PLAN TODAY. PROTECT TOMORROW.
Since before World War I, the Department of Veterans Affairs (VA) has been working to keep the promise made by Abraham Lincoln to our nation’s servicemembers and veterans – “to care for him who shall have borne the battle and for his widow, and his orphan.” We believe that life insurance speaks directly to President Lincoln’s promise by providing financial assistance to families in the event of a servicemember’s or veteran’s death. We want to ensure that you and your family receive the support you deserve for faithful service to our country.

In order to keep this promise, VA needs your help. We need you to plan today for your life insurance needs and let us help you protect your loved ones tomorrow. You can take the first step toward protecting your family by reading the information in this brochure and learning about how you can obtain VA life insurance coverage.
Life insurance is not something you think about every day. You may even put off obtaining life insurance because the possibility of something happening to you seems remote. But consider this—if tragedy hit tomorrow, would your family be protected?

★ Would they be able to pay the bills?
★ Could they save for your children’s education?
★ Could they remain in your family home?
★ Could they maintain their current standard of living?

As a separating servicemember, you can provide your family with financial security in the event of your death with life insurance coverage form VA. Whether you are healthy or disabled, you are eligible for coverage as part of your VA benefits. However, you must apply for these benefits within the program’s eligibility period.

The information in this package will provide you with detailed information on the Department of Veterans Affairs life insurance programs. It explains eligibility, coverage, and how you can get more information on each of our programs. Look inside for information on:
