FISCAL YEARS 2001 AND 2002

UPDATED JUNE - 2001

(Major Changes Shown in Bold Print)

FOREWORD

This is an update to the Forecast.

The information in this Forecast represents EPA's best assessment of its Fiscal Year 2001 and Fiscal Year 2002 contract requirements. This Forecast is based on the best information available at the time of publication and is intended for PLANNING PURPOSES ONLY. Procurement methods, dollar ranges, etc., may change as a result of budget constraints and other considerations. This Forecast does not constitute a commitment by EPA to procure the described supplies and services.

The North American Industry Classification System (NAICS) codes replaced the Standard Industrial Classification (SIC) codes on October 1, 2000. We included both SIC codes and the NAICS codes in this Forecast.

Questions regarding any of the listed requirements may be addressed to the EPA official specified in this Forecast or to the Agency Competition Advocate, Corinne M. Sisneros via e-mail at: sisneros.corinne@epa.gov
