|------------------------|---|
| CORRECTION DATE | A correction date is the time period in which a noncompliant item must be corrected. |
| | <p>A correction date should be:</p> <ul style="list-style-type: none">• realistic as to what the facility can accomplish, and• appropriate to the severity of the NCI• determined with the concurrence of the licensee or responsible person, if appropriate <p>A correction date is given for :</p> <ul style="list-style-type: none">• newly identified “Direct” NCIs (see Indirect & Direct Noncompliant Items-Section 7.6) - These should be given a short correction period, e.g., immediately, by close of business on (<i>date</i>), within 72 hours. A short correction period should not exceed 10 days. NOTE: Reinspection for correction of a “D” noncompliant item must occur no more than 45 days after the correction date.• newly identified “Indirect” NCIs - Field inspectors may allow up to 1 year for a correction. <p>A correction date is NOT given for:</p> <ul style="list-style-type: none">• an NCI corrected during the inspection - The inspector may decide, using his/her own discretion, whether or not to cite the NCI. If cited, put “Corrected during the inspection.” Documenting this NCI may be necessary to show the facility’s history of compliance.• Category IV noncompliant items• NCIs identified on a prelicense inspection• transportation violations identified while the animal is in transit <p>A Category II NCI’s correction date should be transferred from the previous inspection report or the extension approval letter. For example, “Pending correction date is (<i>month/day/year</i>)” or “Extension granted until (<i>month/day/year</i>)”.</p> |
