

GRITS/STAT 5.0 FREQUENTLY ASKED QUESTIONS

How do I print Graphics from GRITS/STAT?

1. Run GRITS/STAT in an MS-DOS window in Windows 3.1 or Windows 95.
2. Hold the < Alt> key down and press < Enter> . This will toggle the MS-DOS window to the full screen (i.e., the DOS program will occupy the entire screen and not appear in a window).
3. Go to the graphic that you want to print.
4. While the graphic is on the screen, hold the < Alt> key down and press < PrintScreen> . This will copy the graphic to the MS Windows clipboard.
5. Launch a Windows based Word Processor such as Word or WordPerfect.
6. Use the Edit/Paste command to paste the graphic into the document.
7. Use the File/Print command to print the document.

How do I print tables/text from GRITS/STAT?

1. Run GRITS/STAT in an MS-DOS Window in Windows 3.1 or Windows 95. (If the program occupies the entire screen, hold the < Alt> key down and press < Enter> . This will toggle the program to a window.)
2. Use the Mark/Copy command to copy the results screen to the Windows clipboard.
3. Launch a Windows based Word Processor such as Word or WordPerfect.
4. Use the Edit/Paste command to paste the table/text into the document.
5. Use the File/Print command to print the document.

How do I import/export data?

1. GRITS/STAT has a companion software named SAGE. Please refer to the User's Manual for instructions on how to utilize SAGE software to facilitate importing/exporting data.
