

June 1986

IMPORT HEALTH REQUIREMENTS OF CANADA
FOR CATS FROM THE UNITED STATES

Cats must be accompanied by a rabies vaccination certificate issued by a licensed veterinarian clearly identifying the animal and showing that the animal was vaccinated against rabies during the 3 years immediately preceding importation into Canada.

The above requirement does not apply to a kitten that is apparently under 3 months of age.

OTHER INFORMATION

The date of the vaccination and the type of the vaccine used must be identified on the rabies vaccination certificate.
