This will advise you that the initial \$11,000 which was to be paid to Dr. Solooff in connection with the special project about which we wrote you on August 20 has been handled through the SAB. The special project commitment, therefore, can be reduced by that amount.

We have also made arrangements for direct handling by the Council for Tobacco Research of the Eleanor Macdonald special project about which we wrote you on October 12. We will not, therefore, need that commitment.

We do, however, very much need to hear from you with respect to the reallocation of funds for Ted Sterling as requested in our letter of October 20.

*Bill Shinn*  
WILLIAM W. SHINN
