

Special Projects
Dr. Seltzer

February 15, 1974

Mr. Sloat:

Re: Dr. Seltzer

I am afraid there was a misunderstanding in our brief discussion yesterday of the above matter. Dr. Seltzer has been a subject of a special project for a number of years and this is financed with company contributions made to CTR for such special projects. We have contributed regularly to this fund for various special projects, among them Dr. Seltzer.

I feel strongly that Dr. Seltzer should be funded for the next year and I am sure that there is money in the budget to cover this under special projects generally. I had the impression yesterday that you felt that this was handled by CTR under its budget and this is not a fact. CTR makes the payments from a Special Projects fund contributed separately from its budget. I would like to give Dave Hardy authority to proceed.
