
A. S. Eakle, 1898. Erionite, a New Zeolite. *American Journal of Science*, (4)6:66-68.
(U.S. Geological Survey, through E. S. Larsen, Jr., date unknown)
- Erionite NMNH R4066** Durkee, Oregon
See reference above.
(A. S. Eakle, through the Roebling Collection, 1927)
- Erlichmanite NMNH 123914-123915** MacIntosh Mine, Willow Creek, Trinity River, Humboldt County, California
K. G. Snetsinger, 1971. Erlichmanite, OsS_2 , a New Mineral. *American Mineralogist*, 56: 1501-1506.
(National Aeronautics and Space Administration, through K. G. Snetsinger, 1972)
- Eveite NMNH 120062** Långban, Sweden
P. B. Moore, 1968. Eveite, $\text{Mn}_2(\text{OH})(\text{AsO}_4)$, a New Mineral from Långban. *Arkiv for Kemi, Mineralogi och Geologi*, 4:473-476. Abst: *Mineralogical Abstracts*, 20:69-2397, 1969.
(P. B. Moore, 1967)
- Ewaldite (with type Mackelveyite) NMNH 121683** Green River Formation, Wyoming
G. Donnay, J. D. H. Donnay and M. H. Hey, 1971. Ewaldite, a New Barium Calcium Carbonate. *Tschermaks Mineralogische und Petrographische Mitteilung*, 15:185-212. Abst: *Mineralogical Abstracts*, 22:71-3105, 71-3106, 1971.
(U.S. Geological Survey, through C. Milton, 1964)
- Ezcurrite NMNH 123927** Tincalayu Borax Mine, Salta province, Argentina
S. Muessig and R. D. Allen, 1957. Ezcurrite ($2\text{Na}_2\text{O}\cdot 5\text{B}_2\text{O}_3\cdot 7\text{H}_2\text{O}$), a New Sodium Borate from Argentina; Occurrence, Mineralogy, and Associated Minerals. *Economic Geology*, 52: 426-437.
(U.S. Geological Survey, through W. T. Schaller, from S. Muessig, 1972)
- Faheyite NMNH 112653** Sapucaia Pegmatite, Minas Gerais, Brazil
M. L. Lindberg and K. J. Murata, 1953. Faheyite, a New Phosphate Mineral from the Sapucaia Pegmatite Mine, Minas Gerais, Brazil. *American Mineralogist*, 38:263-270.
(U.S. Geological Survey, 1956)
- Fairchildite (with type Buetschliite) NMNH 105675 and 105676** Grand Canyon National Park, Arizona
C. Milton and J. Axelrod, 1947. Fused Wood-Ash Stones: Fairchildite (n. sp.) $\text{K}_2\text{CO}_3\cdot\text{CaCO}_3$, Buetschliite (n. sp.) $3\text{K}_2\text{CO}_3\cdot 2\text{CaCO}_3\cdot 6\text{H}_2\text{O}$ and Calcite, CaCO_3 , Their Essential Components. *American Mineralogist*, 32:607-624.
(U.S. Geological Survey, 1948)
- Faustite NMNH 106879** Copper King Mine, Maggie Creek District, Eureka County, Nevada
R. C. Erd, M. D. Foster and P. D. Proctor, 1953. Faustite, a New Mineral, the Zinc Analogue of Turquoise. *American Mineralogist*, 38:964-972.
(U.S. Geological Survey, 1954)
- Faustite NMNH 113171** Copper King Mine, Maggie Creek District, Eureka County, Nevada
See reference above.
(P. D. Proctor, 1959)

- Fermorite NMNH 94809** Sitapar, Chhindwara District, Central India
 G. F. H. Smith and G. T. Prior, 1911. On Fermorite, a New Arsenate and Phosphate of Lime and Strontia, and Tilasite, from the Manganese-ore Deposits of India. *Mineralogical Magazine*, 16:84-96.
 (British Museum (Natural History), 1923)
- Fernandinite NMNH 87661** Minasragra, Peru
 W. T. Schaller, 1915. Four New Minerals. *Journal of the Washington Academy of Sciences*, 5:7.
 (U.S. Geological Survey, through D. F. Hewett, 1912)
- Ferricopiapite NMNH 80516** Atacama, Chile
 L. G. Berry, 1947. Composition and Optics of Copiapite. *Contributions to Mineralogy from the Department of Geological Sciences, University of Toronto*, 3:21-34. [Original analysis: M. C. Bandy, 1938. Mineralogy of Three Sulphate Deposits of Northern Chile. *American Mineralogist*, 23:669-760.]
 (T. Egleston, 1892)
- Ferriphengite (Probably invalid but not formally discredited) NMNH 115033** Iimori District, Kii Peninsula, Honshu, Japan
 S. Banno and K. Kanehira, 1960. Ferriphengite and Aegirinejadeite in a Crystalline Schist of the Iimori District, Kii Peninsula. *Journal of the Geological Society of Japan*, 66:654-659.
 (S. Banno and K. Kanehira, 1961)
- Ferrisymplesite NMNH 95461** Hudson Bay Mine, Cobalt, Ontario, Canada
 T. L. Walker and A. L. Parsons, 1924. The Arsenates of Cobalt, Nickel, and Iron Observed in the Silver-bearing Veins at Cobalt, Ontario. *Contributions to Canadian Mineralogy*, 17: 13-17.
 (Royal Ontario Museum, 1926)
- Ferritungstite NMNH 86985** Germania Tungsten Mine, Deertrail Mining District, Washington
 W. T. Schaller, 1911. Ferritungstite, a New Mineral. *American Journal of Science*, (4)32: 161-162.
 (W. T. Schaller and H. Bancroft, 1911)
- Ferroanthophyllite (discredited, =Actinolite) NMNH 93998** Tamarack-Custer Mine, Coeur d'Alene District, Idaho
 E. V. Shannon, 1921. Description of Ferroanthophyllite, an Orthorhombic Iron Amphibole from Idaho, with a Note on the Nomenclature of the Anthophyllite group. *Proceedings of the United States National Museum*, 59:397-401. (F. Barker, 1920)
- Ferrocapholite NMNH 106754** West of Tomate, eastern central Celebes
 W. P. de Roever, 1951. Ferrocapholite, the Hitherto Unknown Ferrous Iron Analogue of Capholite Proper. *American Mineralogist*, 36: 736-745.
 (H. A. Brouwer, 1953)
- Ferroschallerite (discredited, =Friedelite) NMNH C6219** Trotter Shaft, Franklin, New Jersey
 L. H. Bauer and H. Berman, 1930. Notes on Some Franklin Minerals. *American Mineralogist*, 15:340-348.
 (L. H. Bauer Collection, through the Canfield Collection, 1955)
- Ferroschallerite (discredited, =Friedelite) NMNH R7824** Trotter Shaft, Franklin, New Jersey
 See reference above.
 (Harvard University, through the Roebling Collection, 1938)
- Fervanite NMNH 96420** Polar Mesa, north side of La Sal Mountains, Utah
 F. L. Hess and E. P. Henderson, 1931. Fervanite, a Hydrous Ferric Vanadate. *American Mineralogist*, 16:273-277.
 (U.S. Geological Survey, F. L. Hess collection, 1930)
- Fervanite NMNH 97874** North side of Gypsum Valley, Colorado
 See reference above.
 (U.S. Geological Survey)
- Fleischerite NMNH 115310** Tsumeb, Southwest Africa
 C. Frondel and H. Strunz, 1960. Fleischerit und Itoit, Zwei Neue Germanium-Mineralien von Tsumeb. *Neues Jahrbuch fur Mineralogie, Geologie, und Paleontologie, Monatsh.*, 1960: 132-142. Abst: *American Mineralogist*, 45: 1313, 1960.
 (Harvard University, 1962)
- Florencite NMNH R5209** Diamantina, Minas Gerais, Brazil
 E. Hussak and G. T. Prior, 1900. Florencite, a New Hydrated Phosphate of Aluminum and the Cerium Earths from Brazil. *Mineralogical Magazine*, 12:244-248.

- (E. Hussak, through the Roebling Collection, 1927)
- Footetite (discredited, =Connellite) NMNH 85154** Copper Queen Mine, Bisbee, Arizona
G. A. Koenig, 1891. On Paramelaconite and the Associated Minerals. *Proceedings of the Academy of Natural Sciences, Philadelphia*, 43: 284–289.
(W. M. Foote, 1903)
- Foshagite NMNH 95229** Crestmore, California
A. S. Eakle, 1925. Foshagite, a New Silicate from Crestmore, California. *American Mineralogist*, 10:97–99.
(M. Vonsen, 1925)
- Fowlerite (discredited, =Rhodonite, Zincian) NMNH 128748** Franklin Furnace, New Jersey
C. U. Shepard, 1832. A Sketch of the Mineralogy and Geology of the Counties of Orange (N. J.). *American Journal of Science*, (1) 21:321–334.
(C. U. Shepard Collection, 1929)
- Frankdicksonite NMNH 133958** Carlin Gold Deposit, Eureka County, Nevada
A. S. Radtke and G. E. Brown, 1974. Frankdicksonite, BaF₂, a New Mineral from Nevada. *American Mineralogist*, 59:885–888.
(U.S. Geological Survey, through A. S. Radtke, 1975)
- Freirinite (dsicredited, =Lavendulan) NMNH 81706** San Juan, Chile
W. F. Foshag, 1924. Freirinite: a New Mineral Species. *American Mineralogist*, 9:30–31.
(U.S. Geological Survey, the Leidy Collection, 1894)
- Fremontite, see Natromontebrasite**
- Frondelite NMNH 105946** Sapucaia Pegmatite, Minas Gerais, Brazil
M. L. Lindberg, 1949. Frondelite and the Frondelite-Rockbridgeite Series. *American Mineralogist*, 34:541–549.
(U.S. Geological Survey, 1949)
- Gabrielsonite NMNH 120063** Långban, Sweden
P. B. Moore, 1967. Gabrielsonite, PbFe(AsO₄)(OH), a New Member of the Descloizite-Pyrobelonite Group, from Långban. *Mineralogi och Geologi Arkiv för Kemi*, 4: 401–405. Abst: *Mineralogical Abstracts*, 19: 128, 1968.
(P. B. Moore, 1967)
- Gageite NMNH 86845** Franklin Furnace, New Jersey
A. H. Phillips, 1910. Gageite, a New Mineral from Franklin, New Jersey. *American Journal of Science*, (4)30:283–284.
(R. B. Gage, through W. T. Schaller, U.S. Geological Survey, 1911)
- Gageite NMNH R6444** Franklin Furnace, New Jersey
See reference above.
(Roebling Collection, 1927)
- Galeite NMNH 107385** Searles Lake, California
A. Pabst, D. L. Sawyer and G. Switzer, 1955. Galeite, a New Mineral from Searles Lake, California. *Bulletin of the Geological Society of America*, 66:1658–1659.
(G. Switzer, 1955)
- Gamagarite NMNH 105142** Postmasburg, Cape Province, South Africa
J. E. de Villiers, 1943. Gamagarite, a New Vanadium Mineral from the Postmasburg Manganese Deposits. *American Mineralogist*, 28: 329–335.
(U.S. Geological Survey, through M. Fleischer, 1945)
- Gaspeite NMNH 119544** Gaspé Peninsula, Quebec, Canada
D. W. Kohls and J. L. Rodda, 1966. Gaspeite, (Ni,Mg,Fe)(CO₃), a New Carbonate from the Gaspé Peninsula, Quebec. *American Mineralogist*, 51:677–684.
(New Jersey Zinc Company, through D. W. Kohls, 1966)
- Genthelvite NMNH 127180** Western Cheyenne Canyon, El Paso County, Colorado
J. J. Glass, R. H. Jahns and R. E. Stevens, 1944. Helvite and Danalite from New Mexico and the Helvite Group. *American Mineralogist*, 29:163–191.
(Pennsylvania State University, through D. Smith and P. J. Dunn, 1973)
- Gerstleyite NMNH 106916** Baker Mine, Kramer District, California
C. Frondel and V. Morgan, 1956. Inderite and Gerstleyite from the Kramer Borate District, Kern County, California. *American Mineralogist*, 41:839–843.
(Harvard University, 1954)
- Getchellite NMNH 118159 and 118160** Getchell Mine, Humboldt County, Nevada

- B. G. Weissberg, 1965. Getchellite, AsSbS₃, a New Mineral from Humboldt County, Nevada. *American Mineralogist*, 50:1817-1826.
- (New Zealand Department of Scientific and Industrial Research, through B. G. Weissberg, 1965)
- Gillespite NMNH 94347** Dry Delta, Alaska Range, Alaska
- W. T. Schaller, 1922. Gillespite, a New Mineral. *Journal of the Washington Academy of Sciences*, 12:7-8.
- (U.S. Geological Survey, 1921)
- Gilpinite (discredited, =Johannite) NMNH 49090** Central City, Colorado
- E. S. Larsen and G. V. Brown, 1917. Gilpinite, a New Uranium Mineral from Colorado. *American Mineralogist*, 2:75-79.
- (U.S. Geological Survey, through W. F. Hillebrand, 1890)
- Glaukospaerite NMNH 131889** Hampton East Location 48, near the Durkin Shaft, Kamalda, Western Australia, Australia
- M. W. Pryce and J. Just, 1974. Glaukospaerite: a New Nickel Analogue of Rosasite. *Mineralogical Magazine*, 39:737-743.
- (M. W. Pryce, 1975)
- Glinkite (discredited, =Olivine) NMNH 16257** Lake Itkul, Katharineburg District, Ural Mountains, USSR
- H. Romanovski, 1847. Glinkit. *Bergjournal Russ.*, October. Abst: *Dana* 6:451.
- (The Museum of the Mining School of St. Petersburg, USSR, 1884)
- Glossecolite (discredited, =Halloysite) NMNH 128749** Rising Fawn, Georgia
- C. U. Shepard, 1857. Glossecolite. *Treatise on Mineralogy*, 3rd Edition, Part, 2, Supplement pages iii-iv.
- (C. U. Shepard Collection, 1929)
- Goldichite NMNH 106903** Dexter 7 Mine, Calf Mesa, San Rafael Swell, Utah
- A. Rosenzweig and E. B. Gross, 1955. Goldichite, a New Hydrous Potassium Ferric Sulfate from the San Rafael Swell, Utah. *American Mineralogist*, 40:469-480.
- (A. Rosenzweig, 1954)
- Goldmanite NMNH 121717** Laguna, New Mexico
- R. H. Moench and R. Meyrowitz, 1964. Goldmanite, a Vanadium Garnet from Laguna, New Mexico. *American Mineralogist*, 49:644-655.
- (U.S. Geological Survey, through R. H. Moench, 1969)
- Goldmanite NMNH 121953** Laguna, New Mexico
- See reference above.
- (U.S. Geological Survey, 1969)
- Gonyerite NMNH 106913** Långban, Sweden
- C. Frondel, 1955. Two Chlorites: Gonyerite and Melanolite. *American Mineralogist*, 40:1090-1094.
- (Harvard University, through C. Frondel, 1954)
- Graftonite NMNH C4037** Melvin Mountain, near Grafton, New Hampshire
- S. L. Penfield, 1900. Über Graftonit, ein Neues Mineral von Grafton, New Hampshire, und dessen Verwachsung mit Triphylin. *Zeitschrift für Krystallographie und Mineralogy*, 32: 433-445.
- (Canfield Collection, 1927)
- Graftonite NMNH R5183** Melvin Mountain, near Grafton, New Hampshire
- See reference above.
- (Roebling Collection, 1927)
- Grantsite NMNH 121956** New Mexico, Colorado or Utah
- A. D. Weeks, M. L. Lindberg and R. Meyrowitz, 1961. Grantsite, a New Hydrated Sodium Calcium Vanadyl Vanadate from New Mexico and Colorado—a Preliminary Description. *United States Geological Survey Professional Paper*, 424-B:293.
- (U.S. Geological Survey, 1969)
- Greenalite NMNH 91160** Mesabi District, Minnesota
- C. K. Leith, 1903. The Mesabi Iron Bearing District of Minnesota. *United States Geological Survey Monograph*, 43:102-115.
- (University of Wisconsin, through C. K. Leith, 1921)
- Greenalite NMNH 124953** Mesabi District, Minnesota
- See reference above.
- (British Museum (Natural History), through J. P. Fuller, 1972)
- Greigit NMNH 117502** Kramer-Four Corners Area, San Bernardino County, California
- B. J. Skinner, R. C. Erd and F. S. Grimaldi, 1964. Greigit, the Thio-Spinel of Iron; a New Mineral. *American Mineralogist*, 49:543-555.
- (U.S. Geological Survey, 1964)

- Griffithite (discredited, =Saponite, Ferroan) NMNH 93241** Griffith Park, California
E. S. Larsen and G. Steiger, 1917. Griffithite, a Member of the Chlorite Group. *Journal of the Washington Academy of Sciences*, 7:11–12.
(U.S. Geological Survey, 1917)
- Griffithite (discredited, =Saponite, Ferroan) NMNH R4603** Griffith Park, California
See reference above.
(Roebling Collection, 1927)
- Graphite NMNH R5315** Harney City, South Dakota
D. McConnell, 1942. Graphite, a Hydrophosphate Garnetoid. *American Mineralogist*, 27: 452–461.
(Roebling Collection, 1927)
- Grothine NMNH R4347** Campanian Bluff, near Nocera, Italy
F. Zambonini, 1913. Grothina, un Nuovo Minereale. *Reale Accademia Nazionale die Lincei, Roma*, (5)22:801–803.
(Roebling Collection, 1927)
- Groutite NMNH 105004** Cuyuna Range, Minnesota
J. W. Gruner, 1947. Groutite, HMnO₂, a New Mineral of the Diaspore-Goethite Group. *American Mineralogist*, 32:654–659.
(University of Minnesota, through J. W. Gruner, 1944)
- Guildite NMNH 95950** United Verde Mine, Jerome, Arizona
C. Lausen, 1928. Hydrous Sulphates Formed under Fumerolic Conditions at the United Verde Mine. *American Mineralogist*, 13:203–229.
(C. Lausen, 1929)
- Guilleminite NMNH 119360** Musonoi, Katanga, Congo (now Zaïre)
R. Pierrot, J. Toussaint and T. Verbeek, 1965. La Guilleminite, une Nouvelle Espèce Minérale. *Bulletin de la Société Française de Mineralogie et de Cristallographie*, 88:132–135. Abst: *American Mineralogist*, 50:2103, 1965.
- École National Supérieure des Mines de Paris, through P. Sainfeld, 1966)
- Guitermanite (discredited, =impure Jordanite?, Baumhauerite?) NMNH 48408** Anvil Mountain, Silverton, Colorado
W. F. Hillebrand, 1885. Zunyite and Guitermanite, Two New Minerals from Colorado.
Proceedings of the Colorado Scientific Society, 1:124–132; and *United States Geological Survey Bulletin*, 20:100–107.
(U.S. Geological Survey, through W. F. Hillebrand, 1889)
- Guitermanite (discredited, =impure Jordanite?, Baumhauerite?) NMNH 81117** Silverton, Colorado
See reference above.
(S. L. Penfield, 1893)
- Gunnisonite (discredited, =impure Fluorite?) NMNH 14250** Gunnison County, Colorado
F. W. Clarke and N. W. Perry, 1882. A New Mineral from Colorado (Gunnisonite). *American Chemical Journal*, 4:140–142.
(F. W. Clarke, 1884)
- Haddamite (discredited, =Microlite) NMNH 128722** Haddam, Connecticut
C. U. Shepard, 1870. Mineralogical Contributions, 2: Unknown Mineral (Microlite?) in Haddam Columbite. *American Journal of Science*, (2)50:90–97.
(C. U. Shepard Collection, 1929)
- Hagemannite (discredited, =mixture of Thomsenolite and Ralstonite) NMNH 128723** Ivigtut, Greenland
C. U. Shepard, 1866. Mineral Notices, 1: On Hagemannite, a New Mineral from Arksutfiord, Greenland. *American Journal of Science*, (2)42:246–248.
(C. U. Shepard Collection, 1929)
- Hambergite NMNH 116994** Helgaraen, Langesundfjord, Norway
W. B. Brögger, 1890. Hambergit. *Zeitschrift für Krystallographie und Mineralogie*, 16:65–67.
(H. Neumann, 1964)
- Hanksite NMNH 81217** Borax Lake, San Bernardino County, California
W. E. Hidden, 1885. On Hanksite, a New Anhydrous Sulphatocarbonate, from San Bernardino County, California. *Annals of the New York Academy of Sciences*, 3:238–241.
(H. G. Hanks, 1895)
- Haycockite (with type Mooihoeckite) NMNH 124965** Mooihoeck Farm, Transvaal, Republic of South Africa
L. J. Cabri and S. R. Hall, 1972. Mooihoeckite and Haycockite, Two New Copper-Iron Sulfides, and Their Relationship to Chalcopyrite

- and Talnakhite. *American Mineralogist*, 57: 689-708.
- (Ontario Department of Energy, Mines and Resources, through L. J. Cabri, 1972)
- Heazlewoodite NMNH R641** Heazlewood, Tasmania, Australia
W. F. Petterd, 1869. *Catalogue of Minerals of Tasmania*, page 47.
(Roebling Collection, 1927)
- Heinrichite NMNH 121950** Near Lakeview, Oregon
E. B. Gross, A. S. Corey, R. S. Mitchell and K. Walenta, 1958. Heinrichite and Metaheinrichite, Hydrated Barium Uranyl Arsenate Minerals. *American Mineralogist*, 43:1134-1143.
(U.S. Geological Survey, 1969)
- Hendersonite NMNH 115888** J. J. Mine, Montrose County, Colorado
M. L. Lindberg, A. D. Weeks, M. E. Thompson, D. P. Elston and R. Meyrowitz, 1962. Hendersonite, a New Calcium Vanadyl Vanadate from Colorado and New Mexico. *American Mineralogist*, 47:1252-1272.
(U.S. Geological Survey, 1963)
- Hendersonite NMNH 121955** Colorado, or New Mexico
See reference above.
(U.S. Geological Survey, 1969)
- Hermannolite (discredited, =Columbite) NMNH 128724** Haddam, Connecticut
C. U. Shepard, 1870. Mineralogical Contributions, 1: A New Variety (Species?) of Columbite. *American Journal of Science*, (2)50:90-97; and (3)11:140-141, 1876.
(C. U. Shepard Collection, 1929)
- Heterobrochantite (discredited, =Antlerite) NMNH 95988** Unknown, perhaps Chile
H. Buttgenbach, 1926. Notes Mineralogiques. L'Heterobrochantite, Variete d'Antlerite (Stelznerite). *Annales Societe Geologique de Belgique*, 49:B164-B180. Abst: *Mineralogical Magazine*, 3:270, 1927.
(H. Buttgenbach, 1929)
- Hewettite NMNH 87459** Minasragra, Peru
W. F. Hillebrand, H. E. Merwin and F. E. Wright, 1914. Hewettite, Metahewettite and Pascoite, Hydrous Calcium Vanadates. *Proceedings of the American Philosophical Society of Philadelphia*, 53:31-54. Abst: *Mineralogical Magazine*, 17:351, 1916.
(American Vanadium Company, 1914)
- Heyite NMNH 127424** Betty Jo Claim, White Pine County, Nevada
S. A. Williams, 1973. Heyite, $Pb_5Fe_2(VO_4)_2O_4$, a New Mineral from Nevada. *Mineralogical Magazine*, 39:65-68.
(S. A. Williams, 1973)
- Heyite NMNH 135056** Betty Jo Claim, White Pine County, Nevada
See reference above.
(S. A. Williams, 1976)
- Hibbenite (discredited, =Hopeite, Alpha) (with type Spencerite and Salmoite) NMNH 121566** Hudson Bay Zinc Mine, about 5 miles east of Salmo, near Nelson, West Kootenay District, British Columbia, Canada
A. H. Phillips, 1916. New Zinc Phosphates from Salmo, British Columbia. *American Journal of Science*, (4)42:275-278.
(U.S. Geological Survey, through E. S. Larsen)
- Hidalgoite NMNH 112726 and 112727** San Pasquale Mine, Zimapan Mining District, Mexico
R. L. Smith, F. S. Simons and A. C. Vlisdjis, 1953. Hidalgoite, a New Mineral. *American Mineralogist*, 38:1218-1224.
(U.S. Geological Survey, through A. Baker, 1957)
- Higginsite (discredited, =Conichalcite) NMNH 93838** Higgins Mine, Bisbee, Arizona
C. Palache and E. V. Shannon, 1920. Higginsite, a New Mineral of the Olivenite Group. *American Mineralogist*, 5:155-157.
(C. Palache, 1920)
- Hilgardite NMNH R7822** Choctaw Salt Dome, Iberville Parish, Louisiana
C. S. Hurlbut, Jr. and R. E. Taylor, 1937. Hilgardite, a New Mineral Species, from Choctaw Salt Dome, Louisiana. *American Mineralogist*, 22:1052-1057.
(Harvard University, through the Roebling Collection, 1938)
- Hillebrandite NMNH 86531** 8th Level, Ternerás Mine, Velardena, Durango, Mexico
F. E. Wright, 1908. On Three Contact Minerals from Velardena, Durango, Mexico (Gehlenite, Spurrite and Hillebrandite). *American Journal of Science*, (4)26:545-554.
(F. E. Wright, 1908)
- Hinsdalite NMNH 86987** Hinsdale County, Colorado
E. S. Larsen, Jr. and W. T. Schaller, 1911. Hins-

- dalite, a New Mineral. *American Journal of Science*, (4)32:251-255.
- (U.S. Geological Survey, through E. S. Larsen, 1911)
- Hinsdalite NMNH 92971** Golden Fleece Mine, near Lake City, Colorado
See reference above.
(U.S. Geological Survey, 1916)
- Hitchcockite (discredited, =Plumbogummite) NHN 128725** Canton Mine, Cherokee County, Georgia
C. U. Shepard, 1856. Hitchcockite. *Report on the Copper and Silver-Lead Mine at Canton, Georgia*, 2nd Edition, page 11.
(C. U. Shepard Collection, 1929)
- Hodgkinsonite NMNH 87231** Franklin Furnace, New Jersey
C. Palache and W. T. Schaller, 1913. Hodgkinsonite, a New Mineral from Franklin Furnace, N.J. *Journal of the Washington Academy of Sciences*, 3:474-478, 4:153-154, 1914. Abst: *Mineralogical Magazine*, 17:351, 1916.
(H. H. Hodgkinson, 1913)
- Holdenite NMNH 95434** Franklin Furnace, New Jersey
C. Palache and E. V. Shannon, 1927. Holdenite, a New Arsenate of Manganese and Zinc, from Franklin, New Jersey. *American Mineralogist*, 12:144-148.
(C. Palache, 1926)
- Holtite NMNH 128674** Greenbushes, Western Australia, Australia
M. W. Pryce, 1971. Holtite, a New Mineral Allied to Dumortierite. *Mineralogical Magazine*, 38: 21-25.
(L. W. Samuel, 1974)
- Honesite NMNH 117698** Near Linden, Iowa County, Wisconsin
A. V. Heyl, C. Milton and J. M. Axelrod, 1959. Nickel Minerals from near Linden, Iowa County, Wisconsin. *American Mineralogist*, 44:995-1009.
(U.S. Geological Survey, 1965)
- Ioughite (discredited, =Hydrotalcite after Spinel) NMNH 128726** Near Oxbow, and near Sommerville in Rossie, St. Lawrence County, New York
C. U. Shepard, 1851. Mineralogical Notices, 4: Houghite. *American Journal of Science*, (2) 12:205-222.
- (C. U. Shepard Collection, 1929)
- Huemulite NMNH 120076** Huemul Mine, Mendoza Province, Argentina
C. E. Gordillo, E. Linares, R. O. Toubes and H. Winchell, 1966. Huemulite, $\text{Na}_4\text{MgV}_{10}\text{O}_{28} \cdot 24\text{H}_2\text{O}$, a New Hydrous Sodium and Magnesium Vanadate from Huemul mine, Mendoza Province, Argentina. *American Mineralogist*, 51:1-13.
(E. Linares, 1967)
- Hulsite NMNH 86791** Brooks Mountain, Alaska
A. Knopf and W. T. Schaller, 1908. Two New Boron Minerals of Contact-Metamorphic Origin. *American Journal of Science*, (4)25: 323-331.
(U.S. Geological Survey, through A. Knopf, 1910)
- Hulsite NMNH 86989** Brooks Mountain, Seward Peninsula, Alaska
See reference above.
(U.S. Geological Survey, through W. T. Schaller, and A. Knopf, 1911)
- Humberstonite NMNH 120898** Oficina Alemania, Chile
G. E. Erickson, J. J. Fahey and M. E. Mrose, 1967. Humberstonite, $\text{Na}_7\text{K}_3\text{Mg}_2(\text{SO}_4)_6(\text{NO}_3)_2 \cdot 6\text{H}_2\text{O}$, a New Saline Mineral from the Atacama Desert, Chile. *Geological Society of America, Program Annual Meeting*, Page 59.
Abst: *American Mineralogist*, 53:507, 1968.
(U.S. Geological Survey, through M. Mrose, 1968)
- Humoferrite (discredited, =an earthy ochre) NMNH 128727** Whatley, Massachusetts
C. U. Shepard, 1876. Humoferrite. *Catalog of Minerals Found within About 75 Miles of Amherst College*, page 3.
(C. U. Shepard Collection, 1929)
- Huttonite NMNH 106265** South Westland, New Zealand
A. Pabst and C. O. Hutton, 1951. Huttonite, a New Monoclinic Thorium Silicate. *American Mineralogist*, 36:60-69.
(C. O. Hutton, 1951)
- Hydronephelite (discredited, =mixture of Natrolite and/or Nepheline with Diaspore and/or Gibbsite) NMNH 47362** Litchfield, Maine
F. W. Clarke, 1886. The Minerals of Litchfield, Maine. *American Journal of Science*, (3)31: 262-272.

- (U.S. Geological Survey, through F. W. Clarke, 1887)
- Hydronephelite** (discredited, =mixture of Natrolite and/or Nepheline with Diaspore and/or Gibbsite) NMNH 82555 Litchfield, Maine
See reference above.
- (U.S. Geological Survey, the Leidy Collection, 1894)
- Hydroxyl-ellestadite** NMNH 122444 Doshinkubo Ore Body, Chichibu Mine, Saitama Prefecture, Japan
K. Harada, K. Nagashima, K. Nakao and A. Kato, 1971. Hydroxylestadite, a New Apatite from Chichibu Mine, Saitama Prefecture, Japan. *American Mineralogist*, 56:1507-1518.
(A. Kato, 1970)
- Igalikite** (discredited, =mixture of Analcime and Muscovite) NMNH 97478 Igaliko, Greenland
O. B. Bøggild, 1933. Igalikite and Naujakasite, Two New Minerals from South Greenland. *Meddelelser om Grønland*, 92:9:1-12. Abst: *American Mineralogist*, 20:138, 1935.
(Meddelelser og Geologiske Museum, through O. B. Bøggild, 1935)
- Imoriite** NMNH 120635 Fusumata, Kawamata-machi, Fukushima Prefecture, Japan
M. Nambu (Editor), 1970. *Introduction to Japanese Minerals*, page 85. Kawasaki: Geological Survey of Japan.
(A. Kato, 1967)
- Illite** NMNH R7827 Maquoketa Shale near Gilead, Calhoun County, Illinois
R. E. Grim, R. H. Bray and W. F. Bradley, 1937. The Mica in Argillaceous Sediments. *American Mineralogist*, 22:813-829.
(R. E. Grim, 1938)
- Inyoite** (with type Meyerhofferite) NMNH 87237 Mt. Blanco Deposit, Furnace Creek, Death Valley, California
W. T. Schaller, 1914. Mineralogical Notes, Series 3. *Journal of the Washington Academy of Sciences*, 4:354-356.
(U.S. Geological Survey, 1914)
- Inyoite** NMNH 93639 Mt. Blanco Deposit, Furnace Creek, Death Valley, California
See reference above.
(U.S. Geological Survey, 1919)
- Iowaite** NMNH 121706 Sioux County, Iowa
D. W. Kohls and J. L. Rodda, 1967. Iowaite, a New Hydrous Magnesium Hydroxide-Ferric Oxychloride from the Precambrian of Iowa. *American Mineralogist*, 52:1261-1271.
(New Jersey Zinc Company, through D. W. Kohls, 1969)
- Jagowerite** NMNH 128337 16 miles north of the Hess River, N.T.S. Area, Yukon Territory, Canada
E. P. Meagher, M. E. Coates and A. E. Aho, 1973. Jagowerite: a New Barium Phosphate Mineral from the Yukon Territory. *Canadian Mineralogist*, 12:135-138.
(University of British Columbia, through G. A. Lager, 1974)
- Jahnsite** NMNH 127153 Tip Top Pegmatite, Custer, South Dakota
P. B. Moore, 1974. Jahnsite, Segelerite, and Robertsrite, Three New Transition Metal Phosphate Species. *American Mineralogist*, 59: 48-59.
(P. B. Moore, 1973)
- Jennite** NMNH 119007 Crestmore, California
A. B. Carpenter, R. A. Chalmers, J. A. Gard, K. Speakman and H. F. W. Taylor, 1966. Jennite, a New Mineral. *American Mineralogist*, 51: 56-74.
(H. F. W. Taylor, 1966)
- Joesmithite** NMNH 120064 Långban, Sweden
P. B. Moore, 1968. Joesmithite, a New Amphibole-like Mineral from Långban. *Arkiv för Mineralogi och Geologi*, 4:487-492. Abst: *American Mineralogist*, 54:577-578, 1969.
(P. B. Moore, 1967)
- Johannsenite** NMNH 94246 Espiritu Santo Mine, Real del Monte, Pachuca, Mexico
W. T. Schaller, 1932. Johannsenite, a New Manganese Pyroxene. A paper presented to the Thirteenth Annual Meeting of the Mineralogical Society of America, December, 1932. Abst: *American Mineralogist*, 18:113-114, 1933.
(U.S. Geological Survey, 1942)
- Johannsenite** NMNH 104260 and 104261 Puebla, Mexico
See reference above.
(U.S. Geological Survey, 1942)
- Johannsenite** NMNH 104266 and 104267 Lane County, Oregon
See reference above.

- (U.S. Geological Survey, 1942)
Johannsenite (with Bustamite) NMNH 104269
 Franklin Furnace, New Jersey
 See reference above.
- (U.S. Geological Survey, 1942)
Johannsenite NMNH 104308 Telela del Oro, Mexico
 See reference above.
- (U.S. Geological Survey, 1942)
Johannsenite NMNH R3118 Schio, Viscentino, Italy
 See reference above.
- (Roebling Collection, 1927)
Joseite NMNH R400 San Jose, Minas Gerais, Brazil
 M. A. Damour, 1845. Analyse D'un Tellure de
 Bismuth du Bresil. *Annales de Chimie et de
 Physique*, 13:372-376.
 (Roebling Collection, from collection of A. A.
 Damour, 1927)
- Josephinite** (discredited, =Nickel-Iron) NMNH
 80671 Josephine and Jackson Counties, Oregon
 W. H. Melville, 1892. Josephinite, a New Nickel-
 Iron. *American Journal of Science*, (3)43:
 509-515.
 (U.S. Geological Survey, 1892)
- Juanite** (discredited, =probably a fibrous Horn-
 blende) NMNH 105990 Iron Hill, Gunnison
 County, Colorado
 E. S. Larsen and E. A. Goranson, 1932. The
 Deuteric and Later Alterations of the Uncom-
 pahgrite of Iron Hill, Colorado. *American
 Mineralogist*, 17:343-356.
 (U.S. Geological Survey, 1949)
- Jurupaite** (discredited, =Xonotlite, Magnesian)
 NMNH R4056 Crestmore, Riverside County,
 California
 A. S. Eakle, 1921. Jurupaite—a New Mineral.
American Mineralogist, 6:107-109.
 (Roebling Collection, 1927)
- Kalithomsonite** (discredited, =Ashcroftine) NMNH
 95320 Narsarsuk, Greenland
 S. G. Gordon, 1924. Minerals Obtained in Green-
 land on the Second Academy-Vaux Expedi-
 tion, 1923. *Proceedings of the Academy of
 Natural Sciences, Philadelphia*, 76:249-268.
 Abst: *American Mineralogist*, 10:132, 1925.
 (Philadelphia Academy of Natural Sciences,
 1925)
- Kalithomsonite** (discredited, =Ashcroftine) NMNH
 R4333 Narsarsuk, Greenland
 See reference above.
- (Roebling Collection, 1927)
Kalsilite NMNH 105856 Mafuru, Uganda
 F. A. Bannister and M. H. Hey, 1942. Kalsilite,
 a Polymorph of $KAlSiO_4$, from Uganda.
Mineralogical Magazine, 26:218-224.
 (British Museum (Natural History), 1949)
- Karelianite** NMNH 121785 and 121786 Outo-
 kumpu, Finland
 J. V. P. Long, Y. Vuorelainen and O. Kouvo,
 1963. Karelianite, a New Vanadium Mineral.
American Mineralogist, 48:33-41.
 (Y. Vuorelainen, 1969)
- Kawazulite** NMNH 121926 Kawazu Mine, Shizu-
 oka Prefecture, Japan
 A. Kato, 1970. In *Introduction to Japanese Min-
 erals*, pages 87-88. Kawasaki: Geological Sur-
 vey of Japan. Abst: *American Mineralogist*,
 57:1312, 1972.
 (A. Kato, 1969)
- Keatingite** (discredited, =Rhodonite, Zincian)
 NMNH 128728 Sterling Hill, New Jersey
 E. S. Dana, 1876. New Minerals. *American Jour-
 nal of Science*, (3)12:231.
 (C. U. Shepard Collection, 1929)
- Keeleyite** (discredited, =Zinckenite) NMNH R949
 San Jose Mine, Oruro, Bolivia
 S. G. Gordon, 1922. Keeleyite, a New Lead Sul-
 fantimonide from Oruro, Bolivia. *Proceedings
 of the Academy of Natural Sciences, Phila-
 delphia*, 74:101-103.
 (Philadelphia Academy of Natural sciences,
 through the Roebling Collection, 1927)
- Kegelite** NMNH 134514 Tsumeb, Southwest Africa
 O. Medenbach and K. Schmetzer, 1975. Kegelit,
 ein neues Bleisilikat. *Naturwissenschaften*, 62:
 137.
 (O. Medenbach, 1975)
- Kellyite** NMNH 127101 Bald Knob, near Sparta,
 North Carolina
 D. R. Peacor, E. J. Essene, W. B. Simmons, Jr.
 and W. C. Bigelow, 1974. Kellyite, a New Mn-
 Al Member of the Serpentine Group from
 Bald Knob, North Carolina, and New Data
 on Grovesite. *American Mineralogist*, 59:
 1153-1156.
 (D. R. Peacor, 1973)
- Kempite** NMNH R1352 Alum Rock Park, near
 San Jose, Santa Clara County, California
 A. F. Rogers, 1924. Kempite, a New Manganese

- Mineral from California. *American Journal of Science*, (5)8:145-150.
(Roebling Collection, 1927)
- Kenyaite (with type Magadiite) NMNH 121337** Lake Magadi, Kenya
H. P. Eugster, 1967. Hydrous Sodium Silicates from Lake Magadi, Kenya: Precursors of Bedded Chert. *Science*, 157:1177-1180.
(H. P. Eugster, 1968)
- Kernite NMNH 95643** Near Rich Station, San Bernardino County, California
W. T. Schaller, 1927. Kernite, a New Sodium Borate. *American Mineralogist*, 12:24-25.
(W. M. Balling, 1927)
- Kilchoanite NMNH 119424 and 119425** ¾ mile north of hotel, Kilchoan, Ardnamurchan, Scotland
S. O. Agrell and P. Gay, 1961. Kilchoanite, a Polymorph of Rankinite. *Nature*, 189:743.
(S. O. Agrell, 1966)
- Killalaite NMNH 128672** Killala Bay, Inishcrone, County Sligo, Ireland
R. Nawaz, 1974. Killalaite, a New Mineral from Co. Sligo, Ireland. *Mineralogical Magazine*, 39:544-548.
(R. Nawaz, 1974)
- Kimzeyite NMNH 117124** Magnet Cove, Arkansas
C. Milton and L. V. Blade, 1958. Preliminary Note on Kimzeyite, a New Zirconium Garnet. *Science*, 127:1343.
(U.S. Geological Survey, through A. A. Baker, 1964)
- Kingite NMNH 112693** Robertstown, South Australia, Australia
K. Norrish, L. E. R. Rogers and R. E. Shapter, 1957. Kingite, a New Hydrated Aluminum Phosphate Mineral from Robertstown, South Australia. *Mineralogical Magazine*, 31:351-357.
(Australian Government, through K. Norrish, 1956)
- Kinoite NMNH 122395** Santa Rita Mountains, Pima County, Arizona
J. W. Anthony and R. B. Laughon, 1970. Kinoite, a New Hydrous Copper Calcium Silicate Mineral from Arizona. *American Mineralogist*, 55:709-715.
(V. J. Hoffmann, 1970)
- Kitkaite NMNH 120267** Kuusamo, Juuma, Finland
T. A. Hakli, Y. Vuorelainen and T. G. Sahama, 1965. Kitkaite (NiTeSe), a New Mineral from Kuusamo, northeast Finland. *American Mineralogist*, 50:581-586.
(Y. Vuorelainen, 1967)
- Kleinite NMNH 86639 through 86641 and 86647** Terlingua, Texas
A. Sachs, 1905. Kleinit. *Sitzungsberichte Akademie der Wissenschaften, Berlin*, 1905:1091-1094.
(U.S. Geological Survey, through F. W. Clarke, 1910)
- Knipovichite (discredited, =Alumohydrocalcite, Chromian) NMNH 120098** Ak-su River, Turinskya, A.S.S.R., U.S.S.R.
E. I. Nefedov, 1953. Report on New Minerals discovered by Him. In V. A. Mokievsky, The Scientific Session of the Federov Institute Together with the All-Union Mineralogical Society. *Vserossiiskoe Mineralogicheskoe Obshchestvo, Leningrad*, 82:311-317. Abst: *American Mineralogist*, 40:551, 1955.
(M. Dorfman, 1967)
- Koechlinite NMNH 93646** Daniel Mine, Schneeberg, Saxony, Germany
W. T. Schaller, 1914. Mineralogical Notes, Series 3. *Journal of the Washington Academy of Sciences*, 4:354-356.
(U.S. Geological Survey, 1919)
- Koechlinite NMNH R6411** Daniel Mine, Schneeberg, Saxony, Germany
See reference above.
(Roebling Collection, 1927)
- Kogarkoite NMNH 127420** Hortense Hot Spring, Chaffee County, Colorado
A. Pabst and W. N. Sharp, 1973. Kogarkoite, a New Natural Phase in the System Na_2SO_4 - NaF-NaCl . *American Mineralogist*, 58:116-127.
(University of California, Berkeley, through A. Pabst, 1973)
- Kogarkoite NMNH 128029 and 128030** Hortense Hot Spring, Mt. Princeton, Colorado (128029)
Wright's Well, Mt. Princeton, Colorado (128030)
See reference above.
(U.S. Geological Survey, through W. N. Sharp, 1974)
- Kolbeckite NMNH 106329** Schmiedberg, Saxony, Germany
F. Edelmann, 1926. Kolbeckite, ein Neues Sächsisches Mineral. *Berg-und Huttenmannisches*

- Jahrbuch, Sachsen*, 100:73–74. Abst: *American Mineralogist*, 13:592, 1928.
 (American Museum of Natural History, through
 F. H. Pough, 1951)
- Kossmatite** (discredited, =Vermiculite?) NMNH
 96429 Prilep, Macedonia, Yugoslavia
 O. H. Erdmannsdöffer, 1925. Über Kossmatite,
 ein Neues Gleid der Sprödglimmergruppe und
 seine Paragenese. *Centralblat fur Mineralogie,
 Geologie, und Paleontologie*, Abt. A. 1925:
 69–72. Abst: *American Mineralogist*, 10:448,
 1925.
 (Wysogorski, through W. F. Foshag, 1928)
- Kotoite** NMNH 103502 Hol Kol Gold Mine, Suan,
 Korea
 T. Watanabe, 1939. Kotoit, ein Neues gestein-
 bildendes Magnesiumborat. *Mineralogische
 und Petrographische Mitteilungen*, 50:411–643.
 Abst: *American Mineralogist*, 24:406, 1939.
 (T. Watanabe, 1939)
- Kramerite** (discredited, =Probertite) NMNH 95832
 and 95833 Kramer, Kern County, California
 W. T. Schaller, 1928. Borate Minerals from the
 Mojave Desert, California. Paper delivered to
 the New York Mineralogical Club, 21 March
 1928. Abst: *American Mineralogist*, 13:452–
 453, 1928.
 (U.S. Geological Survey, 1928)
- Krausite** NMNH 96094 Borate, Calico Hills, San
 Bernardino County, California
 W. F. Foshag, 1930. A New Sulfate of Iron and
 Potash from California. Paper presented to the
 Eleventh Annual Meeting of the Mineralogical
 Society of America, December, 1930. Abst:
American Mineralogist, 16:115 and 352–360,
 1931.
 (W. F. Foshag, 1930)
- Krausite** NMNH R7652 Borate, Calico Hills, San
 Bernardino County, California
 See reference above.
 (Roebling Collection, 1935)
- Labuntsovite** NMNH 113995 Khibina, Kola Pe-
 ninsula, U.S.S.R.
 E. I. Semenov and T. A. Burova, 1955. On the
 New Mineral Labuntsovite and on the So-
 called Titanoelpidite. *Doklady Rossiiskoi
 Akademii Nauk*, 101:1113–1116. Abst: *Ameri-
 can Mineralogist*, 41:163, 1956.
 (Vlasov, through the Academy of Sciences,
- U.S.S.R., 1960)
- Lancasterite** (discredited, =Hydromagnesite)
 NMNH R2745 Lancaster County, Pennsylvania
 B. Silliman, Jr., 1850. On the New American
 Mineral Lancasterite, *American Journal of
 Science*, (2)9:216.
 (Roebling Collection, 1927)
- Laubmannite** NMNH 86134 Shady, Polk County,
 Arkansas
 C. Frondel, 1949. The Dufrenite Problem. *Amer-
 ican Mineralogist*, 34:513–540.
 (J. S. Lawrence, 1907)
- Lawsonite** NMNH 83635 Tiburon Peninsula,
 Marin County, California
 F. L. Ransome, 1895. On Lawsonite, a New
 Rock-forming Mineral from the Tiburon
 Peninsula, Marin Co., California. *University
 of California, Bulletin of the Department of
 Geology*, 1:301–312. Abst: *Mineralogical Maga-
 zine*, 11:157–158, 1896.
 (F. L. Ransome, 1895)
- Lederite** (discredited, =Titanite) NMNH 128729
 Grenville, Canada
 C. U. Shepard, 1840. On a Supposed New Min-
 eral Species. *American Journal of Science*,
 (1)39:357–360.
 (C. U. Shepard Collection, 1929)
- Legrandite** NMNH 114810 Flor de Peña Mine,
 Lampazos, Nuevo Leon, Mexico
 J. Drugman, M. H. Hey and F. A. Bannister,
 1932. Legrandite, a New Zinc Arsenate. *Min-
 eralogical Magazine*, 23:175–178.
 (British Museum (Natural History), through
 M. H. Hey, 1960)
- Lehiite** NMNH 114987 Fairfield, Utah County, Utah
 E. S. Larsen and E. V. Shannon, 1930. The Min-
 erals of the Phosphate Nodules from near
 Fairfield, Utah. *American Mineralogist*, 15:
 307–337.
 (Found in collection, 1961)
- Leightonite** NMNH C5536 Chuquicamata, Chile
 C. Palache, 1938. Leightonite, a New Sulphate
 of Copper from Chile. *American Mineralogist*,
 23:34–47.
 (Canfield Collection, 1936)
- Leucophoenicite** NMNH R3878 Franklin, New
 Jersey
 S. L. Penfield and C. H. Warren, 1899. Some
 New Minerals from the Zinc Mine at Franklin,
 N. J., and Note Concerning the Chemical

- Composition of Ganolite. *American Journal of Science*, (4)8:339–353. Abst: *Mineralogical Magazine*, 12:315–316, 1900.
- (Roebling Collection, 1927)
- Leucophosphite NMNH 96772** Ninghanboun Hills, Western Australia, Australia
- E. S. Simpson, 1931–32. Contributions to the Mineralogy of Western Australia. *Journal of the Royal Society of Western Australia*, 18: 69–74. Abst: *American Mineralogist*, 17:495–496, 1932.
- (E. W. Simpson, 1932)
- Leucopyrite (discredited, =Loellingite) NMNH 130719** Reichenstein, Silesia, Poland
- C. U. Shepard, 1835. Leucopyrite. *Treatise on Mineralogy*, Part 2, Volume 2, pages 8–10.
- (C. U. Shepard Collection, 1929)
- Lewisite NMNH R5741** Tripuhy, Minas Gerais, Brazil
- E. Hussak and G. T. Prior, 1895. Lewisite and Zirkelite, Two New Brazilian Minerals. *Mineralogical Magazine*, 11:80–88.
- (Roebling Collection, 1927)
- Lizardite NMNH 114569** Kennack Cove, Cornwall, England
- H. G. Midgley, 1950. A Serpentine from Kennack Cove, Lizard, Cornwall, *Mineralogical Magazine*, 29:526–530.
- E. J. W. Whittaker and J. Zussman, 1956. The Characterization of Serpentine Minerals by X-ray Diffraction. *Mineralogical Magazine*, 31:107–126 [name introduced].
- (H. G. Midgley, 1960)
- Lopezite NMNH C5487** Oficina Rosario, Iquique Pampa, Huara, Chile
- M. C. Bandy, 1937. Lopezite, a New Mineral. *American Mineralogist*, 22:929–930.
- (M. C. Bandy, through the Canfield Collection, 1936)
- Lorettoite NMNH 93242** Loretto, Tennessee
- R. C. Wells and E. S. Larsen, 1916. Lorettoite, a New Mineral. *Journal of the Washington Academy of Sciences*, 6:669–672. Abst: *American Mineralogist*, 2:26, 1917.
- (U.S. Geological Survey, 1917)
- Lorettoite NMNH R1388** Loretto, Tennessee
- See reference above.
- (Roebling Collection, 1927)
- Loseyite NMNH 95984** Franklin, New Jersey
- L. H. Bauer and H. Berman, 1929. Loseyite—a New Franklin Mineral. *American Mineralogist*, 14:150–153.
- (Harvard University, 1929)
- Louderbackite (discredited, =Roemerite) NMNH 95952** United Verde Mine, Jerome, Arizona
- C. Lausen, 1928. Hydrous Sulphates Formed under Fumerolic Conditions at the United Verde Mine. *American Mineralogist*, 13:203–229.
- (C. Lausen, 1929)
- Loughlinite NMNH 117717** Shaft of Westvaco Trona Mine, Sweetwater County, Wyoming
- J. J. Fahey and J. M. Axelrod, 1947. Paper presented to the Twenty-eighth Annual Meeting of the Mineralogical Society of America, December, 1947. Abst: *American Mineralogist*, 33:195, 1948.
- (U.S. Geological Survey, 1965)
- Lucasite (discredited, =probably a Hydrobiotite) NMNH 88507** Corundum Hill, North Carolina
- T. M. Chatard, 1886. Lucasite, a New Variety of Vermiculite. *American Journal of Science*, (3) 32:375–377. Abst: *Zeitschrift für Krystallographie und Mineralogie*, 12:629–630, 1887.
- (U.S. Geological Survey, through T. M. Chatard, 1915)
- Lucinitite (discredited, =Variscite) NMNH 87485** Lucin, Utah
- W. T. Schaller, 1914. Mineralogical Notes, Series 3. *Journal of the Washington Academy of Sciences*, 4:354–356 [preliminary note].
- (U.S. Geological Survey, 1915)
- Lusakite (discredited, =Staurolite, Cobaltian) NMNH 105853** 80 miles north of Lusaka, Zambia
- A. C. Skerl, F. A. Bannister and A. W. Groves, 1934. Lusakite, a Cobalt-bearing Silicate from Northern Rhodesia. *Mineralogical Magazine*, 23:598–606.
- (British Museum (Natural History), 1949)
- Mackelveyite (with type Ewaldite) NMNH 121683** Green River Formation, Wyoming
- C. Milton, B. Irgram, J. R. Clark and E. J. Dwornik, 1965. Mackelveyite [sic], a New Hydrous Sodium Barium Rare-earth Uranium Carbonate Mineral from the Green River Formation, Wyoming. *American Mineralogist*, 50: 593–612.

- (U.S. Geological Survey, through C. Milton, 1964)
- Mackinstryite NMNH 120056** Foster Mine, Cobalt, Ontario, Canada
B. J. Skinner, J. L. Jambor and M. Ross, 1966. McKinstryite, a New Copper-Silver Sulfide. *Economic Geology*, 61:1383-1387.
(B. Skinner, 1967)
- Magadiite (with type Kenyaite) NMNH 121336** Lake Magadi, Kenya
H. P. Eugster, 1967. Hydrous Sodium Silicates from Lake Magadi, Kenya: Precursors of Bedded Chert. *Science*, 157:1177-1180.
(H. P. Eugster, 1968)
- Magnesiocopiapite NMNH 80696** Near Las Vegas, New Mexico
M. C. Bandy, 1938. Mineralogy of Three Sulphate Deposits of Northern Chile. *American Mineralogist*, 23:669-760 [first analysis].
- L. G. Berry, 1947. Composition and Optics of Copiapite. *Contributions to Mineralogy from the Dept. of Geological Sciences, University of Toronto*, 3:21-34.
- (W. F. Hillebrand, U.S. Geological Survey, 1892)
- Magnesiocopiapite NMNH 103543** Blythe, California
See reference above.
(W. F. Foshag, 1939)
- Magnesioludwigite (discredited, =Ludwigite) NMNH 94370** Bog Lake, Cottonwood District, Utah
B. S. Butler and W. T. Schaller, 1913. Magnesioludwigite, a New Mineral. *Journal of the Washington Academy of Sciences*, 7:29-31. Abst: *American Mineralogist*, 2:68-69, 1917.
(U.S. Geological Survey, 1922)
- Magnesium-chlorophoenicite NMNH 96495** Franklin, New Jersey
C. Palache, 1935. The Minerals of Franklin and Sterling Hill, Sussex County, New Jersey. *United States Geological Survey Professional Paper*, 180:123-124. Abst: *Mineralogical Abstracts*, 6:261, 1936.
(Harvard University, 1931)
- Majorite NMNH 122379** Coorara Meteorite, near Rawlinna, W. Australia, Australia
J. V. Smith and B. Mason, 1970. Pyroxene-Garnet Transformation in Coorara Meteorite. *Science*, 168:832-833.
(B. Mason, 1970)
- Makatite NMNH 122169, 122170 and 122171** Lake Magadi, Kenya
R. A. Sheppard and A. J. Gude, III, 1970. Makatite, a New Hydrous Sodium Silicate Mineral from Lake Magadi, Kenya. *American Mineralogist*, 55:358-366.
(U.S. Geological Survey, through R. A. Sheppard, 1970)
- Manganpyrosmalite NMNH C6216** Sterling Hill, New Jersey
C. Frondel and L. H. Bauer, 1953. Manganpyrosmalite and its Polymorphic Relation to Friedelite and Schallerite. *American Mineralogist*, 38:755-760.
(L. H. Bauer collection, through the Canfield Collection, 1955)
- Mansfieldite NMNH 106565** Hobart Butte, Lane County, Oregon
V. T. Allen and J. J. Fahey, 1945. Mansfieldite, a New Aluminum Arsenate, and the Mansfieldite-Scorodite Series. Paper presented at the 26th Annual Meeting of the Mineralogical Society of America, December. Abst: *American Mineralogist*, 31:189, 1946.
(U.S. Geological Survey, 1953)
- Mansfieldite NMNH 117722** Hobart Butte, Lane County, Oregon
See reference above.
(U.S. Geological Survey, 1965)
- Marcylite (discredited, =mixture of Tenorite and Covellite) NMNH 128701** Red River, near Wichita Mountains, Oklahoma (?)
C. U. Shepard, 1854. Appendix c, Mineralogy: Report on the Minerals Collected, 1: Copper Ores - Marcylite. In R. C. Marcy, *Exploration of the Red River in Louisiana in the Year 1852*, pages 135-139.
(C. U. Shepard Collection, 1929)
- Maufite (probably not a valid species) NMNH 96398** Ruorka Ranch, Lomagundi District, Rhodesia
F. E. Keep, 1930. Notes on Nickel Occurrences in the Great Dyke of Southern Rhodesia. *Transactions of the Geological Society of South Africa*, 32:103-110. Abst: *Mineralogical Abstracts*, 4:248-249, 1930.
(F. E. Keep, 1930)
- Maxixe-aquamarine (discredited, =Beryl) NMNH R7460** Maxixe Mine, near Piauhy River, be-

- tween Bavre Postal and Itinga, Minas Gerais, Brazil
 G. O. Wild, 1933. Mitteilung über ein Anscheinend Neues Berylliumsilikat. *Centralblatt für Mineralogie, Geologie, und Paleontologie*, Abstract A (1933):38–39. Abst: *Mineralogical Abstracts*, 5:295, 1933.
 (G. O. Wild, through the Roebling Collection, 1934)
- Mayenite (with type Brownmillerite) NMNH 120045** Ettringer Bellerberg, Laacher Lake area, near Mayen, Eifel District, Germany
 G. Hentschel, 1964. Mayenit, $12\text{CaO}\cdot7\text{Al}_2\text{O}_3$, und Brownmillerit, $2\text{CaO}\cdot(\text{Al},\text{Fe})_2\text{O}_3$, Zwei Neue Minerale in den Kalksteineinschlüssen der Lava des Ettringer Bellerberges. *Neues Jahrbuch für Mineralogie, Geologie, und Paleontologie, Monatsh*, 1:22–29. Abst: *American Mineralogist*, 50:2106, 1965.
 (G. Hentschel, 1966)
- Mazzite NMNH 128520** Mont Semiol, near Montbrison, Loire, France
 E. Galli, E. Passaglia and D. Pongiluppi, 1974. Mazzite, a New Mineral, the Natural Counterpart of the Synthetic Zeolite Ω. *Contributions to Mineralogy and Petrology*, 45:99–105.
 (E. Passaglia, 1974)
- Mcallisterite NMNH 134613** Death Valley Region, Inyo County, California
 W. T. Schaller, A. C. Vlisisid and M. E. Mrose, 1965. Macallisterite [sic], $2\text{MgO}\cdot6\text{B}_2\text{O}_3\cdot15\text{H}_2\text{O}$, a New Hydrous Magnesium Borate Mineral from the Death Valley Region, Inyo County, California. *American Mineralogist*, 50:629–640.
 (U.S. Geological Survey, through M. E. Mrose, 1975)
- Melonjosephite NMNH 128338** Pegmatite d'Angarf-Sud, Plaine des Zenaga, Anti-Atlas, Morocco
 A. M. Fransolet, 1973. La Mélonjosephite $\text{CaFe}^{+2}\text{Fe}^{+3}(\text{PO}_4)_2(\text{OH})$, une Nouvelle Espèce Minérale. *Bulletin de la Société Française de Mineralogie et de Cristallographie*, 96:135–142.
 (University of Liege, through A. M. Fransolet, 1974)
- Mertieite NMNH 132499** Goodnews Bay, Alaska
 G. A. Desborough, J. J. Finney and B. F. Leonard, 1973. Mertieite, a New Palladium Mineral from Goodnews Bay, Alaska. *American Mineralogist*, 58:1–10.
- (U.S. Geological Survey, through G. A. Desborough, 1974)
- Merwinite NMNH 94030** Crestmore, Riverside, California
 E. S. Larsen and W. F. Foshag, 1921. Merwinite, a New Calcium Magnesium Orthosilicate from Crestmore, California. *American Mineralogist*, 6:143–148.
 (W. G. Foshag, 1920)
- Metaheinrichite NMNH 115884** White King Mine, Lakeview, Oregon
 E. B. Gross, A. S. Corey, R. S. Mitchell and K. Walenta, 1958. Heinrichite and Metaheinrichite, Hydrated Barium Uranyl Arsenate Minerals. *American Mineralogist*, 43:1134–1143.
 (U.S. Geological Survey, 1963)
- Metahewettite NMNH 93305, 93306, 93307 and 93308** Joe Dandy Claim, East Paradox Valley, Colorado
 W. F. Hillebrand, H. E. Merwin and F. E. Wright, 1914. Hewettite, Metahewettite and Pascoite, Hydrous Calcium Vanadates. *Proceedings of the American Philosophical Society of Philadelphia*, 53:31–54. Abst: *Mineralogical Magazine*, 17:354, 1916.
 (W. F. Hillebrand, 1917)
- Metastibnite NMNH 79185** Steamboat Springs, Washoe County, Nevada
 G. F. Becker, 1888. Geology of a Quicksilver Deposit of the Pacific Slope. *United States Geological Survey Monograph*, 13:343–344, 389.
 (U.S. Geological Survey, through W. H. Melville, 1891)
- Metaswartzite (inadequately described) NMNH 106109** Hillside Mine, Yavapai County, Arizona
 J. Axelrod, F. Grimaldi, C. Milton and K. J. Murata, 1948. Uranium Minerals from the Hillside mine, Yavapai County, Arizona. Paper given at the 29th Annual Meeting of the Mineralogical Society of America, 1948. Abst: *American Mineralogist*, 34:274, 1949.
 (U.S. Geological Survey, 1950)
- Metavariscite NMNH 86993** Utahlite Hill, 5 miles northwest of Lucin, Utah
 E. S. Larsen and W. T. Schaller, 1925. The Identity of Variscite and Peganite and the Dimorphous Form, Metavariscite. *American Mineralogist*, 10:23–28.

- (U.S. Geological Survey, through D. B. Sterrett, 1911)
- Metavariscite NMNH 87484** Lucin, Utah
See reference above.
- (U.S. Geological Survey, 1915)
- Meyerhofferite (with type Inyoite) NMNH 87237**
Mount Blanco Deposit, Furnace Creek, Death Valley, California
W. T. Schaller, 1914. Mineralogical Notes, Series 3. *Journal of the Washington Academy of Sciences*, 4:354-356.
- (U.S. Geological Survey, 1914)
- Meyerhofferite (with type Inyoite) NMNH 93640**
Death Valley, California
See reference above.
- (U.S. Geological Survey, 1919)
- Miargyrite NMNH 95334** Kelley Mine, Randsburg, California
E. V. Shannon, 1929. Miargyrite Silver Ore from the Randsburg District, California. *Proceedings of the United States National Museum*, 74, art. 21:1-10. Abst: *Mineralogical Abstracts*, 4: 142-143, 1929.
- (U.S. Geological Survey, 1925)
- Microlite NMNH 128730** Chesterfield, Massachusetts
C. U. Shepard, 1835. Microlite, a New Mineral Species. *American Journal of Science*, (1) 27:361-362.
- (C. U. Shepard Collection, 1929)
- Minasragrite NMNH 87515** Minasragra, Peru
W. T. Schaller, 1915. Four New Minerals. *Journal of the Washington Academy of Sciences*, 5:7.
(E. W. Wilson, 1915)
- Minyulite NMNH 96769** Near Minyulo Well, Dandaragan, W. Australia
E. S. Simpson and C. R. LeMesurier, 1933. Minyulite, a New Phosphate Mineral from Dandaragan, W. A. *Journal of the Royal Society of Western Australia*, 19:13-16. Abst: *Mineralogical Abstracts*, 5:293, 1933.
(E. S. Simpson, 1932)
- Moctezumite NMNH 128392** Moctezuma Mine, Moctezuma, Sonora, Mexico
R. V. Gaines, 1965. Moctezumite, a New Lead Uranyl Tellurite. *American Mineralogist*, 50: 1158-1163.
(R. V. Gaines, 1974)
- Monetite NMNH 123822** Mona and Moneta Islands, West Indies
- C. U. Shepard, 1882. On Two New Minerals, Monetite and Monite, with a Notice of Pyroclasite. *American Journal of Science*, (3)23: 400-405.
(C. U. Shepard Collection, 1929)
- Monetite NMNH 128714** Mona and Moneta Islands, West Indies
See reference above.
- (C. U. Shepard Collection, 1929)
- Monite (discredited, =Carbonate-hydroxyl-apatite) NMNH 128715** Mona and Moneta Islands, West Indies
C. U. Shepard, 1882. On Two New Minerals, Monetite and Monite, with a Notice of Pyroclasite. *American Journal of Science*, (3)23: 400-405.
(C. U. Shepard Collection, 1929)
- Montroseite NMNH 106897** Bitter Creek Mine, Montrose County, Colorado
A. D. Weeks, E. A. Disney and A. M. Sherwood, 1950. Hummerite and Montroseite, Two Vanadium Minerals from Montrose County, Colorado. Paper presented at the 31st Annual Meeting of the Mineralogical Society of America, 1950. Abst: *American Mineralogist*, 36:326-327, 1951.
- (U.S. Geological Survey, 1954)
- Montroydite NMNH 86637 and 86638** Terlingua, Texas
A. J. Moses, 1903. Eglestonite, Terlinguaite and Montroydite, New Mercury Minerals from Terlingua, Texas. *American Journal of Science*, (4)16:253-263.
(U.S. Geological Survey, through F. W. Clarke, 1910)
- Montroydite NMNH 87483** Terlingua, Texas
See reference above.
- (U.S. Geological Survey, 1915)
- Mooihoekeite (with type Haycockite) NMNH 124965** Mooihoeke Farm, Transvaal, Republic of South Africa
L. J. Cabri and S. R. Hall, 1972. Mooihoekeite and Haycockite, Two New Copper-Iron Sulfides, and Their Relationship to Chalcocite and Talmakhite. *American Mineralogist*, 57: 689-708.
(Ontario Department of Energy, Mines, and Resources, through L. J. Cabri, 1972)
- Mooreite NMNH 95985** Sterling Hill, New Jersey

- L. H. Bauer and H. Berman, 1928. On a New Basic Sulphate and Two Borates of Magnesium from Sterling Hill and Franklin, New Jersey. Paper presented at the 9th Annual Meeting of the Mineralogical Society of America, 1928. Abst: *American Mineralogist*, 14:103, 1929. (Harvard University, 1929)
- Moraesite NMNH 106577** Sapucaia Pegmatite, Minas Gerais, Brazil
M. L. Lindberg, W. T. Pecora and A. L. de M. Barbosa, 1953. Moraesite, New Hydrous Beryllium Phosphate from Minas Gerais, Brazil. *American Mineralogist*, 38:1126-1133. (W. T. Pecora, 1954)
- Mordenite NMNH R4062** Morden, Kings County, Nova Scotia, Canada
D. C. L. How, 1864. On Mordenite, a New Mineral from the Trap of Nova Scotia. *Journal of the Chemical Society, London*, 17:100-104. Abst: *Dana*, 6:573. (Roebling Collection, 1927)
- Morencite (discredited, =Nontronite) NMNH 86033** Arizona Central Mine, Morenci, Arizona
W. Lindgren and W. F. Hillebrand, 1904. Minerals from the Clifton-Morenci District, Arizona. *American Journal of Science* (4)18:448-460. Abst: *Mineralogical Magazine*, 14:404, 1907.
(U.S. Geological Survey, W. Lindgren collection, 1905)
- Mosesite NMNH 93292** Terlingua, Texas
F. A. Canfield and W. F. Hillebrand, 1910. Mosesite, a New Mineral from Terlingua, Texas. *American Journal of Science*, (4)30:202-208. (W. F. Hillebrand, 1917)
- Mosesite NMNH C870** Terlingua, Texas
See reference above.
(Canfield Collection, 1927)
- Mountainite NMNH 114792** Bultfontein Mine, Kimberley, Republic of South Africa
J. A. Gard, H. F. W. Taylor and R. A. Chalmers, 1957. An Investigation of Two New Minerals: • Rhodesite and Mountainite. *Mineralogical Magazine*, 31:611-623.
(E. D. Mountain, 1960)
- Mourite NMNH 127972** U.S.S.R.
E. V. Kopchenova, K. V. Skvortsova, N. I. Silantieva, G. A. Siderenko and L. V. Mikhailova, 1962. Mourite, a New Supergene Uranium-Molybdenum Mineral. *Vserossiiskoe Mineralogicheskoe Obshchestvo, Leningrad*, 91(1): 67-71. Abst: *American Mineralogist*, 47:1217, 1962.
(U.S. Geological Survey, 1973)
- Murataite NMNH 133319, 133320 and 133321** St. Peter's Dome, El Paso County, Colorado
J. W. Adams, T. Botinelly, W. N. Sharp and K. Robinson, 1974. Murataite, a New Complex Oxide from El Paso County, Colorado. *American Mineralogist*, 59:172-176.
(U.S. Geological Survey, through J. W. Adams, 1974)
- Napalite (discredited, =a mixture) NMNH 79184**
Etna Mine, Napa County, California
G. F. Becker, 1888. Geology of the Quicksilver Deposits of the Pacific Slope. *United States Geological Survey Monograph* 13:372-373. Abst: *Zeitschrift für Krystallographie und Mineralogie*, 20:498, 1892.
(W. H. Melville, 1891)
- Natramblygonite**, see **Natromontebrasite**
- Natrojarosite NMNH 86932** Soda Springs Valley, Esmeralda County, Nevada
W. F. Hillebrand and S. L. Penfield, 1902. Some Additions to the Alunite-Jarosite Group of Minerals. *American Journal of Science*, (4) 14:211-220. Abst: *Mineralogical Magazine*, 13: 373, 1903.
(U.S. Geological Survey, 1911)
- Natrojarosite NMNH R6307** Soda Springs Valley, Esmeralda County, Nevada
See reference above.
(Roebling Collection, 1927)
- Natromontebrasite NMNH 86843 and 87490** Canon City, Colorado
W. T. Schaller, 1911. Natramblygonite, a New Mineral. *American Journal of Science*, (4)31: 48-50. [Identical with natromontebrasite; see F. Gonnard, 1913. *Bulletin de la Société Française de Mineralogie et de Cristallographie*, 36:119-121.]
(U.S. Geological Survey, 1911)
- Naujakasite NMNH 97479** Naujakasik, Greenland
O. B. Bøggild, 1933. Igalikite and Naujakasite, Two New Minerals from South Greenland. *Meddelelser om Grønland*, 92:1-12. Abst: *American Mineralogist*, 20:138, 1935.
(Mineralogiske og Geologiske Museum, through O. B. Bøggild, 1935)

- Neighborite NMNH 115216** Eocene Green River Formation of South Ouray, Uintah County, Utah.
 E. C. T. Chao, H. T. Evans, Jr., B. J. Skinner and C. Milton, 1961. Neighborite, NaMgF_3 , a New Mineral from the Green River Formation, South Ouray, Utah. *American Mineralogist*, 46:379-393.
 (U.S. Geological Survey, 1962)
- Nekoite NMNH 95637** Wet Weather Quarry, Crestmore, California
 J. A. Gard and H. F. W. Taylor, 1956. Okenite and Nekoite (a New Mineral). *Mineralogical Magazine*, 31:5-20.
 (W. F. Foshag, 1927)
- Neomesselite (discredited, =Messelite) NMNH 106915** Palermo Pegmatite, North Groton, New Hampshire
 C. Frondel, 1955. Neomesselite and Beta-Roselite: Two New Members of the Fairfieldite Group. *American Mineralogist*, 40:828-833.
 (Harvard University, 1954)
- Niccochromite (discredited, =doubtful species) NMNH 128716** New Texas, Lancaster County, Pennsylvania
 C. U. Shepard, 1877. Niccochromite. *Contributions to Mineralogy*, 1877, page 6.
 (C. U. Shepard Collection, 1929)
- Ningyoite NMNH 113822** Ningyo-toge Mine, Tottori Prefecture, Japan
 T. Muto, R. Meyrowitz, A. M. Pommer and T. Murano, 1959. Ningyoite, a New Uranous Phosphate Mineral from Japan. *American Mineralogist*, 44:633-650.
 (U.S. Geological Survey, 1959)
- Ningyoite NMNH 115885** Ningyo-toge Mine, Tottori Prefecture, Japan
 See reference above.
 (U.S. Geological Survey, 1963)
- Nitromagnesite NMNH 128717** Niccojack Cave, Tennessee
 C. U. Shepard, 1835. Nitro-magnesite. *Treatise on Mineralogy*, 2nd Edition, Part 2, Volume 2, page 85.
 (C. U. Shepard Collection, 1929)
- Nolanite NMNH 112965** Beaverlodge, Saskatchewan, Canada
 S. C. Robinson, H. T. Evans, Jr., W. T. Schaller and J. J. Fahey, 1957. Nolanite, a New Iron-Vanadium Mineral from Beaverlodge, Saskatchewan. *American Mineralogist*, 42:619-628.
 (U.S. Geological Survey, through T. B. Nolan, 1958)
- Noonkanbahite (discredited, =variety of Shcherbakovite) NMNH 119787** Wolgidee Hills, West Kimberly District, Western Australia, Australia
 R. T. Prider, 1965. Noonkanbahite, a Potassic Batisite from the Lamproites of Western Australia. *Mineralogical Magazine*, 34:403-405.
 (R. T. Prider, 1966)
- Nordstrandite NMNH 117275** Gunony Kapor, Bau, Sarawak
 J. R. D. Wall, E. B. Wolfenden, E. H. Beard and T. Deans, 1962. Nordstrandite in Soil from West Sarawak, Borneo. *Nature*, 196:265-266.
 (J. Patrick, 1964)
- Novacekite NMNH R5686** Schneeberg, Saxony, Germany
 C. Frondel, 1951. Studies of Uranium Minerals (IX): Saléeite and Novacekite. *American Mineralogist*, 36:680-686.
 (Roebling Collection, 1927)
- Novakite NMNH 116992** Cerny Dul, Giant Mountains, Krkonose, Czechoslovakia
 Z. Johan and J. Hak, 1961. Novákite, $(\text{Cu},\text{Ag})_4\text{As}_3$, a New Mineral. *American Mineralogist*, 46: 885-891.
 (J. Hak, 1963)
- Oborite (with type Beiyinite) NMNH R7709** Beiyin-Obo, north of Paoto, Suiyuan, China
 T. L. Ho, 1935. Note on Some Rare Earth Minerals from Beiyin Obo, Suiyuan. *Bulletin of the Geological Society of China*, 14:279-282.
 (T. L. Ho, 1936)
- Ontariolite (discredited, =Wernerite) NMNH 128718** Galway, Ontario, Canada
 C. U. Shepard, 1880. Mineralogical Notes, 1: A Peculiar Member of the Scapolite Family. *American Journal of Science*, (3)20:54-57.
 (C. U. Shepard Collection, 1929)
- Ontariolite (discredited, =Wernerite) NMNH R3573** Ontario County, Canada
 See reference above.
 (Roebling Collection, 1927)
- Ordoñezite NMNH R9127** El Santin Mine, Mesa de la Fajas, Sierra Gorda, near Santa Catarina, Guanajuato, Mexico
 G. Switzer and W. F. Foshag, 1953. Ordoñezite,

- Zinc Antimonate, a New Mineral from Guanajuato, Mexico. Paper given at the 34th Annual Meeting of the Mineralogical Society of America, 1953. Abst: *American Mineralogist*, 39: 346, 1954.
 (Diaz collection, through the Roebling Collection, 1953)
- Orientite** NMNH 93819 Oriente Province, Cuba
 D. F. Hewett and E. V. Shannon, 1920. Orientite, a New Hydrous Silicate of Calcium and Manganese from Cuba. Paper presented at the 1st Annual Meeting of the Mineralogical Society of America, 1920. Abst: *American Mineralogist*, 6:38, 1921; 6:132, 1921.
 (D. F. Hewett, 1920)
- Osarsite** NMNH 123218 Gold Bluff, Humboldt County, California
 K. G. Snetsinger, 1972. Osarsite, a New Osmium-Ruthenium Sulfarsenide from California. *American Mineralogist*, 57:1029-1036.
 (NASA Ames Research Center, through K. G. Snetsinger, 1972)
- Ottemannite (with type Berndtite)** NMNH 114486 Maria Teresa Mine, Huari, Bolivia
 G. H. Moh and F. Berndt, 1964. Two New Natural Tin Sulfides Sn_2S and SnS_2 . *Neues Jahrbuch für Mineralogie, Geologie, und Paleontologie*, 3:94-95. Abst: *American Mineralogist*, 50:2107, 1965; (name) *American Mineralogist*, 51:1551, 1966.
 (F. Ahlfeld Collection, through Ward's Natural Science Establishment, 1960)
- Ottemannite (with type Berndtite)** NMNH C5354
 Maria Teresa Mine, Huari, Bolivia
 See reference above.
 (Canfield Collection, 1935)
- Owyheeite** NMNH 94054 Poorman Mine, Silver City District, Owyhee County, Idaho
 E. V. Shannon, 1921. Owyheeite. *American Mineralogist*, 6:82-83.
 (Found in the collections, 1920)
- Oyamalite (discredited, =Zircon, Phosphatian)**
 NMNH 105581 Oyama, Iyo Province, Japan
 K. Kimura, 1925. The Chemical Investigations of Japanese Minerals Containing the Rare Elements, Part V. *Japanese Journal of Chemistry*, 2:81-85. Abst: *American Mineralogist*, 11:137-138, 1926.
 (F. A. Rapp, 1947)
- Oyamalite (discredited, =Zircon, Phosphatian)**
- NMNH 106322** Oyama, Iyo Province, Japan
 See reference above.
 (F. A. Rapp, 1951)
- p-Veatchite, see Veatchite**
- Paigeite** NMNH 86789 Ear Mountain, Alaska
 A. Knopf and W. T. Schaller, 1908. Two New Boron Minerals of Contact-Metamorphic Origin. *American Journal of Science*, (4)25:323-331. Abst.: *Mineralogical Magazine*, 15:426-427, 1910.
 (U.S. Geological Survey, through A. Knopf, 1910)
- Paigeite** NMNH 86988 Ear Mountain, Seward Peninsula, Alaska
 See reference above.
 (U.S. Geological Survey, through A. Knopf, 1911)
- Palaite (discredited, =Hureaulite)** NMNH 93655
 Pala, San Diego County, California
 W. T. Schaller, 1912. New Manganese Phosphates from the Gem Tourmaline Field of Southern California. *Journal of the Washington Academy of Sciences*, 2:143-145.
 (U.S. Geological Survey, 1919)
- Palaite (discredited, =Hureaulite)** NMNH R5550
 Stewart Mine, Pala, San Diego County, California
 See reference above.
 (Roebling Collection, 1927)
- Parabutlerite** NMNH 115159 Chuquicamata, Chile
 M. C. Bandy, 1938. Mineralogy of Three Sulphate Deposits in Northern Chile. *American Mineralogist*, 23:669-760.
 (M. C. Bandy, 1961)
- Paradamite** NMNH 112518 Mapimi, Durango, Mexico
 G. Switzer, 1956. Paradamite, a New Zinc Arsenate from Mexico. *Science*, 123:1039. Abst: *American Mineralogist*, 41:958, 1956.
 (G. Burnham, 1955)
- Paradocrasite** NMNH R419 Broken Hill, New South Wales, Australia
 B. F. Leonard, C. W. Mead and J. J. Finney, 1971. Paradocrasite, $\text{Sb}_2(\text{Sb},\text{As})_2$, a New Mineral. *American Mineralogist*, 56:1127-1146.
 (Roebling Collection, 1927)
- Paramelaconite** NMNH R1820 Copper Queen Mine, Bisbee, Arizona
 C. Frondel, 1941. Paramelaconite: a Tetragonal

- Oxide of Copper. *American Mineralogist*, 26: 657-672.
(Roebling Collection, 1927)
- Paratellurite NMNH R18129** Moctezuma, Sonora, Mexico
G. Switzer and H. E. Swanson, 1950. Paratellurite, a New Mineral from Mexico. *American Mineralogist*, 45:1272-1274.
(E. R. Swoboda, through the Roebling Collection, 1952)
- Paratellurite NMNH C5995** Moctezuma, Sonora, Mexico
See reference above.
(Minerals Unlimited, through the Canfield Collection, 1951)
- Paravauxite NMNH 112735** Llallagua, Bolivia
S. G. Gordon, 1922. Preliminary Notes on Vauxite and Paravauxite, Two New Minerals from Llallagua, Bolivia. Paper presented at the meeting of the Philadelphia Mineralogical Society, 14 April 1922. Abst: *American Mineralogist*, 7:107-108, 1922.
(S. A. Gordon, 1957)
- Paravauxite NMNH R5647** Llallagua, Bolivia
See reference above.
(Roebling Collection, 1927)
- Parawollastonite (discredited, =Wollastonite, 2M) NMNH 13651** Monte Somma, Vesuvius, Italy
M. A. Peacock, 1935. On Wollastonite and Para-wollastonite. *American Journal of Science*, (5)30:495-529.
(T. Schuchardt, 1883)
- Partridgeite (discredited =Bixbyite) NMNH 105141** Postmasburg Manganese Deposits, Cape Province, South Africa
J. E. de Villiers, 1943. A Preliminary Description of the New Mineral Partridgeite. *American Mineralogist*, 28:336-338.
(U.S. Geological Survey, through M. Fleischer, 1945)
- Parwelite NMNH 120065** Långban, Sweden
P. B. Moore, 1967. Eleven New Minerals from Långban, Sweden. Paper presented before the Twelfth Annual Meeting of the Mineralogical Association of Canada, 1967. Abst: *Canadian Mineralogist*, 9:301, 1967.
(P. B. Moore, 1967)
- Pascoite NMNH 87662** Minasragra, Peru
W. F. Hillebrand, H. E. Merwin and F. E. Wright, 1914. Hewettite, Metahewettite and Pascoite, Hydrous Calcium Vanadates. *Proceedings of the American Philosophical Society of Philadelphia*, 53:31-54. Abst: *Mineralogical Magazine*, 17:355, 1916.
(U.S. Geological Survey, through D. F. Hewett, 1912)
- Pascoite NMNH 93297** Minasragra, Peru
See reference above.
(W. F. Hillebrand, 1917)
- Pecoraite NMNH 128111** Wolf Creek Meteorite Crater, Western Australia, Australia
G. T. Faust, J. J. Fahey, B. Mason and E. J. Dwornik, 1969. Pecoraite, $\text{Ni}_6\text{Si}_4\text{O}_{10}(\text{OH})_8$, Nickel Analog of Clinochrysotile, Formed in the Wolk Creek Meteorite. *Science*, 165:59-60.
(B. Mason and E. P. Henderson, 1968)
- Pelhamine (discredited, =an altered Chrysotile) NMNH 128720** Pelham, Massachusetts
C. U. Shepard quoted in E. S. Dana, 1876. New Minerals. *American Journal of Science*, (3) 12:231.
(C. U. Shepard Collection, 1929)
- Pendletonite (discredited, =Karpateite) NMNH 119545** Picachos Mine, San Benito County, California
J. Murdoch and T. A. Geissman, 1967. Pendletonite, a New Hydrocarbon Mineral from California. *American Mineralogist*, 52:611-616.
(J. Murdoch, 1966)
- Pennantite NMNH 105855** Ty Canol Incline, Benallt Mine, Rhiw, Carnarvonshire, England
W. C. Smith, F. A. Bannister and M. H. Hey, 1946. Pennantite, a New Manganese-rich Chlorite from Benallt Mine, Rhiw, Carnarvonshire. *Mineralogical Magazine*, 27:217-220.
(British Museum (Natural History), 1949)
- Penroseite NMNH 95302** Colquechaca, Bolivia
S. G. Gordon, 1925. Penroseite and Trudellite, Two New Minerals. Paper presented to the Philadelphia Mineralogical Society, 12 November 1925. Abst: *American Mineralogist*, 11: 41-42, 1926.
(Academy of Natural Sciences, Philadelphia, 1925)
- Penroseite NMNH R7247** Colquechaca, Bolivia
See reference above.
(Roebling Collection, 1933)
- Pentagonite (with Cavansite) NMNH 122769** Owyhee Dam, Malheur County, Oregon
L. W. Staples, H. T. Evans, Jr., and J. R. Lind-

- say, 1973. Cavansite and Pentagonite, New Dimorphous Calcium Vanadium Silicate Minerals from Oregon. *American Mineralogist*, 58: 405-411.
- (Mrs. F. S. Zimmerman (?), 1970)
- Phosphochromite (discredited, =an invalid species)**
- NMNH 128746 Elroque Island, West Indies
C. U. Shepard, 1877. Phosphochromite. *Contributions to Mineralogy*, 1877:7.
(C. U. Shepard Collection, 1929)
- Pinchite NMNH 128440** Terlingua, Texas
B. D. Sturman and J. A. Mandarino, 1974. Pinchite, a New Mercury Oxychloride from Terlingua, Texas. *Canadian Mineralogist*, 12: 417-418.
(W. W. Pinch, 1974)
- Pinchite NMNH 132391** Terlingua, Texas
See reference above.
(W. W. Pinch, 1975)
- Pintadoite NMNH 93657** Canyon Pintado, San Juan County, Utah
F. L. Hess and W. T. Schaller, 1916. Pintadoite and Uvanite, Two New Uranium Minerals from Utah: A Preliminary Note. *Journal of the Washington Academy of Sciences*, 4:576-579. Abst: *Mineralogical Magazine*, 17:355, 1916.
(U.S. Geological Survey, 1919)
- Pintadoite NMNH R5714** Frisco #2 Claim, Canyon Pintado, San Juan County, Utah
See reference above.
(Roebling Collection, 1927)
- Plazolite (discredited, =Hydrogrossular) NMNH 94024** Commercial Quarry, Crestmore, Riverside, California
W. F. Foshag, 1920. Plazolite, a New Mineral. *American Mineralogist*, 5:183-185.
(W. F. Foshag, 1920)
- Plumbojarosite NMNH 86551** Cooks Peak, New Mexico
W. F. Hillebrand and S. L. Penfield, 1902. Some Additions to the Alunite-Jarosite Group of Minerals. *American Journal of Science*, (4) 14:211-220.
(Source not known, 1909)
- Plumbojarosite NMNH R6308** Cooks Peak, New Mexico
See reference above.
(Roebling Collection, 1927)
- Plumbosynadelphite (discredited, =Synadelphite, var. Plumboan) NMNH 84331** Nordmark, Sweden
C. S. Hurlbut, Jr., 1937. On Synadelphite and Plumbosynadelphite. *American Mineralogist*, 22:526-533.
(G. L. English & Company, purchase, 1898)
- Potarite NMNH 95350** Amu Creek, tributary of Essequites River, Guyana
L. J. Spencer, 1928. Potarite, a New Mineral Discovered by the Late Sir John Harrison in British Guiana. *Mineralogical Magazine*, 21: 397-406.
(Government of Guyana, through J. Harrison, 1926)
- Poughite NMNH 128388** Moctezuma Mine, Moctezuma, Sonora, Mexico
R. V. Gaines, 1968. Poughite, a New Tellurite Mineral from Mexico and Honduras. *American Mineralogist*, 53:1075-1080.
(R. V. Gaines, 1974)
- Powellite NMNH 80674** Peacock Lode, Seven Devils District, Idaho
W. H. Melville, 1891. Powellite—Calcium Molybdate: a New Mineral Species. *American Journal of Science*, (3)41:138-141.
(W. H. Melville, 1892)
- Prehnitoid discredited, =Mizzonite) NMNH R3581**
Solberget, near Vaxjo, Sweden
C. W. Blomstrand, 1854. Nagra Bidrag Till Sveriges Mineral-geografi. *Ofversigt af Svenska Vetenskapsakademien Forhandlingar*, 11:296-302. Abst: *Dana* 6:471.
(Roebling Collection, 1927)
- Ptilolite (discredited, =Mordenite) NMNH 83281, 83282, 83283 and 83285** Northeast Slope of Green Mountain, Jefferson County, Colorado
W. Cross and L. G. Eakins, 1886. On Ptilolite, a New Mineral. *American Journal of Science*, (3)32:117-121.
(U.S. Geological Survey, 1894)
- Pumpellyite NMNH 95279, 95280, 95281 and 95282** Kearsage Lode, 81st level, C. & H. Mine, Superior, Michigan
C. Palache and H. E. Vassar, 1925. Some Minerals of the Keweenawan Copper Deposits: Pumpellyite, a New Mineral; Sericite, Saponite. *American Mineralogist*, 10:412-418.
(Harvard University, 1925)
- Purpurite NMNH 93883** Faires Tin Mine, Kings Mountain, Gaston County, North Carolina

- L. C. Graton and W. T. Schaller, 1905. Purpurite, a New Mineral. *American Journal of Science*, (4)20:146–151. Abst: *Mineralogical Magazine*, 14:408, 1907.
 (U.S. Geological Survey, 1920)
- Pyroclasite (discredited, =Apatite) NMNH 112737**
 Mong's Island, West Indies
 C. U. Shepard, 1856. Five New Mineral Species. *American Journal of Science*, (2)22:96–99.
 (C. U. Shepard Collection, 1929)
- Pyroiodesine (discredited, =Serpentine?) NMNH 128721** De Regla, near Havana, Cuba
 C. U. Shepard, 1872. Pyroiodesine. *Catalog of the Meteroic Collection of Charles Upham Shepard*, page 7.
 (C. U. Shepard Collection, 1929)
- Pyromelane (discredited, =Brookite) NMNH 128750**
 McDowell County, North Carolina
 C. U. Shepard, 1856. Five New Mineral Species. *American Journal of Science*, (2)22:96–99.
 (C. U. Shepard Collection, 1929)
- Quetzalcoatlite NMNH 135055** Mina Bambollita, Moctezuma, Sonora, Mexico
 S. A. Williams, 1973. Quetzalcoatlite, $\text{Cu}_4\text{Zn}_8(\text{TeO}_3)_3(\text{OH})_{18}$. *Mineralogical Magazine*, 39: 261–263.
 (S. A. Williams, 1976)
- Rabbittite NMNH 112741** Lucky Strike #2 Mine, Emery County, Utah
 M. E. Thompson, A. D. Weeks and A. M. Sherwood, 1954. Rabbittite, a New Uranyl Carbonate from Utah. *United States Geological Survey Trace Element Investigation Report*, 405: 12 pages.
 A. D. Weeks and M. E. Thompson, 1954. Identification and Occurrence of Uranium and Vanadium Minerals from the Colorado Plateaus. *United States Geological Survey Bulletin*, 1009-B:13–62. Abst: *American Mineralogist*, 39:1037, 1954.
 (U.S. Geological Survey, 1957)
- Racewinite (discredited, =Beidellite?) NMNH R4759** Bingham, Utah
 A. N. Winchell, 1918. Racewinite: A Peculiar Mineral from Ore Deposits in Utah. *Economic Geology*, 13:611–615.
 (Roebling Collection, 1927)
- Ramdohrite NMNH R6595** Guadeloupe Mine, Chocaya la vieja, Nor Chichas, Potosí, Bolivia
 F. Ahlfeld, 1930. Ramdohrit, ein Neues Mineral aus Bolivien. *Centralblatt für Mineralogie, Geologie, und Paleontologie, Abt. A* (8):365–367. Abst: *American Mineralogist*, 16:132, 1931.
 (F. Ahlfeld, through the Roebling Collection, 1930)
- Ransomite NMNH 95955** United Verde Mine, Jerome, Arizona
 C. Lausen, 1928. Hydrous Sulphates Formed under Fumerolic Conditions at the United Verde Mine. *American Mineralogist*, 13:203–229.
 (C. Lausen, 1929)
- Rauvite NMNH 95060** Temple Mountain, Emery County, Utah
 F. L. Hess, 1922. Uranium-bearing Asphaltite Sediments of Utah. *Engineering and Mining Journal of New York*, 114:272–276. Abst: *American Mineralogist*, 8:187, 1923.
 (U.S. Geological Survey, 1925)
- Rauvite NMNH R5715** Temple Mountain, San Rafael Swell, Emery County Utah
 See reference above.
 (Roebling Collection, 1927)
- Redledgeite (also see card under Chromrutile) NMNH 95846** Red Ledge Mine, Washington District, Nevada County, California
 H. Strunz, 1961. Chromrutile von der Red Ledge Mine ist Kein Rutil. Redledgeit. *Neues Jahrbuch für Mineralogie, Geologie, und Paleontologie, Monatsh*, 1961:107–111. Abst: *American Mineralogist*, 46:1201, 1961.
 (Philadelphia Academy of Sciences, 1928)
- Redondite (discredited, =Variscite, Ferrian) NMNH 130872** Redonda Island, near Antigua, West Indies
 C. U. Shepard, 1869. On a New Mineral Phosphate from the Island of Redonda, W. I. *American Journal of Science*, (2)47:428–429.
 (C. U. Shepard Collection, 1929)
- Reedmergnerite NMNH 106865** Green River Formation, Utah
 C. Milton, J. M. Axelrod and F. S. Grimaldi, 1954. New Minerals, Reedmergnerite ($\text{Na}_2\text{O}\cdot\text{B}_2\text{O}_3\cdot6\text{SiO}_2$) and Eitelite ($\text{Na}_2\text{O}\cdot\text{MgO}\cdot2\text{CO}_2$) Associated with Leucosphenite, Shortite, Searlesite, and Crocidolite in the Green River Formation, Utah. Paper given at the 35th Annual Meeting of the Mineralogical Society

- of America. 1954. Abst: *American Mineralogist*, 40:326, 1955.
- (U.S. Geological Survey, through C. Milton, 1954)
- Reevesite (with type Cassidyite) NMNH 119553 and 119554** Wolf Creek Meteorite, Western Australia, Australia
J. S. White, Jr., E. P. Henderson and B. Mason, 1967. Secondary Minerals Produced by Weathering of the Wolf Creek Meteorite. *American Mineralogist*, 52:1190-1197.
(Division of Meteorites, Smithsonian Institution, 1966)
- Revoredite (discredited, =doubtful species) NMNH 113100** Cerro de Pasco, Peru
G. C. Amstutz, P. Ramdohr and F. de las Casas, 1957. A New Low Temperature Mineral of Hydrothermal Origin from Cerro de Pasco. *Boletín Sociedad Geología del Perú*, 32:25-33. Abst: *American Mineralogist*, 43:794, 1958.
(U.S. Geological Survey, 1959)
- Rhodesite NMNH 114793** Bultfontein Mine, Kimberley, Republic of South Africa
E. D. Mountain, 1957. Rhodesite, a New Mineral from the Bultfontein Mine, Kimberley. *Mineralogical Magazine*, 31:607-610.
J. A. Gard, H. F. W. Taylor and R. A. Chalmers, 1957. An Investigation of Two New Minerals: Rhodesite and Mountainite. *Mineralogical Magazine*, 31:611-623.
(E. D. Mountain, 1960)
- Rilandite (discredited, =impure Chromium Oxide?) NMNH 96808** J. I. Riland Claims, Coal Creek, 13 miles northeast of Meeker, Colorado
E. P. Henderson and F. L. Hess, 1933. Corvusite and Rilandite, New Minerals from the Utah-Colorado Carnotite Region. *American Mineralogist*, 18:195-205.
(U.S. Geological Survey, through F. L. Hess, 1932)
- Riversideite NMNH 93416** Crestmore, Riverside County, California
A. S. Eakle, 1917. Minerals Associated with the Crystalline Limestone at Crestmore, Riverside County, California. *Bulletin of the Department of Geology, University of California*, 10 (19):327-361. Abst: *American Mineralogist*, 3:19, 1918.
(W. F. Foshag, 1918)
- Robertsite NMNH 127151** Tip Top Pegmatite, Custer, South Dakota
P. B. Moore, 1974. I, Jahnsite, Segelerite, and Robertsite, Three New Transition Metal Phosphate Species. *American Mineralogist*, 59:48-49.
(P. B. Moore, 1973)
- Robinsonite NMNH 106568** Red Bird Mine, Pershing County, Nevada
L. G. Berry, J. Fahey, and E. H. Bailey, 1951. Robinsonite, a New Lead Antimony Sulfide. Paper given at the 32nd Annual Meeting of the Mineralogical Society of America. 1951. Abst: *American Mineralogist*, 37:285, 1952; 37:438-446, 1952.
(U.S. Geological Survey, 1953)
- Roeblingite NMNH 124351** Franklin Furnace, New Jersey
S. L. Penfield and H. W. Foote, 1897. On Roeblingite, a New Silicate from Franklin Furnace, N. J., Containing Sulphur Dioxide and Lead. *American Journal of Science*, (4)3: 413-415.
(U.S. Geological Survey, through W. T. Schaller, 1972)
- Roeblingite NMNH R8824** Franklin Furnace, New Jersey
See reference above.
(Roebling Collection, 1952)
- Roentgenite NMNH R2609, R2613 and R2615** Narsarsuk, Greenland
G. Donnay, 1953. Roentgenite, $3\text{CeFCO}_3 \cdot 2\text{CaCO}_3$, a New Mineral from Greenland. *American Mineralogist*, 38:868-870; 932-963.
(Roebling Collection, 1927)
- Roggianite NMNH 122280** Orcesco, Commune of Druogno, Val Vigezzo, Novara, Italy
E. Passaglia, 1969. Roggianite, a New Silicate Mineral. *Clay Minerals*, 8:107-111.
(E. Passaglia, 1970)
- Rooseveltite NMNH 115317** Santiaguilla, near Maragua, Potosí, Bolivia
R. Herzenberg, 1946. Nuevos Minerales de Bolivia. *Boletín Técnico Fac. Nac. Ingeniería, Univ. Técnica, Oruro*, 1:10. Abst: *American Mineralogist*, 32:372, 1947.
(Harvard University, 1962)
- Rosenhahnite NMNH 120124** Russian River, Mendocino County, California
A. Pabst, E. B. Gross and J. T. Alfors, 1967. Rosenhahnite, a New Hydrous Calcium Silicate

- from Mendocino County, California. *American Mineralogist*, 52:336-351.
- (J. T. Alfors, 1967)
- Rosenhahnite NMNH 134526** Russian River, Mendocino County, California
See reference above.
(A. Pabst, 1975)
- Rossite NMNH 95331** Wm. O'Neill's Claim, Bull Pen Canyon, 8 miles northeast of Stevens Cabin, Dolores River, Colorado
F. L. Hess and W. F. Foshag, 1925. Carnotite from Colorado; and Rossite, a New Calcium Vanadate from Utah. Paper given at the 6th Annual Meeting of the Mineralogical Society of America. 1925. Abst: *American Mineralogist*, 11:66, 1926; 13:160, 1928.
(U.S. Geological Survey, 1925)
- Rossite NMNH R5707** Bull Pen Canyon, Colorado (near Summit Post Office, Utah)
See reference above.
(Roebling Collection, 1927)
- Roweite NMNH 105493** Franklin, New Jersey
H. Berman and F. A. Gonyer, 1937. Roweite, a New Mineral from Franklin, New Jersey. *American Mineralogist*, 22:301-303.
(H. A. Ford, 1947)
- Roweite NMNH C6291** Franklin, New Jersey
See reference above.
(H. A. Ford, through the Canfield Collection, 1955)
- Rustumite NMNH 119427, 119428 and 119429** $\frac{3}{4}$ mile north of Hotel, Kilchoan, Ardnamurchan, Scotland
S. O. Agrell, 1965. Polythermal Metamorphism of Limestones at Kilchoan, Ardnamurchan. *Mineralogical Magazine*, 34:1-15.
(S. O. Agrell, 1966)
- Rutherfordine NMNH 93291** Uruguru Mountains, Tanzania
W. Marckwald, 1906. Über Uranerze aus Deutsch-Ostafrika. *Centralblatt für Mineralogie, Geologie, und Paleontologie*, 1906:761-764. Abst: *Mineralogical Magazine*, 14:409, 1907.
(W. F. Hillebrand, 1917)
- Sabugalite NMNH 106335, 106336 and 106337** Mina da Quarta, Siera, Sabugal, Portugal
C. Frondel, 1951. Studies of Uranium Minerals (VIII): Sabugalite, an Aluminum-Autunite. *American Mineralogist*, 36:671-679.
- (Harvard University, 1951)
- Sahamalite NMNH 106901** Mountain Pass, California
H. W. Jaffe, R. Meyrowitz and H. T. Evans, Jr., 1953. Sahamalite, a New Rare Earth Carbonate Mineral. *American Mineralogist*, 38:741-754.
(U.S. Geological Survey, 1954)
- Salmoite (discredited, = Tarbuttite) (with type Spencerite and type Hibbenite) NMNH 121566** Hudson Bay Zinc Mine, about 5 miles east of Salmo, near Nelson, West Kootenay District, British Columbia, Canada
A. H. Phillips, 1916. New Zinc Phosphates from Salmo, British Columbia. *American Journal of Science*, (4)42:275-278.
(U.S. Geological Survey, through E. S. Larsen, 1969)
- Salmonsite NMNH 93654** Stewart Mine, Pala, San Diego County, California
W. T. Schaller, 1912. New Manganese Phosphates from the Gem Tourmaline Field of Southern California. *Journal of the Washington Academy of Sciences*, 2:143-145. Abst: *Zeitschrift für Krystallographie und Mineralogie*, 55:404-405, 1916.
(U.S. Geological Survey, 1919)
- Salmonsite NMNH R5643** Stewart Mine, Pala, San Diego County, California
See reference above.
(Roebling Collection, 1927)
- Samuelsonite NMNH 128071** Palermo #1 Mine, North Groton, New Hampshire
P. B. Moore and T. Araki, 1975. Samuelsonite, $(\text{Ba}, \text{Hole})_2(\text{Fe}^{+2}, \text{Mn}^{+2}, \text{Na}_4)_4\text{Ca}_8\text{Al}_2(\text{OH})_2(\text{PO}_4)_{10}$, a Fragmented Apatite Structure, and Some Novel Insights in the Apatite Structure Type. *Geological Society of America Abstracts* 7 (6):825-826.
(P. B. Moore, 1974)
- Sanmartinite NMNH 105681** Los Corrillos, 7 km west of San Martin, San Luis, Argentina
V. Angelelli and S. G. Gordon, 1948. Sanmartinite, a New Zinc Tungstate from Argentina. *Academy of Natural Science of Philadelphia Notulae Naturae*, 205:7 pages. Abst: *American Mineralogist*, 33:653, 1948.
(S. G. Gordon, 1948)
- Santafeite NMNH 115882** Near Grants, McKinley County, New Mexico
M. Sun and R. H. Weber, 1958. Santafeite, a

- New Hydrated Vanadate from New Mexico. *American Mineralogist*, 43:677-687.
(U.S. Geological Survey, 1963)
- Santafeite NMNH 121957** Grants District, McKinley County, New Mexico
See reference above.
(U.S. Geological Survey, 1969)
- Schaierite NMNH 96437 and 96439** Well G 75, Searles Lake, California
W. F. Foshag, 1931. Schairerite, a New Mineral from Searles Lake, California. *American Mineralogist*, 16:133-139.
(U.S. Geological Survey, 1931)
- Schaierite NMNH 112736** Searles Lake, California
See reference above.
(W. F. Foshag, 1957)
- Schallerite NMNH R6610** Franklin Furnace, New Jersey
R. B. Gage, E. S. Larsen and H. E. Vassar, 1925. Schallerite, a New Arseno-Silicate Mineral from Franklin Furnace, New Jersey. *American Mineralogist*, 10:9-11.
(R. B. Gage, through the Roebling Collection, 1930)
- Schmitterite NMNH 120247** Moctezuma Mine, Moctezuma, Sonora, Mexico
R. V. Gaines, 1971. Schmitterite—a New Uranyl Tellurite from Moctezuma, Sonora. *American Mineralogist*, 56:411-415.
(R. V. Gaines, 1967)
- Schmitterite NMNH 122475** Moctezuma Mine, Moctezuma, Sonora, Mexico
See reference above.
(R. V. Gaines, 1971)
- Scholzite NMNH 106411** Hagendorf-nord, near Pleystein, Oberfalgz, Germany
H. Strunz, 1948. Scholzit, ein Neue Mineralart. *Fortschritte der Mineralogie, Kristallographie, und Petrographie*, 27:31. Abst: *American Mineralogist*, 36:382, 1951.
(H. Strunz, 1952)
- Schorlomite (discredited, =a Garnet) NMNH 128705** Magnet Cove, Arkansas
C. U. Shepard, 1846. On Three New Mineral Species from Arkansas, and the Discovery of the Diamond in North Carolina. *American Journal of Science*, (2)2:249-254.
(C. U. Shepard Collection, 1929)
- Schuetteite NMNH 117725** Oceanic Mine Dump, San Luis Obispo County, California
E. H. Bailey, F. A. Hillebrand, C. L. Christ and J. J. Fahey, 1959. Schuetteite, a New Supergene Mercury Mineral. *American Mineralogist*, 44:1026-1038.
(U.S. Geological Survey, 1965)
- Schultenite NMNH 106356** Tsumeb, Southwest Africa
L. J. Spencer and E. D. Mountain, 1926. Schultenite, a New Mineral from South-West Africa. *Mineralogical Magazine*, 21:149-155.
(British Museum (Natural History), 1951)
- Scorzalite NMNH C5862** Minas Gerais, Brazil
W. T. Pecora and J. J. Fahey, 1947. Scorzalite and Souzalite, Two New Phosphate Minerals Associated with Brazilianite, Minas Gerais, Brazil. Paper given at the 28th Annual Meeting of the Mineralogical Society of America, 1947. Abst: *American Mineralogist*, 33:205, 1948; 34:83-93, 1949
(E. R. Swoboda, 1948)
- Searlesite NMNH 93270** Searles Lake, California
E. S. Larsen and W. B. Hicks, 1914. Preliminary Note on Searlesite, a New Mineral. *Journal of the Washington Academy of Sciences*, 4:397-398. Abst: *Mineralogical Magazine*, 17:357, 1916.
(U.S. Geological Survey, 1917)
- Searlesite NMNH 94734** Searles Lake, California
See reference above.
(U.S. Geological Survey, through E. S. Larsen, 1923)
- Searlesite NMNH 124352** Searles Lake, California
See reference above.
(W. T. Schaller, 1972)
- Searlesite NMNH R6457** Searles Lake, California
See reference above.
(Roebling Collection, 1927)
- Segelerite NMNH 127154** Tip Top Pegmatite, Custer, South Dakota
P. B. Moore, 1974. I. Jahnsite, Segelerite, and Robertsrite, Three New Transition Metal Phosphate Species. *American Mineralogist*, 59: 48-59.
(P. B. Moore, 1973)
- Selencuprite (discredited, =Berzelianite) NMNH 128706** Långban, Sweden
C. U. Shepard, 1835. Selencuprite. *Treatise on Mineralogy*, Part 2, Volume 2, pages, 177-178.
(C. U. Shepard Collection, 1929)

- Senaite NMNH R7241** Diamond-bearing sands of Diamantina, Minas Gerais, Brazil
 E. Hussak and G. T. Prior, 1898. On Senaite, a New Mineral Belonging to the Ilmenite Group from Brazil. *Mineralogical Magazine*, 12:30-32.
 (E. Hussak, through the Roebling Collection, 1933)
- Shattuckite (with type Bisbeeite) NMNH 87447** Shattuck Arizona Copper Company's Mine, Bisbee, Arizona
 W. T. Schaller, 1915. Four New Minerals. *Journal of the Washington Academy of Sciences*, 5:7.
 (U.S. Geological Survey, 1914)
- Shattuckite (with type Bisbeeite) NMNH 93891** Bisbee, Arizona
 See reference above.
 (U.S. Geological Survey, 1920)
- Shattuckite (with type Bisbeeite) NMNH 95727** Shattuck Mine, Bisbee, Arizona
 See reference above.
 (J. Walker, 1927)
- Shattuckite (with type Bisbeeite) NMNH R4871 through R4874** Shattuck Mine, Bisbee, Arizona
 See reference above.
 (Roebling Collection, 1927)
- Sherwoodite NMNH 115883** Peanut Mine, Montrose County, Colorado
 M. E. Thompson, C. H. Roach and R. Meyrowitz, 1958. Sherwoodite, a Mixed Vanadium (IV)-Vanadium (V) Mineral from the Colorado Plateau. *American Mineralogist*, 43:749-755.
 (U.S. Geological Survey, 1968)
- Sherwoodite NMNH 121951** Peanut Mine, Montrose County, Colorado
 See reference above.
 (U.S. Geological Survey, 1969)
- Sicklerite NMNH 93653** Naylor Vanderberg Mine, Pala, San Diego County, California
 W. T. Schaller, 1912. New Manganese Phosphates from the Gem Tourmaline Field of Southern California. *Journal of the Washington Academy of Sciences*, 2:143-145.
 (U.S. Geological Survey, 1919)
- Sigloite NMNH 115320** Llallagua, Bolivia
 C. S. Hurlbut, Jr. and R. Honea, 1962. Sigloite, a New Mineral from Llallagua, Bolivia. *American Mineralogist*, 47:1-8.
- (Harvard University, 1962)
- Silhydrite NMNH 125042** Quarry about 6 miles east of Trinity Center, Bonanza King Quadrangle, Trinity County, California
 A. J. Gude and R. A. Sheppard, 1972. Silhydrite, $3\text{SiO}_2 \cdot \text{H}_2\text{O}$, a New Mineral from Trinity County, California. *American Mineralogist*, 57:1053-1065.
 (U.S. Geological Survey, through R. A. Sheppard, 1972)
- Simplotite NMNH 115881** Peanut Mine, Montrose County, Colorado
 M. E. Thompson, C. H. Roach and R. Meyrowitz, 1958. Simplotite, a New Quadrivalent Vanadium Mineral from the Colorado Plateau. *American Mineralogist*, 43:16-24.
 (U.S. Geological Survey, 1963)
- Sincosite NMNH 95056** Sincos, Peru
 W. T. Schaller, 1922. Sincosite, a New Mineral (Preliminary Note). *Journal of the Washington Academy of Sciences*, 12:195. Abst: *American Mineralogist*, 7:163-164, 1922.
 (U.S. Geological Survey, through S. Hutchinson, 1925)
- Smythite NMNH 112704** Bloomington Crushed Stone Quarry, Bloomington, Indiana
 R. C. Erd and H. T. Evans, Jr., 1956. The Compound Fe_3S_4 (Smythite) Found in Nature. *Journal of the American Chemical Society*, 78:2017; also *American Mineralogist*, 42:309-333, 1957.
 (U.S. Geological Survey, 1957)
- Sonoraite NMNH 119271** La Moctezuma Mine, Moctezuma, Sonora, Mexico
 R. V. Gaines, G. Donnay and M. H. Hey, 1968. Sonoraite. *American Mineralogist*, 53:1828-1832.
 (R. V. Gaines, 1966)
- Souzalite NMNH C5863** Minas Gerais, Brazil
 W. T. Pecora and J. J. Fahey, 1947. Scorzalite and Souzalite, Two New Phosphate Minerals Associated with Brazilianite, Minas Gerais, Brazil. Paper given at the 28th Annual Meeting of the Mineralogical Society of America, 1947. Abst: *American Mineralogist*, 33:205, 1948; 34:83-93, 1949.
 (E. R. Swoboda, through the Canfield Collection, 1948)
- Spangolite NMNH 83512** Globe District, near Tombstone, Arizona

- S. L. Penfield, 1890. On Spangolite, a New Copper Mineral. *American Journal of Science*, (3)39:370–378.
- (S. L. Penfield, 1895)
- Spencerite (with type Hibbenite and type Salmoite)**
- NMNH 121566 Hudson Bay Zinc Mine, about 5 miles east of Salmo, near Nelson, West Kootenay District, British Columbia, Canada
- A. H. Phillips, 1916. New Zinc Phosphates from Salmo, British Columbia. *American Journal of Science*, (4)42:275–278.
- T. L. Walker, 1916. Spencerite, a New Zinc Phosphate from British Columbia. *Mineralogical Magazine*, 18:76–81.
- (U.S. Geological Survey, through E. S. Larsen)
- Spencite NMNH 106358** Pickens Prospect, Cardiff Township, Haliburton County, Ontario, Canada
- C. Frondel, 1961. Two Yttrium Minerals: Spencite and Rowlandite. *Canadian Mineralogist*, 6:576–581.
- (Harvard University, 1951)
- Spurrite NMNH 86532** Velardeña, Durango, Mexico
- F. E. Wright, 1908. On Three Contact Minerals from Velardeña, Durango, Mexico [Gehlenite, Spurrite and Hillebrandite]. *American Journal of Science*, (4)26:545–554.
- (F. E. Wright, 1908)
- Stannoidite NMNH 121005** Konjo Mine, Mito-cho, Aida-gun, Okayama Prefecture, Japan
- A. Kato, 1969. Stannoidite, Cu₅(Fe,Zn)₂SnS₈, a New Stannite-like Mineral from the Konjo Mine, Okayama Prefecture, Japan. *Bulletin of the Natural Science Museum (Tokyo)*, 12: 165–172. Abst: *American Mineralogist*, 54: 1495–1496, 1969.
- (K. Sakurai, 1968)
- Starkeyite NMNH 105610** Starkey Mine, Madison County, Missouri
- O. R. Grawe, 1945. Pyrite Deposits of Missouri. *Missouri Geological Survey and Water Resources*, 30:209–210.
- (U.S. Geological Survey, 1947)
- Steigerite NMNH C5108** Sullivan Brothers Claim, north wall of Gypsum Valley, San Miguel County, Colorado
- E. P. Henderson, 1935. Steigerite, a New Vanadium Mineral. *American Mineralogist*, 20: 769–772.
- (W. Sullivan, through the Canfield Collection, 1933)
- Stenuggarite NMNH 120066** Långban, Sweden
- P. B. Moore, 1967. Eleven New Minerals from Långban, Sweden. Paper presented to the 12th Annual Meeting of the Mineralogical Association of Canada, 1967. Abst: *Canadian Mineralogist*, 9:301, 1967.
- (P. B. Moore, 1967)
- Stetefeldite (neotype) NMNH 104763** Highbridge Mine, Belmont Mining District, Belmont, Nye County, Nevada
- B. Mason and C. J. Vitaliano, 1953. The Mineralogy of the Antimony Oxides and Antimonates. *Mineralogical Magazine*, 30:100–112.
- (F. W. Horton, 1943)
- Stewartite NMNH 93656** Stewart Mine, Pala, San Diego County, California
- W. T. Schaller, 1912. New Manganese Phosphates from the Gem Tourmaline Field of Southern California. *Journal of the Washington Academy of Sciences*, 2:143–145. Abst: *Mineralogical Magazine*, 16:372, 1913.
- (U.S. Geological Survey, 1919)
- Stibianite (discredited =Stibiconite) NMNH R1768** Victoria, Australia
- E. Goldsmith, 1878. Stibianite, a New Mineral. *Proceedings of the Academy of Natural Sciences of Philadelphia*, 30:154–155. Abst: *Zeitschrift für Krystallographie und Mineralogie*, 3:596, 1879.
- (Roebling Collection, 1927)
- Stillwellite NMNH 113038** Mary Kathleen Lease, east of Mt. Isa, Queensland, Australia
- J. McAndrew and T. R. Scott, 1955. Stillwellite, a New Rare-Earth Mineral from Queensland. *Nature*, 176:509–510.
- (University of Melbourne, through F. E. Ingerson, 1959)
- Stringhamite NMNH 128031** Bawana Mine, Beaver County, Utah
- J. R. Hindman, 1976. Stringhamite, a New Hydrous Copper Calcium Silicate from Utah. *American Mineralogist*, 61:189–192.
- (J. R. Hindman, 1974)
- Strontioginorite NMNH 114168** Reyerhausen, near Göttingen, Germany
- O. Braitsch, 1959. Über Strontioginorite, ein Neue Ginorite-Varietät aus dem Zechsteinsalz. *Beiträge zur Mineralogie und Petrologie*, 6:

- 366-370. Abst: *American Mineralogist*, 45:478, 1960.
 (H. Beil, 1960)
- Strontiohilgardite (discredited, =Hilgardite, Strontian) NMNH 117888** Königshall-Hindenburg IIK Mine, Reyershausen, Germany
 O. Braitsch, 1959. Strontiohilgardit, $(\text{Ca},\text{Sr})_2[\text{B}_5\text{O}_8(\text{OH})_2\text{Cl}]$ und Seine Stellung in der Hilgarditgruppe $\text{X}_2[\text{B}_5\text{O}_8(\text{OH})_2\text{Cl}]$. *Beiträge zur Mineralogie und Petrologie*, 6:233-247. Abst: *American Mineralogist*, 44:1102-1103, 1959.
 (O. Braitsch, 1965)
- Sussexite NMNH 124356** Mine Hill, Franklin Furnace, New Jersey
 G. J. Brush, 1868. On Sussexite, a New Borate from Mine Hill, Franklin Furnace, Sussex County, New Jersey. *American Journal of Science*, (2)46:140; 240-243.
 (U.S. Geological Survey, through W. T. Schaller, 1972)
- Swartzite NMNH 106107 and 106108** Hillside Mine, Yavapai County, Arizona
 J. Axelrod, F. Grimaldi, C. Milton and K. J. Murata, 1948. Uranium Minerals from the Hillside Mine, Yavapai County, Arizona. Paper given at the 29th Annual Meeting of the Mineralogical Society of America, 1948. Abst: *American Mineralogist*, 34:274, 1949.
 (U.S. Geological Survey, 1950)
- Swinefordite NMNH 126826** Foote Mineral Company Spodumene Mine, Kings Mountain, North Carolina
 P. L. Tien, P. B. Leavens and J. A. Nelen, 1975. Swinefordite, a Dioctahedral-Trioctahedral Li-rich Member of the Smectite Group from Kings Mountain, North Carolina. *American Mineralogist*, 60:540-547.
 (P. B. Leavens, 1973)
- Switzerite NMNH 119777** Foote Mineral Company Spodumene Mine, Kings Mountain, North Carolina
 P. B. Leavens and J. S. White, Jr., 1967. Switzerite, $(\text{Mn},\text{Fe})_3(\text{PO}_4)_2 \cdot 4\text{H}_2\text{O}$, a New Mineral. *American Mineralogist*, 52:1595-1602.
 (J. W. Eaker, 1966)
- Switzerite NMNH 120230** Foote Mineral Company Spodumene Mine, Kings Mountain North Carolina
 See reference above.
- (Mrs. F. O. Drummond, 1967)
- Syhedrite (discredited, =impure Stilbite) NMNH 128708** Thore-Ghat, Syhedree Mountains, near Bombay, India
 C. U. Shepard, 1865. Mineral Notes, I: Syhedrite. *American Journal of Sciences*, (2)40:110-113. (C. U. Shepard Collection, 1929)
- Talnakhite NMNH 121944** Noril'sk, western Siberia, U.S.S.R.
 L. J. Cabri, 1967. A New Copper-Iron Sulfide. *Economic Geology*, 62:910-925.
 (L. J. Cabri, 1969)
- Tavorite (with type Barbosalite) NMNH 106842** Sapucaia Pegmatite, Minas Gerais, Brazil
 M. L. Lindberg and W. T. Pecora, 1954. Tavorite and Barbosalite, Two New Phosphate Minerals from Minas Gerais, Brazil. *Science*, 119: 739.
 (U.S. Geological Survey, through W. T. Pecora, 1954)
- Teepleite NMNH 97449** Borax Lake, Lake County, California
 W. A. Gale, W. F. Foshag and M. Vonsen, 1939. Teepleite, a New Mineral from Borax Lake, California. *American Mineralogist*, 24:48-52.
 (M. Vonsen, 1935)
- Temiskamite (discredited, =Maucherite) NMNH 94561** Moose Horn Mine, Elk Lake, Ontario, Canada
 T. L. Walker, 1914. Temiskamite, a New Nickel Arsenide from Ontario. *American Journal of Science*, (4)37:170-172.
 (Royal Ontario Museum, 1922)
- Tetrawickmanite NMNH 120239** Foote Mineral Company Spodumene Mine, near Kings Mountain, North Carolina
 J. S. White, Jr. and J. A. Nelen, 1973. Tetrawickmanite, Tetragonal $\text{MnSn}(\text{OH})_6$, a New Mineral from North Carolina, and the Stotite Group. *Mineralogical Record*, 4:24-29.
 (E. Heard, 1967)
- Tetrawickmanite NMNH 121265** Foote Mineral Company Spodumene Mine, near Kings Mountain, North Carolina
 See reference above.
 (J. W. Eaker, 1968)
- Tilleyite NMNH 97246** Crestmore, California
 E. S. Larsen and K. C. Durham, 1933. Tilleyite, a New Mineral from the Contact Zone at

- Crestmore, California. *American Mineralogist*, 18:469-473.
- (Harvard University, through E. S. Larsen, 1934)
- Tinticite NMNH 105407** Tintic Mining District, Utah
- B. Stringham, 1946. Tinticite, a New Mineral from Utah. *American Mineralogist*, 31:395-400.
- (B. Stringham, 1947)
- Tinticite NMNH 105609** Tintic Standard Mine, Tintic District, Utah
- See reference above.
- (U.S. Geological Survey, 1947)
- Tlalocite NMNH 135057** Mina Bambollita, Moctezuma, Sonora, Mexico
- S. A. Williams, 1975. Xocomecatlite, $\text{Cu}_3\text{TeO}_4(\text{OH})_4$, and Tlalocite, $\text{Cu}_{10}\text{Zn}_6(\text{TeO}_4)_2\text{Cl}(\text{OH})_{25}27\text{H}_2\text{O}$, Two New Minerals from Moctezuma, Sonora, Mexico. *Mineralogical Magazine*, 40:221-226.
- (S. A. Williams, 1976)
- Tobermorite (14 Å) NMNH 119008** Crestmore, California
- M. F. Heddle, 1880. Preliminary Notice of Substances Which May Prove to be New Minerals. *Mineralogical Magazine*, 4:117-123.
- (H. F. W. Taylor, 1966)
- Tritomite NMNH R12970** Lamö Island, near Breivig, Norway
- P. B. Weibye, N. J. Berlin, K. A. Sjogren and J. B. von Borck, 1850. Neue Mineralien aus Norwegen. *Annalen der Physik* (Leipzig), 79:299-301.
- (C. L. Frazier, through the Roebling Collection, 1962)
- Troostite (discredited, =Willemite, Manganoan) NMNH 128709 and 128710** Sterling Hill, New Jersey
- C. U. Shepard, 1832. Troostite. *Treatise on Mineralogy*, Part 1, Volume 2, page 154.
- (C. U. Shepard Collection, 1929)
- Trudellite (discredited, =mixture of Natroalunite and Chloralunite) NMNH 95301** Cerro Pintados, 80 km southeast of Iquique, Tarapaca Province, Chile
- S. G. Gordon, 1925. Penroseite and Trudellite, Two New Minerals. *Proceedings of the Academy of Natural Sciences, Philadelphia*, 77: 317-324. Abst: *American Mineralogist*, 11:42, 1926.
- (Philadelphia Academy of Natural Sciences, 1925)
- Tuhualite NMNH 96879 and 96880** Mayor Island, New Zealand
- P. Marshall, 1932. Notes on some Volcanic Rocks of the North Island of New Zealand. *New Zealand Journal of Science and Technology*, 13:198-202.
- (P. Marshall, 1933)
- Tuhualite NMNH 103053** Mayor Island, New Zealand
- See reference above.
- (P. Marshall, 1937)
- Tulameenite NMNH 128460** Semilkaneen River, British Columbia, Canada
- L. J. Cabri, D. R. Owens and J. H. Giles Laflamme, 1973. Tulameenite, a New Platinum-Iron-Copper Mineral from Placers in the Tulameen River, Area, British Columbia. *Canadian Mineralogist*, 12:21-25.
- (L. J. Cabri, 1974)
- Tunellite NMNH 123928** U.S. Borax and Chemical Company Open Pit, Boron, California
- R. C. Erd, V. Morgan and J. R. Clark, 1961. Tunellite, a New Hydrous Strontium Borate from the Kramer Borate District, California. *United States Geological Survey Professional Paper* 424-C:294-297.
- (U.S. Geological Survey, through W. T. Schaller, 1972)
- Tungstenite NMNH 94490** Emma Mine, Little Cottonwood District, Salt Lake County, Utah
- R. C. Wells and B. S. Butler, 1917. Tungstenite, a New Mineral. *Journal of the Washington Academy of Sciences*, 7:596-602. Abst: *Mineralogical Magazine*, 18:388, 1919.
- (U.S. Geological Survey, 1922)
- Uvanite NMNH 87512** Emery County, Utah
- F. L. Hess and W. T. Schaller, 1914. Pintadoite and Uvanite, Two New Vanadium Minerals from Utah; a Preliminary Note. *Journal of the Washington Academy of Sciences*, 4:576-579. Abst: *Mineralogical Magazine*, 17:359, 1916.
- (C. C. Lynn, through F. L. Hess, 1915)
- Uvanite NMNH R5708** Temple Rock, San Rafael Swell, Emery County, Utah
- See reference above.

- (Roebling Collection, 1927)
- Vanoxite NMNH 95059** Bill Brian Claim, Wild Steer Canyon, south side of Paradox Valley, Colorado
F. L. Hess, 1924. *Vanoxite, a New Vanadium Mineral. United States Geological Survey Bulletin*, 750D:63–67.
(U.S. Geological Survey, 1925)
- Vanuxemite (discredited, =impure Hemimorphite) NMNH 128711** Sterling Hill, New Jersey
C. U. Shepard quoted in E. S. Dana, 1876. New Minerals. *American Journal of Science*, (3) 12:231.
(C. U. Shepard Collection, 1929)
- Vauxite NMNH 103542** Llallagua, Bolivia
S. G. Gordon, 1922. Preliminary Notes on Vauxite and Paravauxite, Two New Minerals from Llallagua, Bolivia. Paper given at the Philadelphia Mineralogical Society Meeting, 14 April, 1922. Abst: *American Mineralogist*, 7: 108, 1922.
(S. G. Gordon, through E. V. Shannon, 1939)
- Vauxite NMNH 97561** Llallagua, Bolivia
See reference above.
(E. V. Shannon, 1930)
- Väyrynenite NMNH R11807** Viitaniemi, Erajarvi, Finland
A. Volborth, 1954. Väyrynenite. *Geologi* (Finland), 6:7. Abst: *American Mineralogist*, 39: 848, 1954.
(A. Volborth, 1960)
- Veatchite NMNH 105697** Lang, Los Angeles County, California
G. Switzer, 1938. Veatchite, a New Calcium Borate from Lang, California. *American Mineralogist*, 23:409–411.
(G. Switzer, 1948)
- p-Veatchite NMNH 113264** Königshall-Hindenburg Mine, Reyershausen, near Göttingen, Germany

- Wakabayashilite NMNH C252** White Caps Mine, Manhattan, Nevada
 See reference above.
 (Canfield Collection, 1927)
- Warrenite (discredited, =Jamesonite) NMNH 48412** Domingo Mine, Ridge between Dark Canyon and Baxter Basin, Gunnison County, Colorado
 L. G. Eakins, 1888. Two Sulphantimonites from Colorado. *American Journal of Science*, (3) 36:450–453.
 (U.S. Geological Survey, collected by L. G. Eakins, 1889)
- Warwickite NMNH 128712** Warwick, Orange County, New York
 C. U. Shepard, 1838. Notice of Warwickite, a New Mineral Species. *American Journal of Science*, (1)34:313–315.
 (C. U. Shepard Collection, 1929)
- Washingtonite (discredited, =Ilmenite) NMNH 128713** Litchfield, Connecticut
 C. U. Shepard, 1842. On Washingtonite (a New Mineral), the Discovery of Euclase in Connecticut, and Additional Notices of the Supposed Phenakite of Goshen, and Calstrombaryte of Schohaire, N. Y. *American Journal of Science*, (1)43:364–366.
 (C. U. Shepard Collection, 1929)
- Weeksite NMNH 114570** Autunite No. 8 Claim, Thomas Range, Juab County, Utah
 W. F. Outerbridge, M. H. Staatz, R. Meyrowitz and A. M. Pommer, 1960. Weeksite, a New Uranium Silicate from the Thomas Range, Juab County, Utah. *American Mineralogist*, 45:39–52.
 (U.S. Geological Survey, 1960)
- Weeksite NMNH 115886** Autunite No. 8 Claim, Thomas Range, Juab County, Utah
 See reference above.
 (U.S. Geological Survey, 1963)
- Weeksite NMNH 121949** Thomas Range, Juab County, Utah
 See reference above.
 (U.S. Geological Survey, 1969)
- Wegscheiderite NMNH 117710** Perkins Well #1, depth 1069'8", Sweetwater County, Wyoming
 J. J. Fahey and K. P. Yorks, 1963. Wegscheiderite ($\text{Na}_2\text{CO}_3 \cdot 3\text{NaHCO}_3$), a New Saline Mineral from the Green River Formation, Wyoming. *American Mineralogist*, 48:400–403.
 (U.S. Geological Survey, 1965)
- Weissite NMNH 95782** Good Hope Mine, Vulcan, Gunnison County, Colorado
 W. P. Crawford, 1927. Weissite, a New Mineral. *American Journal of Science*, (5)13:345–346.
 (W. P. Crawford, 1928)
- Welinite NMNH 120067** Långban, Sweden
 P. B. Moore, 1967. Eleven New Minerals from Sweden. Paper given at the 12th Annual Meeting of the Mineralogical Association of Canada, 1967. Abst: *Canadian Mineralogist*, 9:301, 1967.
 (P. B. Moore, 1967)
- Wellsite NMNH 84472** Cullakanee Mine, Buck Creek, Clay County, North Carolina
 J. H. Pratt and H. W. Foote, 1897. On Wellsite, a New Mineral. *American Journal of Science*, (4)3:443–448.
 (J. H. Pratt, 1899)
- Wernerite NMNH R3573** Ontario County, Canada
 B. J. d'Andrade, 1800. Wernerite. *Journal de Physique*, 51:244. Abst: *Dana*, 6:468.
 (Roebling Collection, 1927)
- Wherryite NMNH 106567** Mammoth Mine, Arizona
 J. J. Fahey, E. B. Daggett and S. G. Gordon, 1950. Wherryite, a New Mineral from the Mammoth Mine, Arizona. *American Mineralogist*, 35:93–98.
 (U.S. Geological Survey, 1953)
- Wherryite NMNH 117723** Mammoth Mine, Pinal County, Arizona
 See reference above.
 (U.S. Geological Survey, 1965)
- Whitmoreite NMNH 128069** Palermo #1 Mine, North Groton, New Hampshire
 P. B. Moore, A. R. Kampf and A. J. Irving, 1974. Whitmoreite, $\text{Fe}^{2+}\text{Fe}^{3+}_2(\text{OH})_2(\text{H}_2\text{O})_4[\text{PO}_4]_2$, a New Species: Its Description and Atomic Arrangement. *American Mineralogist*, 59:900–905.
 (P. B. Moore, 1974)
- Wickenburgite NMNH 122875** near Wickenberg, Maricopa County, Arizona
 S. A. Williams, 1968. Wickenburgite, a New Mineral from Arizona. *American Mineralogist*, 53:1433–1438.
 (S. A. Williams, 1971)
- Wickmanite NMNH 120068** Långban, Sweden

- P. B. Moore, 1967. Eleven New Minerals from Sweden. Paper given at the 12th Annual Meeting of the Mineralogical Association of Canada, 1967. Abst: *Canadian Mineralogist*, 9:301, 1967.
- (P. B. Moore, 1967)
- Wilkeite NMNH 94463** Crestmore, near Riverside, California
- A. S. Eakle and A. F. Rogers, 1914. Wilkeite, a New Mineral of the Apatite Group, and Okenite, its Alteration Product, from southern California. *American Journal of Science*, (4) 37:262-267. Abst: *Mineralogical Magazine*, 17: 360, 1916.
- (University of California, through A. S. Eakle 1922)
- Wilkeite NMNH 95685** Crestmore, near Riverside, California
- See reference above.
- (A. S. Eakle, 1927)
- Williamsite (discredited, =Antigorite) NMNH 128704** New Texas, Lancaster County, Pennsylvania
- C. U. Shepard, 1848. On New Minerals from Texas, Lancaster Co., Penn. *American Journal of Science*, (2)6:249-250.
- (C. U. Shepard Collection, 1929)
- Willyamite (with type Costibite) NMNH R849**
- A. B. H. Consols Mine, Broken Hill, New South Wales, Australia
- E. F. Pittman, 1893. Note on the Occurrence of a New Mineral at Broken Hill. *Proceedings of the Royal Society of New South Wales*, 27: 366-375.
- (Roebling Collection, 1927)
- Wroewolfeite NMNH 127329** Loudville Lead Mine, Loudville, Hampden County, Massachusetts
- P. J. Dunn, R. C. Rouse and J. A. Nelen, 1975. Wroewolfeite, a New Copper Sulfate Hydroxide Hydrate. *Mineralogical Magazine*, 40:1-5.
- (P. J. Dunn, 1975)
- Wyllieite NMNH 126318** Victory Mine, Custer, South Dakota
- P. B. Moore and J. Ito, 1973. Wyllieite, $\text{Na}_2\text{Fe}_{2+2}\text{Al}(\text{PO}_4)_3$, a New Species. *Mineralogical Record*, 4:131-136.
- (P. B. Moore, 1973)
- Xanthitane (discredited, =altered Titanite) NMNH 128703** Green River, Henderson Co., North Carolina
- C. U. Shepard, 1856. Five New Mineral Species. *American Journal of Science*, (2)22:96-99.
- (C. U. Shepard Collection, 1929)
- Xocomcatlite NMNH 135059** Mina Bambollita, Moctezuma, Sonora, Mexico
- S. A. Williams, 1975. Xocomcatlite, $\text{Cu}_3\text{TeO}_4(\text{OH})_4$, and Tlalocite, $\text{Cu}_{10}\text{Zn}_6(\text{TeO}_4)_2\text{Cl}(\text{OH})_{25}27\text{H}_2\text{O}$, Two New Minerals from Moctezuma, Sonora, Mexico. *Mineralogical Magazine*, 40:221-226.
- (S. A. Williams, 1976)
- Yamaguchilite (discredited, =Zircon, Phosphatian) NMNH 106324** Yamaguchi, Nagano, Japan
- K. Kimura and Y. Hironaka, 1936. Chemical Investigations on Japanese Minerals Containing Rarer Elements, XXIII: On Yamagutilite [sic], a Phosphorus-bearing Variety of Zircon, Found at Yamaguti Village, Nagano Prefecture. *Journal of the Chemical Society of Japan* 57:1195-1199. Abst: *American Mineralogist*, 25:439, 1940.
- (F. A. Rapp, 1951)
- Yeatmanite NMNH C6290** Franklin, New Jersey
- C. Palache, L. H. Bauer and H. Berman, 1938. Yeatmanite, a New Mineral, and Sarkinitie from Franklin, New Jersey. *American Mineralogist*, 23:527-530.
- (L. H. Bauer collection, through the Canfield Collection, 1955)
- Yedlinite NMNH R8171** Mammoth Mine, Tiger, Arizona
- W. J. McLean, R. A. Bideaux and R. W. Thomssen, 1974. Yedlinite, a New Mineral from the Mammoth Mine, Tiger, Arizona. *American Mineralogist*, 59:1157-1159.
- (Roebling Collection, 1942)
- Yoshimuraite NMNH 107416** Misago Ore Body, Noda-Tamagawa Mine, Iwate Prefecture, Japan
- T. Watanabe, 1959. The Minerals of the Noda-Tamagawa Mine, Iwate Prefecture, Japan. *Mineralogical Journal (Japan)*, 2:408-421. Abst: *American Mineralogist*, 45:479, 1960; 46:1515-1516, 1961.
- (T. Watanabe, 1955)
- Yttrorasite NMNH 119841** Burnet County, Texas
- W. E. Hidden and C. H. Warren, 1906. On

- Yttrocrasite, a New Yttrium-Thorium-Uranium Titanate. *American Journal of Science*, (4)22:515-519. Abst: *Mineralogical Magazine*, 14:413, 1907.
- (C. H. Warren, through E. S. Larsen, 1966)
- Yukonite (discredited, =Arsenosiderite) NMNH R5783** Tagish Lake, Yukon Territory, Alaska J. B. Tyrrell and R. P. D. Graham, 1913. Yukonite. *Transactions of the Royal Society of Canada*, 7:13, 1913. Abst: *Mineralogical Magazine*, 17:360, 1916.
- (J. B. Tyrrell, through the Roebling Collection, 1927)
- Zapatalite NMNH 135060** Cerro Morita, Naco, Sonora, Mexico S. A. Williams, 1972. Zapatalite, a New Mineral from Sonora, Mexico. *Mineralogical Magazine*, 38:541-544.
- (S. A. Williams, 1976)
- Zellerite NMNH 112827** Wyoming R. G. Coleman, D. R. Ross and R. Meyrowitz, 1966. Zellerite and Metazellerite, New Uranyl Carbonates. *American Mineralogist*, 51:1567-1578.
- (U.S. Geological Survey, 1957)
- Zemannite NMNH 128390** Moctezuma Mine, Moctezuma, Sonora, Mexico J. A. Mandarino, E. Matzat and S. J. Williams, 1967. Zemannite, a New Tellurite Mineral from Moctezuma, Sonora, Mexico. Paper given to the joint convention at the University of Montreal, June, 1967. Abst: *Canadian Mineralogist*, 10:139-140, 1969.
- (R. V. Gaines, 1974)
- Zinc-Melanterite NMNH 93244** Good Hope and Vulcan Mines, Vulcan, Colorado E. S. Larsen and M. L. Glenn, 1920. Some Minerals of the Melanterite and Chalcanthite Groups with Optical Data on the Hydrous Sulphates of Manganese and Cobalt. *American Journal of Science*, 50:225-233.
- (U.S. Geological Survey, 1917)
- Zircarbite (discredited, =invalid species) NMNH 128702** Rockport, Massachusetts C. U. Shepard, 1876. Zircarbite. *Catalog of Minerals from within About 75 Miles of Amherst College*, page 3.
- (C. U. Shepard Collection, 1929)
- Zunyite NMNH 49082** Zuni Mine, Anvil Mountain, near Silverton, Colorado W. F. Hillebrand, 1884. On Zunyite and Guitermanite, Two New Minerals from Colorado. *Proceedings of the Colorado Scientific Society*, 1:124-132.
- (U.S. Geological Survey, through W. F. Hillebrand, 1890)
