

October 28, 1955

TO: LEGAL COUNSEL

We are enclosing herewith an item from SCIENCE NEWS LETTER, entitled, "Release Smoking Statistics", which appeared in the July 2, 1955, issue. This article reported the findings of a survey made under the supervision of Mr. William Haensel and Dr. Harold F. Dorn. We had been expecting for some time to see this survey published in minute detail, but it now appears that it will be sometime after the first of the year before publication. This item is to be included in Volume V, under the section headed "Statistical Analysis", page 161. ✓

Also enclosed is a reprint of a speech made by Dr. Robert C. Hockett of the Tobacco Industry Research Committee, published in the JOURNAL OF THE KENTUCKY STATE MEDICAL ASSOCIATION, September, 1955. This is to be included in Volume I, as Article 37. ✓

We would suggest that you read an article in the October 31st issue of LIFE Magazine, written by Dr. George Crile, Jr., of the Cleveland Clinic. He is one of the world's most famous surgeons. The title of this article is "A Plea Against Blind Fear of Cancer".

A. Grant Clarke
