

HEW - 1969  
Rpt to Cong

MEMORANDUM

August 4, 1969

TO: IS & R System Users  
FROM: H. Cohen  
SUBJECT: The Health Consequences of Smoking 1969 Supplement (HCS 69)

A preliminary review of the HCS 69 cited references has been made to determine which articles are already in the IS & R System. Although this project is not complete, the Project Officer suggested that the results might be of interest to you. Thus, you will find attached the cited references with the permanent accession number placed to the left of the reference. A complete HCS bibliography with all of the accession numbers will be distributed at a later date.
