Dear Mr. Horan:

We are attaching hereto a photocopy of the information contained in Dice's "Practice of Medicine". This was sent to me by Mr. Ramm and appears to be one of the best summaries of the basic information on lung cancer that you might find of value.

We have punched these pages so that if you choose they may be inserted in Volume 1.

Very truly yours,

Frank Clarke

We are attaching hereto the significant figures on lung cancer for Finland to be included in Volume I. These were presented at the Clinical Pathological Congress in Washington, D. C. on September 6-8, 1954.

As you can see these statistics on lung cancer in Finland are far different than they are in the United States particularly in the male vs. female ratio of incidence.
