SECTION IV
FINANCIAL PROVISIONS

4.1. In keeping with the requirements of paragraph 5.4 Section V (Financial Provisions) of the JSF SDD Framework MOU, which reflects that the sharing of Project costs will be equitable, the Participants set forth the following provisions regarding their equitable contributions to the Project. The U.S. DoD share of the Financial Cost Target is established in Section V (Financial Provisions) of the JSF SDD Framework MOU. The TR MND-SSM share of the Financial Cost Target of the Project, as identified in paragraph 5.2 of Section V (Financial Provisions) of the JSF SDD Framework MOU, is $175 million Then Year U.S. Dollars. In no event shall this TR MND-SSM share be increased without the written consent of the TR MND-SSM. The Participants recognize that TR MND-SSM intends to pursue making additional contributions not to exceed $75 million Then Year U.S. Dollars, subject to mutual agreement. Any such additional contributions shall be reflected in an amendment to this Supplement.

4.2. In the event that the actual total cost of the Project (including overhead costs, administrative costs, and the cost of claims) is less than the Financial Cost Target identified in paragraph 5.2 of Section V (Financial Provisions) of the JSF SDD Framework MOU, the Participants will endeavor to ensure that the TR MND-SSM receives any difference between (1) the TR MND-SSM financial contributions actually provided to the Project and (2) the TR MND-SSM's share of the actual total cost of the Project (which share will be in the same proportion as its proportion of the Financial Cost Target).

4.3. The TR MND-SSM non-financial contribution includes the personnel assigned to the JSF Program Office and DoD field activities in accordance with Annex A (Supplement Management Structure).

4.4. U.S. DoD research and development costs incurred for the Air System shall not apply to any Air Systems that may be exported to the TR MND-SSM pursuant to U.S. commercial export licenses in accordance with any future cooperative production arrangements. On any future foreign military sale by the U.S. Government to the Turkish Government of the Air System, the U.S. DoD shall consider excluding from the price of the Air System all of the U.S. DoD research and development costs incurred for the Air System, provided that the TR MND-SSM does not withdraw from the JSF SDD Framework MOU and this Supplement. In the case of TR MND-SSM
withdrawal, the financial contribution made by the TR MND-SSM up to the date of withdrawal shall be taken into consideration regarding any such future foreign military sale. In any event, the amount of the contribution of the TR MND-SSM to the Project will be excluded from the price of any Air System sold by the U.S. Government to the Turkish Government.

4.5. The Participants recognize that pursuant to paragraph 12.7 of the JSF SDD Framework MOU, they will be given the opportunity to receive levies from sales and other transfers to Third Parties of equipment developed under that MOU.

The Participants recognize that the provisions of Supplementary Agreement Number 2 Between the Governments of the United States of America and of the Republic of Turkey on Defense Industrial Cooperation of 29 March 1980 establish the principle that full consideration will be given to all qualified industrial resources in each country.

5.2. The U.S. DoD will provide the TR MND-SSM with insight into the subcontracting for the Project via IPT participation, attendance at Program Management Reviews, and access to the JSF Program Office electronic network. The Participants recognize the importance to the Project of subcontracting competitions that are conducted fairly and provide best value.
SECTION VI

JOINTLY ACQUIRED EQUIPMENT

6.1. In those instances in which the U.S. DoD elects to dispose of Jointly Acquired Equipment by transferring such equipment to another Participant in accordance with paragraph 7.6 of the JSF SDD Framework MOU, the U.S. DoD will offer that equipment to each of the Participants of the JSF SDD Framework MOU in order of the magnitude of their financial contributions to the Project. The U.S. DoD will consult with the TR MND-SSM and the other JSF SDD Framework MOU Participants in order to achieve a distribution of this Jointly Acquired Equipment in proportion to the Participants' financial contributions.

The Air System Life Cycle Plan, which addresses JSF autonomic logistics, will be provided to TR MND-SSM after delivery to the U.S. DoD by the Air System Contractor.

7.5. Paragraphs 8.2.2, 8.4.2, and 8.5.2 of Section VIII (Disclosure and Use of Project Information) of the JSF SDD
Framework MOU require that each Supplement specify the purposes for which each Participant other than the U.S. DoD may use or have used Government Project Foreground Information, Contractor Project Foreground Information, and Contractor Project Background Information delivered under Contracts awarded in accordance with the JSF SDD Framework MOU, respectively. For the TR MND-SSM, those purposes shall be Project purposes.

7.6. Paragraph 8.8.2 and 8.8.6 of Section VIII (Disclosure and Use of Project Information) of the JSF SDD Framework MOU require each Supplement to specify the purposes for which a Participant other than the U.S. DoD may practice or have practiced Project Inventions for which a Contractor or a Participant, respectively, grants a license under its Patents. For the TR MND-SSM, those purposes shall be Project purposes.

7.7. The Participants acknowledge that TR MND-SSM’s rights of use regarding Project Information and Patents under paragraphs 7.5 and 7.6 will allow TR MND-SSM to use that Information for the purposes of achieving the objectives in Section II (Objectives) and Section III (Scope of Work) of the JSF SDD Framework MOU.
