

Assembled Chemical Weapons Assessment

A Partnership for
Safe Chemical
Weapons
Destruction

ACWA Information Line
(888) 482-4312

The Program Manager Assembled Chemical Weapons Assessment is a dedicated team identifying, demonstrating and pilot testing alternative destruction technologies for assembled chemical weapons, as mandated by Congress

Colorado:

Plans are underway for the design and construction of the Pueblo Chemical Agent Destruction Pilot Plant at the Pueblo Chemical Depot

Kentucky:

The Department of Defense designated its agency-preferred alternative for Blue Grass Army Depot as neutralization followed by supercritical water oxidation in November 2002
