VIETNAM, 1964-1973:
AN AMERICAN DILEMMA
This bibliography was requested by the Department of History for the 14th Military History Symposium, which will be held at the United States Air Force Academy from 17 to 19 October 1990. It consists of a highly selected portion of the U. S. Air Force Academy Library's holdings on the indicated topic. Included are books, journal articles, government publications, and technical reports; newspaper articles are not included.

To achieve a manageable length for the finished bibliography, it was necessary to exclude works on the following aspects of the Vietnam War: refugees, veterans' adjustment problems, uniforms and insignia, weapons and equipment, medical affairs, statistics and casualty lists, and war memorials. Also excluded were works of fiction, collections of poetry, and, with some exceptions, personal narratives.

This bibliography was compiled by Mr. Elwood L. White of the Reference Branch of the Academy Library. The manuscript was prepared for the printer using Pro-cite bibliographic software.
