

# ENROLL US!

## We Want to Be a Member in EPA's Voluntary National Waste Minimization Partnership Program

### GENERAL INFORMATION

Company Name: General Electric Consumer Products

Facility Name: Bridgeville Glass Plant

Principal Contact: Matt Augustine

Facility Location: City: Bridgeville

Mailing Address: 540 Mayor Street

Phone Number: 412-257-7368

Title: Global Waste Manager

State: Pennsylvania

State: Pennsylvania

Fax: 412-257-7396

Zip: 15017

Zip: 15017

Email: matt.augustine@lighting.ge.com

### PARTNER AGREEMENT

Our organization/company is choosing to become a partner in EPA's National Waste Minimization Partnership Program. Our goal is to reduce the quantity of one or more Waste Minimization Priority Chemicals currently found in our hazardous and/or nonhazardous wastes using source reduction and/or recycling practices, in lieu of waste treatment or land disposal practices. In this enrollment application, we identify one or more voluntary waste minimization goals that we believe we can achieve as Partners in this Program. The voluntary goals provided below are initial estimates, and may change over time. We may revise our goals or withdraw from the program at any time. If/when choose to revise our goals or withdraw from the program, we will notify EPA.

**GOAL #1: Chemical Name:** Lead Oxide      **CASRN:** 7439-92-1

**Narrative description of proposed project (and the mechanism you will use to measure success):** Replace the Litharge (Lead Oxide) currently used in the .012 product line with a non-hazardous material. Material substitution will eliminate the use of lead.

1. Our voluntary source reduction goal for Chemical #1 is to reduce the amount of this chemical generated in hazardous waste from a baseline amount of: 118,000 in 12/2002, to a reduced amount of 88,000 by 12/2005  
(x pounds generated/year) (month/year) (x pounds generated/ year) (month/year)

2. To accomplish this goal, we will explore the following source reduction options: (Check all that apply)  
 Equipment or technology modifications       Process or procedure modifications  
 Reformulation or redesign of products       Substitution of less toxic raw materials  
 Improvements in inventory control       Improvements in maintenance/housekeeping practices  
 Other (explain):   

3. Our (optional) voluntary recycling goal for Chemical #1 is to increase the amount of waste Chemical #1 recycled from a baseline amount of 77,000 in 12/2002, to an increased recycled quantity of 80,000 by 12/2005.  
(x lbs/year) (month/year) (x lbs/year) (month/year)

4. To accomplish this recycling goal, we will explore: (check all that apply)  
 Direct use/reuse in a process to make a product       Process the waste to recover or regenerate a usable product  
 Use/reuse as a substitute for a commercial product       Other (explain):   

**Authorizing Official:** Jack Fish, COO General Electric Consumer Products      **Date:** July 24, 2003

**Project Contact (if different from Company Official):**         **Phone:**   

**NOTE TO PROSPECTIVE PARTNERS: Use supplemental sheets to set goals for additional short term and/or long term goals.**
