VA CAREER OPPORTUNITIES

VA – The career you want, the future you deserve
THE BEST CARE

VA – Keeping the Promise to Those Who Served

The Department of Veterans Affairs (VA) is one of the largest, most technologically advanced health care systems in the United States. Our employees work at 154 medical centers, 875 ambulatory and community-based outpatient clinics, 136 nursing homes, and many other facilities, such as domiciliaries and deployment counseling centers. More than a century ago, President Lincoln made a promise to America’s servicemen and women, pledging the care and concern of a grateful Nation for the sacrifices they made to preserve freedom. Since 1930, VA’s mission has had to keep that promise.

THE BEST CAREERS

VA and Advanced Practice Nursing

The nationwide service and health care complexity of the VA system provides our Advanced Practice Nurses (APNs) with an unparalleled range of practice settings and practice areas. No matter where they work in the VA system, our APNs – both nurse practitioners and clinical nurse specialists – deliver patient-centered care through their dedication to direct care, research, education, and leadership.

As direct care providers, VA APNs enjoy autonomy within their defined scope of practice. They also have unparalleled support from strategy peers, a wealth of professional resources, a computerized patient record system that is unsurpassed, and exceptional collaboration within the framework of interdisciplinary care teams.

As health care researchers, VA APNs conduct research impacting nursing issues and outcomes of care. Master’s and doctorally prepared nurses have the opportunity to be the principal investigators of research projects, as well as to translate their findings into practice. As one of the largest research organizations in the U.S., VA offers funded research opportunities and encourages nurse researchers to disseminate their findings in scientific and professional journals.

As educators, VA APNs have the opportunity to guide the future generation of nurse practitioners and clinical nurse specialists. VA provides clinical experiences to one out of every four professional nurses in the U.S. through affiliations with educational schools. As a result, VA APNs play an important role in nursing students’ development.

As health-care leaders, VA APNs shape policy, facilitate access to VA health care, and impact resource management. They have a strong voice in their own, both locally and nationally. Many directs VA conferences and may be leaders of the APN Advisory Group, the Nursing Research Advisory Group, and other local, regional, and national committees and task forces. Additionally, all APNs are encouraged to be active in professional nursing organizations.

As health-care providers, VA APNs enjoy a salary and benefit package that is unrivaled. As a member of the VA family, APNs enjoy competitive salaries, first-rate employment benefits, extensive tuition reimbursement programs, national job locum opportunities, a wide range of practice settings, and ample paid leave.

WHY VA?

### THE BEST SYSTEM

VA fosters a culture of excellence for both veterans and its nursing staff. It does so through a range of initiatives, such as:

- VA nursing staff are key participants in system-wide advancements for the Institute for Healthcare Improvement (IHI) 5 Million Lives Campaign and the Transforming Care at the Bedside (TCAB) projects.
- APNs’ system-side influence is maximized by the implementation of the unit-based Clinical Nurse Leader (CNL) role.
- The VA Nursing Outcomes Database (VANOD) Program is building a national database of nursing-sensitive indicators to support strategic decision making through benchmarking for all care across the continuum.
- VA has embraced Magnet™ principles, which supports the achievement of Magnet designation at VA facilities.
- The Safe Patient Handling and Movement Program focuses on preventing musculoskeletal injuries to nursing staff.
- VA has invested in the cutting-edge technology needed to support its nurses and the entire patient care team, including a Bar Code Medication Administration system, a computerized patient record system, wireless handheld connectivity, telehealth, and more.
- Many VA facilities offer flexible work schedules.

### Did you know that VA:

- Is the largest employer of APNs in the Nation, with more than 3,700 nurse practitioners and clinical nurse specialists on staff
- Is the largest employer of nursing staff in the Nation, with more than 61,000 RNs, LPNs/LVN, and nursing assistants
- Offers many APNs the opportunity to serve as primary care providers in inpatient and nursing home units
- Has APN-run clinics dedicated to improving health care delivery in specialty areas, including pain management and geriatrics
- Requires one active, unrestricted state license to practice anywhere in the U.S. and Puerto Rico
- Serves a population of more than 7.8 million veterans, providing inpatient care to about 600,000 veterans and managing more than 57 million outpatient visits each year
- Has facilities in all 50 states, the District of Columbia, and U.S. Territories
- Provides medical care backup to military hospitals during national emergencies, and operates command centers to coordinate services through the National Disaster Medical Service during major disasters

“My nurse managers encouraged me to become a nurse practitioner. Now I have a passion for helping other nurses advance their careers within VA. As Lead NP at our facility, I serve as a preceptor and mentor to both undergraduate and graduate nurses. I also serve as adjunct faculty at local nursing schools. I feel greatly blessed that I am a part of this amazing VA culture.”

— Lakshi Aldredge, RN, MSN, ANP-C
Adult Nurse Practitioner
**B E N E F I T S**

VA’s mission is to provide the best possible care for America’s veterans. In return for helping VA achieve this goal, VA offers extensive employment benefits.

**LEAVE AND HOLIDAYS**

- VA APNs earn 26 days of paid annual (vacation/personal) leave and may accumulate up to 85 days. This leave begins to accrue immediately and can be used as it is earned, with supervisory approval.
- APNs earn 13 days of sick leave each year with no limit on accumulation.
- There are 10 paid Federal holidays.
- The Family and Medical Leave Act and the Family Friendly Leave Act allow employees to balance their work and family lives by taking reasonable amounts of leave for medical reasons, for the birth or adoption/foster care of a child, and for the care of a child, spouse, or parent who has a serious health problem.
- The Voluntary Leave Transfer Program allows Federal employees to donate annual leave for specific medical circumstances involving fellow employees or their family.
- Military leave is authorized up to 15 days a year for active reservists and National Guard members.

**HEALTH AND LIFE INSURANCE**

- VA offers a wide variety of health insurance plans with premiums partially paid by the Federal Government. You may change plans yearly to fit your situation and need.
- VA employees have the option to use Flexible Spending Accounts, which allow you to set aside tax-free dollars to pay for medical, dental, and vision care expenses that are not reimbursed by your health insurance plan.
- Term life insurance, family, and additional coverage options are available with the cost shared by the Federal Government.
- Long-term care insurance is available as an option.

**RETIREMENT**

VA APNs are covered by the Federal Employees Retirement System (FERS). FERS is a three-tier retirement plan composed of Social Security benefits, FERS basic benefits, and the Thrift Savings Plan (TSP). Similar to the 401(k) savings plans widely available in the private sector, the TSP allows employees to tax defer up to a fixed dollar amount each year, subject to the requirements of the Internal Revenue Service. The Federal Government also provides a basic contribution and matching, depending on the amount of the employee contribution. For retired military personnel, these benefits are in addition to full monthly retirement pay or pension. Retirement health care insurance is also available.

**MOBILITY AND LICENSOR**

Where can a nursing career at VA take you? How about anywhere you’d like to live in all 50 states, the District of Columbia, and Puerto Rico. An employee may seek employment at any VA location where there is a vacancy and, if hired, transfer without loss of benefits. Only one active, unrestricted state license is required to practice in a VA facility in the above locations.

**LIABILITY PROTECTION**

As Federal employees, VA nurses are protected by the Federal Government in instances of alleged malpractice or negligence resulting from the performance of their duties in or for the Veterans Health Administration of the Department of Veterans Affairs. The United States Government accepts responsibility and liability for its employees’ negligent or wrongful acts or omissions during the exercise of their official duties. This applies when employees’ actions are in accord with the policies of the institution in which they are practicing.

**AWARDS AND HONORS**

VA bestows both monetary and honorary recognition for overall superior performance and special or unique achievements. Annual VA nursing award programs include the Secretary’s Award for Excellence in Nursing, the Secretary’s Award for Advancement of Nursing Programs, the Office of Nursing Services Innovation Awards, and National Nursing Awards. In addition, monetary awards can be earned through participation in VA’s Employee Suggestion Program.

**ADDITIONAL BENEFITS**

- Free parking at most facilities
- Smoke-free and drug-free workplace
- Child care at some facilities
- Uniform allowance
- Employee associations
- Annual physical examination
- Employee wellness programs
- Fitness centers at some facilities
- Compensation for job-related illness and injury
- Credit unions
- Dining facilities and retail stores
- Public transit subsidies at some facilities
EDUCATIONAL OPPORTUNITIES

VA is committed to extending educational opportunities that enhance APNs’ knowledge and, in turn, improve care. In addition to extensive orientation programs for all newly hired APNs, VA offers APN in-service education courses, leadership courses, and National Employee Education Services courses. VA also leads the industry in providing educational assistance and incentive programs that help nurses repay their loans and obtain advanced degrees.

Education Debt Reduction Program (EDRP) – The EDRP allows VA to provide education loan repayments for recently appointed health care professionals. The education loan(s) must be for courses that led directly to qualifying for the appointed position. This program covers principal and interest on debts, up to $49,585 over five years.

National Nursing Education Initiative (NNEI) – The NNEI scholarship is awarded to permanent full- and part-time registered nurses who have worked for VA for at least one year to cover tuition costs and related educational expenses for courses in which they are currently enrolled.

Employee Incentive Scholarship Program (EISP) – This program provides VA employees with scholarships to further their education and obtain degrees qualifying them for health care positions for which recruitment and retention is difficult.

Tuition Support Program – Employees in health care disciplines that have been identified as VA shortage categories may be eligible for funding to enroll in job-related courses, continuing education courses, and conferences.

Upward Mobility Training Programs – These programs offer, on a competitive basis, opportunities to advance to higher-level positions.

“Since starting my career at VA 25 years ago, my clinical practice has evolved much the same as the role of nurse practitioner: increased independence and autonomy. VA has been supportive over the years in providing me with the time, clinical training and other educational opportunities to enhance my skills and specialty knowledge. As a veteran myself, it is both an honor and a privilege to care for this patient population.”

— Charles Tevebaugh, APN
Gerontological Nurse Practitioner
HIRING POLICIES

EDUCATIONAL OPPORTUNITIES
Minimum qualifications for appointment as a VA APN are:

• U.S. Citizenship (non-citizens may be hired on a temporary basis when qualified citizens are not available)

• Clinical nurse specialists (CNS) and nurse practitioners (NP) must possess a master’s degree from an academic program accredited by the NLNAC or CCNE, and must maintain full and current certification as either a CNS or NP from the American Nurses Association or another nationally recognized certifying body.

• Certification must be in the specialty for which the individual is being appointed or selected.

• Current licensure from any U.S. State, Commonwealth, the District of Columbia, or Territory (e.g., Puerto Rico)

• Evidence of successful performance

• Personal interview

• Satisfactory physical examination (may include drug screening)

• English language proficiency

SALARY INFORMATION

• VA APNs are compensated according to a Locality Pay System (LPS) that ensures they are paid competitive rates within each local labor market. With this system, salary ranges vary according to facility location. Pay is reviewed periodically to ensure competitiveness with salary rates in effect in the local community.

• Starting salaries and pay grades are recommended by peer review, accomplished though the Nurse Professional Standards Board, based on the nature and extent of professional education and experience.

• VA offers premium pay to nurses for on-call, weekend, overtime, and holiday duty. Nurses receive 10 percent of their base hourly pay rate for night shifts, 25 percent for weekends, 50 percent for overtime, and double pay for holidays.

• Accelerated increases within each grade may be awarded for length of service, enhanced qualifications or assignment, specialized skills, professional achievements, or high levels of performance.

• APNs also receive consideration for promotion to higher grades with correspondingly higher salaries as administrative and professional performance qualifications are met.

• Cash bonuses may be authorized for certification, exemplary job performance, or exemplary job achievement.

“When we separated from active duty service as Captains in the USAF Nurse Corps, we both really wanted to pursue nursing careers dedicated to serving fellow veterans. Although we both became certified nurse practitioners while at VA, one of us opted to remain clinically focused, while the other switched to an administrative career path. VA has provided both of us with unparalleled advancement opportunity, career flexibility, and the education necessary to fulfill our career dreams.”

—Terry Terpstra, APRN BC
Advanced Practice Nurse for Extended Care

—Tammy Terpstra, APRN BC
Chief of Extended Care Service
To gain a first-hand view of VA health care, you are invited and encouraged to visit any of our medical centers, community-based outpatient clinics, and community-based non-VA hospitals. Visit the career opportunities section of the VA website to apply online.

To apply, please visit the VA Health Care Careers website at www.vacareers.va.gov. Application information is available on the website.

The VA Health Care System is an Equal Opportunity Employer and does not discriminate on the basis of race, color, national origin, sex, sexual orientation, age, marital status, or disability.
