

2003 Source Water Protection National Conference

June 2-4, 2003
Hotel Washington
Washington, DC

**Promoting Public Health
Through Protection of Drinking Water Sources**

Conference Goals

- Leverage momentum from completion of 150,000 source water assessments.
- Promote coordination between programs (e.g., CWA/SDWA).
- Foster partnerships at all levels.
- Identify opportunities to overcome barriers to implementation.
- Share ideas and information on national source water protection issues.
- Learn about → Tools and Techniques, Funding Opportunities, Ground Water and Surface Water Case Studies

Who Should Attend?

- **Federal, Tribal, and State Officials**
- **Local and Environmental Organizations**
- **Resource Use Planners**
- **Business and Community Leaders**
- **Drinking Water Purveyors**
- **Managers of potential sources of drinking water supply contamination**
