Dear Mr. Jacob,

I have looked over the transcripts of the various participants in the hearings on cigarettes and smoking products.

Actually, I should have told you when you were here that I am really swamped in the next eight months by virtue of the fact that I am working on a presidential address, have to attend several meetings in the next six months, including Puerto Rico and Jamaica, and have a speech for Cleveland to prepare for May, and several other little talks, more or less locally. I will be glad to help out after July 1, 1965.

My best regards.

Very cordially,

J. Jones
