WOMEN IN THE MILITARY

NOVEMBER 1975

INTRODUCTION

This bibliography offers a careful selection from the holdings of the Air Force Academy Library in response to a groundswell of interest in the presence of women in the military profession, particularly their entrance into the military academies scheduled for the summer of 1976. Citations were chosen to reflect the historical development of women's roles and contributions in a traditionally male career field and to represent present day practices and problems.

The bibliography was compiled and edited by Betsy Coxe assisted by Florence Klemm in the Reference Branch of the Air Force Academy Library. The manuscript was prepared for the printer by Alicia McCoy.
