Instructions for SO₂ Allowance Offer Form (2004)

EPA Allowance Auctions (40 CFR 73.70 - 73.71)

EPA will hold auctions for spot and 7-year advance SO₂ emission allowances on March 22, 2004. In the spot auction, EPA will sell allowances first useable in 2004. In the 7-year advance auction, EPA will sell allowances first useable for compliance in 2011. The Chicago Board of Trade (CBOT) will administer the auctions on EPA's behalf. Any holder of allowances may contribute allowances dated 2004 or earlier, or 2011 to the EPA auctions. **Allowances dated 2003 or earlier cannot be offered from unit accounts because 2003 compliance has not yet been determined.** CBOT will sell offered allowances after selling the allowances reserved by EPA. You may specify a minimum acceptable price for your allowances, i.e., a price below which your allowances cannot be sold. Offered allowances must reside in your Allowance Tracking System account at the time EPA processes this form.

Type or complete the form in black ink. If you need more space, photocopy the pertinent page. When you have completed the form, indicate the page order and total number of pages (e.g., 1 of 4, 2 of 4, etc.) on each page in the spaces provided at the top right hand corner of the page.

Remember, under 40 CFR 72.21 and 73.33, you must notify the persons you represent in this transaction, either the owners or operators of the affected source and units or persons with an ownership interest with respect to the allowances held, of all Acid Rain Program submissions. EPA will accept Acid Rain Program submissions from either the authorized account representative (AAR) or the alternate AAR.

If you need assistance, call the Acid Rain Hotline at (202) 564-9620.

- STEP 2** A separate offer form is required for:
- each auction in which allowances are offered, and
 - separate offers with different minimum prices.

(You may photocopy this form if you wish to make multiple offers.)

- STEP 3** List by serial number the allowances to be offered. You may specify a block of allowances having the same use year by entering the serial number of the first allowance in the block in "Start Number" and entering the serial number of the last allowance in the block in "End Number." Separate blocks having the same use year must be entered on different lines.

- Enter the Start Number and End Number in the appropriate columns.
- Enter the number of allowances to be offered in the "Total" column.
- Verify the accuracy of your entries by computing one of the following simple equations reflecting the equivalent relationships:

$$\text{Start Number} = \text{End Number} - \text{Total} + 1$$

or

$$\text{End Number} = \text{Start Number} + \text{Total} - 1$$

You will be prohibited from transferring the allowances you have offered for sale before the date of the auctions. If your allowances are not sold in the auctions, EPA will lift the transfer restriction on your offered allowances

immediately following the auctions.

- STEP 4** You may specify a minimum sale price for your allowances. If bid prices are below this minimum, CBOT will not sell your allowances.

- STEP 5** In the event that fewer allowances will be sold than are offered, CBOT will sell a portion of your offered allowances to the bidder unless you indicate on the form that you are not willing to sell fewer allowances than the total(s) listed in Step 3.

Submission Instructions

EPA must receive completed Allowance Offer forms no later than close of business March 1, 2004. **Faxed copies of the Offer Form will NOT be accepted.** Mail the completed original forms to the following address:
