915 Brand Avenue
Kansas City, Missouri 64106

Dear Dave:

Re: Massachusetts Institute of Technology Fellowships

Mr. Haas has referred your letter to him of August 15, 1973 to me for reply (copy attached).

In the last sentence of your letter you stated, "Since everyone indicated approval of the idea and since I was to get a write-up on the project, I wanted you to know the reason for the delay." Fred and I have talked about this and his recollection, as well as mine, is that there was no understanding that we would go forward with this this fellowship program; that perhaps it was too tangential. Our recollection may be incorrect, but we do not wish you to proceed further on the assumption that Liggett & Myers will support the program.

Sincerely,

Joseph H. Greer
