Working Group

A TEP Activity established under the auspices of this MOU as a collaboration to harmonize the Participants' T&E requirements and exchange Information to determine the feasibility of further cooperation via a PA or E&MTA.
SECTION II

OBJECTIVES

2.1. This MTEP MOU establishes a framework for implementing a program of cooperation on mutually determined topics and activities related to T&E. It prescribes the general provisions that will apply to the initiation, conduct, and management of TEP Activities detailed in separate Project Arrangements (PAs), Equipment and Material Transfer Arrangements (E&MTAs), or Working Groups (WGs) between or among two or more Participants authorized in accordance with the national laws, regulations, and policies of the Participants. These PAs, E&MTAs, and WGs will be entered into pursuant to this MTEP MOU and will incorporate by reference the provisions of this MTEP MOU. Additionally, this MTEP MOU will allow the exchange of Information for determining the feasibility of TEP Activities and for the purpose of coordinating the Participants’ defense requirements to assist in defining potential cooperative efforts under this MTEP MOU.

2.2. The specific objectives of this MTEP MOU are to:

2.2.1. conduct cooperative T&E of systems of shared interest;

2.2.2. share test resources through reciprocal and cooperative use of Test Facilities, ranges, and other test capabilities and testing tools;

2.2.3. facilitate and enhance T&E cooperation and targeted Information exchange for cooperation in support of future defense capabilities;

2.2.4. enhance interoperability among the Participants;

2.2.5. conduct cooperative development of test capabilities, test procedures and methods, and test standards and criteria;

2.2.6. promote defense T&E technology and cooperation among the Participants; and

2.2.7. enhance capability and reduce overall Costs and risks for each of the Participants through the sharing of Information, including future defense requirements and current and future technological developments.

2.3. Detailed provisions of each PA, E&MTA, and WG Terms of Reference (TOR) will be consistent with this MTEP MOU. Each PA, E&MTA, and WG TOR will include, as appropriate, specific provisions concerning the objectives, scope of work, sharing of work, management structure, financial arrangements, and classification for the applicable PA, E&MTA, or WG TOR in accordance with the formats set forth in Annex A (Model Reciprocal Use of Test Facilities (RUTF) PA), Annex B (Model Cooperative Test & Evaluation (CTE) PA), Annex D (Model Equipment and Material Transfer Arrangement

11
(E&MTA)), and Annex E (Model Working Group (WG) Terms of Reference (TOR)) to this MTEP MOU, to the extent applicable and practicable.

2.4. The Participants intend to use their best efforts to accommodate testing requirements of the other Participants. Each Participant may, however, decline to conduct a proposed TEP Activity in its country on a case-by-case basis.

2.5. This MTEP MOU does not preclude the Participants from entering into any other bilateral or multilateral agreements or arrangements.
SECTION III

SCOPE OF WORK

3.1. The scope of work for this MTEP MOU will encompass collaboration in T&E, potentially leading to new and improved defense capabilities. TEP Activities may encompass one or more of the following:

3.1.1. accommodation of testing requirements on a reimbursable basis under the provisions of a RUTF PA. This may include access to, or transfer of, test instrumentation and other testing tools;

3.1.2. conduct of CTE on systems of shared interest;

3.1.3. conduct of joint tests to advance test technology;

3.1.4. cooperative development of new or existing test instrumentation, equipment, other testing tools, and Test Facilities;

3.1.5. cooperative development of testing criteria, standards, and procedures;

3.1.6. exchange of Information on T&E policy, testing criteria, standards and procedures, and other test-related or test-derived Information including, but not limited to, doctrine, tactics, and operational requirements;

3.1.7. transfer of test technologies and procedures;

3.1.8. familiarization with each other’s facilities, and identification of potential cooperative T&E opportunities; and

3.1.9. assistance from Participant personnel to improve test capabilities and support the conduct of TEP Activities between or among the Participants.

3.2. Activities under this MTEP MOU may be pursued by two or more Participants. The addition of a Participant to an existing PA or E&MTA will require amendment of that PA or E&MTA by the PA or E&MTA Participants.

3.3. The following mechanisms will be used to undertake the TEP Activities described in paragraph 3.1.:

3.3.1. TEP PAs:

3.3.1.1. RUTF PA: This type of PA will be established consistent with Annex A (Model Reciprocal Use of Test Facilities (RUTF) PA) to this MTEP MOU, to the extent applicable and practicable. Submission of a Project proposal by the Contributing Participant(s) to request AIP from the Performing Participant(s) will
be required prior to negotiating a RUTF PA, to the extent applicable and practicable.

3.3.1.2. CTE PA: This type of PA will be established consistent with Annex B (Model Cooperative Test and Evaluation (CTE) PA) to this MTEP MOU, to the extent applicable and practicable. Submission of a Project proposal to request AIP or other authorization, as appropriate, may be required prior to negotiating a CTE PA.

3.3.1.3. E&MTA: The Participants recognize that it may be necessary to transfer Equipment and Material for the purpose of implementing this MTEP MOU, but not for the purposes of a specific PA. In such cases, the Contributing Participants will enter into an E&MTA using the format set forth in Annex D (Model Equipment and Material Transfer Arrangement (E&MTA)) to this MTEP MOU, to the extent applicable and practicable.

3.3.2. Information may be exchanged to identify cooperative activities of mutual interest and to assist in formulating, developing, and negotiating potential PAs, E&MTAs, and WGs under this MTEP MOU. This includes, but is not limited to, the exchange of defense-related T&E Information necessary to define and support cooperative activities, or Information exchanged during a familiarization visit while observing test-related activities.

3.3.3. WGs may be established to harmonize the Participants' T&E requirements and exchange Information to determine the feasibility of further cooperation via a PA or an E&MTA. WGs will be limited in scope to a well-defined area and will endeavor to assess the issue based on Information provided by the Participants in such a way as to arrive at a jointly determined position within a set time period. WGs will have their own written TOR using the format set out in Annex E (Model Working Group Terms of Reference) to this MTEP MOU, to the extent applicable and practicable. Unless and until Information exchanged in WGs is used in a PA or an E&MTA, the receiving Participant will use such Information only for information and evaluation purposes.

3.3.4. Familiarization visits may occur, in accordance with Section XI (Visits to Establishments) of this MTEP MOU, to promote awareness of another Participant’s Test Facilities and test capabilities and to identify areas of potential cooperative activities under this MTEP MOU.

3.3.4.1. Visits may include observation of test-related activities.

3.3.4.2. Visits may include feasibility assessments pursuant to development of PAs or E&MTAs.

3.4. Individual CTE PAs may provide for the assignment of CPP from one Contributing Participant to the facilities of the other Contributing Participant(s) in order to participate.
in the CTE Project. Such CTE PAs will incorporate by reference the provisions of Annex C (Cooperative Project Personnel (CPP)) to this MTEP MOU.

3.5. Execution of acquisition programs and/or production programs (other than Equipment and Material acquired for use in a TEP Activity) that may be proposed as a result of cooperation under TEP Activities under this MTEP MOU are outside the scope of this MTEP MOU and will require conclusion of separate arrangements.

4.8. In accordance with the provisions of Section VI (Contracting Provisions), Section IX (Disclosure and Use of Information), Section X (Controlled Unclassified Information), and Section XII (Security) of this MTEP MOU, Participants may provide Contractor Support Personnel to assist in the development of, or upon entry into effect, implementation of, a PA or E&MTA, subject to national laws, regulations, and policies. It is the responsibility of the Contracting Participants to ensure Contract provisions accord, or, through supervision, meet all responsibilities under this MTEP MOU and applicable PAs or E&MTAs.
SECTION V
FINANCIAL PROVISIONS

5.1. This MTEP MOU itself creates no financial responsibilities regarding any TEP Activity. Detailed descriptions of the financial provisions for a specific Project, including the total Cost of the Project and each Participant's Cost share, will be contained in each specific PA.

5.2. For RUTF PAs, charges between Participants will be determined on a case-by-case basis and specified in the RUTF PA. The Performing Participant's charges may consist of Direct Costs and applicable Indirect Costs. Direct Costs chargeable to the Contributing Participant, except for the Cost of military personnel, will not be greater than what one component of the Performing Participant would charge to another component of the Performing Participant for the type and scope of the services provided. If required, Indirect Costs may also be charged depending on the nature and specifics of the effort. Indirect Costs charged to the Contributing Participant(s) will be only those required by the Performing Participant's laws, regulations, and policies.

5.3. For CTE PAs, Contributing Participants will contribute their equitable share of the full Financial and Non-financial Costs, as defined in the CTE PA, including overhead Costs, administrative Costs, and costs of claims (in accordance with Section XIV (Liability and Claims) of this MTEP MOU), and will receive an equitable share of the results of each CTE PA.

5.4. For each PA, the POs will be responsible for establishing the detailed financial management procedures under which the Project will operate. Where necessary, these procedures will be detailed in a FMPD proposed by the POs and subject to the approval of the SC, if one is established, or alternatively, the MAs of the Contributing Participants.

5.5. Participants will perform, or will have performed, their tasks and will use their best efforts to perform the tasks within the Cost estimates specified in each PA. Participants will bear the full Costs they incur for performing, managing, and administering their own activities under this MTEP MOU and participation in each PA, including their share of the Costs of any Contracts under paragraph 5.11. of this Section.

5.6. The following Costs will be borne entirely by the Participant incurring the Costs or on whose behalf the Costs are incurred, as mutually determined:

5.6.1. Costs associated with national representation at meetings and WGs;

5.6.2. Costs associated with making, managing, and administering any Information exchanges under this MTEP MOU;

5.6.3. Costs associated with any unique national requirements identified by a Participant; and
5.6.4. Any other Costs not expressly stated as shared Costs under this MTEP MOU.

5.7. For E&MTAs under this MTEP MOU:

5.7.1. There will be no charge for the loan of Equipment and Material or for the Test Report.

5.7.2. Unless otherwise mutually determined in writing by the Contributing Participants, each Contributing Participant will fully bear all Costs it incurs for performing, managing, and administering its activities under the E&MTA.

5.8. Unless otherwise mutually determined in this MTEP MOU or a CTE PA, the Parent Participant will bear all Costs related to its CPP assigned to another Contributing Participant's facilities, including, but not limited to:

5.8.1. All pay and allowances of its CPP;

5.8.2. Transportation of the CPP, the CPP's dependents, and their personal property to the place of assignment in the Host Participant's nation prior to the CPP's commencement of a duty posting;

5.8.3. Return transportation of the CPP, the CPP's dependents, and their personal property, from the place of assignment in the Host Participant's nation upon completion or termination of a duty posting;

5.8.4. Compensation for loss of, or damage to, the personal property of CPP or the CPP's dependents, subject to the Parent Participant's laws, regulations, and policies;

5.8.5. Preparation and shipment of remains and funeral expenses in the event of the death of the CPP or the CPP's dependents; and

5.8.6. Other Costs as mutually determined.

5.9. A Participant will promptly notify the other Participant(s) if available funds will not be adequate to fulfill its responsibilities under a PA or E&MTA, or if it appears that the Cost estimates, or ceiling, in a PA will be exceeded, and the Participants will immediately consult with a view toward continuation on a modified basis.

5.10. Subject to the provisions of this MTEP MOU and in particular this Section, Section IV (Management (Organization and Responsibility)), Section VI (Contracting Provisions), and Section XVII (Amendment, Termination, Withdrawal, Entry into Effect, and Duration), the Participants recognize that, for the purposes of CTE PAs, it may become necessary for one Contributing Participant to incur contractual or other obligations for the benefit of one or more other Contributing Participant(s) prior to receipt of the other
Contributing Participant(s)' funds. In the event that one Contributing Participant incurs such contractual or other obligations, each Contributing Participant will pay its equitable share of the Contract or other obligation, and will make such funds available in such amounts and at such times as may be required by the Contract or other obligation and will pay its equitable share of any damages and Costs that may accrue from the performance of or cancellation of the Contract or other obligation in advance of the time such payments, damages, or Costs are due. In this context, "equitable" means the Cost share contained in the Financial Cost sharing provisions of the respective CTE PA and paragraph 5.6. of this Section, for cooperative Costs and unique national requirements Costs arising out of a contractual or other obligation for the benefit of another Participant, respectively.

5.11. The Participants will be responsible for the audit of their activities or their Contractors’ activities pursuant to a PA or E&MTA. A Participant’s audits will be in accordance with its own national practices and the FMPD. For CTE PA efforts where funds are transferred between Contributing Participants, the receiving Contributing Participant will be responsible for the internal audit regarding administration of the other Contributing Participant’s funds in accordance with the receiving Contributing Participant’s national practices. Audit reports of such funds will be made available promptly by the receiving Contributing Participant(s) to the other Contributing Participant(s).
SECTION VI

CONTRACTING PROVISIONS

6.1. If a Participant determines that Contracting is necessary to fulfill that Participant's responsibilities under Section III (Scope of Work) of a PA under this MTEP MOU, that Participant will contract in accordance with its respective national laws, regulations, and policies.

6.2. When a Participant individually contracts on its own behalf to perform a task under a PA or E&MTA to this MTEP MOU, it will be solely responsible for its own Contracting, and the other Participant(s) will not be subject to any liability arising from such Contracts without its prior written consent.

6.3. If the Contributing Participants determine that it is necessary under a CTE PA that one Contributing Participant contract on behalf of other Contributing Participant(s) for tasks under that CTE PA, that Contributing Participant will contract in accordance with its national laws, regulations, and policies. Such contractual arrangements will be detailed in the particular CTE PA. The Contracting Officer will be the exclusive source for providing contractual direction and instructions to Contractors and Prospective Contractors. The CTE PA SC will be responsible for the coordination of activities related to this MTEP MOU and its CTE PA and will provide oversight of the POs who will cooperate with the Contracting Officer in the areas of Contract procedures, Contract negotiations, evaluation of offers, and Contract award.

6.4. For all Contracting activities performed by a Contributing Participant for the benefit of the other Contributing Participant(s), the SC will review statements of work prior to the issuance of solicitations to ensure that they are in accordance with this MTEP MOU and the CTE PA for which the Contracting is performed. The Contracting Officer will keep the SC advised of all significant developments associated with award and performance of Project Contracts, and will keep the SC advised of all financial arrangements with the prime Contractor.

6.5. When Contracting on behalf of the other Contributing Participant(s), a Contracting Participant will protect the interests of the other Contributing Participant(s) in that the Contracting Participant will investigate, in a timely manner, concerns that a Contractor has not met, or may not meet, contractual requirements and, upon verification of the validity of such concerns by the Contracting Participant, will pursue contractual remedies and utilize Contract disputes processes to the same extent as that Contracting Participant would in protecting its own interests. The Contracting Participant will keep the affected Contributing Participant(s) informed during this process and will take their views into full consideration.

6.6. When Contracting on behalf of the other Contributing Participant(s), a Contracting Participant’s Contracting Officer will enter into contractual obligations consistent with the approved Project Plan, including the PCR, provided by the PO. In the unlikely event
that Exceptional Circumstances arise, the Contracting Officer will consult with the PO and SC, and execute Contracting actions consistent with any revised PCR. If such consultation does not result in a revised PCR, the Contracting Officer will use best efforts to take into account the interests of the Participants when incurring obligations beyond the scope of the FMPD or Project Plan. In the event that one or more Participants disagree with any action taken by the SC or the Contracting Officer, the disagreement will be resolved in accordance with Section XVI (Settlement of Disputes) of this MTEP MOU.

6.7. When Contracting on behalf of the other Contributing Participant(s), a Contracting Participant's Contracting Officer will immediately inform the PO of any risk of Cost growth beyond the FMPD approved by the SC, or schedule change or performance issues, which cause significant variation from the Project Plan for any Contract for which the Contracting Officer is responsible.

6.8. Each Participant's Contracting Agency will insert into its prospective Contracts (and require its Contractors to insert in subcontracts) provisions that satisfy the requirements of this MTEP MOU, including Section IX (Disclosure and Use of Information), Section X (Controlled Unclassified Information), Section XII (Security), Section XIII (Third Party Sales and Transfers), and Section XVII (Amendment, Termination, Withdrawal, Entry into Effect, and Duration) of this MTEP MOU, and including export control provisions in accordance with this MTEP MOU, in particular paragraphs 6.9. and 6.10. of this Section. Each Participant's Contracting Agency will negotiate to obtain the rights to use and disclose Information required by Section IX (Disclosure and Use of Information) of this MTEP MOU. During the Contracting process, each Participant will also advise Prospective Contractors of their responsibility to notify immediately their respective Participant's Contracting Agency, before Contract award, if they are subject to any license or agreement that will restrict their Government's freedom to disclose Information or permit its use, and to employ their best efforts not to enter into any new agreement or arrangement that will result in restrictions.

6.9. Each Participant will legally bind its Contractors to a requirement that the Contractor will not retransfer or otherwise use export-controlled Information furnished by the other Participant(s) for any purpose other than the purposes authorized under this MTEP MOU. The Contractor will also be legally bound not to retransfer the export-controlled Information to another Contractor or subcontractor unless that Contractor or subcontractor has been legally bound to limit use of the Information to the purposes authorized under this MTEP MOU. Export-controlled Information furnished by one Participant under this MTEP MOU may only be retransferred by the other Participant(s) to its Contractors if the legal arrangements required by this paragraph have been established.

6.10. Each Participant will legally bind its Prospective Contractors to a requirement that the Prospective Contractor will not retransfer or otherwise use export-controlled Information furnished by another Participant for any purpose other than responding to a solicitation issued in furtherance of the purposes authorized under this MTEP MOU. Prospective
Contractors will not be authorized use of export-controlled Information for any other purpose if they are not awarded a Contract. The Prospective Contractors will also be legally bound not to retransfer the export-controlled Information to a prospective subcontractor unless that prospective subcontractor has been legally bound to limit use of the export-controlled Information for the purpose of responding to the solicitation. Export-controlled Information furnished by one Participant under this MTEP MOU may only be retransferred by the other Participant(s) to its Prospective Contractors if the legal arrangements required by this paragraph have been established. Upon request by the furnishing Participant, the receiving Participant will identify its Prospective Contractors and prospective subcontractors receiving such export-controlled Information.

6.11. In the event a Participant's Contracting Agency is unable to secure adequate rights to use and disclose Information as required by Section IX (Disclosure and Use of Information) of this MTEP MOU, or is notified by Contractors or Prospective Contractors of any restrictions on the disclosure and use of Information, that Participant's Contracting Agency will refer the matter to the SC, or to the MAs if no SC is established, for resolution.

6.12. The PO(s) will promptly advise the other Participant(s)' SC members of any anticipated or actual Cost growth, schedule changes, delay, or performance problems under any Contract for which its Contracting Agency is responsible.

6.13. Upon mutual consent, consistent with Section II (Objectives) of this MTEP MOU, a Participant may contract for the unique national requirements of the other Participant(s).
7.1. No requirement will be imposed by any Participant for work sharing or other industrial or commercial compensation in connection with this MTEP MOU or applicable PA that is not in accordance with this MTEP MOU or the applicable PA.
SECTION VIII

EQUIPMENT AND MATERIAL TRANSFERS

8.1. A Participant may transfer, without charge to the other Participants, such Equipment and Material identified as being necessary for implementing a PA. The PA will provide specific details of any transfer of Equipment and Material. Equipment and Material identified at the time of PA signature will be specified in the PA pursuant to Section X (Equipment and Material Transfer) of Annex A (Model Reciprocal Use of Test Facilities (RUTF) PA) or Section XI (Equipment and Material Transfer) of Annex B (Model Cooperative Test and Evaluation (CTE) PA) to this MTEP MOU. Equipment and Material that cannot be identified at the time of PA signature will be documented, when identified, in a list to be developed and maintained by the POs. Approval for all Equipment and Material Transfers will be in accordance with the national laws, regulations, and policies of the Participants involved.

8.2. For E&MTAs concluded consistent with Annex D (Model Equipment and Material Transfer Arrangement (E&MTA)) to this MTEP MOU, each Contributing Participant may transfer, without charge to the other Contributing Participants, Equipment and Material for T&E purposes. Approval for all E&MTAs will be in accordance with national procedures. The receiving Participant of the Equipment and Material, in accordance with the provisions of this MTEP MOU and its national laws, regulations, and policies, will provide without charge the results of any testing or evaluation to the other Contributing Participants, including the final Test Report. Such Equipment and Material will remain the property of the providing Participant.

8.3. The providing Participant will make every effort to ensure that the Equipment and Material is furnished in a serviceable and usable condition according to its intended purpose. However, the providing Participant makes no warranty or guarantee of fitness of the Equipment and Material for a particular purpose or use, and makes no commitment to alter, improve, or adapt the Equipment and Material, or any part thereof.

8.4. The receiving Participant will maintain any transferred Equipment and Material in good order, repair, and operable condition. Unless the providing Participant has authorized the Equipment and Material to be expended or otherwise consumed without reimbursement to the providing Participant, the receiving Participant will return the Equipment and Material to the providing Participant in as good condition as received, normal wear and tear excepted, or return the Equipment and Material and pay the Cost to restore it. If the transferred Equipment and Material is damaged beyond economical repair, the receiving Participant will return the Equipment and Material to the providing Participant (unless otherwise specified in writing by the providing Participant) and pay the replacement value as computed pursuant to the providing Participant's national laws, regulations, and policies. If the Equipment and Material is lost, unintentionally destroyed, damaged beyond economical repair, or stolen while in the custody of the receiving Participant, the receiving Participant will issue a certificate of loss to the providing Participant and pay
the replacement value as computed pursuant to the providing Participant's national laws, regulations, and policies.

8.5. The providing Participant, at its expense, will deliver Equipment and Material to the receiving Participant at a mutually determined location. Possession of, and responsibility for, the Equipment and Material will pass from the providing Participant to the receiving Participant at the time of receipt of the Equipment and Material. Any further transportation responsibility will be specified in the appropriate PA or E&MTA.

8.6. All Equipment and Material that is transferred will be used by the receiving Participant only for the purposes of carrying out this MTEP MOU and the applicable PA or E&MTA, unless otherwise consented to in writing by the providing Participant. In addition, in accordance with Section XIII (Third Party Sales and Transfers) of this MTEP MOU, Equipment and Material will not be retransferred to a Third Party without the prior written consent of the providing Participant.

8.7. The providing Participant will furnish the receiving Participant such Information as is necessary to enable the Equipment and Material to be used. If the providing and receiving Participants mutually determine that specific training is required for use of Equipment and Material, they will mutually determine the appropriate arrangements for the provision of such training.

8.8. The receiving Participant will inspect and inventory the Equipment and Material upon receipt. The receiving Participant will also inspect and inventory the Equipment and Material prior to its return (unless the Equipment and Material is to be expended or consumed).

8.9. Upon expiration or termination of the transfer period specified in the PA or the E&MTA (taking into account any extension), the receiving Participant will return the Equipment and Material, at its expense, to the providing Participant at a mutually determined location. Possession of, and responsibility for, the Equipment and Material will pass from the receiving Participant to the providing Participant at the time of its receipt. Any further transportation is the responsibility of the providing Participant.

8.10. The receiving Participant will give the providing Participant written notice of consumption or expenditure of Equipment and Material that had been previously approved for such consumption or expenditure by the providing Participant. In the event the intended consumption or expenditure does not occur, the receiving Participant will return the Equipment and Material to the providing Participant as specified in the PA or E&MTA.

8.11. The Participants will ensure, by all reasonable means, the protection of Intellectual Property rights in Equipment and Material and any associated documentation.

8.12. Each Contributing Participant waives all claims against the other Contributing Participant(s) for damage to, or loss of, jointly acquired or produced Equipment and
Material arising from the performance of official duties. However, if the Contributing Participants mutually decide to repair damaged jointly acquired or produced Equipment and Material in order to complete a CTE PA, the cost of such repair will be shared in the same ratio as Financial and Non-financial Costs are shared in the CTE PA under which it is acquired or produced unless another ratio is mutually determined, in writing, to be equitable. In any case, if the Contributing Participants mutually determine that damage or loss is caused by reckless acts, reckless omission, willful misconduct, or gross negligence (which may or may not be a criminal standard of negligence) of a Contributing Participant, the costs of any liability, including the cost of repairs, will be borne by that Participant.

8.13. Any Equipment and Material that is jointly acquired or produced on behalf of the Contributing Participants for use under a CTE PA will be disposed of during the CTE PA, or when the CTE PA expires or is terminated, as approved and directed by the SCs of the Contributing Participants. Jointly acquired or produced Equipment and Material will remain the property of the Contributing Participants in the same ratio as Financial and Non-financial Costs are shared in the CTE PA under which it is acquired or produced. The Contributing Participant who has custody of the jointly acquired or produced Equipment and Material will maintain such jointly acquired or produced Equipment and Material in good order and operable condition, normal wear and tear excepted, unless the Contributing Participants have mutually determined that it may be expended or otherwise consumed by that Contributing Participant in connection with this MTEP MOU and applicable CTE PA.

8.14. Mutually determined disposal of jointly acquired or produced Equipment and Material may include a transfer of the interest of one of the Contributing Participants in such Equipment and Material to another Contributing Participant, or the sale or transfer of such Equipment and Material to a Third Party or Non-Contributing Participant, in accordance with Section XIII (Third Party Sales and Transfers) of this MTEP MOU. For the purpose of this paragraph, a Contractor of a MTEP MOU Participant will be considered a Third Party.
SECTION IX

9.1.3.3. If a Participant finds it necessary to exercise a restriction on the retransfer of export-controlled Information as set out in subparagraph 9.1.3.1. of this Section, it will promptly inform the other Participants. If a restriction is then exercised and the affected Participant objects, that Participant's MA will notify promptly the other Participants' MAs and they will immediately consult in order to discuss ways to resolve such issues or mitigate any adverse effects;
9.1.3.4. Notwithstanding the provisions of this MTEP MOU that relate to the protection of Information, particularly Section IX (Disclosure and Use of Information), Section X (Controlled Unclassified Information), Section XII (Security), and Section XIII (Third Party Sales and Transfers), the specific export control provisions set out in Section VI (Contracting Provisions) and this Section will not apply to transfers of Information among non-U.S. DoD Participants where such exchanges do not include U.S. export-controlled Information; and

9.6.1. All Information that is subject to disclosure and use restrictions with respect to Intellectual Property rights will be identified and marked, and will be handled as Controlled Unclassified Information or as Classified Information, depending on its security classification.

9.6.2. A PSI will contain such provisions as are necessary to ensure the protected communication of Information that is subject to Intellectual Property rights.

9.6.3. Information furnished under this MTEP MOU will be marked to identify that it was furnished under this MTEP MOU or TEP Activity as Background
9.7. Inventions and Patents

9.7.1. Each Contributing Participant will include in all of its Contracts for PAs a provision governing the disposition of rights in regard to Inventions and Patent rights relating thereto that either:

9.7.1.1. Provides that the Participant will hold title to all such Inventions together with the right to make Patent applications for the same, free of encumbrance from the Contractor concerned; or

9.7.1.2. Provides that the Contractor will hold title (or may elect to retain title) for such Inventions together with the right to make Patent applications for the same, while securing for the Participants a license for the Inventions, and any Patents thereto, on terms in compliance with the provisions of subparagraph 9.7.2. of this Section.

9.7.2. In the event that a Contractor owns title (or elects to retain title) to any Invention, the Contracting Participant will secure for the other Contributing Participants non-exclusive, irrevocable, royalty-free licenses under all Patents secured for that invention, to practice or have practiced the patented Invention throughout the world for Defense Purposes.

9.7.3. The provisions of subparagraphs 9.7.4. through 9.7.7. of this Section will apply in regard to Patent rights for all Inventions made by the Participants' military or civilian employees, including those within government-owned facilities, and for all Inventions made by Contractors for which the Contracting Participant holds title or is entitled to acquire title.

9.7.4. When a Contributing Participant has or can secure the right to file a Patent application with regard to an Invention, that Participant will consult with the other Contributing Participants regarding the filing of such Patent application. The Contributing Participant that has or receives title to such Invention will, in other countries, file, cause to be filed, or provide the other Contributing Participants with the opportunity to file on behalf of the Participant holding title, Patent applications covering that Invention. A Participant will immediately notify the other Contributing Participants that a Patent application has been filed. If a Participant, having filed or caused to be filed a Patent application, abandons prosecution of the application or ceases maintaining the Patent granted or issued on the application, that Participant will notify the other Contributing Participants of that decision and permit the other Contributing Participants to continue the prosecution or maintain the Patent as the case may be.

9.7.7. Patent applications to be filed, or assertions of other Intellectual Property rights, under this MTEP MOU that contain Classified Information will be protected and safeguarded in a manner no less stringent than the requirements set forth in the applicable international agreements and arrangements between the Contributing Participants and the Contributing Participants' laws and regulations.

9.8. Each Participant will notify the other Contributing Participants of any Intellectual Property infringement claims brought against that Participant arising in the course of work performed under any TEP Activity on behalf of the other Contributing Participants. Insofar as possible, the other applicable Participants will provide Information available to them that may assist in defending such claims. Each Participant will be responsible for handling such Intellectual Property infringement claims brought against it, and will consult with the other Contributing Participants during the handling, and prior to any settlement, of such claims. The Contributing Participants will share the Costs of resolving such Intellectual Property infringement claims in proportion to their Financial and Non-financial Costs for that work specified in a CTE PA. The Participants will share the costs of resolving Intellectual Property infringement claims in other TEP Activities in a manner they mutually determine in writing to be equitable at the time the infringement claim is resolved.

9.9. The Participants will, as permitted by their national laws, regulations, and policies, give their authorization and consent for all use and manufacture in the course of work performed under a Project of any Invention covered by Patent. Further, the Participants will, as permitted by their national laws, regulations, and policies, give their authorization and consent for all use in the course of work performed under a TEP Activity of non-commercial copyright granted or otherwise provided by their respective countries.
SECTION X

CONTROLLED UNCLASSIFIED INFORMATION

10.1. Except as otherwise provided in this MTEP MOU or as authorized in writing by the originating Participant, Controlled Unclassified Information provided or generated pursuant to this MTEP MOU and any of its TEP Activities will be controlled as follows:

10.1.1. Such Information will be used only for the purposes authorized according to Section IX (Disclosure and Use of Information) of this MTEP MOU;

10.1.2. Access to such Information will be limited to personnel whose access is necessary for the permitted use under subparagraph 10.1.1. of this Section, and will be subject to the provisions of Section XIII (Third Party Sales and Transfers) of this MTEP MOU; and

10.1.3. Each Participant will take all appropriate lawful steps available to it to keep such Information free from further disclosure (including requests under any legislative provisions), except as provided in subparagraph 10.1.2. of this Section, unless the originating Participant consents to such disclosure. In the event of unauthorized disclosure, or if it becomes probable that the Information may have to be further disclosed under any legislative provision, immediate notification will be given to the originating Participant.

10.2. To assist in providing the appropriate controls, the originating Participant will ensure that Controlled Unclassified Information is appropriately marked to ensure its “in confidence” nature. The Participants’ export-controlled Information will be marked in accordance with the applicable Participant’s export control markings as documented in a PSI. The Participants will also decide, in advance and in writing, on the markings to be placed on any other types of Controlled Unclassified Information and describe such markings in a PSI.

10.3. Controlled Unclassified Information provided or generated pursuant to this MTEP MOU or any of its TEP Activities will be handled in a manner that ensures control as provided for in paragraph 10.1. of this Section.

10.4. Prior to authorizing the release of Controlled Unclassified Information to Contractors, the Participants will ensure the Contractors are legally bound to control such Information in accordance with the provisions of this Section.
SECTION XI
VISITS TO ESTABLISHMENTS

11.1. Each Participant will permit visits to its Government establishments, agencies and laboratories, and Contractor industrial facilities by employees of the other Participants or by employees of the other Participants' Contractors, provided that the visit is authorized by the Participants and the employees of both have the necessary and appropriate security clearances and a need-to-know.

11.4. Lists of personnel of each Participant required to visit, on a continuing basis, facilities of another Participant will be submitted through official channels in accordance with recurring international visit procedures.
SECTION XII

SECURITY

12.1. All Classified Information provided or generated pursuant to this MTEP MOU, or any of its TEP Activities, will be used, stored, handled, transmitted, safeguarded, and disposed of in accordance with applicable international agreements and arrangements between the Participants and the Participants' national security laws and regulations.

12.2. Classified Information will be transferred only through official government-to-government channels or through channels approved by the DSAs of the Participants. Such Classified Information will bear the level of classification and denote the country of origin, the provisions of release, and the fact that the Information relates to this MTEP MOU or any TEP Activities.

12.3. Each Participant will take all appropriate lawful steps available to it to ensure that Classified Information provided or generated pursuant to this MTEP MOU or any TEP Activity is protected from further disclosure, except as permitted by this Section, unless the other Participant(s) consents to such disclosure. Accordingly, each Participant will ensure that the recipient(s):

12.3.1. Will not release the Classified Information to any government, national organization, or other entity of a Third Party without the prior written consent of the originating Participant in accordance with the procedures set forth in Section XIII (Third Party Sales and Transfers) of this MTEP MOU;

12.3.2. Will not use the Classified Information for other than the purposes provided for in this MTEP MOU and the TEP Activity under which the Classified Information was transferred or generated; and

12.3.3. Will comply with any distribution and access restrictions on Classified Information that are provided under this MTEP MOU and the TEP Activity under which the Classified Information was transferred or generated.

12.4. The Participants will investigate all cases in which it is known or when there are grounds for suspecting that Classified Information provided or generated pursuant to this MTEP MOU or any TEP Activities has been lost or disclosed to unauthorized persons. Each Participant also will promptly and fully inform the other Participants of the details of any such occurrence, and of the final results of the investigation and of the corrective action taken to preclude recurrence.

12.5. The Participants will prepare an overarching PSI and CG for all cooperation under this MTEP MOU. The overarching PSI and CG will be forwarded to the Participants' DSAs for approval. PA POs and E&MTA points of contact may prepare a PSI and a CG for their respective PAs or E&MTAs, as necessary, on a case-by-case basis. PSIs and CGs will describe the methods by which Information will be classified, marked, used,
transmitted, safeguarded, and disposed of, and will require that markings for all export-
controlled Information also include the applicable export control markings identified in
the PSI in accordance with paragraph 10.2. of Section X (Controlled Unclassified
Information) of this MTEP MOU. The PSI and CG will be developed by the POs or
points of contact, as applicable, within three months after the PA or E&MTA enters into
effect. The PSI and CG will be reviewed and forwarded by the MAs to the Participants’
DSAs for approval and will be applicable to all government and Contractor personnel
participating in the PA or E&MTA. CGs will be subject to regular review and revision
with the aim of downgrading the classification whenever this is appropriate. All PSIs and
CGs will be approved by the appropriate DSAs prior to the transfer of any Classified
Information or Controlled Unclassified Information.

12.6. The DSA of a Contributing Participant that awards a classified Contract will assume
responsibility for administering within its territory security measures for the protection of
the Classified Information, in accordance with its national laws, regulations, and policies.
Prior to the release to a Contractor, Prospective Contractor, or subcontractor of any
Classified Information received for this MTEP MOU, or any TEP Activities, the DSAs or
their designees will:

12.6.1. Ensure that such Contractor, Prospective Contractor, or subcontractor (and their
facilities) have the capability to protect the Classified Information adequately;

12.6.2. Grant a security clearance to the facilities, if appropriate;

12.6.3. Grant a security clearance for all personnel with duties that require access to
Classified Information, if appropriate;

12.6.4. Ensure that all persons having access to the Classified Information are informed
of their responsibilities to protect the Classified Information in accordance with
national security laws and regulations and the provisions of this MTEP MOU;

12.6.5. Carry out periodic security inspections of cleared facilities to ensure that the
Classified Information is properly protected; and

12.6.6. Ensure that access to the Classified Information is limited to those persons who
have a need-to-know for the purposes of this MTEP MOU or any TEP
Activities.

12.7. Contractors, Prospective Contractors, or subcontractors that are determined by DSAs to
be under financial, administrative, policy, or management control of nationals or entities
of a Third Party, may participate in a Contract or subcontract requiring access to
Classified Information provided or generated pursuant to this MTEP MOU only when
enforceable measures are in effect to ensure that nationals or other entities of a Third
Party will not have access to Classified Information. If enforceable measures are not in
effect to preclude access by nationals or other entities of a Third Party, the furnishing
Contributing Participant, or in the case of Information generated pursuant to this MTEP
MOU, the Contributing Participants, will be consulted for approval prior to permitting such access.

12.8. For any facility in which Classified Information is to be used, the responsible Participant or Contractor will approve the appointment of an official or officials to exercise effectively the responsibilities for safeguarding at such facility the Classified Information pertaining to this MTEP MOU or any TEP Activity. These officials will be responsible for limiting access to Classified Information provided or generated pursuant to this MTEP MOU or any TEP Activities to those persons who have been properly approved for access and have a need-to-know.

12.9. Each Participant will ensure that access to Classified Information is limited to those persons who possess requisite security clearances and have a specific need for access to the Classified Information in order to participate in any TEP Activity.

12.10. Information exchanged or generated under this MTEP MOU may be classified as high as SECRET. However, Information exchanged or generated pursuant to a TEP Activity may, on a case-by-case basis, be classified as high as TOP SECRET if such exchange is sufficiently justified and processed and approved in accordance with the national disclosure policies and procedures of the Participants. The classification of the existence of any PA, E&MTA, or WG and its contents will be stated in that PA, E&MTA, or TOR.

12.11. The existence of this MTEP MOU is UNCLASSIFIED and its contents are UNCLASSIFIED.
SECTION XIII
THIRD PARTY SALES AND TRANSFERS

13.1. Except to the extent permitted in paragraphs 13.2. and 13.3. of this Section, the Participants will not sell, transfer title to, disclose, or transfer possession of Foreground Information (or any item produced either wholly or in part from Foreground Information) or jointly acquired or produced Equipment and Material, to any Third Party or Non-Contributing Participant without the prior written consent of the Government(s) of the Participants in the TEP Activity under which that Foreground Information (or any item produced either wholly or in part from Foreground Information) or jointly acquired or produced Equipment and Material was acquired or produced. Furthermore, no Contributing or Performing Participant to that TEP Activity will permit any such sale, disclosure, or transfer, including by the owner of the item, without the prior written consent of the Government(s) of the Participant(s) in the TEP Activity under which that Foreground Information (or any item produced either wholly or in part from Foreground Information), or jointly acquired or produced Equipment and Material was acquired or produced. Such consent will not be given unless the Government of the intended recipient consents in writing with the Participants that it will:

13.1.1. Not retransfer, or permit the further retransfer of, any Equipment and Material or Foreground Information provided; and

13.1.2. Use, or permit the use of, the Equipment and Material or Foreground Information provided only for the purposes specified by the Participants of that TEP Activity.

13.2. Each Contributing Participant to a RUTF PA will retain the right to sell, transfer title to, disclose, or transfer possession of Foreground Information generated on behalf of the Contributing Participant(s), where that Foreground Information does not include any Foreground Information or Background Information of another Participant, and whose generation, test, or evaluation has not relied on the use of Equipment and Material of another Participant.

13.3. Each Contributing Participant in CTE PAs and E&MTAs will retain the right to sell, transfer title to, disclose, or transfer possession of Foreground Information:

13.3.1. Generated solely by that Contributing Participant or that Contributing Participant’s Contractors in the performance of that Contributing Participant’s work allocation under Section III (Scope of Work) of a TEP Activity;

13.3.2. That does not include any Foreground Information or Background Information of another Participant; and

13.3.3. Whose generation, test, or evaluation has not relied on the use of Equipment and Material of another Participant.
13.4. In the event that questions arise as to whether the Foreground Information (or any item produced either wholly or in part from the Foreground Information) that a Participant intends to sell, transfer title to, disclose, or transfer possession of to a Third Party or a Non-Contributing Participant, is within the scope of paragraphs 13.2. or 13.3. of this Section, the matter will be brought to the immediate attention of the other Contributing Participants. The Contributing Participants will resolve the matter prior to any sale or other transfer of such Foreground Information (or any item produced either wholly or in part from the Foreground Information) to a Third Party or Non-Contributing Participant.

13.5. A Participant will not sell, transfer title to, disclose, or transfer possession, grant, donate, or transfer usage rights of Equipment and Material or Background Information provided by another Participant without the prior written consent of the Government of the Participant that provided such Equipment and Material or Background Information. The furnishing Participant's Government will be solely responsible for authorizing such transfers and, as applicable, specifying the method and provisions for implementing such transfers.

13.6. Sales and other transfers of jointly acquired or produced Equipment and Material or Foreground Information generated in a TEP Activity may attract a levy to be shared as mutually determined by the Contributing Participants. Prior to any such sales or transfers, the amounts of any levy and the procedure for assessing and distributing such levy will be mutually determined by the Contributing Participants consistent with the laws, regulations, and policies of each Contributing Participant. Any Contributing Participant may reduce the assessment of its share of the levy.

13.7. Any sale, transfer, or disclosure to a Participant who is not a Contributing Participant (including aPerforming Participant in a RUTF PA) will be subject to the provisions of this Section.
SECTION XIV
LIABILITY AND CLAIMS

14.1. For liability arising out of, or in connection with, TEP Activities undertaken in the performance of official duty in the execution of this MTEP MOU, the following provisions will apply:

14.1.1. Claims against a Participant or its military or civilian personnel will be dealt with in accordance with the terms of applicable multilateral or bilateral agreements or arrangements of the Participants.

14.1.2. For those claims for which multilateral or bilateral agreements or arrangements do not apply, the following will apply:

14.1.2.1. With the exception of the claims for loss of or damage to Project Equipment and Material, which are addressed in Section VIII (Equipment and Material Transfers) of this MTEP MOU, each Participant waives all claims against the other Participants for injury to or death of its military or civilian personnel and for damage to or loss of its property (including its interest in jointly acquired or produced Equipment and Material) caused by such personnel or another Participant. However, if the Participants mutually determine that such injury, death, damage, or loss results from reckless acts or reckless omissions, willful misconduct or gross negligence (which may or may not amount to a criminal standard of negligence) of a Participant’s military or civilian personnel, the costs of any liability will be borne by that Participant alone; and

14.1.2.2. Claims from any other persons (either individuals or entities) for injury, death, damage or loss of any kind caused by one of the Participants’ military or civilian personnel will be processed by the most appropriate Participant, as mutually determined by the Participants. Any Costs determined to be owed to the claimant will be borne by the Participants in the same ratios as their Financial and Non-financial Costs as specified in the relevant CTE PA from which the claim arose. For such claims resulting from other TEP Activities, the Participants will consult and mutually determine in writing an equitable sharing of the Cost of such claims. However, if the Participants mutually determine that such injury, death, damage, or loss results from the reckless acts or reckless omissions, willful misconduct or gross negligence (which may or may not amount to a criminal standard of negligence) of a Participant’s military or civilian personnel, the costs of any liability will be borne by that Participant alone.

14.2. If a person or entity, other than the Participants’ military or civilian personnel, damages jointly acquired or produced Equipment and Material, and the cost of making good such damage is not recoverable from such person or entity, such cost will be borne by the
Participants in the same ratios as their Financial and Non-financial Costs as specified in the relevant CTE PA for the work for which the jointly acquired or produced Equipment and Material was obtained.

14.3. Claims arising under any Contract awarded under a PA or E&MTA will be resolved in accordance with the provisions of that Contract.

14.4. Employees and agents of Contractors are not considered civilian personnel of a Participant for the purposes of this Section.

14.5. The Participants acknowledge that the costs of claims under this MTEP MOU may be over and above their share of the total Costs set out in a CTE PA and will be shared on an equitable basis in accordance with Section XIV (Liability and Claims) of this MTEP MOU.
SECTION XV
CUSTOMS DUTIES, TAXES, AND SIMILAR CHARGES

15.1. Customs duties, import and export taxes, and similar charges will be administered in accordance with each Participant's respective laws and regulations. Insofar as existing national laws, regulations, and policies permit, the Participants will endeavor to ensure that such readily identifiable customs duties, import and export taxes, and similar charges, as well as quantitative or other restrictions on imports and exports, are not imposed in connection with work carried out pursuant to any TEP Activity under this MTEP MOU.

15.2. Each Participant will use its best efforts to ensure that customs duties, import and export taxes, and similar charges are administered in a manner favorable to the efficient and economical conduct of the work pursuant to any TEP Activity under this MTEP MOU. If any such customs duties, import and export taxes, or similar charges are levied, the Participant in whose country they are levied will bear such costs over and above that Participant's shared Costs of the TEP Activity conducted under this MTEP MOU.

15.3. If, in order to comply with European Union (EU) regulations, it is necessary to levy duties, then these will be met by the EU member end recipient. To this end, equipment coming from outside the EU will proceed to its final destination accompanied by the relevant customs document enabling settlement of duties to take place. The duties will be paid by the EU member as an additional cost over and above that EU Participant's shared Cost of the TEP Activity.
SECTION XVI

SETTLEMENT OF DISPUTES

16.1. Disputes between or among the Participants arising under or relating to this MTEP MOU, including any of its TEP Activities, will be resolved only by consultation between or among the Participants in this MTEP MOU or the relevant TEP Activity, as applicable, and will not be referred to any national or international court or tribunal, or to any other person or entity for settlement.
SECTION XVII
AMENDMENT, TERMINATION, WITHDRAWAL, ENTRY INTO EFFECT, AND DURATION

17.1. All activities of the Participants under this MTEP MOU will be carried out in accordance
with their respective national laws, regulations, and policies, including their export
control laws and regulations. The responsibilities of the Participants, with the exception
of those responsibilities regarding the security of Information and protection of
Intellectual Property rights, will be subject to the availability of funds for such purposes.

17.2. In the event of a conflict between the provisions of this MTEP MOU and any PA,
E&MTA, or WG TOR established under this MTEP MOU, the provisions of this MTEP
MOU will prevail.

17.3. This MTEP MOU, or any PA or E&MTA under this MTEP MOU, may be amended by
the mutual written consent of the Participants, or the Contributing and Performing
Participants, as applicable. WG TOR under this MTEP MOU may also be amended by
the written approval of the MAs, provided that any such amendment is consistent with
this MTEP MOU. Annex E (Model Working Group Terms of Reference) to this MTEP
MOU may also be amended by the written approval of the MAs, provided that any such
amendment is consistent with this MTEP MOU.

17.4. This MTEP MOU may only be terminated by the mutual written consent of all
Participants. Any PA or E&MTA under this MTEP MOU may be terminated at any time
by the mutual written consent of the Participants in that TEP Activity. Any WG TOR
may be terminated by the MAs participating in that WG. In the event the Participants
consent to terminate this MTEP MOU, or any PA, E&MTA, or WG TOR under this
MTEP MOU, the Participants (or Contributing and Performing Participants, as
applicable) will consult prior to the date of termination to ensure termination on the most
economical and equitable terms. Termination of this MTEP MOU will result in the
termination of all TEP Activities, including all PAs, E&MTAs, and WGs under this
MTEP MOU.

17.5. In the event of termination of this MTEP MOU or any TEP Activity under this MTEP
MOU, the following rules apply:

17.5.1. Each Participant will continue its participation, financial or otherwise, under
this MTEP MOU and any TEP Activities in which it is participating, up to the
effective date of termination of this MTEP MOU or the relevant TEP Activity;

17.5.2. Each Participant will be responsible for its own Costs associated with the
termination of this MTEP MOU, including a PA or an E&MTA under this
MTEP MOU. Notwithstanding this, for Contracts awarded on behalf of the
Contributing Participants to a CTE PA, the Contributing Participants will share
any Costs incurred by a Contracting Participant in terminating a Contract.
awarded on their behalf in the proportions of their Financial and Non-financial Cost contributions to the CTE PA. For RUTF PAs, the Contributing and Performing Participants will share in the Costs of terminating the services to be provided, as mutually determined. However, in no event will the Contributing Participants’ total Costs, including Contract termination Costs, exceed the Contributing Participants’ total Cost ceiling or estimate, as applicable, as established in the PA being terminated. Each Contributing Participant to such a PA will pay its equitable share of such Costs in advance of the time such payment, damages, or Costs are due;

17.5.3. All Information and rights therein received under this MTEP MOU prior to termination of this MTEP MOU, will be retained by the Participants, subject to the provisions of this MTEP MOU. All Information and rights therein received under a TEP Activity under this MTEP MOU, prior to termination of that TEP Activity, will be retained by the Participants to that TEP Activity, subject to the provisions of this MTEP MOU and respective TEP Activity;

17.5.4. Additional PA or E&MTA termination provisions consistent with this Section may be established in a PA or an E&MTA under this MTEP MOU; and

17.5.5. Each Contributing or Performing Participant will make available to the other Contributing Participants all Foreground Information generated by that Contributing or Performing Participant and its Contractors prior to termination.

17.6. A Participant’s participation in this MTEP MOU will cease upon one hundred eighty (180) days written notification of its intent to withdraw to the other Participant(s). A Participant’s withdrawal from this MTEP MOU constitutes its withdrawal from all TEP Activities. Such notification will be the subject of immediate consultation among the Participants to decide upon the appropriate course of action. A Performing or Contributing Participant’s participation in a RUTF PA, a CTE PA, or an E&MTA will cease upon ninety (90) days written notice of withdrawal to the other PA or E&MTA Participants. Participants may withdraw from a WG at any time. In the event of such withdrawal from this MTEP MOU or from a TEP Activity, the following will apply:

17.6.1. A withdrawing Participant will be responsible for its own costs associated with its withdrawal from this MTEP MOU or a TEP Activity;

17.6.2. Notwithstanding the provisions of subparagraph 17.6.1., in no event will the withdrawing Contributing Participants’ total Costs, including Contract termination or modification costs, exceed the withdrawing Contributing Participants’ total Cost ceiling as established in the CTE PA from which it is withdrawing. The remaining Contributing Participants will immediately consult with a view to amending the CTE PA and continuing the Contract. Each remaining Contributing Participant to that CTE PA will pay its equitable share of any additional costs beyond those of the withdrawing Participant’s total Cost ceiling in the proportions of their Financial and Non-financial Cost
contributions to the CTE PA. Each Contributing Participant to that CTE PA will pay its equitable share of such costs in advance of the time such payments, damages, or costs are due;

17.6.3. A withdrawing Participant from this MTEP MOU or a TEP Activity will continue participation, financial or otherwise, up to the effective date of withdrawal;

17.6.4. The remaining Participants will decide whether they will continue to execute this MTEP MOU or any TEP Activities in which they are a Participant on the basis of the reduced participation or will terminate this MTEP MOU or its TEP Activities. To facilitate such continuation of either this MTEP MOU or any TEP Activity on the basis of reduced participation, an amendment to the MTEP MOU and/or an amendment to the TEP Activity will be concluded;

17.6.5. All Information and rights therein received under the provisions of any TEP Activity prior to withdrawal will be retained by the Participants in that TEP Activity, subject to the provisions of this MTEP MOU and the relevant TEP Activity; and

17.6.6. Each Participant in a TEP Activity will make available to the other Participants in that TEP Activity all Foreground Information generated by that Participant and its Contractors prior to withdrawal.

17.7. The respective rights and responsibilities of the Participants regarding Section VIII (Equipment and Material Transfer), Section IX (Disclosure and Use of Information), Section X (Controlled Unclassified Information), Section XII (Security), Section XIII (Third Party Sales and Transfers), Section XIV (Liability and Claims), Section XVI (Settlement of Disputes), and this Section XVII (Amendment, Termination, Withdrawal, Entry into Effect, and Duration) will continue to apply notwithstanding withdrawal from this MTEP MOU or any of its PAs or E&MTAs, or termination or expiration of this MTEP MOU or any of its PAs or E&MTAs.

17.7.1. Notwithstanding withdrawal from, expiration of, or termination of this MTEP MOU or any relevant PA, or E&M TA, the Participants will remain responsible for any expense incurred, or entitled to any payments outstanding, up to the point of withdrawal from, expiration of, or termination of this MTEP MOU or any relevant PA, or E&M TA, until such time as the payments are settled.

17.8. This MTEP MOU, which consists of an Introduction, seventeen (17) Sections, and five (5) Annexes, will enter into effect on the date of the first two signatures, and will remain in effect for twenty-five (25) years unless terminated by the Participants. For each subsequent Participant, this MTEP MOU will enter into effect upon signature.

ANNEX C

COOPERATIVE PROJECT PERSONNEL (CPP)

1. Purpose and Scope

1.1. This Annex to the Memorandum of Understanding (MOU) among the Department of Defence of Australia, the Department of National Defence of Canada, the New Zealand Defence Force, the Secretary of State for Defence of the United Kingdom of Great Britain and Northern Ireland, and the Department of Defense of the United States of America, Concerning Multinational Test and Evaluation Program (MTEP) Cooperation (the MTEP MOU), the provisions of which are hereby incorporated by reference, establishes the provisions that will govern the conduct of Cooperative Project Personnel (CPP). The Parent Participant will assign military members or civilian employees to a Project at a facility of the Host Participant in accordance with Section IV (Management (Organization and Responsibility)) of the MTEP MOU and this Annex. CPP must be able to perform all the responsibilities assigned to them under the MTEP MOU and the relevant PA. Commencement of assignments will be subject to any requirements that may be imposed by the Host Participant or its Government regarding acceptance of CPP, such as, but not limited to, visas and visit request documentation. The Steering Committee (SC) or Project Officers (POs) will determine the length of assignment for the positions at the time of initial assignment.

1.2. CPP will be assigned to the Project establishment of the Host Participant for PA work and will report to their designated supervisor regarding that work. The POs will be responsible for the creation of a document describing the duties of each CPP position in accordance with Appendix 1 (Cooperative Project Personnel Position Description) to this Annex, which will be subject to approval by the SC, or the MAs if no SC is established. CPP will not act as liaison officers on behalf of the Parent Participant. CPP may act from time to time on behalf of their respective PO or SC member if the latter so authorizes, in writing.

1.3. CPP will not be assigned to command or other positions that would require them to exercise responsibilities that are reserved by law or regulation to an officer or employee of the Host Participant's Government.

2. Security

2.1. The POs, or SC if one is established, will establish the maximum level of security clearance required, if any, to permit CPP to have access to Classified Information and facilities in which Classified Information is used in accordance with the Project Security Instruction (PSI) and Classification Guide (CG). Access to Classified Information and facilities in which Classified Information is used will be consistent with, and limited by, Section II (Objectives) and Section III (Scope...
of Work) of the MTEP MOU and will be kept to the minimum required to accomplish the work assignments.

2.2. The Parent Participant will file visit requests for the CPP through prescribed channels in compliance with the Host Participant's procedures. As part of the visit request procedures, the Parent Participant will cause security assurances to be filed, through the Parent Participant's Government embassy or High Commission located in the Host Participant's country, specifying the security clearances for the CPP being assigned.

2.3. The Host Participant and Parent Participant will use their best efforts to ensure that CPP assigned to a Project at a facility of the Host Participant are aware of, and comply with, applicable laws and regulations, as well as the requirements of Section IX (Disclosure and Use of Information), Section X (Controlled Unclassified Information), Section XI (Visits to Establishments), Section XII (Security), and Section XVII (Amendment, Termination, Withdrawal, Entry into Effect, and Duration) of the MTEP MOU and the provisions of the applicable PSI and CG. Prior to commencing assigned duties, CPP will sign a certification concerning the conditions and responsibilities of CPP, in accordance with Appendix 2 (Certification of Cooperative Project Personnel (CPP) Conditions and Responsibilities) to this Annex.

2.4. CPP will at all times be required to comply with the security and export control laws, regulations, and policies of the Host Participant's Government. Any violation of security procedures by CPP during their assignment will be reported to the Parent Participant for appropriate action. CPP committing violations of security and export control laws, regulations, and policies during their assignments may be withdrawn from the CPP assignment with a view toward appropriate administrative or disciplinary action by the Parent Participant.

2.5. All Classified Information made available to CPP will be considered as Classified Information furnished to the Parent Participant, and will be subject to all provisions and safeguards provided for in Section XII (Security) of the MTEP MOU, the PSI, and the CG.

2.6. CPP will not have personal custody of Classified Information or Controlled Unclassified Information unless approved by the Host Participant and as authorized by the Parent Participant. CPP will be granted access to such Information in accordance with Section X (Controlled Unclassified Information), and Section XII (Security) of the MTEP MOU, and with the PSI, during normal duty hours at the facility of the Host Participant and when access is necessary to perform PA work.

2.7. CPP assigned to a Project at a facility of the Host Participant will not serve as a conduit between the Host Participant and Parent Participant for requests and/or
transmission of Classified Information or Controlled Unclassified Information unless specifically authorized by the PSI.

3. Technical and Administrative Matters

3.1. Consistent with the Host Participant’s Government laws, regulations, and policies, and subject to applicable multilateral or bilateral agreements or arrangements, the following will apply:

3.1.1. CPP will be subject to the procedures and regulations of the Host Participant for personnel administration.

3.1.2. CPP will be subject to the same restrictions, conditions, and privileges as Host Participant personnel of comparable rank and in comparable assignments. When applicable under Host Participant laws, CPP and their dependents will be accorded:

3.1.2.1. exemption from any Host Participant’s Government tax on income received from the Parent Participant; and

3.1.2.2. exemption from any Host Participant’s customs and import duties or similar charges levied on items entering the country for their official or personal use, including their baggage, household effects, and private motor vehicles.

3.2. On arrival, CPP and their dependents will be provided briefings arranged by the establishment of the Host Participant about applicable laws, orders, regulations, and customs and the need to comply with them. CPP and their dependents will also be provided briefings arranged by the facility of the Host Participant regarding entitlements, privileges, and obligations such as:

3.2.1. Any medical and dental care that may be provided to CPP and their dependents at Host Participant medical facilities, subject to the requirements of applicable laws, regulations, and policies, and any applicable multilateral or bilateral agreements or arrangements;

3.2.2. Purchasing and patronage privileges at military commissaries, exchanges, theaters, and clubs for CPP and their dependents, subject to the requirements of applicable laws, regulations, and any applicable multilateral or bilateral agreements or arrangements;

3.2.3. The Host Participant will provide, if available, housing and messing facilities for CPP and their dependents on the same basis and priority as for its own personnel. CPP, or their Parent Participant, will pay messing and housing charges to the same extent as Host Participant personnel. At locations where facilities are not provided by the Host Participant for its own personnel or
facilities are not available, the Parent Participant will make suitable arrangements for its CPP in accordance with its national laws, regulations and policies; and

3.2.4. The Host Participant will provide office space and administrative support to CPP in accordance with the Host Participant’s normal practice; and

3.2.5. CPP and their dependents will have the responsibility of obtaining motor vehicle liability insurance coverage in accordance with the laws and regulations applicable in the area where they are residing. In case of claims involving the use of private motor vehicles by CPP, the recourse will be against such insurance.

3.3. The establishment of the Host Participant or other facility to which CPP are assigned will, in consultation with the CPP, establish standard operating procedures for CPP in the following areas:

3.3.1. Working hours, including holiday schedules;

3.3.2. Leave authorization, consistent to the extent possible with the military and civilian personnel regulations and practices of the Host Participant and Parent Participant;

3.3.3. Dress regulations, consistent to the extent possible with the military and civilian personnel regulations and practices of the Host Participant and Parent Participant; and

3.3.4. Performance evaluations, recognizing that such evaluations will be rendered in accordance with the Parent Participant’s military or civilian personnel regulations and practices.

3.4. CPP will conform to Host Participant laws in accordance with applicable international agreements or arrangements. CPP committing an offense under the laws of the Government of the Host Participant or Parent Participant may be withdrawn from the CPP assignment with a view toward further administrative or disciplinary action by the Parent Participant. Disciplinary action, however, will not be taken by the Host Participant against CPP, nor will the CPP exercise disciplinary powers over the Host Participant’s personnel. In accordance with Host Participant’s Government laws and regulations, the Host Participant will assist the Parent Participant in carrying out investigations of offenses involving CPP.

3.5. During their assignment, CPP will not be placed in the following duty status or environments unless it is consented to in writing by the Parent Participant:

3.5.1. Areas of political sensitivity where their presence may jeopardize the interests of either the Host Participant or Parent Participant, or where, in the
normal course of their duty, CPP may become involved in activities that may embarrass either Participant; or

3.5.2. Deployments in non-direct hostility situations, such as UN peacekeeping or multinational operations, or in third countries;

3.5.3. Duty assignments in which direct hostilities are likely. Should the office or facility to which CPP are assigned become involved in hostilities unexpectedly, assigned CPP will not be involved in the hostilities. Any such CPP approved by the Parent Participant for involvement in hostilities will be given specific guidance as to the conditions under which the assignment will be carried out by the appropriate authorities of the Host Participant and Parent Participant; or

3.5.4. Other duty assignments as set out in applicable multilateral or bilateral agreements or arrangements.

3.6. The Participants recognize that military personnel and civilian employees of a Participant, assigned to duty by its Defence Department or Ministry for the purpose of working on this Project, while present in the territory of the other Participant, will, to the extent that they are so qualified, be members of a “Force” and “civilian component,” respectively, within the meaning of the applicable multilateral or bilateral agreements with that Participant or applicable national legislation. Employees and agents of Contractors do not constitute a civilian component for the purposes of this paragraph.

3.7. The Participants whose countries are NATO member countries recognize the following:

3.7.1. The military and civilian employees of a Participant whose country is a NATO member country, assigned to duty with its Defense Department or Ministry for the purpose of working under this MTEP MOU, while present in the territory of another Participant whose country is a NATO member country, will, to the extent that they are so qualified, be members of a “Force” and “civilian component” respectively within the meaning of Article I of the NATO Status of Forces Agreement (NATO SOFA), signed on 19 June 1951.
