

November 30, 1954

TO: LEGAL COUNSEL

Attached hereto is a report on a recent meeting at which Drs. Hammond and Wynder spoke at Memorial Hospital in New York City.

There is some question as to whether or not this belongs in any particular volume of material we are sending out routinely. We would suggest that it be placed in a separate file and not added to this material, but if you choose to add it to one of the volumes, place it with the Hammond article in Volume 1, Complete Articles by Key Authorities.
