Memorandum

To: A. E. Sloat

Date: 1/14/75

From: F. P. Haas

Subject: Dr. Herbert L. Ratcliffe

I enclose a copy of a letter from Dave Hardy and attachment concerning Dr. Ratcliffe, who, as you will note, has been helpful to the industry, particularly in countering the dog inhalation tests by Dr. Auerbach.

Dave Hardy's letter is self-explanatory, and it would appear that our share of the work contemplated by Dr. Ratcliffe should not exceed \$750.00.

In my opinion, this study could prove helpful in litigation, and I would appreciate your favorable consideration so that I may inform Dave Hardy.
