Re: Dr. Domingo Aviado

Gentlemen:

For many years, Dr. Domingo Aviado has received a Special Account grant in support of his activities in the smoking and health area. Dr. Aviado has asked that his current grant be renewed and we recommend that he again be funded through Shook, Hardy & Bacon -- Special Account for 1989, in the amount of \$75,000 (the same amount as last year).

During 1988, Dr. Aviado continued his review of issues relating to the environmental tobacco smoke issue. He presented a paper on ETS at the Indoor and Ambient Air Quality Conference held in London and published an article in the Journal of Applied Toxicology, on indoor air quality (attached). Dr. Aviado has also consulted on research efforts in the ETS area.

On general issues of smoking and health, Dr. Aviado testified at legislative hearings in the Philippines. He also continued his informal association with various regulatory and scientific bodies in the environmental health area.

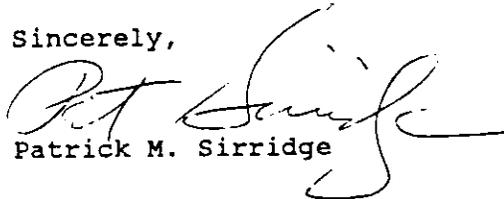

Finally, Dr. Aviado has been helpful in identifying possible medical and scientific witnesses for the current litigation and analyzing expert testimony on the state-of-the-art issue.

We have reviewed Dr. Aviado's activities for the past year, and feel that renewed support is warranted. If you have any questions concerning this funding request, please call me.

Sincerely,

Patrick M. Sirridge
