

## DEFENSE CONTRACT AUDIT AGENCY

8725 JOHN J. KINGMAN ROAD, SUITE 2135  
FORT BELVOIR, VA 22060-6219

CM

April 2003

### FOREWORD

DCAA is organizationally divided into Headquarters, Field Detachment, and five regions. Within each region are field audit offices (FAOs) consisting primarily of branch and resident offices under which suboffices may be established. To determine which FAO has audit cognizance for a specific geographical area, please query the DCAA Audit Offices Locator which can be accessed on our public web site (<http://www.dcaa.mil>) by selecting "Audit Office Locator."

Within each regional section of the Directory, FAOs are listed numerically by assigned region/organization code (R/ORG). For the printed version: within each regional section, there is an alphabetical listing of the FAOs and the number of the page where the details concerning the FAO could be located. The numerical Region/Organization Index (Section 8) and the Alphabetical Office Index (Section 9) list all of the FAOs within the Agency. These Indexes may be used to locate a specific office by number.

**Recurring Reporting Requirement (RCS: CMR(BA)-163).** The Directory of DCAA Offices is published in January and July of each year. All Organizational Data Monitors are responsible for submitting this report in accordance with DCAAI 5005.2, Directory of DCAA Offices. A list of Organizational Data Monitors is included in this issue. **This publication is current as of February 2003.**

This Directory supersedes the January 2002 issue.

FOR THE DIRECTOR:

/s/

Jody A. Trenary  
Assistant Director, Resources

## TELECOMMUNICATIONS

**Monitoring of Telephone Calls.** Government telephone systems are to be used only for conducting official business. No classified information may be discussed on an unsecure telephone. DoD communications systems are subject to communications security monitoring and communications management monitoring at all times. Use of DoD communications systems constitutes consent to this type of monitoring. DCAA personnel will not themselves monitor telephone conversations unless all parties to the conversation are made aware of and consent to such monitoring, and will not record telephone conversations by the use of any electronic or mechanical devices except as specifically permitted in DCAAR 4640.2, Communications Security Telephone Monitoring and Recording.

**Telephone services** and numbers available in DCAA offices are identified using the letters indicated below.

- a. Commercial and Federal Telephone Service (FTS) (C)
- b. Defense Switch Network (DSN) (A)
- c. Telecopier (X)

## GUIDE TO REQUESTING AUDIT SERVICES

DCAA provides a wide range of professional audit services. Many users of this directory require our services in relation to the analysis of contractor proposals prior to contract award. The following instructions are provided to assist the user in obtaining the support desired.

### **DETERMINING THE SERVICE REQUIRED.**

Generally, we are tasked with evaluating the contractor's proposal or providing rate information. The requestor should first determine the extent of information needed. DCAA provides the following services that are geared to the level of information needed.

**Audit of Entire Proposal.** This entails an examination of all cost elements. DCAA decides on the audit procedures/steps and issues an audit report when finished.

**Audit of Part of the Proposal.** The requester asks DCAA to audit just selective parts of the proposal, i.e., only specified rates or selected cost elements. DCAA sets the scope of audit for those elements or rates and issues an audit report upon completion.

**Agreed Upon Procedures.** DCAA performs specified procedures (steps) to evaluate the proposal. DCAA does not set the scope of audit. The customer, with DCAA's assistance, specifies the procedures to be accomplished. DCAA issues a report describing the findings of the procedures accomplished. The report will not express an opinion as to whether the proposal is an acceptable basis for the negotiation of a fair and reasonable price. This is because the purpose of this type of service is to apply the procedures that the customer wants, not to perform the procedures that DCAA believes necessary in order to support rendering an opinion.

**Rate Information.** The requester needs quick access to rate information or other specific cost data. DCAA provides a response based on the information that is readily available in the field audit office files or that can be accomplished within four hours. A confirming memorandum, not a report, is issued.

**Integrated Product Team (IPTs).** Customers may request that auditors participate on pricing IPTs. Auditors will fully participate on such teams that require financial advisory services. As part of an IPT, the customer requests that the auditor either audit the complete proposal, audit part of the proposal, or apply agreed-upon procedures. The auditor's role on the IPT during the proposal preparation process is to provide real-time feedback on such items as:

- proposal support data expectations;
- proposal estimating techniques; and
- impact of outstanding estimating and accounting system deficiencies on the proposal preparation process and actions needed to correct the deficiencies.

**To maintain audit independence, the auditor will not assist the contractor in preparing the proposal. DCAA issues a report that will communicate the results of the auditor's participation on the IPT and of the proposal audit. The audit report can usually be expedited because of the auditor's participation on the IPT during the proposal preparation process.**

## **LOCATING THE DCAA FIELD AUDIT OFFICE (FAO).**

DCAA is organizationally divided into five regions. Within each region are field audit offices consisting primarily of branch and resident offices under which suboffices may be established. Large contractor locations where onsite auditors have been established can be identified using the Office Index starting on page 8-1. To determine which FAO has audit cognizance for a specific geographic area, please query the DCAA Cognizant Field Audit Offices Locator which can be accessed on our public web site (<http://www.dcaa.mil>) by selecting "Audit Office Locator."

## **REQUESTING AUDITS.**

**Prime Contracts.** Any special concerns that need to be addressed by the auditors should be specifically identified in the request. If there are special concerns, it often helps to call and discuss them with the DCAA auditor prior to issuing the request for audit.

**Subcontracts.** If any subcontracts need to be audited, it will save time if the PCO/ACO sends a copy of the audit request directly to the DCAA subcontract auditor.

**Preparing the Request.** The request should include the (sub)contractor's proposal or name of person providing it; information on technical evaluations, especially the name of the contact at the office doing the evaluation; and the name of a contact at your office. The prime contract audit request should identify any subcontract audits that have been requested.

**Send the Request.** Mail, e-mail, or facsimile (fax) the request to the branch or resident office. If urgent, call the DCAA office that will perform the audit and if possible fax or e-mail the request to that office. The e-mail addresses for all offices in each DCAA region are listed at the beginning of the region's section of this directory and the fax numbers for the offices are listed with the office's telephone numbers.

## **REQUESTING RATE INFORMATION.**

**Contacting DCAA.** Call the DCAA office and say that you are requesting rates. Request a copy of their blank rate confirmation form letter, if one is used. Knowing in advance the information the DCAA office personnel will need may facilitate your request. If a suboffice is identified in the DCAA Directory, call it directly.

**Information to Give DCAA.** Have available the rates proposed, RFP/proposal number, contract type, expected contract value, performance period, and deliverables. DCAA will record the request, determine the rates, and call back within 24 hours.

**Written Confirmation.** DCAA should send written confirmation within several days.

**Availability of Rates.** If there has been no recent contact with the contractor, or the proposal significantly alters the business base previously forecasted, DCAA will provide available rates, but qualified with explanatory comments on the applicability and adequacy for use on the proposal being considered.

**If Rates Provided Are Qualified for Applicability or Adequacy.** Discuss the possibility of DCAA auditing the entire proposal, part of it, or evaluating rates only under agreed upon procedures (see **DETERMINING THE SERVICE REQUIRED**).

## **GETTING ADDITIONAL HELP.**

If additional help is required, contact the following:

### **The Supervisor or FAO Manager.**

**The Regional Office.** Each DCAA office reports to a Regional Audit Manager (RAM) who will resolve problems not settled by the supervisor or FAO Manager.

**The Financial Liaison Advisors (FLA).** These auditors are assigned to various Army, Navy, and Air Force buying components to provide advice and consultation. For description and location of FLA services see the Audit Liaison Division within Section 1 and the Procurement Liaison Services in Section 7.

## FINANCIAL LIAISON ADVISORS (FLAs)

### Section I. THE FINANCIAL LIASON ADVISORS

Contracting officers, price analysts, and other procurement personnel who continually deal with complex financial and accounting issues in the defense contracting environment, frequently require advice to assist them in achieving the objectives of sound contracting. DCAA has met this challenging need by augmenting its field audit staff with onsite Financial Liaison Advisors (FLAs) to service the major buying commands. Each FLA is an experienced and highly qualified DCAA auditor selected to serve in a liaison capacity. The FLA is primarily concerned with:

- Facilitating effective communication and coordination between procurement officers and auditors.
- Providing on-the-spot personal consultation and advice in connection with contractors' cost representations and related matters.
- Providing DCAA with information regarding specific awards, trends in the type and volume of awards, and other data impacting on immediate or long-range DCAA responsibilities.
- Providing DCAA management with information and feedback from procurement personnel as to the adequacy, responsiveness, and timeliness of the services performed by DCAA's field audit offices (FAOs).

### Section II. ESTABLISHMENT OF AND ARRANGING FOR FLA SERVICES

A. General. DoD Directive 5105.36 authorizes the Director, DCAA, to establish and maintain Financial Liaison Advisors, as appropriate, at the major procurement and contract administration offices. Financial Liaison Advisor services may be provided either onsite (by full-time or part-time FLAs working at the individual procurement and contract administration offices), or offsite (by part-time FLAs using the telephone, e-mail, facsimile machines, etc., at DCAA field audit offices or contractor plants).

B. Full-time FLA Services to Procurement Commands. Generally speaking, full-time onsite FLAs are located at the major procurement commands with the most significant auditable contracting volume and at the procurement policymaking offices for the military services. (Refer to the Headquarters section of the Directory for a listing of the commands currently serviced by full-time Financial Advisors.)

Full-time FLAs are assigned to DCAA Headquarters, Audit Liaison Division (OAL), under the Assistant Director of Operations. OAL was established in 1989 to improve the effectiveness of the FLA program. Consolidation of all FLA offices under one division and elevation to Headquarters status was initiated to enhance the FLA's ability to respond to complex situations, to ensure consistency in the operating procedures among the FLA offices, and to effectively change the role of the FLA to one that is more "proactively" involved in the resolution of issues.

OAL operations are managed by the Division Chief and Senior FLAs who are responsible for the following:

- Managerial and supervisory control over the Agency's FLA program. This involves both the direct management of full-time FLA offices and indirect staff oversight of all other FLA activities.
- Program development for monitoring and assessing the responsiveness of DCAA's field audit offices (FAOs) to the needs and requests of the procurement commands; timeliness and quality of FAO services being rendered to the commands; and effectiveness of the commands' use of DCAA's field office and Financial Advisor services.
- Regular coordination with procurement officials on new or changed acquisition policies and procedures and their likely impact on audit services being provided.
- Management reports on matters affecting DCAA's relations with acquisition components along with recommendations for resolving such matters.
- Advice and counsel to DCAA's regional offices, FAOs, and acquisition components with respect to individual audit services.

Full-time FLA services can be arranged by writing the Director, DCAA, 8725 John J. Kingman Road Suite 2135, Fort Belvoir, Virginia, 22060-6219. The decision to dedicate a full-time FLA includes consideration of such factors as the:

- Procurement activity's desire for an onsite FLA.
- Annual dollar value of procurements involving audit.
- Number of negotiated procurement pricing actions.
- Volume of audit oriented problems.
- FLA service experience at the activity.

Where full-time liaison services are warranted, (see the Headquarters section of the Directory) DCAA enters into Memorandums of Understanding (MOUs) to ensure that the services being rendered are genuinely useful and effective and that there is no misunderstanding as to the nature of the services. Each MOU is signed by DCAA's Assistant Director, Operations and the responsible acquisition official at each of the FLA locations. The MOU briefly describes the FLA services to be performed and the type of support and space required by DCAA to ensure that the FLA can operate effectively. It also represents a commitment by both parties to cooperate in the exchange of information to resolve procurement-related problems. The MOU is a working document without an effective period, and as such can be amended at any time. Questions regarding the MOU may be directed to the OAL Division Chief.

C. Part-time FLA Services to Procurement Commands. Part-time FLA services are available to those procurement components that do not require or cannot support FLA services on a full-time, recurring basis. When in need of such services, the components should contact the DCAA regional office responsible for their geographical area (see Figure 1). The region, in turn, will (1) determine the DCAA FAO responsible for servicing the component on a part-time or as-needed basis and (2) arrange for the assignment of an appropriate auditor to address the specific matter at hand. Afterwards, all subsequent requests for DCAA assistance can be made directly to this individual or to the manager of the designated FAO. (Refer to Figure 1 for the DCAA regional offices to contact for the arrangement of part-time FLA services.)

D. FLA Services to Contract Administration Offices. The same liaison services provided to the procurement commands are also available to Administrative Contracting Officers (ACOs) and other personnel at Contract Administration Offices (CAOs). DCAA's FAO personnel, however, are often collocated and in daily contact with CAO personnel. As a result, DCAA's liaison support to the CAOs is considered to be an integral part of the Agency's regional and field office operations, and full-time, dedicated FLAs are not assigned to the CAOs. Any CAO requiring FLA services will receive the requested services by contacting the DCAA FAO with which they are routinely associated or collocated. If there is no established association between the contract administration and DCAA field offices, the CAO can make arrangements for FLA services through the appropriate DCAA regional office (see Figure 1).

The DCAA offices responsible for providing liaison support to the DoD contract administration activities are summarized below:

<u>Contract Administration Activity</u>	<u>DCAA Office Responsible for:</u>	
	<u>Liaison Program</u>	<u>Oversight of Performance of Liaison Activities</u>
Defense Contract Management Agency (DCMA) Headquarters	DCAA Headquarters, Assistant Director, Operations	DCAA Headquarters Divisional Staff
DCMA Districts	Regional Directors*	Regional Special Programs Manager*
DCMA Plant Representative Ofc Offices (DPROs) and Area Offices	Regional Audit Manager	DCAA FAO Manager (Branch or Res Ofc)

\* See the Headquarters section of the Directory for the geographical areas covered by each region and Figure 1 for the telephone numbers of DCAA's Regional Directors and Regional Special Programs Managers and the DCMA Districts serviced.

Questions pertaining to DCAA's general support of SAPs should be directed to the Chief, Audit Liaison Division (OAL), through the Assistant Director of Operations. Questions pertaining to specific SAPs should be directed to the FLA-SAP. (See the Headquarters section of the Directory for the telephone numbers and addresses of both the OAL Chief and FLA-SAP.)

### Section III. EXAMPLES OF FINANCIAL LIAISON ADVISORS

The FLA is DCAA's representative and primary point of contact to the procurement and contract administration activities, and in many cases, also functions as the activities representative and primary point of contact with DCAA. As such, the FLA provides a broad spectrum of services ranging from expediting advisory audit reports to the communication of complex positions in the resolution of sensitive audit issues. The following examples of audit liaison services are presented below to show the type of services that are available, most often utilized, and of proven benefit to both the activity receiving the service as well as DCAA:

- Advice on accounting and financial matters.
- Coordination of price proposal audit requests and related services.
- Counsel on audit reports.
- Arranging for DCAA support of or attendance at negotiation conferences.

- Coordination on procurement policy and procedures.
- Support of Major Defense Systems Acquisition Programs.
- Coordination and distribution of Price Negotiation Memorandums (PNMs) and contractual documents.
- Participation in training sessions, seminars, and review groups.
- Coordinating matters affecting DCAA resources.
