Re: A. D. Little Study Entitled,  
"Current Status Of Epidemiological  
Studies On Smoking And Health"

Some weeks ago, Dr. Kensler sent you a copy of the above document, as well as to Dave Hardy and several other members of the Ad Hoc Committee.

The question arises, what, if anything further, we wish to do with it.

I now attach a letter I received from Dr. Irwin Miller, dated April 5, which sets forth certain alternatives.

We might discuss this at our next meeting. In any event, Dave Hardy may make an arrangement to discuss the situation with Dr. Kensler and members of the Ad Hoc Committee in the interim.

*F. P. H.*
