TO: LEGAL COUNSEL

After sending you the following listed pages, we learned that the photostats from which our abstracts had been made were taken from a specially printed report of the Proceedings of the Cancer Prevention Committee, and had not, as we reported, been made from the A. M. A. Archives of Industrial Hygiene and Occupational Medicine, March 1952.

Would you please remove the similar pages, differently referenced, from the volumes you now have, and replace them with the attached pages which carry the correctly paged reference that corresponds with the original photostats in our file.

While each reference is correct, it was our opinion that the reference contained in the material we send you should specifically correspond with the pages shown on the photostats in our master file.
