

BROWNSHOES IN ACTION COMIX

"The Kind real aviators like"
by Cdr. Ward Carroll

One Day at a CVX Planning Conference...

It needs enhanced
power projection capabilities
from the Littorals...

It should have
network-centric
architecture...

It demands
multi-role
flexibility...

It must capitalize on
technology to reduce
manpower requirements...

...and have the ability
to launch and recover
at any time without
the requirement for
a respot...

We must have high-
definition television with
10 premium movie
channels mounted
over each rack...

Hot tubs in
every stateroom!

A driving range
in the hangar bay!

Jet skis
instead of
P-Boats!

All right, you guys...
Break's over. Let's
get back to the meeting.
And no more coffee!
